Activities

Objects: TO RELIEVE POVERTY IN TANZANIA BY THE PROVISION OF GRANTS FOR BUILDING PROJECTS FOR FACILITIES TO BENEFIT POOR COMMUNITIES INCLUDING BUT NOT LIMITED TO SCHOOLS AND ORPHANAGES.

Activities: We create sustainable projects to relieve poverty for children living in very rural communities in Tanzania, Africa. Projects include education, clean water and sanitation. We partner with NGOs and communities on the ground in Tanzania to ensure our projects are suitable for those in need. Examples of our projects include school infrastructure, clean water, toilets and girl empowerment.

2024

Annual report

Empowering through education in rural Tanzania.

A message from our founder and chair

I'm honoured to still be working towards giving thousands of children a better chance at a future free from extreme poverty.

This wouldn't be possible without our incredible partner charity in Tanzania who help us implement projects to such a high standard. Their future is incredibly bright too and I'm so excited to see what they will achieve.

Eleanor Teeling, Founding Director (voluntary role)

We completed some amazing projects this year but most notably, we entirely renovated two of our most in need schools and delivered 2 new crop programmes to feed over 1,000 children.

I am so proud of the impact we are having on the children in our communities and can not thank our donors enough for their continued support.

Alexander Margolin, Chair (voluntary role)

Made with Hope believes every child, especially girls, living in rural Tanzania should have access to quality education to break the cycle of living in poverty.

We empower these children through constructing or renovating schools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

Why we're different

Purpose

We have an awareness and social conscience that millions of people live in extreme poverty through no fault of their own and we desire to take action as global citizens.

Transparency

We see it as a fundamental right that every supporter knows exactly where every penny of their money is spent.

100% Donation Promise

We are a team of passionate volunteers which means we have almost no running costs. This allows us to donate 100% of your funds to the projects in Tanzania.

Collaborative

We do this through collaborating with local Tanzanian NGOs to address the specific educational needs of children in their community.

Why we support children's education in rural Tanzania

160th

Poorest country in the world (UN). Tanzania's government lacks funds to build enough classrooms, toilets, or desks. Overcrowded schools strain teachers, leading to poor education quality.

67%

Of the population live in poverty (World Bank), with an average life expectancy of just 63. Education is key to breaking this cycle.

6%

More men and women completed secondary school in 2016 (World Bank). But limited resources remain a major issue — in some schools, five students share one textbook. Tanzania's 2003 Free Education For All policy has led to severe overcrowding; we've seen class sizes of up to 144 students.

6 years

Is the average time children spend in school. If children fail their Primary School exams, they can't move on to Secondary. Girls are often stigmatised during menstruation, causing them to miss school.

42%

Of children are malnourished (UNICEF). Disease from lack of sanitation is a huge factor in why children miss school.

About our partner schools

We’re committed to transform the awful conditions thousands of children are learning in each day. Our current 9 partner schools all had the same issues when we first partnered with them in 2020.

Unhygienic toilets

Many girls are forced to stay home during menstruation because the school toilets are unhygienic and lack privacy.

Buildings in disrepair

Walls and roofs crumbling around the children as they try to learn.

Limited clean water

And school lunches are hard to come by, meaning many children go through the entire day hungry.

Overcrowded classrooms

Students are squashed four to a desk, with no access to textbooks.

Our Tanzanian partners on the ground

Ndoto in Action have been our main delivery partner since 2020. Their main focus is to dramatically transform poor rural government schools so they can provide a quality education.

This partnership works so well as Made With Hope utilises the fundraising opportunities we have access to here in the UK, Ndoto in Action deliver the projects closely with the community and we both collaborate in monitoring and evaluating the impact of them.

"Through partnership for education we are building a stronger foundation for young learners in rural Arusha, and empowering future communities."

Denish, Trustee at Ndoto In Action

NDOTO IN ACTION
Dreams to Reality

"I did not get a chance to go to the best schools or university. I came from a poor background. I was raised by single mother; she could not afford my education and she was even struggling to take care of the family.

My experience studying in public schools gave me a chance to witness how difficult it is to access quality education with limited infrastructures and most importantly to reach my dreams.

I could imagine how young girls are even more affected by poor toilets infrastructures when they're in menstruation. This situation inspired me to start Ndoto In Action as a charity aims to transform poor children's dreams especially young girls into reality through accessing quality education.

I have and will always address the issues that young girls face to reach their full potentials in life."

Hussein Salim, Director & CDW Ndoto In Action

In partnership with the local community

In collaboration with our amazing partner, Ndoto in Action in Tanzania, we work with 9 dedicated communities and here's how.

All projects involve their community

To make sure we bring the most impactful projects, we worked with the community members from start to finish to find the problems they are facing through focus group discussions, interviews and community meetings then prioritizing the most critical challenges and find solution together.

Communities contribute at least 10%

To create a sense of ownership, we asked community members to contribute to 10% of the project in the form of manpower. This helps them to project the project at any cost when we left because they have contributed to it and they are not ready to see it destroyed.

One of our favourite examples

300 members of Umoja community came to volunteer their time to construct the foundations of a new school kitchen. Instead of taking 4 days to dig the foundations, we were able to do it in 4 hours.

Our impact in 2024

1,182

Children received a school lunch from the vegetables we grew in our school gardens (Mzimuni & Umoja Primary).

75%

Of children went on to secondary school education.

554

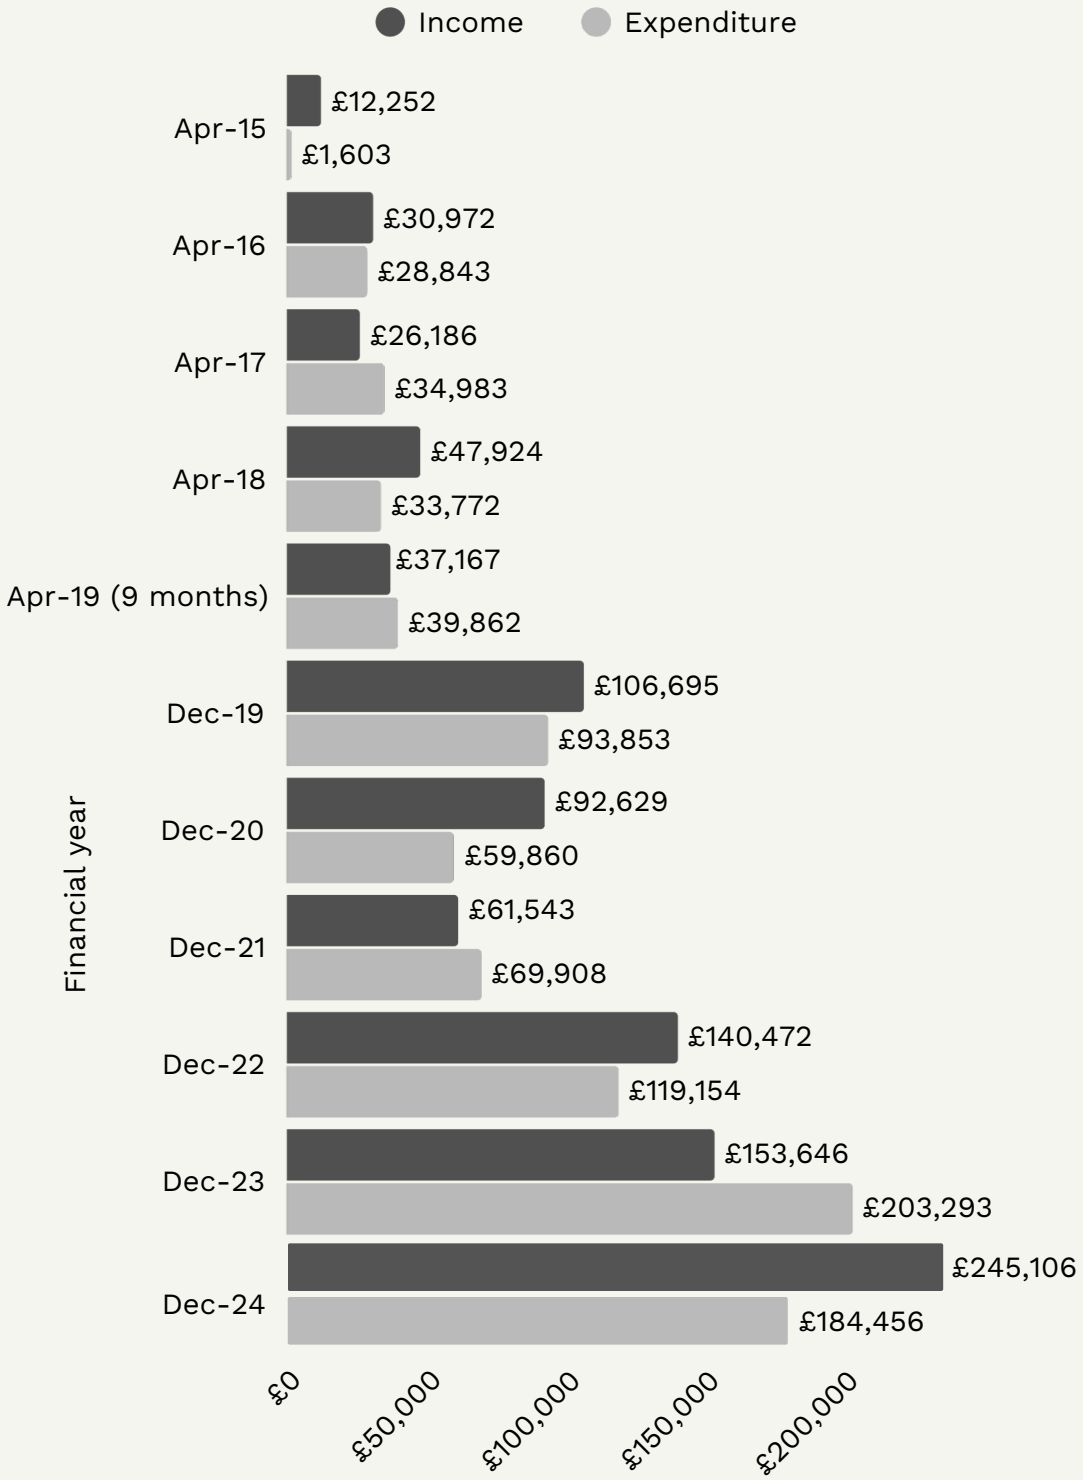

Children had clean drinking water to drink everyday at school at Manyire Primary.

1,066

Children received a better and safer education due to the new classrooms we built in 2024.

95%

Attendance is continuing to stay high for girls across our schools.

Income and expenditure

We were very pleased with the income and expenditure of 2024 here at Made with Hope.

We found our fundraising and project implementation very manageable as a team of volunteers and we made a huge impact to thousands of children.

Expenditure

We spent £184,456 this year, spending 97% (£178,262) on projects in Tanzania. Only £6,194 of this was on our fundraising and running costs such as accountancy fees, consultancy fees and website hosting. This is funded by our Trustees and a major donor so that we can ensure that 100% of your donation goes to our projects in Tanzania.

Income

We are incredibly excited that we absolutely smashed our fundraising goal this year! Our team of volunteers raised a total of £245,106 through applying to Trusts and Foundations, corporate sponsorships, challenges, online giving and major donors. With every donation we get we honestly still feel so surprised and so happy that someone has chosen to believe in the work we do. We are forever grateful even after 11 years.

Total our volunteers have raised to date: **£954,592**

Thank you

Thank you to our donors for making all this possible: Guernsey Overseas Aid, Fred and Ash's Kilimanjaro climb, One Kind Act, Brinda Jaykant Shah Foundation, Educational Opportunity Foundation, Sioma Ltd, Zac, Jonny, De La Rue Charitable Trust, Charles Hayward Foundation, Educational and General Charitable Trust, Eleanor Rathbone Trust, The Coles Medlock Foundation, The Sterry Family Foundation.

This has been beautifully designed by Kim Jones, our amazing Design Volunteer.

2. Structure, governance and management

Governing documents

Made with Hope is a charitable company limited by guarantee incorporated on the 15th April 2014 and registered as a charity on 25th February 2015. The Company was established under a Memorandum of Association which established the objects and powers of the Charitable Company and is governed under its Articles of Association

Appointment of Trustees

Trustees are appointed by existing trustees.

3. Financial Review

The total income for the year was £245,106 This income is allocated across respective funds on the accruals account.

The statement of assets and liabilities as at 31st December 2024 shows total funds carried forward of £86,332

4. Public Benefit Statement

The trustees have referred to the Charity Commission's guidance on public benefit when reviewing the charity's objectives and planning its future activities. This annual report will aim to demonstrate the link between our charitable activity and how this benefits our service users

5. Objectives and activities

Made With Hope believes every child living in rural Tanzania should have access to quality education to break the cycle of living in poverty. We empower these children through constructing or renovating schools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

We aim to

- Partner with communities and their schools to address the issues their children face when trying to get a quality education.
- Provide sustainable educational facilities in rural Tanzania including primary and secondary schools.
- Use educational facilities as a base to offer health and wellbeing projects to support children in their ability to attend school consistently throughout the academic year.
- Empower small local Tanzanian NGOs that understand their communities needs and enable them to create solutions to the problems they see.
- Maintain a high level of transparency and uphold our strong values to develop and promote an ethical way of running a charity.

6. Achievements and Performance

Working in Partnership

At Made with Hope, we are committed to delivering long-term, sustainable change through strong partnerships with local organisations in Tanzania. In 2024, we continued to work closely with Tanzanian NGOs, government officials, schools, and rural communities to identify and support schools with the greatest need.

We have actively engaged nine communities, each through their local primary school, and made several site visits with Tanzanian Government Education Officers to jointly assess needs. Our approach is collaborative at every stage—from needs assessment to implementation—ensuring community ownership and long-term sustainability.

Each project begins with a series of community workshops where we work alongside local stakeholders to co-design solutions that meet the specific needs of their children. This participatory model not only builds trust but also reinforces a shared responsibility for the long-term success of each project.

We remain committed to supporting communities for several years before transitioning out, ensuring that the impact of our work is embedded and sustainable.

Our Delivery Partner: Ndoto in Action

All our projects are implemented by our trusted local partner, **Ndoto in Action**, a Tanzanian-registered NGO founded in 2019. Made with Hope has supported Ndoto in Action since its inception and was their sole funder during their first three years. The organisation is run by a small team of three dedicated staff members and six volunteers, all of whom contribute their time regularly with exceptional commitment.

A key element of our model is building the internal capacity of Ndoto in Action to ensure they can independently sustain and scale their work. In 2024, we continued to provide both formal and informal training across a range of areas, including financial systems, fundraising, marketing, stewardship, and communications.

One of the most impactful developments this year was the enhancement of Ndoto in Action's financial systems. Through our partnership with **Accountants for International Development**, a volunteer auditor from NATO began supporting their finance function and has since provided ongoing weekly assistance. This support enabled the recruitment of a full-time **Finance Manager**, strengthening their operational capacity to match growing project demands.

As a result of capacity-building efforts, Ndoto in Action raised approximately **£18,000** independently in 2024 and is currently shortlisted for a **$50,000 multi-year grant**. This marks a significant milestone in their journey towards financial independence.

We are proud of the progress they've made and remain committed to helping them become a sustainable, independent organisation capable of thriving regardless of Made with Hope's involvement.

Our Values

Collaboration – We work hand-in-hand with local Tanzanian organisations and communities to ensure that educational projects are community-led and relevant.
Transparency – We believe every supporter deserves to know exactly how their money is used.
Empowerment – We see education as a vital pathway for children to break the cycle of poverty.

Purpose – We are guided by our social conscience, driven by the belief that every child deserves opportunity, regardless of where they are born.

Committed to Transparency

In light of declining public trust in the charity sector—often driven by concerns around transparency (Charity Commission, 2018)—we have made openness a central pillar of our work since the charity's inception.

