CHAIRMANS REPORT

Jaskomal Foundation remains committed to raising awareness and increasing donor registrations through community engagement and outreach activities.

During the year, we have continued our transition from traditional physical events towards developing a stronger digital and social media presence. While this shift will take time, we have maintained key face-to-face events such as the annual Vaisakhi event in Trafalgar Square, London, which continues to provide valuable exposure and support for our objectives.

The Foundation recorded total income of £15,379 and net income of £4,295 for the year ended 31 March 2025, reflecting continued donor support and effective management of resources.

I would like to thank all donors, volunteers, and supporters for their ongoing commitment as we continue to grow the Foundation's impact in the years ahead.

Mr Pargan Singh

EXECUTIVE COMMITTEE'S CERTIFICATE

We certify that the books, vouchers and information produced to our accountants, from which the attached accounts have been prepared, contain a full and correct record of our business transactions to the best of our knowledge.

CHAIRMANS REPORT

Jaskomal foundation are in midst of transforming our traditional method of holding physical events around the country to using digital social media to attract donor registrations. This I believe will take time as digital working is here to stay and we are working on a strategy that will generate large donor registrations in the future. This will obviously will take few years to achieve however we will still be relaying on some events that will still be done face to face like the Vaisakhi event in Trafalgar Square London which we have been doing every year. This year we managed register 42 new donors and got some great exposure and awareness which is a key objective of Jaskomal Foundation. Sri Singh Sabha Gurdwara Hitchin event is another event that we intend on doing face to face with help from our partner DKMS.

CHAIRMANS REPORT

Since the Covid-19 pandemic 3 years ago Jaskomal Foundation charitable work has diverted from face-to-face interaction with potential donors to digital and remote communication using social media platform. This has been a successful transformation of donor registration as the numbers have been almost maintained albeit not the same as going out and doing the same number of events that we had been doing in the previous years. I believe this will take time as digital working is here to stay and we are working on a strategy that will generate large donor registrations in the future.

To advance on this digital journey we are engaging an industry guru who is in the process of formulating a tested and tried digital strategy that will focus on improving our communication using various digital platforms. This will result in the Jaskomal Foundation aims to promote awareness and education about stem cell transplants, increase donor registration, and give hope to blood cancer patients.

CHAIRMANS REPORT

This year we have made good progress in generating interest from the community since the pandemic started back in January 2020. This year we have received an encouraging news from DKMS that as a result of our direct events registrations has found a donor match help desperately waiting patients for stem cell transplant. This is the main objectives of Jaskomal Foundation to help match donor for potential lifesaving stem cell transplant.

As we come out of the pandemic we will be starting again, with help from volunteers and trustees to continue to hold events to increase stem cell registration and spread the message of save a life and give hope a future. We have planned events including Vaisakhi at the Trafalgar Square, Jaskomal Foundation an annual event and other events which have been successful in our aims.

CHAIRMANS REPORT

Jaskomal Foundation's main fundraising event is normally held in the month of March coinciding with her birthday celebration. This event in this financial year was disrupted by the COVID-19 pandemic all the requirement for this event had been organised and necessary purchases were completed but had to be cancelled due to the government's lockdown. However, despite all the issues we have recorded surplus over the expenditure in this financial year.

Despite the pandemic we will be continuing to help and generate interest and awareness in the community utilising our knowledge and expertise in the technology and social media. These activities will continue meet our core aims and objectives until we are out of the pandemic hopefully not too far in the future
