

## Peacehaven Horticultural Society – Financial Report for Year Ending 31 October 2022

With the end of our first year following two years of uncertainty caused by the COVID- 19 pandemic I am pleased to announce that the society has finished the year with an increase of £1772 in our net assets.

This increase has been brought about mainly by the results of a successful Annual Show even taking into account the reduced number of entrants this year, only 26, the lowest ever since I started recording numbers in 2003. However even with such a small number of entrants we still showed a profit of £1458, added to this over £300 increase in our general income derived from membership, social meetings and general fundraising.

With the figures as they are, I am confident the we can look forward to yet another good year, at the start of this new century for the society.