From the beginning, we recognised that a lack of transparency undermines public confidence. That's why we've committed to sharing not only our successes but also our mistakes and the lessons we learn.

Our transparency initiatives include:

- Publishing receipts and financial records online
- Maintaining a dedicated **Transparency** webpage detailing our impact, challenges, and decisions
- Inviting supporters to scrutinise our spending

Presenting financial information in a clear, accessible, and user-friendly way

Our impact in 2024

This year, we successfully collaborated with all nine communities we've supported since 2019, with local community members actively volunteering time and labour for construction projects.

We are proud of the following achievements:

- **School Gardens and Kitchens**: Developed 1-hectare school gardens at **Oldenderet Primary** (310 students) and **Mzimuni Primary School** (667+ students), complete with irrigation systems and on-site kitchens. These gardens provide daily school meals and serve as teaching tools for science, maths, and nutrition.
- **Manyire Primary School**: Constructed 4 new classrooms and renovated 6 existing ones, directly benefiting over 600 students. Improvements have led to increased attendance, academic performance, morale, and safety.
- **Muungano Primary School**: Built a new toilet block for girls, significantly improving school attendance and dignity. Facilities for boys were also constructed.
- **Rainwater Harvesting**: Installed 8 water tanks at Manyire Primary School, ensuring access to clean water for drinking, cooking, and sanitation.

Recognition: Received commendations from both local and regional Education Departments for the high quality and sustainability of our work.

Fundraising and Operational Highlights

Made with Hope continues to operate under a **100% donations-to-projects policy**. Our modest operational costs (approximately £2,500 annually) are covered entirely by Trustees and major donors.

As a volunteer-led charity, we are deeply grateful for the incredible individuals who manage our operations—from donor stewardship and communications to safeguarding, web development, and bookkeeping.

In 2024, we collaborated closely with Ndoto in Action on multiple funding applications to UK-based Trusts and Foundations. This joint effort not only strengthened their grant writing capabilities but also opened new funding avenues that Made with Hope alone could not access.

We are pleased to see this partnership yield tangible results, including increased funding and capacity growth for our partner organisation.

Governance

Made with Hope is currently seeking additional Trustees to diversify our board. However, we remain committed to thoughtful recruitment and will only appoint individuals who bring the necessary skills and time to support our mission effectively.

7. Statement of Trustees responsibilities

The Trustees (who are also the directors of Made With Hope Limited) for the purposes of company law) are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company at the end of the year and of the incoming resources and application of resources for the year then ended.

In preparing those financial statements, the trustees are required to: -

- select suitable accounting policies and then apply them consistently.
- make judgements and estimates that are reasonable and prudent.
- Observe the methods and principals in the Charities SORP.
- state whether applicable accounting standards and statements of recommended practice have been followed, subject to any material departures disclosed in the financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue its activities.

The trustees are responsible for keeping proper accounting records which disclose, with reasonable accuracy at any time, the financial position of the charity, and enable them to ensure that the financial statements comply with the Companies Act 2006. The trustees are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud or other irregularities.

Approved by the Board on: 28/05/2025

and are signed on their behalf by: Chairman of the Board

Name: Alexander Margolin Signature:

Independent Examiners Report to the Trustees

I report on the accounts of the company for the year ended 31st December 2024, which are set out on pages 9-13

Respective responsibilities of trustees and examiner. The trustees (who are also the directors of the company for the purposes of company law) are responsible for the preparation of the accounts. The trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed.

Having satisfied myself that the charity is not subject to audit under company law and is eligible for independent examination, it is my responsibility to:

- examine the accounts under section 145 of the 2011 Act.
- to follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act: and
- to state whether matters have come to my attention.

Basis of independent examiner's report. My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe: -

I. Accounting records were not kept in respect of the company as required by Section 386 of the 2006 Act: or
2. the accounts do not accord with those records: or
3. the accounts do not comply with the accounting requirement of Section 396 of the 2006 Act other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination: or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and republic of Ireland (FRS102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in the report in order to enable a proper understanding of the accounts to be reached.

Julie Maxwell MICB

For the Financial Year in question, The Company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

No members have required The Company to obtain an audit of its accounts for the year in question in accordance with section 476 of the Companies Act 2006.

The Directors acknowledge their responsibility for complying with the requirements of the Act with respect to accounting periods and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with FRS 102 SORP

Approved by the Board on: …2…8/…0…5/…2…02…5…

and are signed on their behalf by: Chairman of the Board

Name: Alexander Margolin Signature:

1. Basis of Accounting

The accounts have been prepared using the accruals method. An audit is not required by the Charity's constitution and has not been requested by the Trustees.

2. Trustee Expenses

No Trustees were paid expenses during the period

3. Guarantee

There have been no guarantees given by Made with Hope at 31st Dec 2024.

4. Debt

There is no debt outstanding which is owed by Made with Hope and which is secured by an excess charge on any of the assets of Made with Hope at 31st December 2024

5. Fund Accounting

Unrestricted funds are donations and other incoming resources receivable or generated for the objects of the charity without further specified purpose and are available as genera l funds.
Designated funds are unrestricted funds earmarked by the trustees for particular purposes. Restricted funds are to be used for specific purposes as laid down by the donor.

6. Risks

The trustees have examined the major risks which the charity faces in relation to external factors, governance and management, internal operations and business. The trustees have considered the likelihood and the impact of risks, and continually review the systems in place to reduce those risks. The systems are being designed to provide reasonable assurance against material loss.

7. Fixed Assets

All fixed assets are initially recorded at cost. Assets with a value of less than £200 are not capitalised

A MESSAGE FROM OUR FOUNDER AND CHAIR

"I can't believe it's been 10 years since I sat in my bedroom at the age of 23, making notes in a new notepad I had bought from Paperchase on how I could help make this world a better place.

To me, dedicating my life to helping children living in poverty was obvious. I came from a low-income single parent household myself and knew how much education had helped me. With the help of our amazing volunteers, donors and partner communities in Tanzania we have improved the quality of education, health and wellbeing for 25,000+ children in the hope that it continues to decrease child labour, child pregnancy and marriage.

Our team in Tanzania has been growing this year and it's enabled us to make a much bigger impact. This year we've spent over £200k on projects including classroom builds, feeding programmes, clean water and menstruation support for girls. Without our team and engaged communities in Tanzania this just wouldn't be making anywhere near the impact it currently is.

I'm eternally grateful for every community member in Tanzania who gives up their time after work to come down to the site, get their hands dirty and contribute to the building of something for their children and the thousands of children in the future who will benefit from the project.

I look forward to 2024, working with the hundreds of people involved in our projects to create brighter futures for some amazing children."

Eleanor Teeling
Founding Director
(voluntary role)

"Our 10th year is proudly marked as the highest ever amount we have fundraised and the highest amount that has been deployed into our communities in Tanzania.

We funded close to double the amount of projects than 2022 and in the last 2 years alone, we have funded almost as many projects than we did in the 8 years before that.

This incredible growth is testament to the hard work our volunteers in the UK undertake to raise money from UK trusts and foundations and major donors.

However, without an efficient, engaged and trusting partner on the ground in Tanzania, none of this would be possible. We are ever grateful for our relationship with Ndoto In Action and the immense work they undertake to deliver the projects on the ground in our communities and improve the education of 6,000 children each year.

In 2023 we also trialed our first ever crop programme, to sustainability deliver a nutritionally varied and reliable food source, to feed the children in our schools a meal at lunch time. The trial was a resounding success and we are pleased to be extending this to two more schools in 2024.

All of the above has been achieved while sticking to our core principles of transparency and empowering local communities.

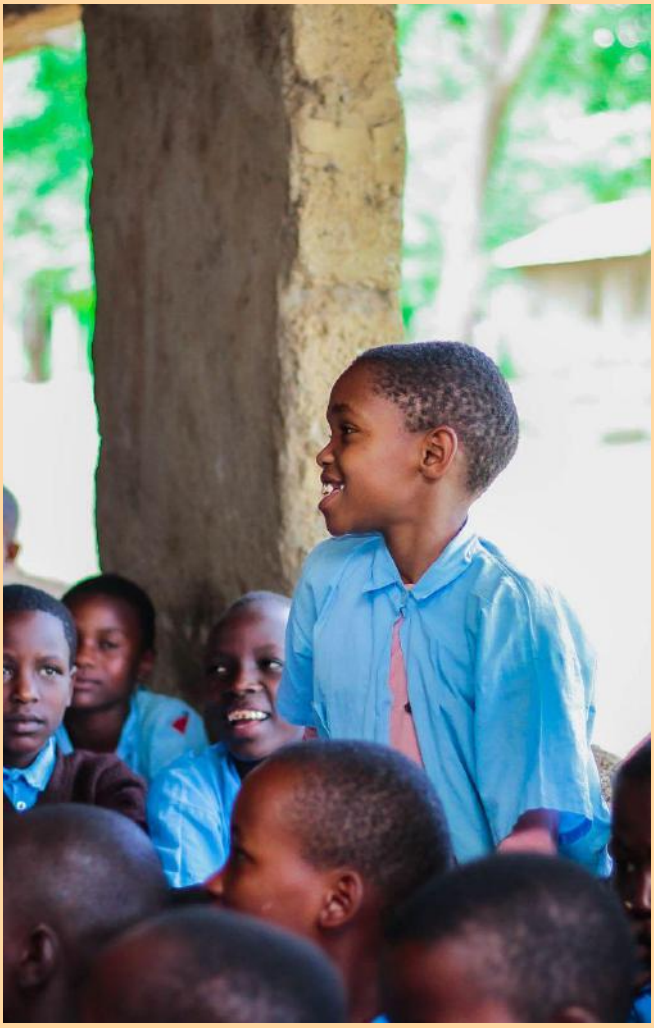

From wherever you are reading this, thank you for another great year and we can't wait to see what 2024 brings."

Alexander Margolin
Chair (voluntary role)

WHAT WE DO

Made With Hope believes every child, especially girls, living in rural Tanzania should have access to a quality education to break the cycle of living in poverty. We empower these children through constructing or renovating schools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

