

## **Trustees' Annual Report and Financial Statements for the period**

**From** 06 April 2020 **Period start date To** 05 April 2021 **Period end date**

**Charity name:** Tigers4Ever

**Charity registration number:** 1160528

### **Objectives and Activities**

Summary of the purposes of the charity as set out in its governing document	<ol style="list-style-type: none"><li>1. To promote the preservation of the tiger species in its natural habitat, its value to the forest and eco-systems, and its protection from extinction for the benefit of the environment and public;</li><li>2. To assist in the relief of poverty, sickness and in the advancement of education in the Bandhavgarh district of Madhya Pradesh, and in other rural and forest communities in India.</li></ol>
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	<p>To Give Wild Tigers A Wild Future: our ultimate goal is to prevent the extinction of wild tigers. With India home to more than two thirds of the global wild tiger population it is vital that we eliminate wild tiger deaths due to poaching and retaliatory poisonings to ensure that wild tigers will be around for future generations.</p> <p>We achieve this by:</p> <ul style="list-style-type: none"><li>• Providing Anti-Poaching Patrols to keep wild tigers safe from poachers' snares and traps.</li><li>• Working with the communities who live with wild tigers to ensure they have a vested interest in wild tiger survival.</li><li>• Educating future generations so they know the value of an apex predator and its habitat to the ecology and sustainability of the landscape.</li><li>• Providing safety advice to ensure that people living with wild tigers keep themselves, their families and livestock safe.</li><li>• Reducing human-animal conflict to help stabilise both prey and predator numbers through the provision of sustainable environmentally focused permanent wildlife waterhole solutions and schemes to reverse habitat destruction.</li></ul>
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	In setting objectives and planning for activities, the Trustees have given due consideration to general guidance published by the Charity Commission relating to public benefit, including the guidance 'Public benefit: running a charity (PB2)'.

### **Additional information**

Policy on grant making	Tigers4Ever Trustees consider how to use donations to further the charity's objectives on a project-by-project basis, in line with individual project objectives. This could include making grants, for example to other charities with similar objectives to meet our aims. No grants to other bodies were made in 2020/21.
Contribution made by volunteers	Tigers4Ever is entirely staffed by volunteers in the UK, who give their time and expertise freely. In addition, Tigers4Ever has two appointed volunteer full-time representatives in India who co-ordinate project activities at ground level in accordance with the instructions of the Board of Trustees. Tigers4Ever also has three appointed volunteer patrons and an ambassador who donate their time and expertise to assist our fundraising activities. Tigers4Ever has also relied on

	assistance from UK based volunteers for fundraising activities, social media input, website maintenance/development and copyrighting skills.
Brief statement of the charity's policy on reserves	Tigers4Ever holds reserves to ensure that it can meet its future financial obligations.
Other	<p>The COVID19 pandemic had an impact on the activities of Tigers4Ever throughout the whole of the financial year, both from a fundraising and project delivery perspective. We identified at the first Board of Trustees meeting in April 2020 that the economic impact of the pandemic in India was likely to result in increased risk of human-wildlife conflict and poaching activities. Furthermore, we realised that it would be unlikely that face to face fundraising would be possible throughout the year so we decided to focus our digital fundraising efforts on our anti-poaching patrols project.</p> <p>After discussing how we would need to change our activities to focus on what we can deliver throughout the pandemic caused by COVID19, making appropriate enquiries and considering the possible effects on the charity, the Trustees are confident that the Charity has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements.</p>