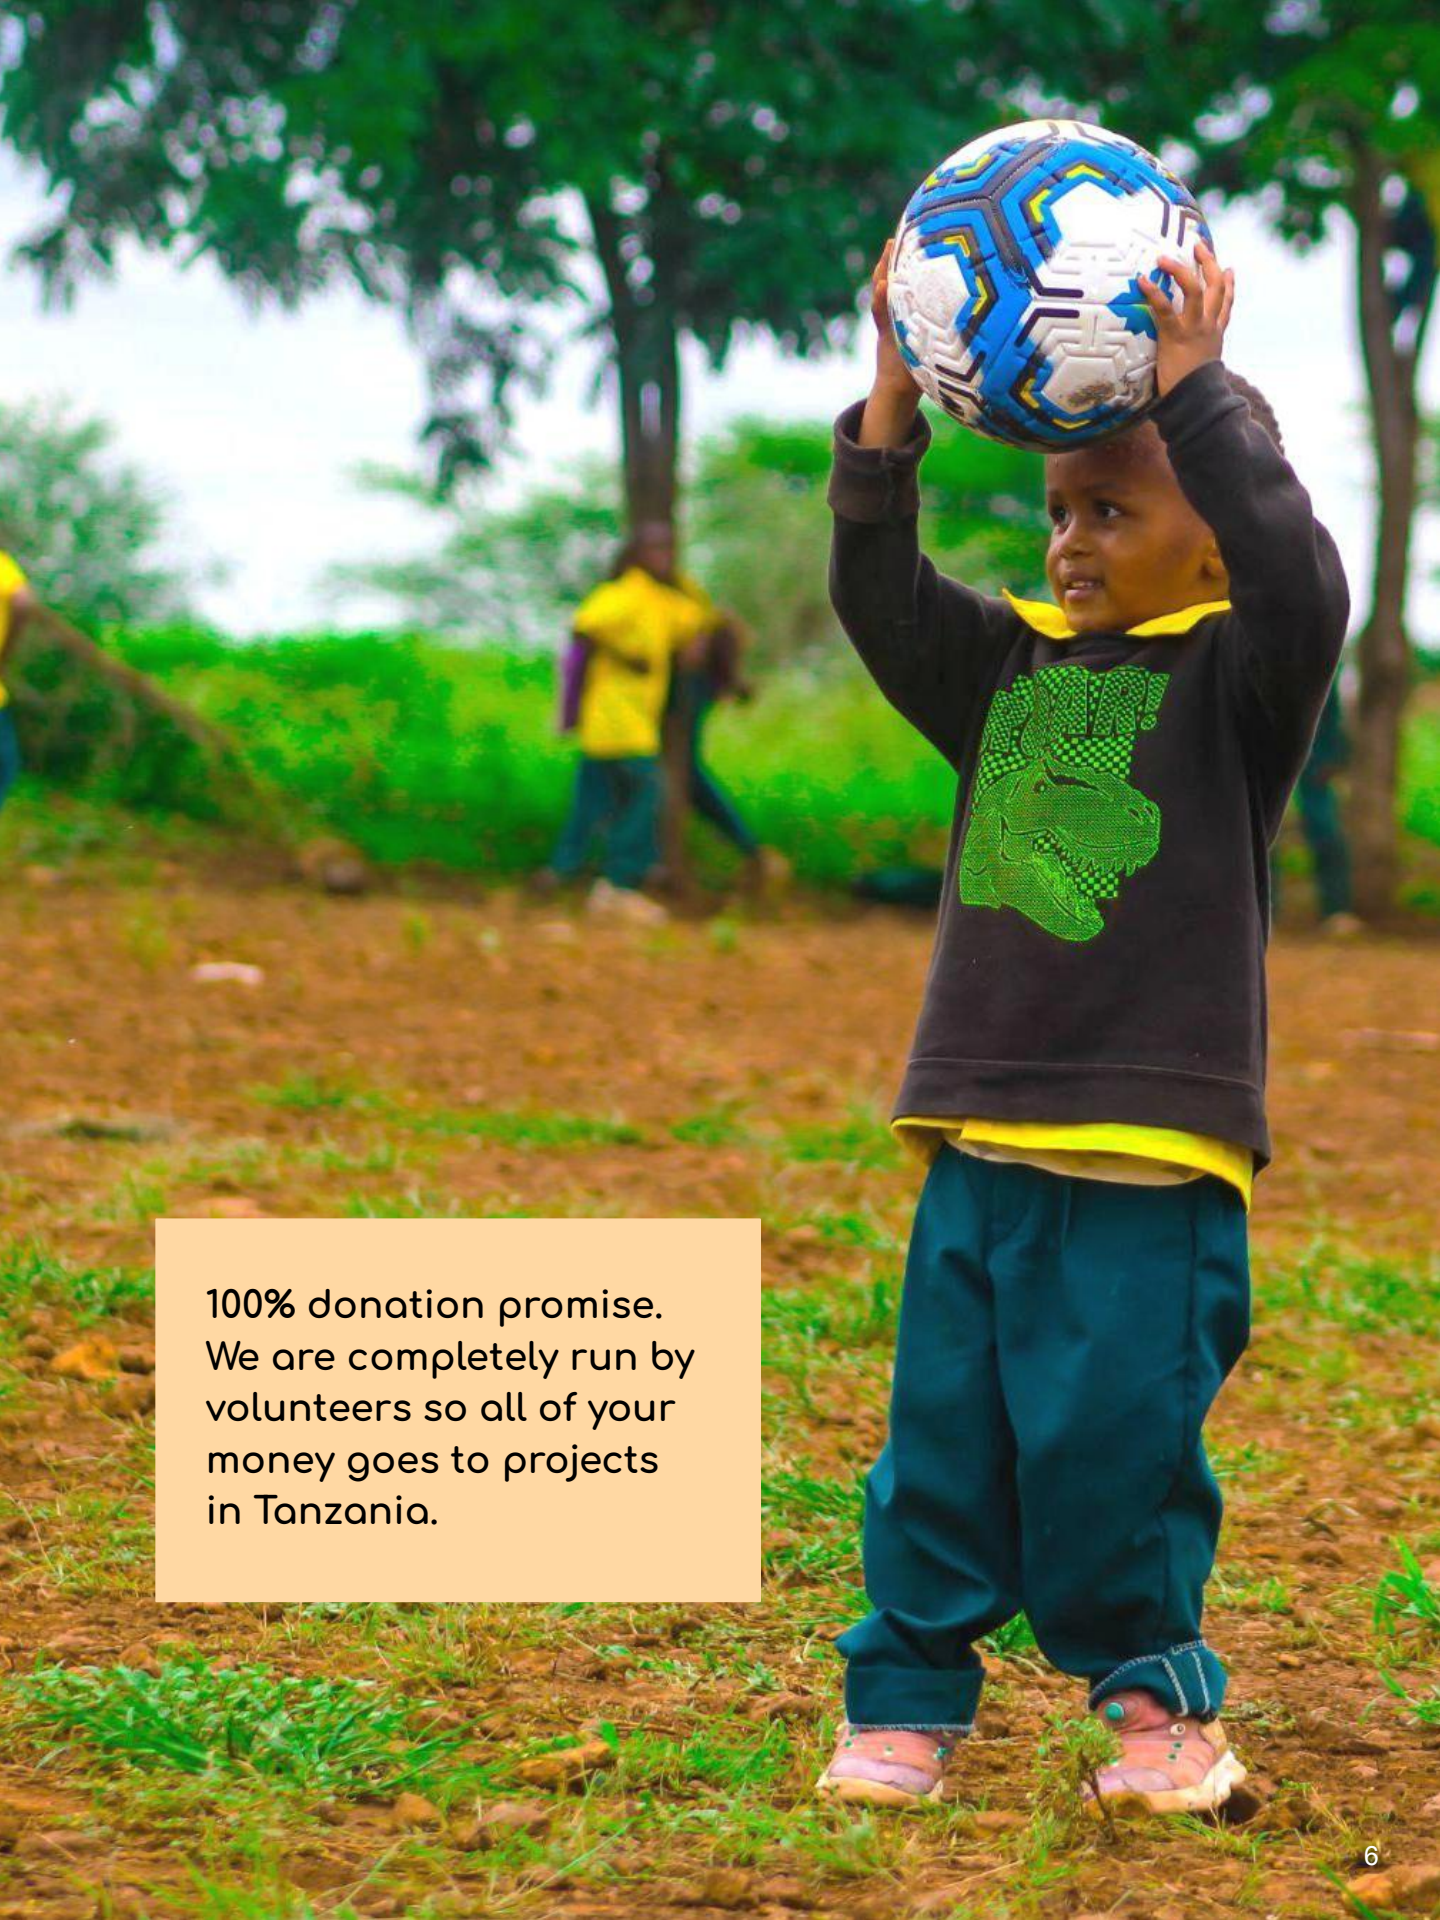

Offer health and wellbeing projects to support children in their ability to attend school consistently throughout the academic year, using education facilities as a base.

Empower and partner with small local Tanzanian NGOs and communities that understand their needs and create solutions together.

Maintain a high level of transparency and uphold our strong values to develop and promote an ethical way of running a charity.

Provide sustainable educational facilities in rural Tanzania including primary and secondary schools.

100% donation promise. We are completely run by volunteers so all of your money goes to projects in Tanzania.

Poorest country in the world (UN)

ABOUT THE SCHOOLS WE PARTNER WITH

Each school receives only £15 a month for maintenance, leading to a poor learning environment.

They have limited access to clean water, poor hygiene facilities, overcrowded classrooms, and inadequate support for menstruating girls. As well as long distances for children to walk to school.

BUT… the school community is engaged, and we work in collaboration to improve their school so that their children are empowered to learn!

The situation stresses teachers and hinders students' overall well-being.

Below: Water source

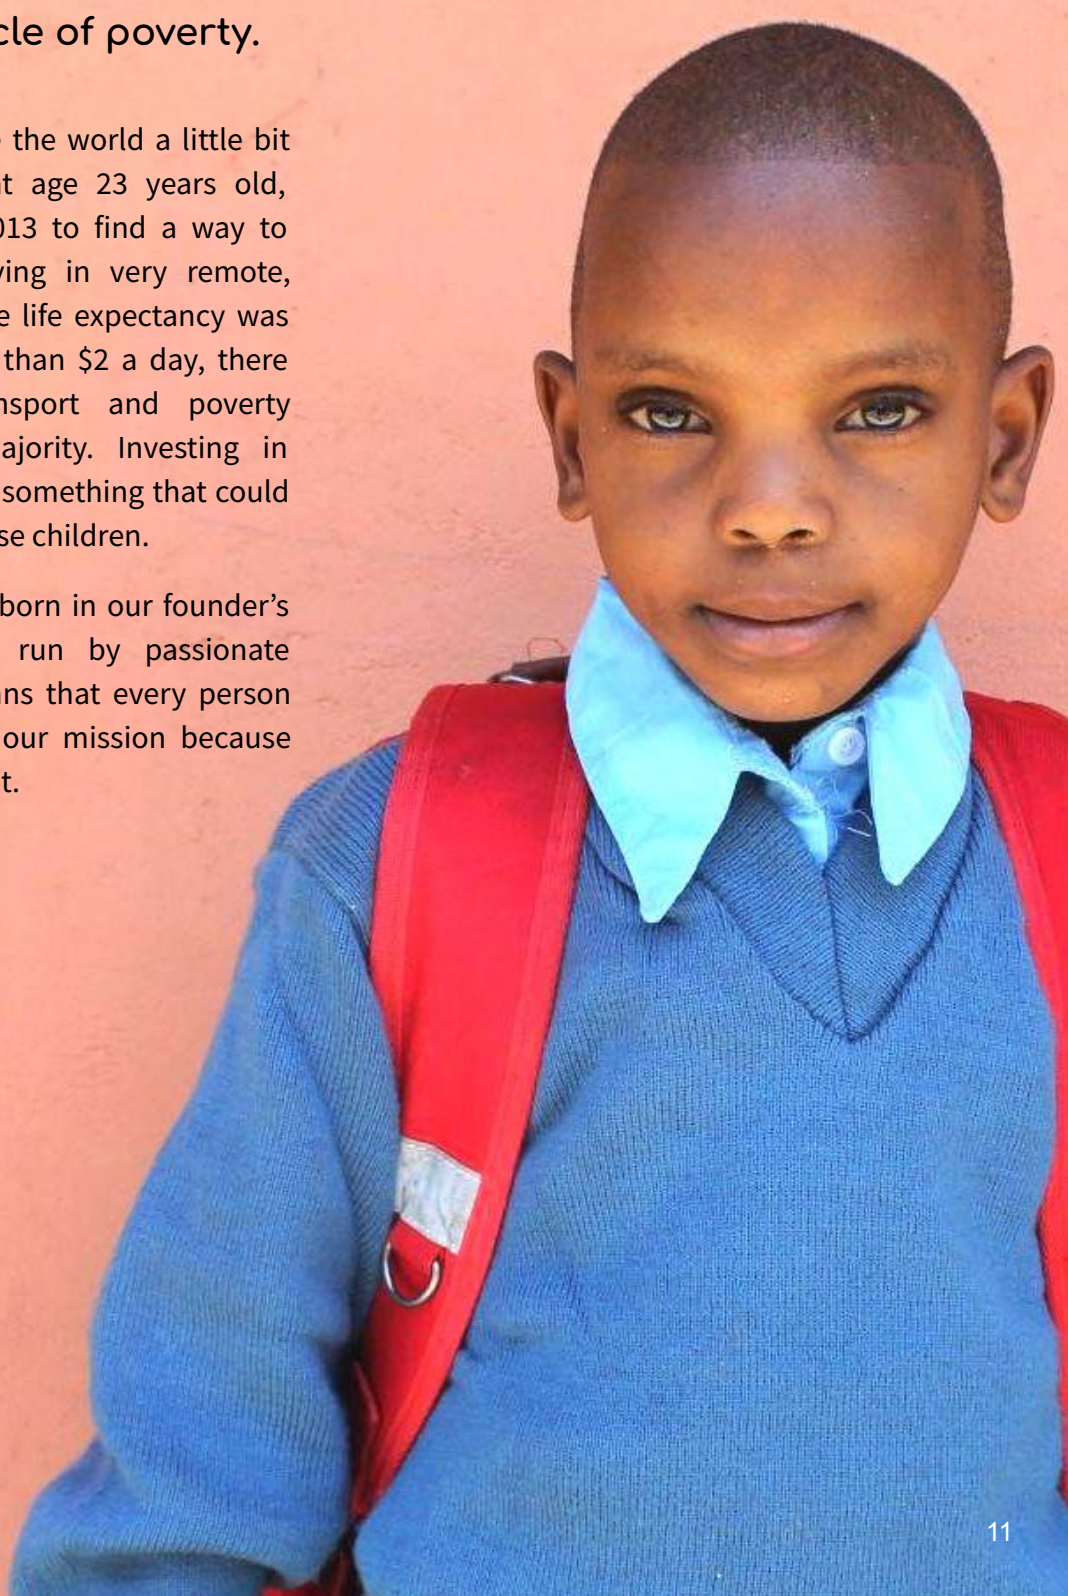

Above: Toilet
Right: Overcrowded classroom

Established in 2013, Made With Hope is a small volunteer-led charity which exists to provide quality education to enable children to break the cycle of poverty.

With a desire to make the world a little bit fairer, our founder, at age 23 years old, visited Tanzania in 2013 to find a way to empower children living in very remote, isolated villages where life expectancy was low, income was less than $2 a day, there was no public transport and poverty affected the vast majority. Investing in quality education was something that could make an impact to these children.

Our organisation was born in our founder's spare bedroom and run by passionate volunteers which means that every person involved is a part of our mission because they really care about it.

WHY WE SUPPORT CHILDREN'S EDUCATION IN TANZANIA

Girls are often stigmatised during menstruation and do not attend school.

Disease from lack of sanitation is a huge factor in why children miss school.

Education quality is often very low because one teacher cannot teach so many students.

If a child doesn't pass their exams at the end of Primary School first time, they will be not be able to attend Secondary School.

5 students have to share 1 textbook.

Tanzania's Free Education For All policy in 2003 has made schools severely overcrowded. We have visited class sizes of 144 in one standard classroom.

There is not enough funding in central government to build enough classrooms, toilets or desks for the students

Education is proven to enable children to break the cycle of poverty.

PARTNER SCHOOL LOCATIONS

These 15 partner schools are where Made With Hope have identified a great need to support children's education. We have formed partnerships with all of these communities and are working together to create sustainable projects that better the lives of the children in their impoverished village.

Transparency is so important to us. We show you exactly where your help is supporting.

2013

2023

PARTNERSHIP

Collaboration is one of our key values, so we're always working in partnership. We work alongside Tanzanian organisations, the Tanzanian government, Tanzanian schools and rural communities to identify schools in the greatest need of our support.

We have visited over 20 schools with Tanzanian Government Education Officers, and have formed partnerships with 13 communities and schools to work with them.

Although we focus on empowering children through education, we seek to work alongside communities and empower them too, by engaging them throughout our projects.

With any project, community members are engaged through several community workshops so we can explore the best solutions for their children, together. We discuss and agree on a partnership that will have the biggest impact. From our experience, working alongside the community encourages ownership of a project to ensure its sustainability.

We work alongside communities for several years to ensure projects are sustainable before we consider leaving their community.

OUR WORK WITH THE COMMUNITY IN 2023

Community participatory approach

To make sure the we bring the impactful projects, we worked with the community members to find the problems they are facing through focus group discussions, interviews and community meetings then prioritizing the most critical challenges and find solution together. We are applying a community participatory approach in every project we deliver which means, the community members are involved in designing stage of our projects.

Community contribution

To create a sense of ownership, we asked community members to contribute to 10% of the project in the form of manpower. This helps them to project the project at any cost when we left because they have contributed to it and they are not ready to see it destroyed.

One of our favourite examples was when 300 members of the Umoja community came to volunteer their time to construct the foundations of a new school kitchen. Instead of taking 4 days to dig the foundations, we were able to do it in 4 hours.

OUR TANZANIAN PARTNERS ON THE GROUND

Ndoto In Action have been our main delivery partner since 2020. Their main focus is to dramatically transform poor rural government schools to they can provide a quality education. This partnership works so well as Made With Hope utilises the fundraising opportunities we have access to here in the UK, Ndoto In Action deliver to projects closely with the community and we both collaborate in monitoring and evaluating the impact of them.

“ I believe quality education is the key to breaking the cycle of poverty. But quality education needs a conducive environment for it to take place; Ndoto in Action and Made With Hope have partnered to create this conducive environment together with the help of the community and our supporters across the world”

Denish
Trustee at Ndoto In Action

NDOTO IN ACTION
Dreams to Reality

“I did not get a chance to go to the best schools or university. I came from a poor background. I was raised by single mother; she could not afford my education and she was even struggling to take care of the family.

My experience studying in public schools gave me a chance to witness how difficult it is to access quality education with limited infrastructures and most importantly to reach my dreams. I could imagine how young girls are even more affected by poor toilets infrastructures when they’re in menstruation.

This situation inspired me to start Ndoto In Action as a charity aims to transform poor children’s dreams especially young girls into reality through accessing quality education. I have and will always address the issues that young girls face to reach their full potentials in life.”

Hussein Salim
Director & Founder of Ndoto In Action

IMPACT IN 2023

We successfully collaborated with all of the communities we worked with in 2023!

With full engagement and hundreds of hours volunteered completed at construction projects from the community members.

We also had exemplary recognition from the local and regional education department in the Tanzanian government for the work we're doing in Arusha communities.

WATER IS LIFE

Clean water

Clean water sources and collecting rainwater and transporting water to rural villages.

Our impact in 2023:

Installed a 5,000 litre rainwater harvesting system to collect clean water in our two new toilet blocks at Manyire and Mzimuni Primary School to aid handwashing for 1,265 students.

We also installed a 5,000 litre rain water system at our new kitchen at Umoja primary school to improve hygiene for 456 students.

LET US LEARN

Learning environments

Building and equipping whole schools or new classrooms. Providing resources.

Our impact in 2023:

Significantly increased the attendance, academic achievement, motivation, morale and safety of 900 hundred students by constructing 20 safe and inspiring classrooms across 3 different schools (Oldenderet, Mshikamano and Mzimuni primary schools. These new classrooms can accommodate a total of 900 students but will be utilised by thousands of students over the coming decades.

We are extremely grateful to One Kind Act, Kaushik and friends, Guernsey Overseas Aid, Scott and Matt and The International Parking Community for generously donating to these projects.

BEING WELL

Health

Preventative and simple health solutions for students such as toilets, health workshops, food programmes, handwashing.

Our impact in 2023:

Increased the wellbeing and attendance of 1,265 students in Manyire and Mzimuni Primary schools by constructing two toilet blocks.

A Made with Hope toilet block consists of 10 girls toilets, a changing room, boys urinal area, two boys toilets and a disabled friendly toilet.

No longer will students have to defecate on school grounds or be at risk of disease in their old dilapidated toilets.

We are eternally grateful for the continued support from Brinda Jaykant Shah Foundation to support this project at Manyire primary school.

GIRL EMPOWERMENT

Education for girls

Supporting girls education and menstrual hygiene management.

Our impact in 2023:

Significantly increased the attendance of 760 at 3 schools during their menstruation.

We implemented a Menstruation Hygiene Management Project which educated 760 girls, 849 boys, 11 teachers and 180 parents about supporting their girls during menstruation and breaking down taboos

Distributed packs of reusable sanitary towels for up to 760 menstruating girls at Manyire, Umoja and Muungano Primary School

Thoroughly rained 6 teachers at 3 schools in how to continue the menstruation programme and implement it into their curriculum.

We are eternally grateful to The Archer Trust for supporting this project.

CASE STUDY

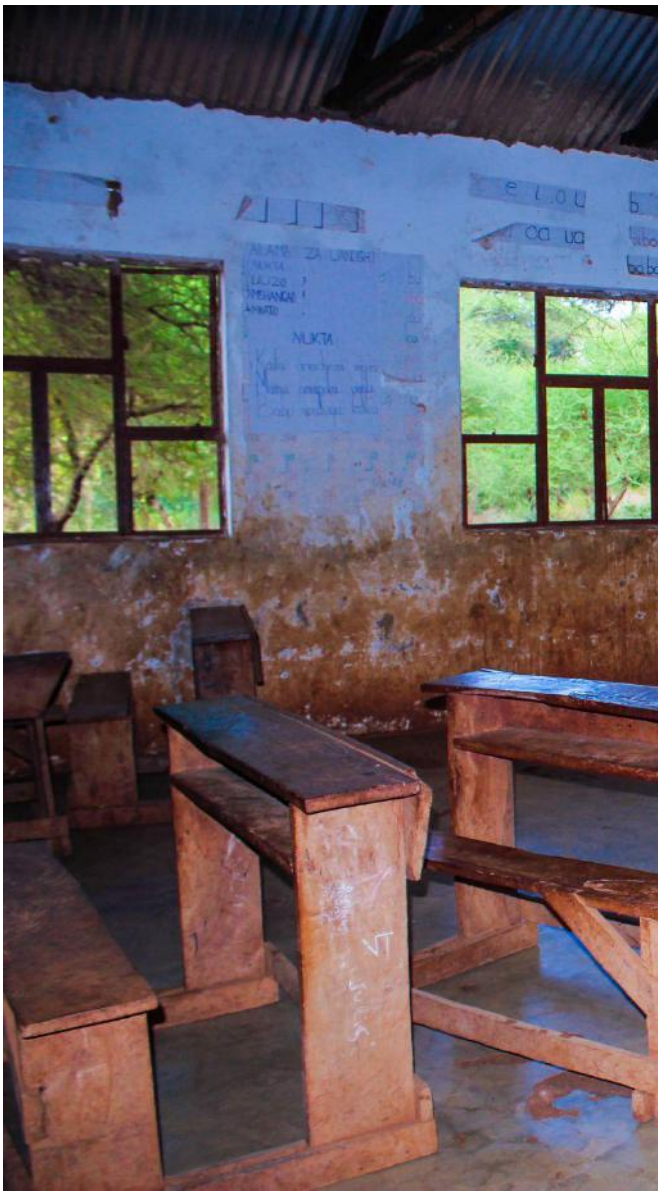

Oldenderet Primary School (GPS location: -3.505583, 36.778389) is a government school that is located in Maasai community in a remote village of Nduruma found in Arusha, Tanzania.

The school provides education for students from nursery level to standard seven. However, like many government schools, it faced numerous challenges that impacted the quality of education.

The most pressing issue was the lack of enough classrooms, resulting in overcrowding. The student-teacher ratios exceeded the recommended limit of 1:45, with one classroom having to accommodate 62 students. Consequently, students had to sit on dusty floors or share chairs meant for fewer students.

The classrooms also had leaky roofs, damaged walls, and peeling paint, this made the learning environment less conducive.

In addition, the classrooms were lacking doors and glass, which made it even more challenging during the rainy seasons.

The construction of 11 new classrooms at Oldenderet Primary School was a significant need. It aimed to create a better learning environment for 495 students who are eager to pursue their education and break the cycle of poverty in their families and communities. Due to the limited number of classrooms, the school struggled to accommodate the increasing enrollment of students each year.

> "Hundreds of community members gave up their time to come and help with the classrooms. It was incredible to see such dedication."

How will this project be sustainable?

This is a long term partnership with Oldenderet Primary School. Made With Hope and our delivery partner will be visiting this school at least every month to check on the maintenance of the school as well as implementing other projects.

We established project committees which will be organizing budget for the project maintenance. This committee includes the local government officials, teachers, parents, community members and students.

Since supporting Oldenderet school their grades and attendance have dramatically improved.

Thank you!

With the amazing support from One Kind Act and Brinda Jaykant Shah Foundation, and Zac we have been able to transform Oldenderet and will be forever grateful.

The local community are so proud that their school is now recognised by the government as exemplary.

FEEDING PROGRAMME

With the help of our fantastic implementation partner (Ndoto in Action, a registered Tanzanian NGO) we have implemented an identical feeding programme at nearby Umoja primary school (one of our partner schools).

We have seen a number of exciting outcomes including a decrease in hunger, decrease in absences related to ill-health, reduced diarrhea incidents at school, improved concentration, student's reporting improved health, increased knowledge of agriculture and nutrition of students and parents, since the students started consuming the nutrients they were growing in their school garden.

Based on this learning and impact we've generated at Umoja primary school, we plan to replicate this at all of our 9 partner schools.

School garden, kitchen, and dining area

Our new dining and garden area is providing nutritious and hygienic lunches for 515 students.

Below: Harvesting cucumbers

Below: Learning about diameter and radius in mathematics.

Above: Enjoying lunch sheltered from the rain. It's part of their culture to eat on the floor, and most of their parents still do.

OUR VALUES

Donation promise

We are a team of passionate volunteers which means we have almost no running costs. This allows us to donate 100% of your funds to the projects in Tanzania.

Transparency

We see it as a fundamental right that every supporter knows exactly where every penny of their money is spent.

Purpose

We have an awareness and social conscience that millions of people live in extreme poverty through no fault of their own and we desire to take action as global citizens.

Collaboration

We do this through collaborating with local Tanzanian NGOs to address the specific educational needs of children in their community.

WHY WE'RE DIFFERENT

Transparency

We believe in transparency so much that we publish our mistakes online.

Quality over quantity

We focus on quality of education as opposed to quantity.

Finding solutions together

We listen to the community and find solutions together.

Partnership

We partner with a Tanzanian NGO to deliver the projects & we remain behind the scenes.

Volunteer led

We are led by volunteers in the UK with a variety of diverse skills.

HOW WE APPROACH TRANSPARENCY

One of Made With Hope's first ever aims was to create an organisation where people felt like they knew where their money was going.

When we first started, we struggled to understand why charities seemed so shiny and perfect. No one was talking about their mistakes or lessons learned. We knew this didn't add up because the public were struggling to trust charities and news stories would appear about charity's mistakes. Here is how we're tackling this issue.

We clearly publish our mistakes and lessons learned on our website. Visit our page on transparency.

We frequently share our receipts online.

We invite supporters to challenge our transparency.

We show how we spend donors money in detail that is reader friendly (aka you don't have to be an accountant to understand it).

"Public trust in charities is going down. The main reason for this is lack of transparency."

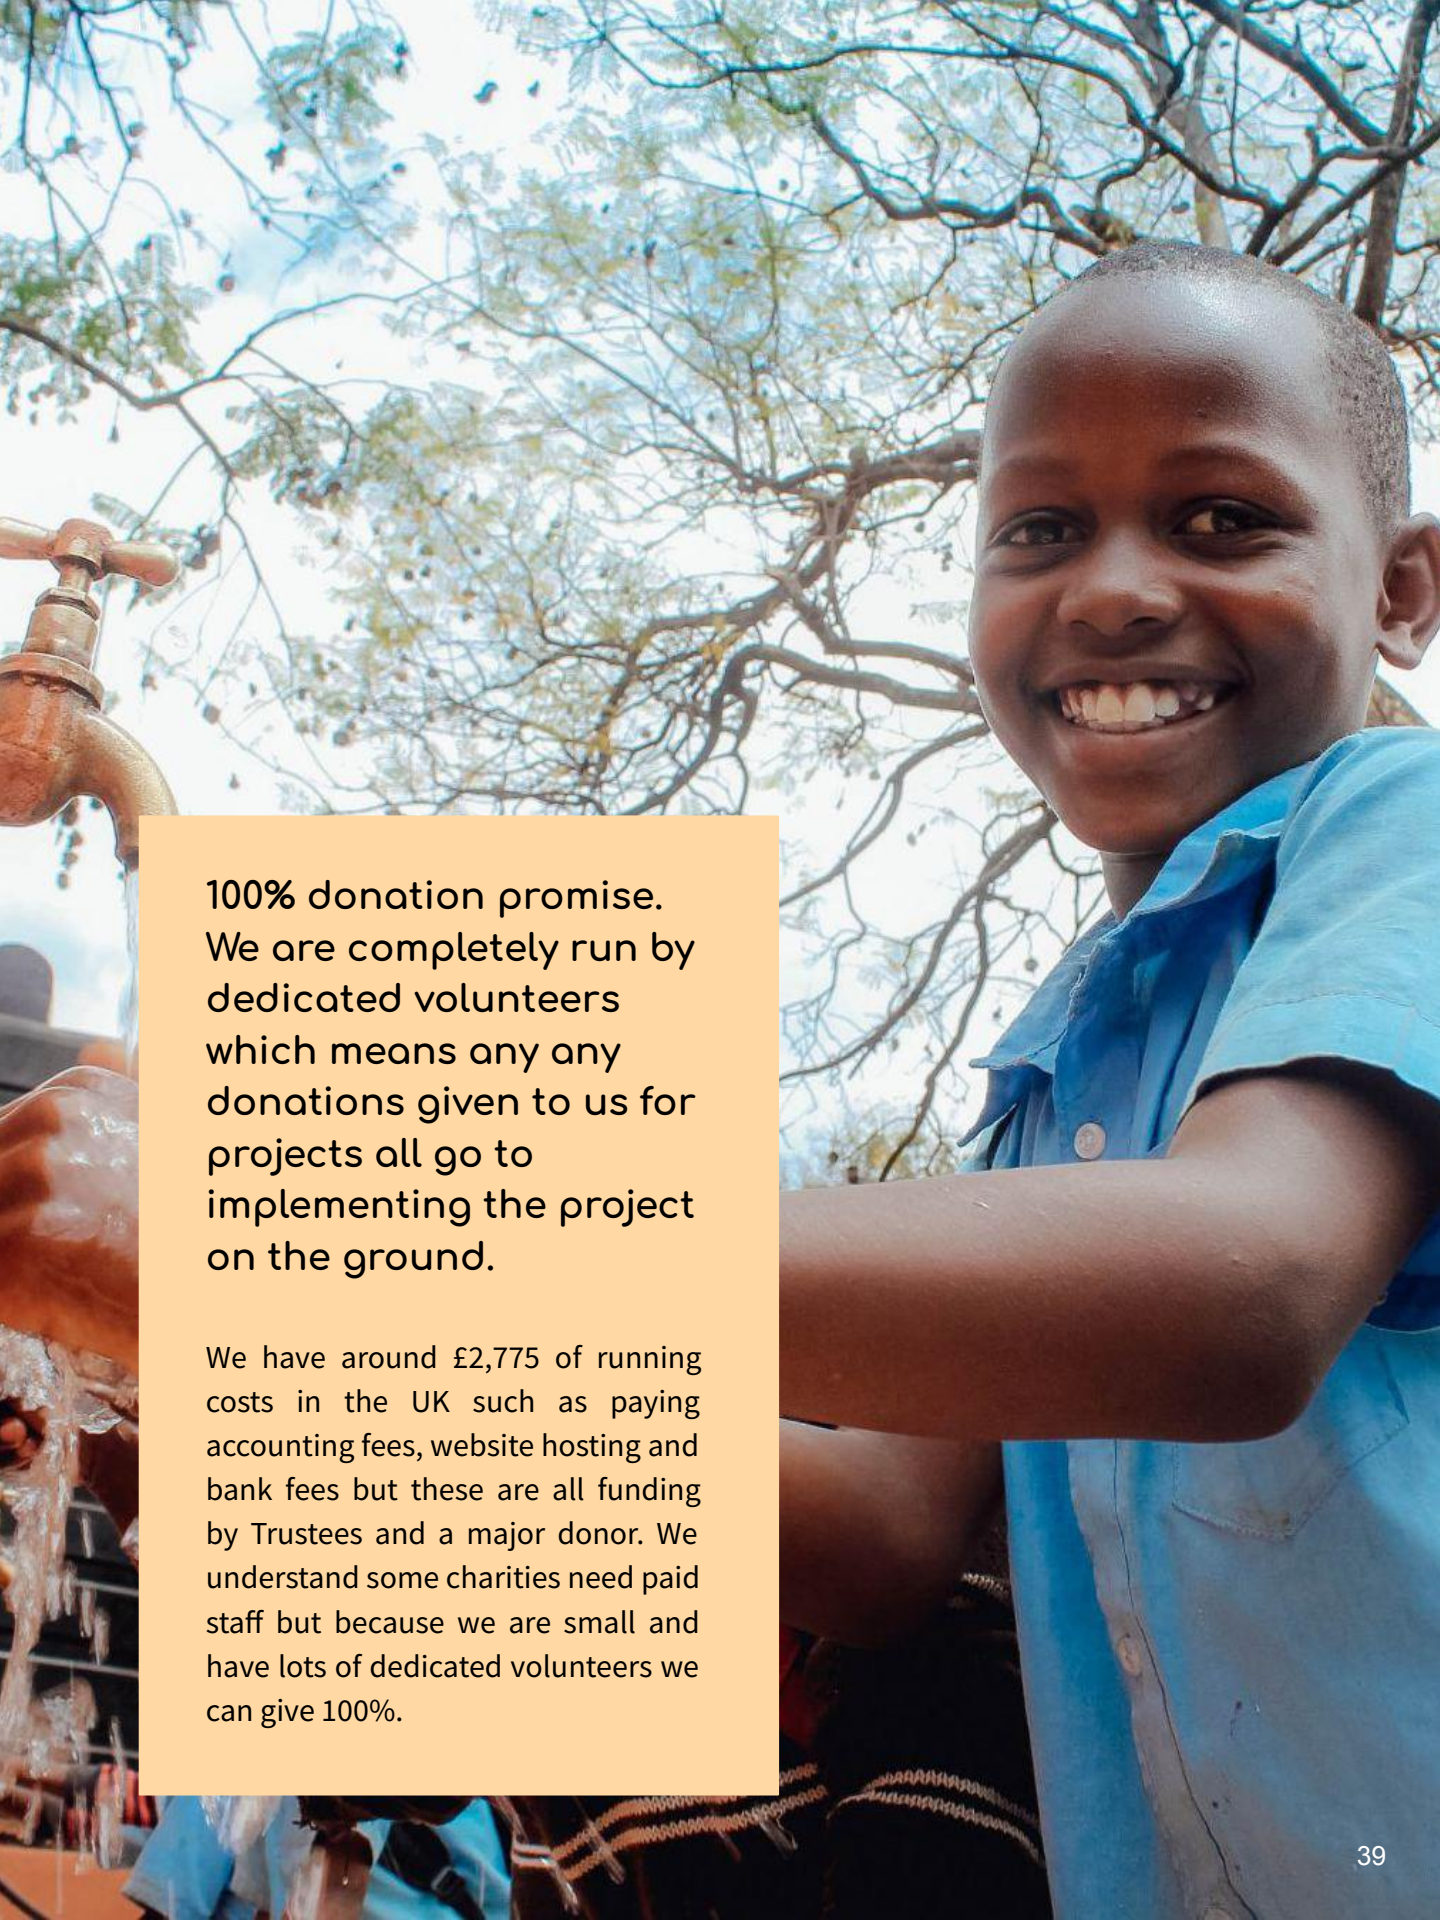

Charity commission report 2018

BEHIND THE SCENES

It’s not always easy to see what a charity is doing to improve their organisation so that can continue to work towards achieving their mission and be a strong, sustainable organisation. As part of our transparency aims we’re sharing things we’ve been doing this year that are helping to improve our charity.

Our incredible team in Tanzania is growing. We have so many projects being funded and implemented in our partner communities that we needed more staff. Ndoto in Action (our partner in Tanzania) now has 2 paid staff and 7 very dedicated volunteers that contribute weekly, almost daily to the operations of projects.