## Achievements and Performance

Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	<p>We planned to increase our anti-poaching patrols by 10% compared with our 2019-20 levels as part of our 5 year strategy to increase at 10% per annum. The onset of the COVID19 pandemic in March 2020 significantly increased the risk of tiger poaching and human-wildlife conflict as many daily wagers in India were suddenly without employment and turned to plundering scarce forest resources for food and something to sell for income. This elevated the risk of wild tiger deaths so we monitored this risk alongside our fundraising and consequentially increased our 2020-21 patrolling by 38% above the planned target. In October 2020, when we scaled back the post monsoon patrolling so that we could sustain increased patrolling until the calendar year end, 3 wild tigers died as a result of a retaliatory poisoning (these were the first tigers lost to poisoning in over five years). We had a fundraising drive to resume monsoon level doubled patrolling and sustained this until the financial year end. This meant that we actually conducted our anti-poaching patrolling at 154% of 2019-20 levels.</p> <p>In response to the immediate hardship caused by COVID19 in Bandhavgarh we collaborated with local NGOs to provide emergency food parcels to 250 of the most vulnerable impoverished families.</p> <p>In May 2020, we provided four safe drinking water tanks for remote patrolling camps to avoid patrollers filling their water flasks and bottles from the same waterholes frequented by wild animals.</p> <p>In May 2020, we also provided an emergency food package for the widow and children of an anti-poaching patroller who was killed by a wild tiger. We also provided a sewing machine and rolls of cloth so that the family could make clothing to sell as part of a new business start-up to rebuild their lives, as the deceased patroller had been the only income earner in the family.</p> <p>We also worked with the wider tiger community throughout the year, in Bandhavgarh, to devise practical and workable solutions to help alleviate the impact of human-wildlife conflict including advice on the construction of elephant-proof fencing (chilli pepper fencing and beehive fencing) which can also provide much needed income and foodstuffs for the villagers, and the use of lemon grass as an elephant deterrent where the fencing options are unsuitable. We also conducted repairs to elephant damage to our solar-pump systems at three locations to ensure that permanent wildlife water sources were available at eight locations to reduce human-wildlife conflict in the surrounding areas.</p>
---	---

	<p>Local suppliers were used for the supply of drinking water tanks, new uniforms and sturdy boots for the anti-poaching patrols, emergency food parcels, sewing machine and cloths for clothing manufacture, ensuring work and support for a community decimated by the economic and health impacts of the pandemic.</p> <p>The examples above show how we have continued to protect the wild tiger in its natural habitat, whilst working with the wider tiger community in times of extreme hardship and disease. We assisted with the relief of extreme poverty with the provision of hardship assistance: food parcels and business start-up/life rebuilding support; and in the alleviation of sickness and injury by providing safe clean drinking water at remote patrolling camps to remove the need to drink water from the same waterholes used by wild animals for drinking and bathing.</p>
--	--

### Additional information

Achievements against objectives set	<ul style="list-style-type: none"> <li>• Our specific core project outcome objectives are reviewed annually for a three-year period within the Charity's Funding Strategy and 5 year strategic plan.</li> <li>• Trustees link fundraising targets required to meet the core objectives, project needs and also identify targets by source of funding. Targets are dynamic and are influenced by national and international economic conditions, trends in tiger poaching and trade, increased risks, and the environment on the ground in our operating area in India.</li> <li>• Projects are dependent on the necessary funding having been raised; the implication of this 'golden rule' means that we do not have known commitments which cannot be met from resources already raised. If necessary project start dates are delayed or modified to ensure adequate funding is in place to enable Tigers4Ever to meet its financial and project obligations.</li> <li>• Trustees regularly review project and financial performance against targets so that both fundraising and project impact is maximised.</li> </ul> <p>As shown above, we adapted our anti-poaching patrols delivery to meet the increased need due to an amplified risk of poaching and human encroachment into wild tiger territory so that we patrolled at 154% of our 2019-2020 levels and at 38% above our intended target. By doing this we were able to avoid wild tiger deaths due to poaching throughout the year and minimise retaliatory poisoning of wild tigers to a single incident which claimed the lives of a tigress and two cubs. In the same period 42 new tiger cubs were born.</p> <p>We intended to install at least one new permanent wildlife waterhole in 2020-21 to provide water for at least eight wild tigers and countless other wild animals but the COVID19 pandemic lockdown measures impacted the logistics of getting the equipment on site to commence the necessary work, as we had planned to collaborate with a corporate partner who would supply the solar pump system and we would provide local labour and installation expertise for construction. Wild elephants also caused significant damage to three of our existing solar pump systems disabling two of these, so we conducted emergency repairs and replaced solar panels at the existing waterhole sites to ensure that permanent water sources were available for 32 wild tigers and countless other wild animals throughout the drought period (which is getting longer each year): from the end of January – to the beginning of July. We were able to raise sufficient funds to address this need via a micro-project.</p> <p>We discovered that patrollers from remote patrolling camps were obtaining their drinking water from the same wildlife waterholes used by wild tigers, and thus raised funds for and provided clean water drinking tanks at four remote patrolling camps. This will reduce both the health risks for the patrollers and the risk of injury or death from wild animal attacks at the wildlife waterholes.</p> <p>For the first time in five years, our anti-poaching patrollers requested new uniforms and sturdy boots plus winter socks to replace those which were worn out. We raised sufficient funds to address this need via a micro-project and used local suppliers in Bandhavgarh to make the new uniforms as required.</p> <p>We had a target to provide at least 250 education packs to enable the poorest</p>
-------------------------------------	---