100% donation promise. We are completely run by dedicated volunteers which means any any donations given to us for projects all go to implementing the project on the ground.

We have around £2,775 of running costs in the UK such as paying accounting fees, website hosting and bank fees but these are all funding by Trustees and a major donor. We understand some charities need paid staff but because we are small and have lots of dedicated volunteers we can give 100%.

Thank you!

None of the projects we do are possible without the very generous donations we receive. We are eternally grateful for every single person that supports the work we do.

We want to give a special thank you to:

- Kaushik who cycled from Mumbai to Goa
- Scott and Matt who cycled 950 miles across Tanzania on a bamboo bicycle
- Jonny, Matt and Tom who did an Iron Man
- Shivam for climbing Mount Kilimanjaro
- Tash and Alex for hosting a Barrys fundraising event
- Zac and Leor for visiting our projects in Tanzania and paying all their costs
- One Kind Act, Brinda Jaykant Shah Foundation, Guernsey Overseas Aid, Educational and General Charitable Trust, Archer Trust, Coles-Medlock Foundation and Affinity Fragrances who all kindly contributed funds to our projects.

INCOME & EXPENDITURE

A glance at us since we began

We were very pleased with the income and expenditure of 2022 here at MWH. We found our fundraising and project implementation very manageable as a team of volunteers and we made a huge impact to thousands of children.

Total our volunteers have raised to date: £709,486

Income

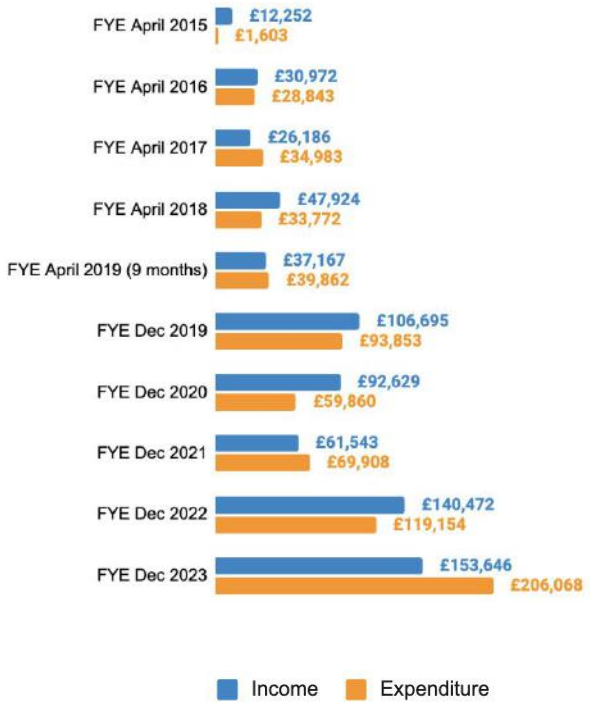

We are incredibly excited that we absolutely smashed our fundraising goal this year! Our team of volunteers raised a total of £153,646 through applying to Trusts and Foundations, corporate sponsorships, challenges, online giving and major donors.

With every donation we get we honestly still feel so surprised and so happy that someone has chosen to believe in the work we do. We are forever grateful even after 10 years.

Expenditure

We spent £206,068 this year. Only £2,775 of this was on our running costs such as accountancy fees, consultancy fees and website hosting. This is funded by our Trustees and a major donor so that we can ensure that 100% of your donation goes to our projects in Tanzania.

Our finances year on year

Bankers	Starling Bank

2. Structure, governance and management

Governing documents

Made with Hope is a charitable company limited by guarantee incorporated on the 15th April 2014 and registered as a charity on 25th February 2015. The Company was established under a Memorandum of Association which established the objects and powers of the Charitable Company and is governed under its Articles of Association

Appointment of Trustees

Trustees are appointed by existing trustees.

3. Financial Review

The total income for the year was £153,646 This income is allocated across respective funds on the accruals account.

The statement of assets and liabilities as at 31st December 2023 shows total funds carried forward of £25,959

4. Public Benefit Statement

The trustees have referred to the Charity Commission's guidance on public benefit when reviewing the charity's objectives and planning its future activities. This annual report will aim to demonstrate the link between our charitable activity and how this benefits our service users

5. Objectives and activities

Made With Hope believes every child living in rural Tanzania should have access to quality education to break the cycle of living in poverty. We empower these children through constructing or renovating schools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

We aim to

- Partner with communities and their schools to address the issues their children face when trying to get a quality education.
- Provide sustainable educational facilities in rural Tanzania including primary and secondary schools.
- Use educational facilities as a base to offer health and wellbeing projects to support children in their ability to attend school consistently throughout the academic year.
- Empower small local Tanzanian NGOs that understand their communities needs and enable them to create solutions to the problems they see.
- Maintain a high level of transparency and uphold our strong values to develop and promote an ethical way of running a charity.

6. Achievements and Performance

Always working in partnership

We are working alongside Tanzanian organisations, the Tanzania n government, Tanzanian schools and rural communities to identify schools in the greatest need of our support. We have visited several schools with Tanzanian Government Education Officers and have formed partnerships with 13 communities/schools to work with.

Although we focus on empowering children through education, we seek to work alongside communities and empower them too, by engaging them throughout our projects. With any project, community members are engaged through several community workshops so we can explore the best solutions for their children, together. We discuss and agree on a partnership that will have the biggest impact. From our experience, working alongside the community encourages ownership of a project to ensure its sustainability.

We work alongside communities for several years to ensure projects are sustainable before we consider leaving that community.

Our Delivery Partner

We work in partnership with local people who truly understand their community's needs. These partnerships are formed by our implementation partner, Ndoto in Action which is a Tanzanian registered NGO (charity) that exists to deliver projects that will help give children a chance to escape the poverty cycle. The Director, Hussein, is also the founder of Ndoto in Action and has a team of volunteers working with him to deliver projects in the communities. Their dedication is truly admirable and their quality of work is incredible. This partnership we have is so special and works so well in supporting our beneficiaries.

Our Values

- Collaborative: We do this through collaborating with local Tanzanian NGOs to address the specific educational needs of children in their community.
- Transparency: We see it as a fundamental right that every supporter knows exactly where every penny of their money is spent. *
- Empower: We know that education is a fundamental way to empower a child to break the cycle of living in extreme poverty.
- Purpose: We have an awareness and social conscience that millions of people live in extreme poverty through no fault of their own and we desire to take action as global citizens.

Dedicated to Transparency.

Public trust in charities is going down. The main reason for this is lack of transparency. (Charity Commission report, 2018)

One of Made with Hope's first ever aims was to create an organisation where people felt like they knew where their money was going. When we first started, we struggled to understand why charities seemed so shiny and perfect. No one was talking about their mistakes or lessons teamed. We knew this didn't add up because the public were struggling to trust charities and news stories would appear around charities mistakes. Here is how we' re tackling this issue.

- We clearly publish our mistakes and lessons learned on our website. See our Transparency web page.
- We frequently share our receipts online.
- We invite supporters to challenge our transparency.
- We show how we spend donors' money in detail that is reader friendly

Our impact in 2023

- Successfully collaborated with all of the communities we worked with since 2019 with full engagement and voluntary hours completed at construction projects from the community members.
- Recognition from the local and regional education department in the Tanzanian government for the work we are doing in Arusha communities.
- Significantly increased the attendance, academic achievement, motivation, morale, and safety of 900 hundred students by constructing 20 safe and inspiring classrooms.
- Installed a 5,000-litre rainwater harvesting system to collect clean water in our two new toilet blocks at Oldenderet and Maji Moto Primary School
- Increased the well-being and attendance of 1,265 students at Manyire and Mzimuni Primary School by constructing two toilet blocks. A Made with Hope toilet block consists of 10 girls' toilets, a changing room, a boys' urinal area, two boys' toilets and a disabled-friendly toilet. No longer will students have to defecate on school grounds or be at risk of disease in their old, dilapidated toilets.
- We implemented a Menstruation Hygiene Management Project which educated 760 girls, 849 boys, 11 teachers and 180 parents about supporting their girls during menstruation and breaking down taboos.
- Distributed packs of reusable sanitary towels for up to 760 menstruating girls at Manyire, Umoja and Muungano Primary School
- Thoroughly trained 6 teachers at 3 schools in how to continue the menstruation programme and implement it into their curriculum

Fundraising and Operational Highlights

We still operate on a 100% donations to our projects policy. Our very small admin costs (around £2000) are funded by our Trustees and major donors separately.

As a volunteer only charity, we are really pleased with what we have achieved. We are so lucky to have so many dedicated volunteers helping to run our projects, website, social media, donor stewardship, bookkeeping, safeguarding and much more.

In 2023 we decided to continue to focus our fundraising on major donors, challenges and Trusts and Foundations because we do not have the capacity to run community events. We have been successful in securing several new donors as well as maintaining almost all of our existing donors.

Due to the capacity building of Ndoto in Action from Made with Hope over the last 3 years, Ndoto in Action are now taking on many of the tasks that MWH were doing. For example they are now posting more updates on our social media to share what is happening on the ground almost daily. Their volunteers are also supporting the development of fundraising applications and reports which is allowing MWH to send more applications out. This development of Ndoto in Action is exciting and helps Made with Hope focus on diversifying our income.

Operationally we are seeking additional Trustees to diversify our board but we are not going to rush into finding Trustees unless they have the right skill set and time to give to the charity.

7. Statement of Trustees responsibilities

The Trustees (who are also the directors of Made With Hope Limited) for the purposes of company law) are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company at the end of the year and of the incoming resources and application of resources for the year then ended.

In preparing those financial statements, the trustees are required to: -

- select suitable accounting policies and then apply them consistently.
- make judgements and estimates that are reasonable and prudent.
- Observe the methods and principals in the Charities SORP.
- state whether applicable accounting standards and statements of recommended practice have been followed, subject to any material departures disclosed in the financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue its activities.

The trustees are responsible for keeping proper accounting records which disclose, with reasonable accuracy at any time, the financial position of the charity, and enable them to ensure that the financial statements comply with the Companies Act 2006. The trustees are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud or other irregularities.

Approved by the Board on: 02-May-2024

Independent Examiners Report to the Trustees

I report on the accounts of the company for the year ended 31st December 2023, which are set out on pages 9-13

Respective responsibilities of trustees and examiner. The trustees (who are also the directors of the company for the purposes of company law) are responsible for the preparation of the accounts. The trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed.

Having satisfied myself that the charity is not subject to audit under company law and is eligible for independent examination, it is my responsibility to:

- examine the accounts under section 145 of the 2011 Act.
- to follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act: and
- to state whether matters have come to my attention.

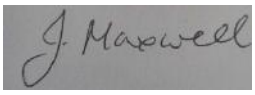

Basis of independent examiner's report. My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe: -

I. Accounting records were not kept in respect of the company as required by Section 386 of the 2006 Act: or
2. the accounts do not accord with those records: or
3. the accounts do not comply with the accounting requirement of Section 396 of the 2006 Act other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination: or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and republic of Ireland (FRS102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in the report in order to enable a proper understanding of the accounts to be reached.

1. Basis of Accounting

The accounts have been prepared using the accruals method. An audit is not required by the Charity's constitution and has not been requested by the Trustees.

2. Trustee Expenses

No Trustees were paid expenses during the period

3. Guarantee

There have been no guarantees given by Made with Hope at 31st Dec 2023.

4. Debt

There is no debt outstanding which is owed by Made with Hope and which is secured by an excess charge on any of the assets of Made with Hope at 31st December 2023.

5. Fund Accounting

Unrestricted funds are donations and other incoming resources receivable or generated for the objects of the charity without further specified purpose and are available as genera l funds.
Designated funds are unrestricted funds earmarked by the trustees for particular purposes. Restricted funds are to be used for specific purposes as laid down by the donor.

6. Risks

The trustees have examined the major risks which the charity faces in relation to external factors, governance and management, internal operations and business. The trustees have considered the likelihood and the impact of risks, and continually review the systems in place to reduce those risks. The systems are being designed to provide reasonable assurance against material loss.

7. Fixed Assets

All fixed assets are initially recorded at cost. Assets with a value of less than £200 are not capitalised

8. Income

A MESSAGE FROM THE CHAIR AND FOUNDER

This year has just been incredible! After 9 years of running Made with Hope I really feel like this has been our best year yet.

We fundraised our biggest amount in one year at £142k thanks to our very generous donors and dedicated Trustees and volunteers. Honestly, the fact that our small volunteer led charity can raise that amount of money is something I wouldn't have believed as I sat in my bedroom at 23 years old, struggling to raise the first £1,000 because I was rubbish at asking people for money.

The impact we've made on the ground is obviously the thing we most care about most. Our incredible partner on the ground is just exemplary. Their knowledge and dedication to delivering the projects to such a high standard astounds me every time. We have such a great relationship with them and I can't wait to improve the lives of thousands more children in Tanzania with them.

I wanted to say a special thank you to Alexander, our Chair, who has visited our projects each year the last couple years because I have been unable to due to being pregnant and having a baby. We are a great team!

In 2022 Made With Hope has really gone from stride to stride. Having solidified our strategy and operations post COVID in 2021, our focus for 2022 onwards is to ensure that we now deliver 100% of our programmes at all 11 of our partner schools, before we expand any further.

This year we managed to fundraise our highest ever amount, in an incredibly effective manner, by focusing our efforts on a small number of very supportive trusts and donors, to whom we are eternally grateful.

On top of this, we also managed to deliver a record number of projects at the same time. When you have to take into account the time it takes to scope out a project, work with the community, deploy the funds, build the infrastructure and handover the project; to complete 6 large projects in one year is truly a testament to the hard work from everyone involved.

A special thank you from me really goes to our partner on the ground Ndoto In Action, without whom, none of this would have been possible. Their hard-work, quality and speed is extremely admirable and they are delight to work with every day. They truly are the reason why we are able to help thousands of children in Tanzania every year and I am extremely proud of them and appreciate of everything they do.

All that is left to say is a huge thank you to everyone who supported us in 2022, it means the world to us and more than you could ever know to the 6,000 children we support.

Eleanor Teeling
Founding Director
(voluntary role)

Alexander Margolin
Chair (voluntary role)

Made With Hope believes every child, especially girls, living in rural Tanzania should have access to a quality education to break the cycle of living in poverty.

We empower these children through constructing or renovating schools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

WHAT WE DO

- **Provide sustainable educational facilities** in rural Tanzania including primary and secondary schools
- Use educational facilities as a base to **offer health and wellbeing projects** to support children in their ability to attend school consistently throughout the academic year
- Empower & partner with small local Tanzanian NGOs and communities that understand their needs and **create solutions together**
- Maintain a high level of **transparency** and uphold our strong values to develop and promote an ethical way of running a charity

100% DONATION PROMISE

We are completely run by volunteers so **all of your money** goes to the projects in Tanzania.

WHY WE WORK IN RURAL VILLAGES IN ARUSHA TANZANIA

6
average years of school

42%
of children are malnourished (UNICEF)

63
years old is the average life expectancy

160th
poorest country in world (UN)

67.9%
of the population live in poverty with the vast majority living in rural regions (World Bank)

6%
increase in the number of women and men completing secondary school in 2016 (World Bank)

ABOUT THE SCHOOL COMMUNITIES WE PARTNER WITH

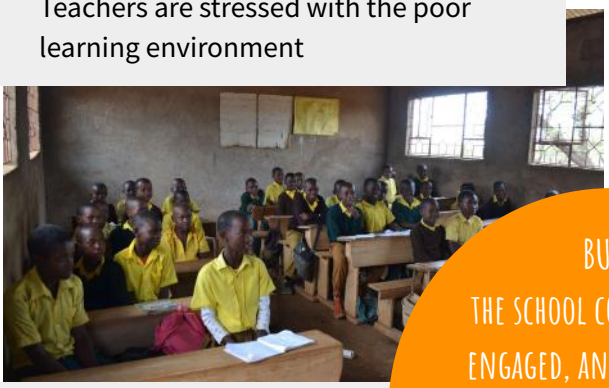

Each school only receives £15 a month for maintenance

Children have to walk long distances to school

Teachers are stressed with the poor learning environment

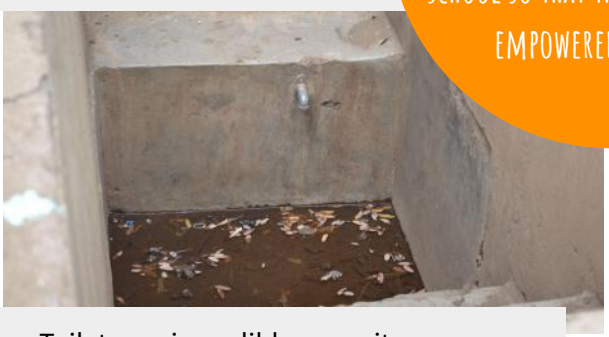

BUT...
THE SCHOOL COMMUNITY IS ENGAGED, AND WE WORK IN COLLABORATION TO IMPROVE THEIR SCHOOL SO THAT THEIR CHILDREN ARE EMPOWERED TO LEARN!

Hygiene facilities and practices are poor

No or limited access to clean water

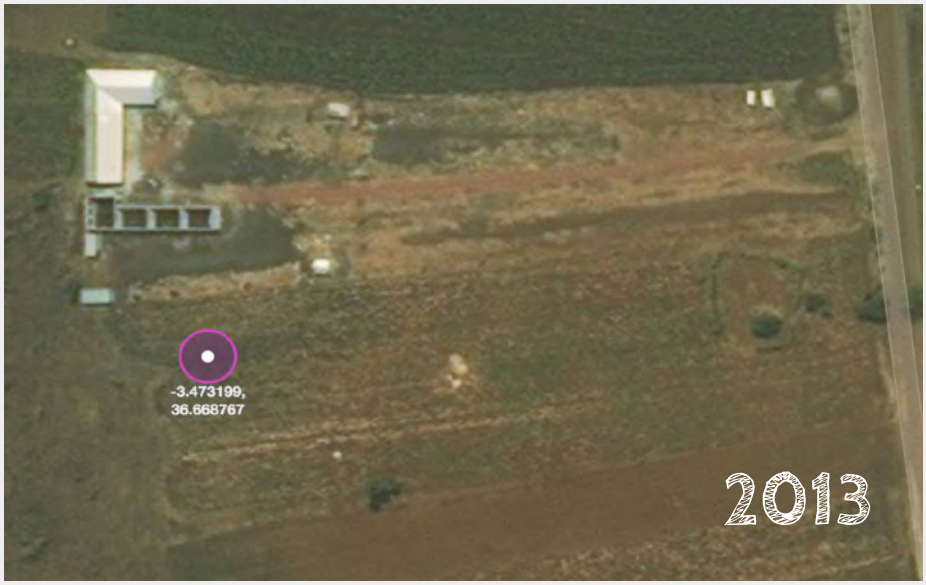

School classrooms are very overcrowded - up to 100 students to 1 teacher

Toilets are incredibly unsanitary, dangerous and not suitable for use

There is limited or no support for girls who are menstruating

Transparency is so important to us

Here is an example of just one of the schools we've transformed with the help of our amazing supporters.

You can google the GPS Coordinates -3.473086,36.669025 to see for yourself.

WHY DO YOU WORK IN TANZANIA?

Established in 2013, Made With Hope is a small volunteer-led charity which exists to provide quality education to enable children to break the cycle of poverty.

With a desire to make the world a little bit fairer, our founder, at age 23 years old, visited Tanzania in 2013 to find a way to empower children living in very remote, isolated villages where life expectancy was low, income was less than $2 a day, there was no public transport and poverty affected the vast majority. Investing in quality education was something that could make an impact to these children.

Our organisation was born in our founder's spare bedroom and run by passionate volunteers which means that every person involved is a part of our mission because they really care about it.

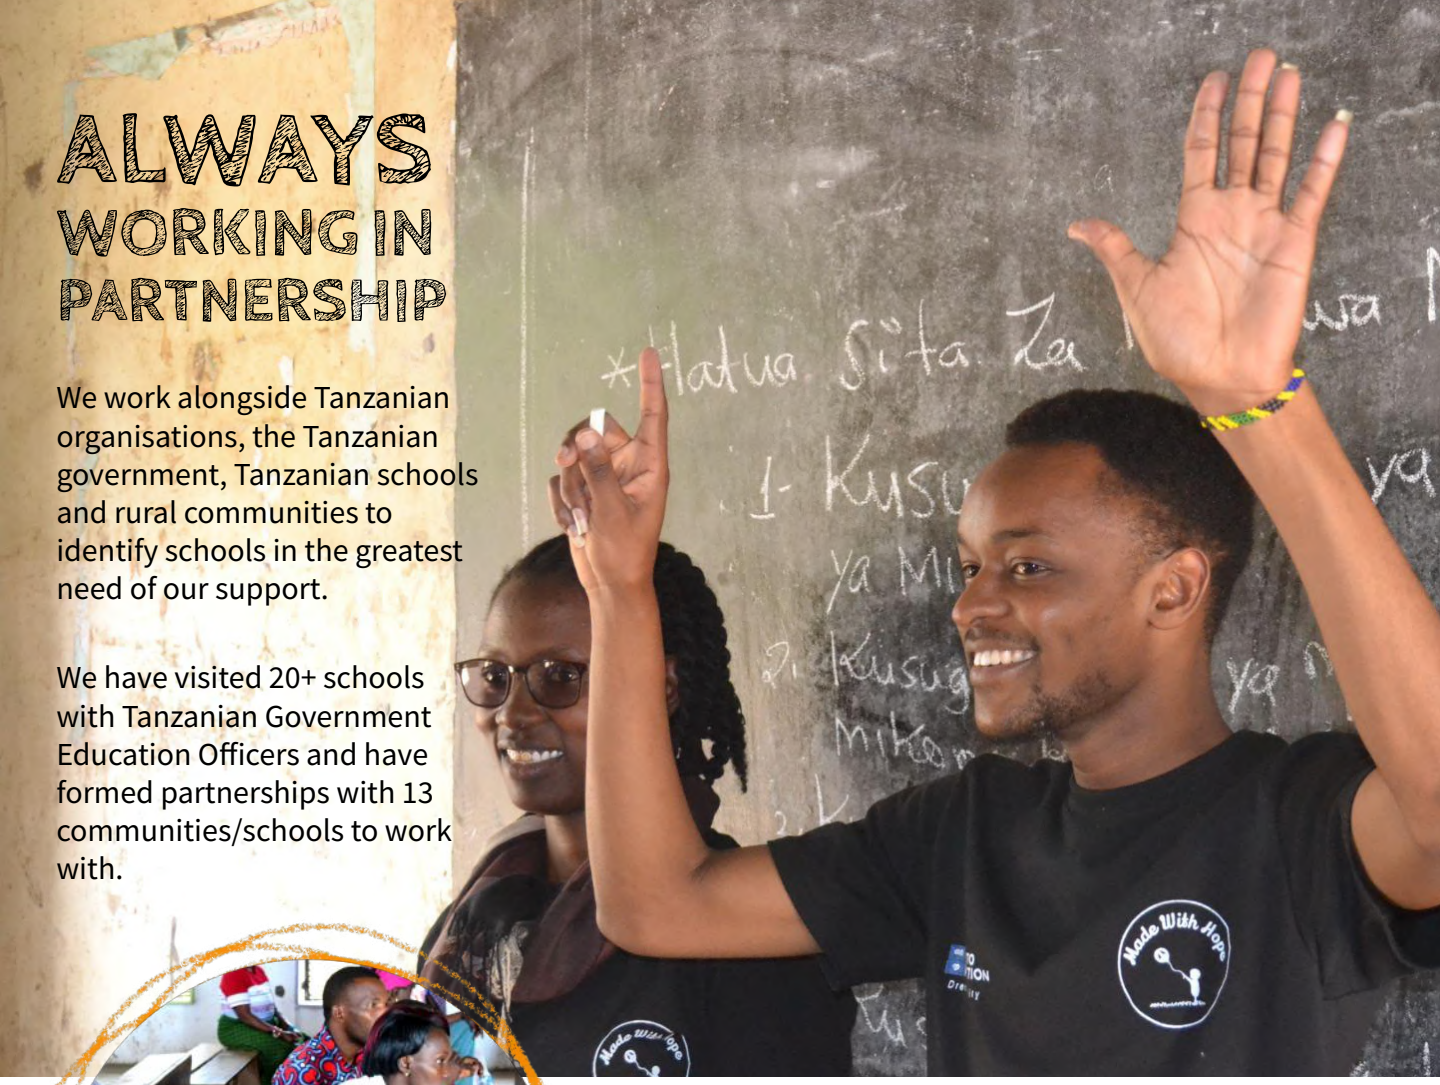

WHY WE SUPPORT CHILDREN'S EDUCATION IN TANZANIA

- Girls are often stigmatised during menstruation and do not attend school
- 5 students have to share 1 textbook
- Disease from lack of sanitation is a huge factor in why children miss school
- If a child doesn't pass their exams at the end of Primary School first time, they will be not be able to attend Secondary School
- Education is proven to enable children to break the cycle of poverty
- Tanzania's Free Education For All policy in 2003 has made schools severely overcrowded. We have visited class sizes of 144 in one standard classroom
- There is not enough funding in central government to build enough classrooms, toilets or desks for the students
- Education quality is often very low because one teacher cannot teach so many students

ALWAYS WORKING IN PARTNERSHIP

We work alongside Tanzanian organisations, the Tanzanian government, Tanzanian schools and rural communities to identify schools in the greatest need of our support.

We have visited 20+ schools with Tanzanian Government Education Officers and have formed partnerships with 13 communities/schools to work with.

Although we focus on empowering children through education, we seek to work alongside communities and empower them too, by engaging them throughout our projects.

With any project, community members are engaged through several community workshops so we can explore the best solutions for their children, together. **We discuss and agree on a partnership** that will have the biggest impact. From our experience, working alongside the community encourages ownership of a project to ensure its sustainability.

We work alongside communities for several years to ensure projects are sustainable before we consider leaving that community.

Our value: Collaboration

OUR WORK WITH THE COMMUNITY IN 2022

Community participatory approach

To make sure the we bring the impactful projects, we worked with the community members to find the problems they are facing through focus group discussions, interviews and community meetings then prioritizing the most critical challenges and find solution together. We are applying a community participatory approach in every project we deliver which means, the community members are involved in designing stage of our projects.

Inception meetings

We conduct inception meetings before we start the implementation of the project. This helps community members to know better their responsibilities to the project and what to expect. These meetings usually involves, school committees which contains local government officials, teachers, parents and students.

Community contribution

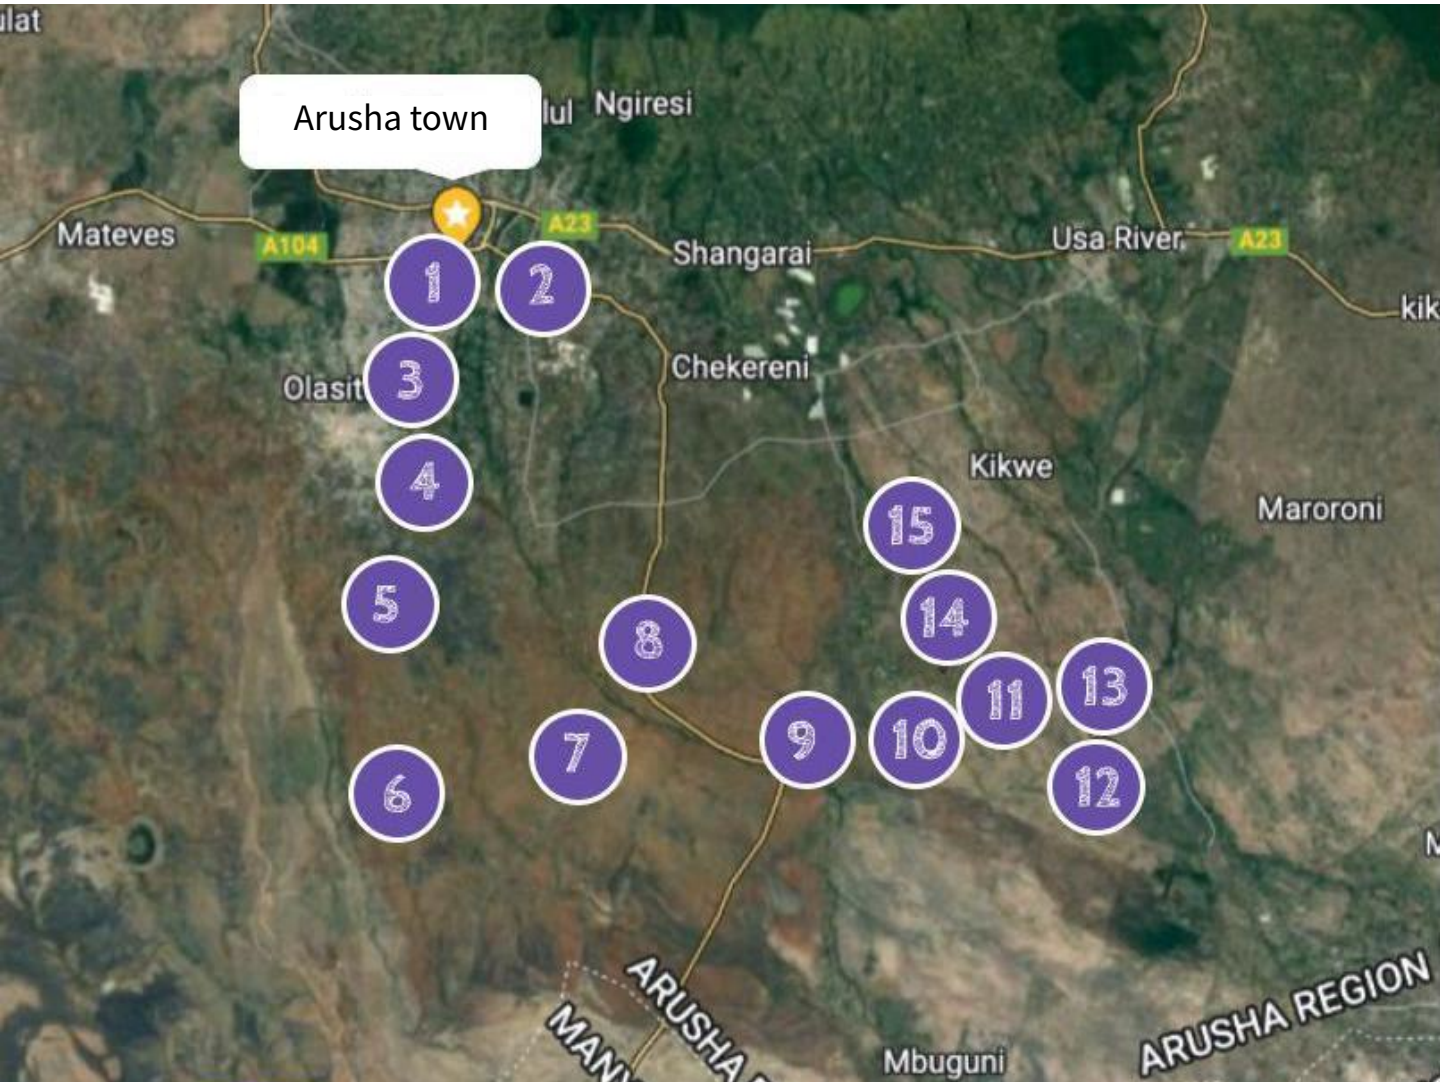

To create a sense of ownership, we asked community members to contribute to 10% of the project in the form of manpower. This helps them to project the project at any cost when we left because they have contributed to it and they are not ready to see it destroyed.