	<p>children in the villages most impacted by human-wildlife conflict to go to school. The COVID19 lockdown measures in India meant the state schools closed on 26 March 2020 and still remained closed at our financial year end. The pop-up nature schools which we have delivered in conjunction with GTCS (a local NGO in Bandhavgarh) were also suspended and unable to restart due to social distancing and other lockdown measures making delivery impossible. We have been looking at alternatives, to help in particular those children without access to remote learning, to get some form of learning, however, a workable solution was not in place by the financial year end so will be carried forward into 2021-22. Funds are in place to deliver educational resources should the state schools or nature schools resume in the interim.</p> <p>We have been in discussions with the Forest Department in Madhya Pradesh, including the Principal Chief Conservator of Forests in Bhopal, to deliver a forest rehabilitation project to plant trees and other vegetation to aid the recovery of the forest after several years' devastation due to forest fires and illegal logging. The objective of this exercise will be to reduce human-wildlife conflict, tiger-tiger conflict and to alleviate some of the impacts of climate change – in particular water evaporation due to lack of canopy and soil degradation. Discussions for this initiative were ongoing at the financial year end, we hope to progress this project further in 2021-22.</p>
Performance of fundraising activities against objectives set	<p>To fund our strategic objectives for 2020-21 we needed to raise at least £25000 to cover our project costs. We actually raised £28248 during the 2020-21 financial year, which was 113% of our annual target but enabled us to manage the additional costs associated with the increased anti-poaching patrols at 138% of target, which were critical to address the elevated risk of wild tiger deaths.</p> <p>Whilst our fundraising efforts for our anti-poaching patrols project exceeded our target income, we were unable to raise sufficient funds to complete our waterhole project (£4257 raised of a £12500 target) and education project (£77 raised against a £1250 target) during the 2020-21 financial year. Our waterhole and education projects were deferred due to the impact of the COVID19 lockdown measures highlighted above. It should be noted, however, that the trustees made a conscious decision to re-focus all our fundraising efforts on the anti-poaching patrols project at the April 2020 Board meeting (to address the increased risk of tiger poaching and retaliatory poisonings). This decision was extended for the primary fundraising focus for the remainder of the 2020-21 financial year, at the July Board meeting when it became clear that the economic impact of COVID19 was deep-seated and long lasting in Bandhavgarh.</p> <p>In addition, we raised funds for the water tanks, waterhole repairs, emergency food parcels, bereavement package, new uniforms and patrolling equipment above what we had targeted for the financial year.</p>
Investment performance against objectives	<p>Tigers4Ever does not hold investments. Our principle is to commit donations to approved projects as quickly and appropriately as possible.</p>

## Financial Review

Review of the charity's financial position at the end of the period	<p>Tigers4Ever is a cash-based organisation. We operate on a receipts and payments account basis and as such our financial statements are factual.</p> <p>We transfer risk, for example to suppliers of merchandise; we ensure that ownership and future maintenance of assets such as water holes rests with Indian authorities; we do not commit to expenditure until the necessary income has been collected to cover known costs.</p> <p>Consequently, our only material asset is the cash held in our current account; we are not committed to any known material future payments for which we have not already raised funding.</p>
---	--