LOCATIONS OF OUR PARTNER SCHOOLS

These 15 schools are where Made With Hope have identified a great need to support children's education.

We have formed partnerships with all of these communities are and working together to create sustainable projects that better the lives of the children in their impoverished village.

Transparency is so important to us.
We show you **exactly** where your help is supporting.

OUR TANZANIAN PARTNERS ON THE GROUND

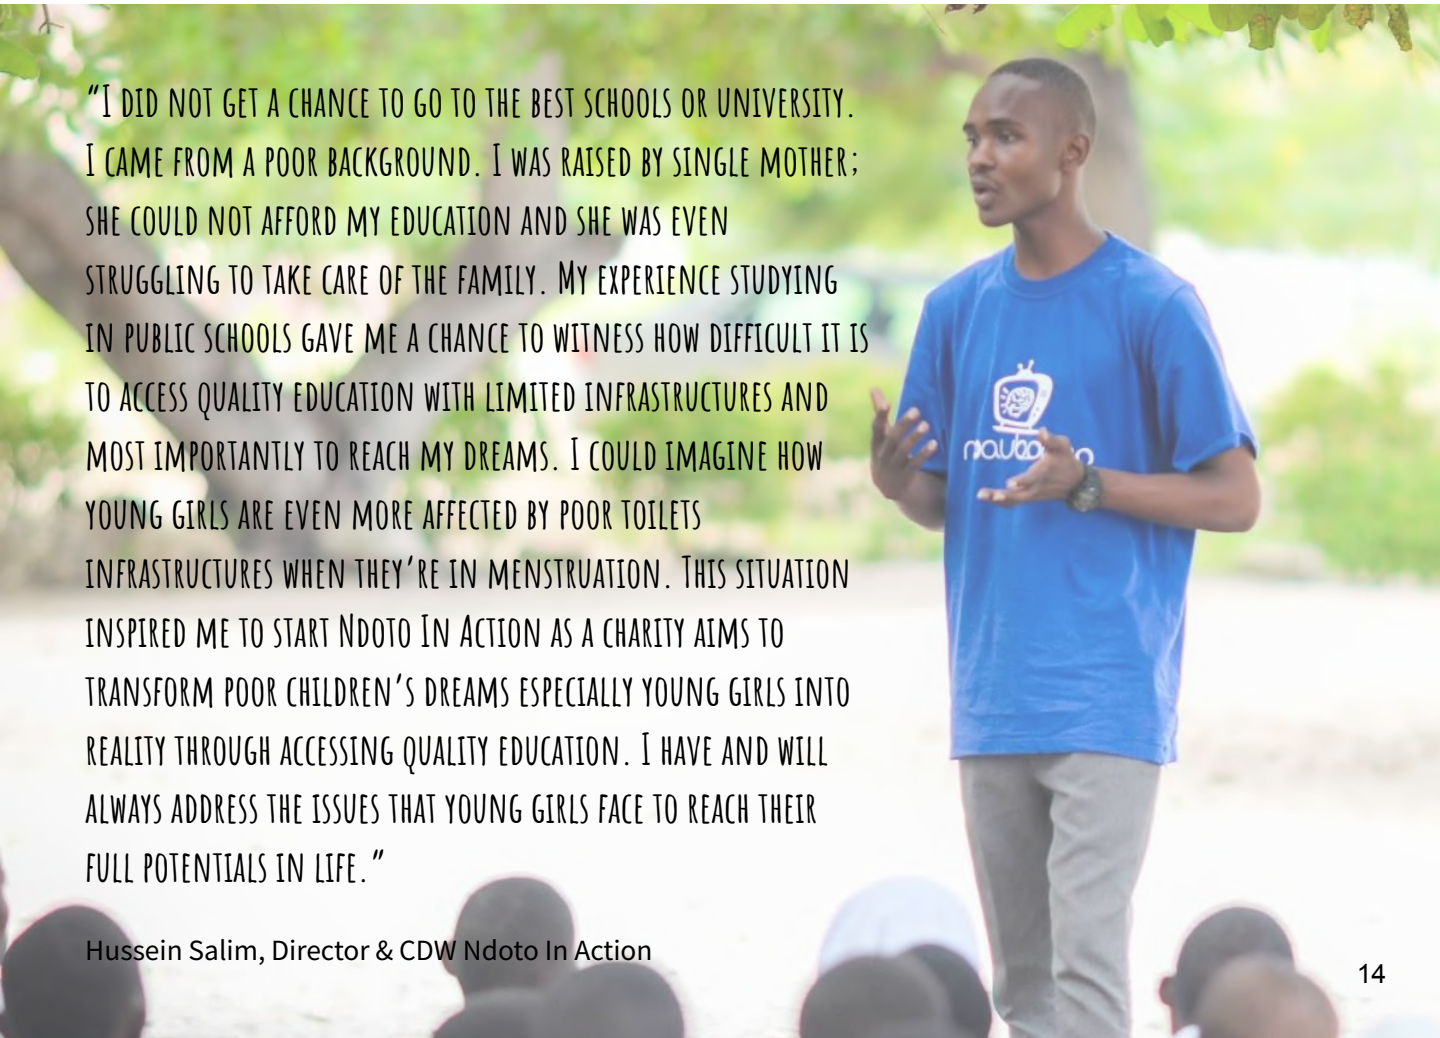

Ndoto in Action

Ndoto in Action have been our main delivery partner since 2020. Their main focus is to dramatically transform poor rural government schools to they can provide a quality education. This partnership works so well as Made With Hope utilises the fundraising opportunities we have access to here in the UK, Ndoto in Action deliver to projects closely with the community and we both collaborate in monitoring and evaluating the impact of them.

" I BELIEVE QUALITY EDUCATION IS THE KEY TO BREAKING THE CYCLE OF POVERTY. BUT QUALITY EDUCATION NEEDS A CONDUCIVE ENVIRONMENT FOR IT TO TAKE PLACE; NDOTO IN ACTION AND MADE WITH HOPE HAVE PARTNERED TO CREATE THIS CONDUCIVE ENVIRONMENT TOGETHER WITH THE HELP OF THE COMMUNITY AND OUR SUPPORTERS ACROSS THE WORLD"

Denish, Trustee at Ndoto In Action

"I DID NOT GET A CHANCE TO GO TO THE BEST SCHOOLS OR UNIVERSITY. I CAME FROM A POOR BACKGROUND. I WAS RAISED BY SINGLE MOTHER; SHE COULD NOT AFFORD MY EDUCATION AND SHE WAS EVEN STRUGGLING TO TAKE CARE OF THE FAMILY. MY EXPERIENCE STUDYING IN PUBLIC SCHOOLS GAVE ME A CHANCE TO WITNESS HOW DIFFICULT IT IS TO ACCESS QUALITY EDUCATION WITH LIMITED INFRASTRUCTURES AND MOST IMPORTANTLY TO REACH MY DREAMS. I COULD IMAGINE HOW YOUNG GIRLS ARE EVEN MORE AFFECTED BY POOR TOILETS INFRASTRUCTURES WHEN THEY'RE IN MENSTRUATION. THIS SITUATION INSPIRED ME TO START NDOTO IN ACTION AS A CHARITY AIMS TO TRANSFORM POOR CHILDREN'S DREAMS ESPECIALLY YOUNG GIRLS INTO REALITY THROUGH ACCESSING QUALITY EDUCATION. I HAVE AND WILL ALWAYS ADDRESS THE ISSUES THAT YOUNG GIRLS FACE TO REACH THEIR FULL POTENTIALS IN LIFE."

Hussein Salim, Director & CDW Ndoto In Action

OUR IMPACT IN 2022

We successfully collaborated with all of the communities we worked with in 2022! With full engagement and hundreds of hours volunteered completed at construction projects from the community members.

We also had exemplary recognition from the local and regional education department in the Tanzanian government for the work we're doing in Arusha communities.

LET US LEARN: Learning environments

Building and equipping whole schools or new classrooms. Providing resources.

Our impact in 2022

- Improved learning environment and reduce overcrowding by renovating 9 classrooms at Marurani Primary School to educate 405 students
- Began renovating 10 classrooms at Maweni primary school for 450 students

WATER IS LIFE: Clean water

Collecting rainwater and transporting water to rural villages.

Our impact in 2022

- Installed a 5,000 litre rainwater harvesting system to collect clean water in our two new toilet blocks at Oldenderet and Maji Moto Primary School

P.T.O for our impact continued…

BEING WELL: Health

Preventative and simple health solutions for students such as toilets, health workshops, food programmes, hand washing.

Our impact in 2022

- Constructed 10 toilets at Oldenderet Primary School for over 173 girls to use and thousands more the future
- Constructed 10 girls toilets, 2 boys toilets and an accessible friendly toilet at Maji Moto primary school
- We started the construction of a kitchen and dining room at Mshikamano primary school
- We painted hygiene education pictures on all of our 6 new toilet blocks

GIRL EMPOWERMENT: Education for girls

Supporting girls education and menstrual hygiene management.

Our impact in 2022

- Implemented a Menstruation Hygiene Management Project which educated 173 girls, 185 boys, 11 teachers and 120 parents about supporting their girls during menstruation and breaking down taboos
- Distributed packs of reusable sanitary towels for up to 173 menstruating girls at Oldenderet Primary School
- Thoroughly rained 2 teachers at Oldenderet Primary School in how to continue the menstruation programme and implement it into their curriculum
- We provided 10 girls who are living in extreme poverty with 3 month food packages, new uniform, new shoes and stationery to help them attend school

Classrooms before

Classrooms after

CASE STUDY

LET US LEARN: MARURANI PRIMARY

GPS location: -3.495833, 36.826944

Why was this project needed?

When we first visited Marurani Primary School we were shocked at the state the 406 children were learning in.

The school did not have enough classrooms and the existing classrooms were dangerous, they had no windows so students got wet when it rained. There were no safe and hygienic toilets causing girls to skip school during their period and even defecation in the playground. This poor learning environment led to under achievement, poor attendance and lack of morale. Marurani was close to bottom in the leaderboard for standard 7 exams (the last year in school).

As you can see from the photo above the school was in desperate need of our support. We were overwhelmed by how interested the community was in joining forces to transform this school. So after several community meetings we planned several projects between 2019-2022 and we are please to say we completed them all. Please see overleaf for our impact and what we've achieved at Marurani in just 3 years.

Since we supported Marurani, their grades have helped them reach number one in their district.

MARURANI SCHOOL

NOW NUMBER 1
for grades in the district

13
new classrooms

800%
increase in water supply

2
new hand-washing facilities

12
new toilets

How will this project be sustainable?

This is a long term partnership with Marurani Primary School. Made With Hope and our delivery partner will be visiting this school at least every 1 months to check on the maintenance of the school as well as implementing other projects. We established project committees which will be organizing budget for the project maintenance. This committee includes the local government officials, teachers, parents, community members and students.

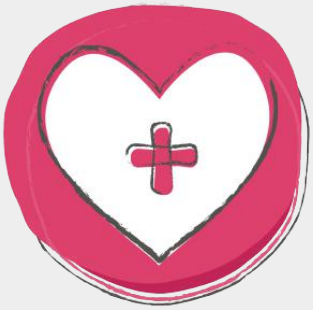

"Our community organised itself very well to volunteer hundreds of hours helping to build walls, dig holes and paint the new classrooms"

Marurani Headteacher

The local community are so proud that their school is now recognised by the government as exemplary. Marurani is now our example school of what we can achieve when we implement all of our basic projects:

LET US LEARN:
New safe classrooms

BEING WELL:
Handwashing facilities and new toilets

GIRL EMPOWERMENT:
Menstruation support for girls

WATER IS LIFE:
Enough clean, safe drinking water

Thank you

With the amazing support from One Kind Act and Brinda Jaykant Shah Foundation, Ashworth Charitable Trust and Zac we have been able to transform Marurani and will be forever grateful.

Cost of all projects: £59,749

New toilet block & 8 new water tanks for fresh rainwater

BEING WELL:
NEW TOILETS

Facilities for **799** students

Students at Oldenderet and Maji Moto primary school deserved a clean, safe toilet to use so they could learn comfortably and attend school.

The female students (up to 384) at these two schools would not attend school whilst they were menstruating. This meant they were missing up to 5 school days a year. That equates to **missing up to 48 days of vital lessons each year**. Their exam results were extremely poor compared to their male students and they were often not passing their secondary school entrance exams. This meant their education was often stopping at just 14 years old. Then then had **very few opportunities**. They could take part in child labour or get married and pregnant at this young age in order to survive.

For girls in Tanzania, missing school has even more detrimental effects as they are at a much **higher risk of being abused**, taken advantage of and ending up trapped in a cycle of poverty.

If we give girls a quality education, they have what they need in order to try and get a good job in the future which is so empowering for them.

We don't forget boys of course. We construct two boys cubicles and a large urinal area for up to 10 boys at a time. We also install an accessible friendly toilet for those with mobility issues.

Oldenderet school toilets before and after for 358 students

Maji Moto before and after for 358 students

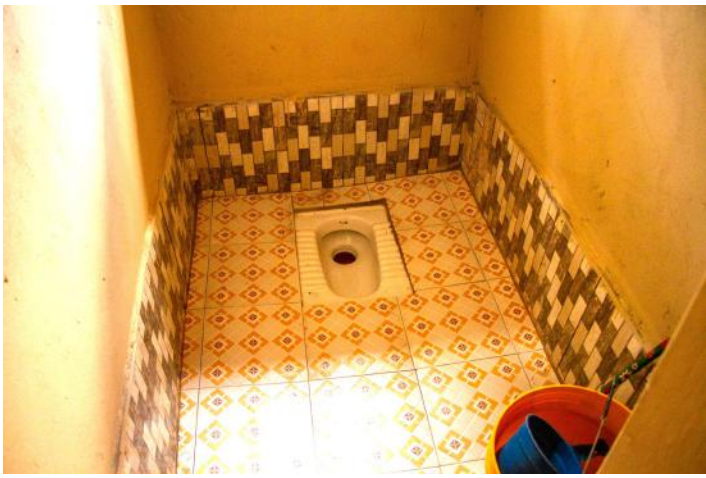

The local government was about to close Maji Moto in 2022 because there were no safe toilets. But now the school can stay open!

Includes 10 girls toilets, 2 boys toilets, 1 accessible friendly toilet and a boys urinal area for 10 boys

A **huge thank you** to British Foreign School Society and Allan and Nesta Ferguson Charitable Trust for supporting the construction of these two toilet blocks. We are eternally grateful you've supported our small charity.

OUR VALUES

Purpose

We have an awareness and social conscience that millions of people live in extreme poverty through no fault of their own and we desire to take action as global citizens.

Collaborative

We do this through collaborating with local Tanzanian NGOs to address the specific educational needs of children in their community.

100% Donation Promise

We are a team of passionate volunteers which means we have almost no running costs. This allows us to donate 100% of your funds to the projects in Tanzania.

Transparency

We see it as a fundamental right that every supporter knows exactly where every penny of their money is spent.

WHY WE'RE DIFFERENT

- **Transparency**

  We believe in transparency so much that we publish our mistakes online

- **Quality over quantity**

  We focus on quality of education as opposed to quantity

- **Finding solutions together**

  We listen to the community & find solutions together

- **Partnership**

  We partner with a Tanzanian NGO to deliver the projects & we remain behind the scenes

- **Volunteer led**

  We are led by volunteers with a variety of diverse skills

How we approach transparency

One of Made With Hope's first ever aims was to create an organisation where people felt like they knew where their money was going.

When we first started, we struggled to understand why charities seemed so shiny and perfect. No one was talking about their mistakes or lessons learned. We knew this didn't add up because the public were struggling to trust charities and news stories would appear about charity's mistakes.

Here is how we're tackling this issue.