	At 5 April 2021 the financial position, including movements on the various funds in the previous year, is shown in the table below. We have sufficient funds to meet known costs; we expect to meet our administrative costs beyond the forthcoming year. Of our principal current projects, we have sufficient funds to complete another waterhole in 2021/22 should Covid restrictions allow the project to recommence; we have sufficient funds to continue an enhanced anti-poaching patrol programme in 2021/22.
Statement explaining the policy for holding reserves stating why they are held	<p>Tigers4Ever holds reserves to ensure that it can meet its future financial obligations.</p> <p>Although we operate only one bank account, we maintain reserved funds for our major projects, so that there is transparency for donors and clarity in income and expenditure for trustees. This approach also reflects the policy of our major fundraising platform which enables fundraising only for clearly defined projects.</p> <p>We operate an unreserved fund; we have identified minimal administration costs (including insurance and IT/communications). If we did not have funds to meet these costs, the charity would cease to operate.</p>
Amount of reserves held	The current cash position is stated below.
Details of fund materially in deficit	At 5 April 2021 we have no funds in deficit.
Explanation of any uncertainties about the charity continuing as a going concern	Trustees believe Tigers4Ever is able to continue its programmes for the foreseeable future.

2020/21	Unrestricted	Waterholes	Poaching Patrols	Poaching Patrol Equipment	Education	Totals
	£	£	£	£	£	£
Balance 06/04/20	1,301	2,912	5,135	93	97	9,538

Expenditure	-1,759	-747	-8,360	-37	0	-10,903
Net Movement	-381	3,510	14,176	520	77	17,902
Closing Balance at: 05/04/2021	920	6,422	19,311	613	174	27,440

#### Additional information

The charity's principal sources of funds (including any fundraising)	<p>We raise funds from a variety of sources - detailed below, together with the proportion of income generated in 2020/21. Sources are considered when assessing how our income targets are to be met.</p> <ul style="list-style-type: none"> <li>• Digital platforms (GlobalGiving, Facebook, PayPal etc.) (71%);</li> <li>• Direct donations (sales, corporate and individual donations, collections) (15%);</li> <li>• Grants, Trusts, Foundations (13%);</li> <li>• Legacies;</li> <li>• Income from third parties (Amazon Smile, EasyFundraising, GiveAsYouLive) (1%);</li> <li>• Events (this is not a priority because of issues of risk and reward given our current profile and the implications of COVID19 lockdown measures).</li> </ul>
A description of the principal risks facing the charity	<p>We operate a risk register which is reviewed regularly by trustees. Risks are managed in accordance with a traffic light system which requires the trustees to agree mitigating measures as and where appropriate and to accept and manage the risks where mitigation is not possible or appropriate. The following are key risks which are closely monitored and managed by the trustees:</p> <ul style="list-style-type: none"> <li>• Reduction in tiger numbers in Bandhavgarh due to reduced poaching</li> </ul>

	<p>patrols/increased poaching and human encroachment issues.</p> <ul style="list-style-type: none"> <li>• The impact of the COVID-19 pandemic on our ability to carry out our work in Bandhavgarh</li> <li>• Reduction in tiger numbers due to catastrophic forest fires and resultant tiger-tiger or human-tiger conflict in Bandhavgarh</li> <li>• Reduction in donations due to the COVID-19 Pandemic. Corporate, Grant and personal donations can be affected</li> <li>• Increasing need for data protection</li> <li>• Failure to ensure that we as trustees or any representatives of our charity, conduct ourselves in an ethical manner &amp; adhere to relevant laws</li> </ul>
--	--

## Structure, Governance and Management

Description of charity's trusts:	
Type of governing document	Trust Deed
How is the charity constituted?	Charitable Trust
Trustee selection methods	Appointment by the Board of Trustees.

### Additional information

Policies and procedures adopted for the induction and training of trustees	<p>All trustees have completed a skills audit which is regularly updated so that we can identify any skills gaps on the board and fill these via open competition recruitment of volunteers or trustees as appropriate. Prior to the COVID19 pandemic we held physical away day sessions at least once per year, in the absence of the face to face training opportunities we have started a series of online orientation sessions and have conducted one to one/two digital training sessions to familiarise trustees with the learning opportunities via the GlobalGiving platform.</p> <p>In addition, all new Trustees receive a personalised Induction Pack and are encouraged to complete online training as needed from the digital resources at our and their disposal. This standard induction process which includes the individual trustees acquiring a knowledge of the Tigers4Ever current policies, procedures and strategies, listed below (a mix of bespoke and sector standard); and familiarising themselves with the Charity Commission Guidance "the Essential Trustee".</p> <p>These policies and procedures are constantly available to trustees via our Microsoft Teams workgroup and underpin how we work.</p> <p><u>Trustee responsibilities</u> Ethical Policy; Safeguarding Policy; Safeguarding Code of Conduct; Privacy Policy; CC3 and Jigsaw - the Essential Trustee; Charity Commission Public Benefit - Running a Charity; Good Governance – full code</p> <p><u>Strategic</u> Strategic Plan 2018-2023; Risk Register; Fundraising Strategy; Theory of Change; Theory of Change Digital</p> <p><u>Operational - Internal</u> Cyber Security Small Charity Guide; Use of IT; Groups and Specialisms</p> <p><u>Operational - External</u> Tigers4Ever Corporate Partners Due Diligence Checklist and Key Questions; Corporate Partner Tracker; Partnering Agreement – Memorandum of Understanding; Legacy Strategy; Grants and Trusts Database</p>
The charity's organisational structure and any wider network	The Tigers4Ever Board of Trustees meets 4 – 5 times per year for full board meetings and subgroups meet in the interim to address particular project, fundraising, marketing, digital, governance, and financial needs as appropriate.

<p>with which the charity works</p>	<p>Tigers4Ever has no paid staff in the UK and is entirely volunteer run.</p> <p>In India, Tigers4Ever has two full-time volunteer appointed representatives who co-ordinate project activity and delivery in India in accordance with the directives of the Board of Trustees (UK).</p> <p>Tigers4Ever has an established collaboration with the Global Tiger Conservation Society (GTCS) in India for the delivery of our education projects via pop-up nature schools, however, the COVID19 lockdown measures prevented project delivery during 2020-21, however, we maintained a dialogue with GTCS representatives throughout the year.</p> <p>Tigers4Ever works closely with the Madhya Pradesh Forest Department to ensure that projects such as our anti-poaching patrols and waterhole projects can be conducted within forest department protected areas and on government land.</p> <p>Tigers4Ever has fundraising partnerships with the third parties listed above and has not taken any financial or operational risks with any of its collaborators or partners.</p> <p>In addition, Tigers4Ever has four appointed patrons: Martin Clowes (since 2013), Lauren Maddox and Susan Fisher-Kaufman (both since 2017) and Martin Urch (since 06 May 2020). Tigers4Ever also has an appointed Ambassador: Pietro P J Danby (since April 2019).</p>
<p>Relationship with any related parties</p>	<p>There are no related party interests either exercised by us or exercised over us.</p> <p>We do use third-party fund-raising sites (principally GlobalGiving); sites deduct a fee from donations made to us from some donations, and we receive the donation net of fees. We receive grants and matched funding during specific campaigns from some of the sites, if donations meet criteria laid down by the sites. Our third-party fundraising sites are available globally and we do not exercise any control over the management of these sites.</p> <p>We have been recognised as a Top ranked and effective Charity by GlobalGiving following their rigorous due diligence process and site visits to our projects in India.</p> <p>We have also been recognised as a Charity partner by Benevity following their rigorous due diligence process.</p>

## To the Trustees of the Tigers4Ever Charity

I report to the Trustees on my examination of the accounts of the Tigers4Ever Charity for the year ended 5 April 2021.

### Respective responsibilities of charity trustees and examiner

The Charity Trustees are responsible for the preparation of the accounts. The Trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed.

It is my responsibility to:

- (i) examine the financial statements under section 145 of the 2011 Act;
- (ii) follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act; and
- (iii) state whether particular matters have come to my attention.

### Basis of independent examiner's report

My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from you as members of the Charity concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the next statement.

### Independent examiner's statement

In connection with my examination, no matter has come to my attention:

(a) which gives me reasonable cause to believe that in any material respect the requirements:

- (i) to keep accounting records in accordance with section 130 of the 2011 Act; and
- (ii) to prepare financial statements which accord with the accounting records and comply with the accounting requirements of the 2011 Act; have not been met or

(b) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the financial statements to be reached.

Jeremy R Valentine BSc (Hons), CPFA