- We clearly publish our mistakes and lessons learned on our website. Visit our page on transparency
- We frequently share our receipts online
- We invite supporters to challenge our transparency
- We show how we spend donors money in detail that is reader friendly (aka you don't have to be an accountant to understand it)

"Public trust in charities is going down. The main reason for this is lack of transparency."
(Charity Commission report, 2018)

BEHIND THE SCENES

It's not always easy to see what a charity is doing to improve their organisation so that can continue to work towards achieving their mission and be a strong, sustainable organisation. As part of our **transparency** aims we're sharing things we've been doing this year that are helping to improve our charity.

A new partnership

We had a very successful partnership with CHETI NGO, a private school that supported very poor children. To make the most impact we decided to also work with government schools from 2020 onwards.

We continue to support a percentage of CHETI school running costs but have made a partnership with Ndoto in Action in order to fulfill our future goals with government schools to reach even more children living in poverty.

100% DONATION PROMISE

We are completely run by dedicated volunteers which means any any donations given to us for projects all go to implementing the project on the ground.

We have around £1,800 of running costs in the UK such as paying accounting fees, website hosting and bank fees but these are all funding by Trustees and a major donor.

We understand some charities need paid staff but because we are small and have lots of dedicated volunteers we can give 100%.

How we operate

We have chose to invest in local people in Tanzania by providing them with jobs directly associated with the projects. They know what is needed as they are on the ground every day.

Our team in Tanzania research, implement and collect impact data for the project so the salary and expenses of the people involved is all covered within the project costs..

Our team of volunteers in the UK are in charge of fundraising, donor management, monitoring and evaluation, marketing and communications. Our founder volunteers 1-2 days a week on the running of the charity and our amazing volunteers and Trustees work weekly during their spare time doing a variety of tasks.

Efficient fundraising

Although we have lots of very dedicated volunteers we only have so many fundraising resources to use.

Instead of pouring our efforts into fundraising activities with a low chance of success we focused our efforts on strengthening existing donor relationships which has proven to be quite successful.

INCOME & EXPENDITURE

We were very pleased with the income and expenditure of 2022 here at MWH. We found our fundraising and project implementation very manageable as a team of volunteers and we made a huge impact to thousands of children.

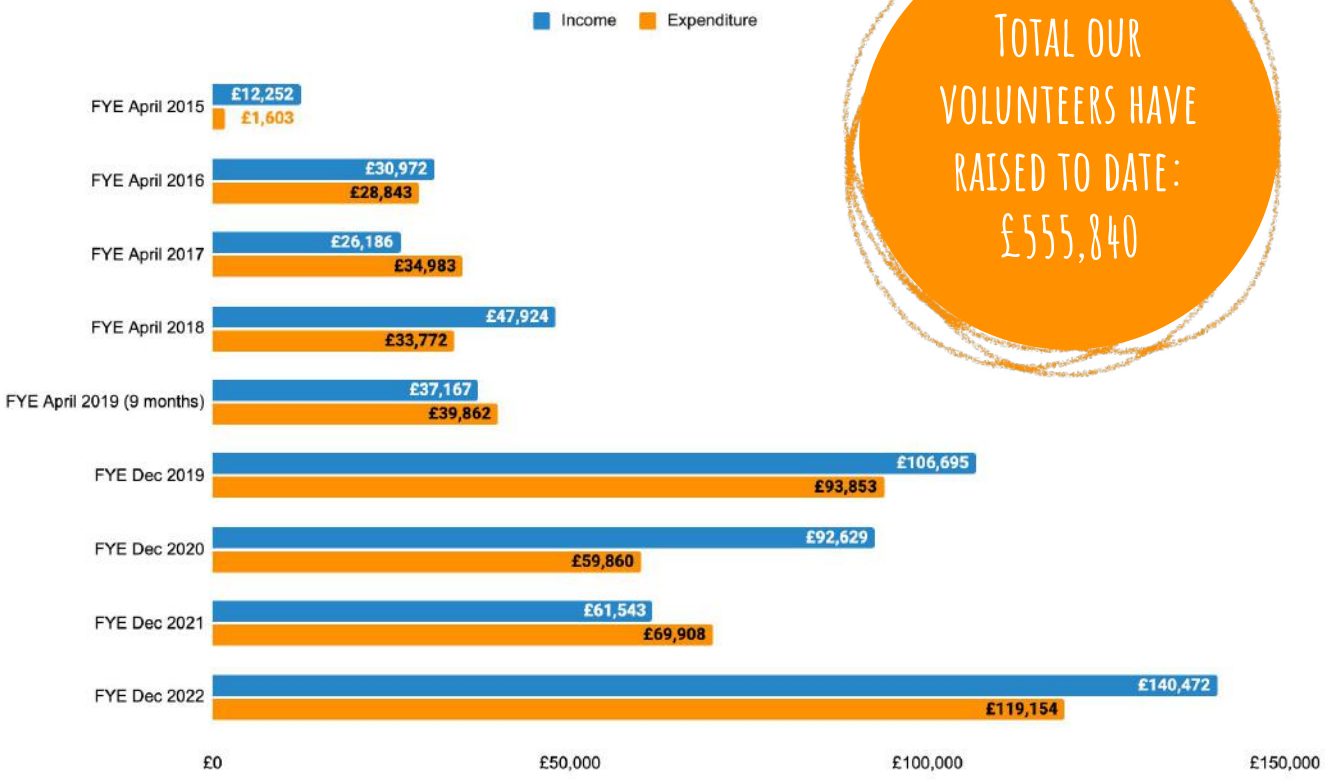

Income

We are incredibly excited that we absolutely smashed our fundraising goal this year! Our team of volunteers raised a total of £140,472 through applying to Trusts and Foundations, corporate sponsorships, challenges, online giving and major donors.

With every donation we get we honestly still feel so surprised and so happy that someone has chosen to believe in the work we do. We are forever grateful even after 9 years.

Expenditure

We spent £119,154 this year. £116,548 of this was sent to Tanzania to spend directly on projects. £2,606 was spent on our running costs such as accountancy fees, consultancy fees and website hosting. This £2,606 is funded by our Trustees and a major donor so that we can ensure that 100% of your donation goes to our projects in Tanzania.

TOTAL OUR VOLUNTEERS HAVE RAISED TO DATE: £555,840

MADE WITH HOPE, are pleased to present their report and financial statements of the charity for the period 1st January 2022 to 31st December 2022

1. Reference and Administrative details of the Charity, its trustees and advisors.

Charity Name	Made with Hope
Registered Charity No.	1160638
Registered Office and Operational address	2 Oakfield Road Manchester M20 6XA
Trustees	A Margolin – Chair EH Teeling P J Collinson Barbara Riley
Independent Examiner	Julie Maxwell MICB 11 Edith Street Jarrow NE32 5HS
Bankers	Starling Bank

2. Structure, governance and management

Governing documents

Made with Hope is a charitable company limited by guarantee incorporated on the 15th April 2014 and registered as a charity on 25th February 2015. The Company was established under a Memorandum of Association which established the objects and powers of the Charitable Company and is governed under its Articles of Association

Appointment of Trustees

Trustees are appointed by existing trustees.

3. Financial Review

The total income for the year was £140,472. This income is allocated across respective funds on the accruals account.

The statement of assets and liabilities as at 31st December 2022 shows total funds carried forward of £76,380

4. Public Benefit Statement

The trustees have referred to the Charity Commission's guidance on public benefit when reviewing the charity's objectives and planning its future activities. This annual report will aim to demonstrate the link between our charitable activity and how this benefits our service users

5. Objectives and activities

Made With Hope believes every child living in rural Tanzania should have access to quality education to break the cycle of living in poverty. We empower these children through constructing or renovating schools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

We aim to

- Partner with communities and their schools to address the issues their children face when trying to get a quality education.
- Provide sustainable educational facilities in rural Tanzania including primary and secondary schools.
- Use educational facilities as a base to offer health and wellbeing projects to support children in their ability to attend school consistently throughout the academic year.
- Empower small local Tanzanian NGOs that understand their communities needs and enable them to create solutions to the problems they see.
- Maintain a high level of transparency and uphold our strong values to develop and promote an ethical way of running a charity.

6. Achievements and Performance

Always working in partnership

We are working alongside Tanzanian organisations, the Tanzania n government, Tanzanian schools and rural communities to identify schools in the greatest need of our support. We have visited several schools with Tanzanian Government Education Officers and have formed partnerships with 13 communities/schools to work with.

Although we focus on empowering children through education, we seek to work alongside communities and empower them too, by engaging them throughout our projects. With any project, community members are engaged through several community workshops so we can explore the best solutions for their children, together. We discuss and agree on a partnership that will have the biggest impact. From our experience, working alongside the community encourages ownership of a project to ensure its sustainability.

We work alongside communities for several years to ensure projects are sustainable before we consider leaving that community.

Our Delivery Partner

We work in partnership with local people who truly understand their community's needs. These partnerships are formed by our implementation partner, Ndoto in Action which is a Tanzanian registered NGO (charity) that exists to deliver projects that will help give children a chance to escape the poverty cycle. The Director, Hussein, is also the founder of Ndoto in Action and has a team of volunteers working with him to deliver projects in the communities. Their dedication is truly admirable and their quality of work is incredible. This partnership we have is so special and works so well in supporting our beneficiaries.

Our Values

- Collaborative: We do this through collaborating with local Tanzanian NGOs to address the specific educational needs of children in their community.
- Transparency: We see it as a fundamental right that every supporter knows exactly where every penny of their money is spent. *
- Empower: We know that education is a fundamental way to empower a child to break the cycle of living in extreme poverty.
- Purpose: We have an awareness and social conscience that millions of people live in extreme poverty through no fault of their own and we desire to take action as global citizens.

Dedicated to Transparency.

Public trust in charities is going down. The main reason for this is lack of transparency. (Charity Commission report, 2018)

One of Made with Hope's first ever aims was to create an organisation where people felt like they knew where their money was going. When we first started, we struggled to understand why charities seemed so shiny and perfect. No one was talking about their mistakes or lessons teamed. We knew this didn't add up because the public were struggling to trust charities and news stories would appear around charities mistakes.

Here is how we' re tackling this issue.

- We clearly publish our mistakes and lessons learned on our website. See our Transparency web page.
- We frequently share our receipts online.
- We invite supporters to challenge our transparency.

- We show how we spend donors' money in detail that is reader friendly

Our impact in 2022

Made with Hope supporters have helped improve the lives and opportunities of 1,607 children this year from the following projects:

- Renovated 9 classrooms at Marurani Primary School to provide 406+ students with a safe and comfortable learning environment.
- Constructed 10 girls' toilets, 2 boys toilets, a boys urinal and an accessible friendly toilet at Oldenderet 358
- Constructed 10 girls toilets, 2 boys toilets, a boys urinal and an accessible friendly toilet at for 412 students at Majimoto primary school
- We supported 10 girls who lives in extreme poverty in Marurani and Mzimuni community with uniforms, food for their family, stationery and other learning materials.
- Renovated 10 classrooms at Maweni Primary School to provide 433+ students with a safe and comfortable learning environment.
- We began the construction of a kitchen and dining room for 421 students at Mshikamano Primary School in December 2022. We will have completed this by early January 2023.
- Supported school fees for 18 children at CHETI Primary and Secondary School
- Successfully collaborated with all of the communities we worked with in 2021 with full engagement and voluntary hours completed at construction projects from the community members
- Recognition from the local and regional education department in the Tanzanian government for the work we are doing in Arusha communities

Fundraising and Operational Highlights

We still operate on a 100% donations to our projects policy. Our very small admin costs (£1000-£2000) are funding by our Trustees and major donors separately.

As a volunteer only charity we are really pleased with what we have achieved. We are so lucky to have so many dedicated volunteers helping to run our projects, website, social media, donor stewardship, bookkeeping, safeguarding and much more.

In 2022 we decided to focus our fundraising on major donors and Trusts and Foundations because our community and events fundraising couldn't happen due to COVID. We have been successful in securing several new donors as well as maintaining almost all of our existing donors.

Our founder who does a lot of the day-to-day tasks of the charity resumed this role after some maternity leave in 2021 so our fundraising efforts has now increased.

Operationally we are seeking for additional Trustees to diversify our board but we are not going to rush into finding Trustees unless they have the right skill set and time to give to the charity.

7. Statement of Trustees responsibilities

The Trustees (who are also the directors of Made With Hope Limited) for the purposes of company law) are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company at the end of the year and of the incoming resources and application of resources for the year then ended.

In preparing those financial statements, the trustees are required to: -

- select suitable accounting policies and then apply them consistently.
- make judgements and estimates that are reasonable and prudent.
- Observe the methods and principals in the Charities SORP.
- state whether applicable accounting standards and statements of recommended practice have been followed, subject to any material departures disclosed in the financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue its activities.

The trustees are responsible for keeping proper accounting records which disclose, with reasonable accuracy at any time, the financial position of the charity, and enable them to ensure that the financial statements comply with the Companies Act 2006. The trustees are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud or other irregularities.

Independent Examiners Report to the Trustees

I report on the accounts of the company for the year ended 31st December 2022, which are set out on pages 9-13

Respective responsibilities of trustees and examiner. The trustees (who are also the directors of the company for the purposes of company law) are responsible for the preparation of the accounts. The trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed.

Having satisfied myself that the charity is not subject to audit under company law and is eligible for independent examination, it is my responsibility to:

- examine the accounts under section 145 of the 2011 Act.
- to follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act: and
- to state whether matters have come to my attention.

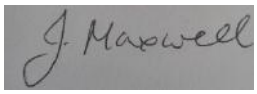

Basis of independent examiner's report. My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe: -

I. Accounting records were not kept in respect of the company as required by Section 386 of the 2006 Act: or
2. the accounts do not accord with those records: or
3. the accounts do not comply with the accounting requirement of Section 396 of the 2006 Act other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination: or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and republic of Ireland (FRS102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in the report in order to enable a proper understanding of the accounts to be reached.

Julie Maxwell MICB

1. Basis of Accounting

The accounts have been prepared using the accruals method. An audit is not required by the Charity's constitution and has not been requested by the Trustees.

2. Trustee Expenses

No Trustees were paid expenses during the period

3. Guarantee

There have been no guarantees given by Made with Hope at 31st Dec 2022.

4. Debt

There is no debt outstanding which is owed by Made with Hope and which is secured by an excess charge on any of the assets of Made with Hope at 31st December 2022.

5. Fund Accounting

Unrestricted funds are donations and other incoming resources receivable or generated for the objects of the charity without further specified purpose and are available as genera l funds.
Designated funds are unrestricted funds earmarked by the trustees for particular purposes. Restricted funds are to be used for specific purposes as laid down by the donor.

6. Risks

The trustees have examined the major risks which the charity faces in relation to external factors, governance and management, internal operations and business. The trustees have considered the likelihood and the impact of risks, and continually review the systems in place to reduce those risks. The systems are being designed to provide reasonable assurance against material loss.

7. Fixed Assets

All fixed assets are initially recorded at cost. Assets with a value of less than £200 are not capitalised

A MESSAGE FROM THE CHAIR AND FOUNDER

For the first half of 2021 I took some time away from Made With Hope for the first time since I started MWH in 2013 as I brought my first baby into the world in December 2020 and learned how to be a Mum (which I founder harder than setting up a charity!). I was so pleased that my amazing Trustees, volunteers and team in Tanzania did an amazing job at creating an impact in Tanzania despite difficult circumstances that COVID created.

Although I understand UK charities need funds to support running costs, I am pleased to return to our 100% Donation Promise so you know all of your donation goes to our projects in Tanzania. Instead I love that MWH support jobs and volunteers in Tanzania through our amazing partner on the ground.

Together with our partner we have made such a huge impact to the lives of many girls this year and I am so happy that we are dramatically increasing attendance and achievement of girls in our partner schools simply by providing them with facilities and support they need to manage their period whilst at school.

The biggest transformation this year has been to Marurani's Primary School. With the amazing support of One Kind Act and Brinda Jaykant Shah Foundation plus the Marurani community members and government we have been able to totally transform their school from almost ruins to a school that has almost everything the students need to get a quality education and free themselves from poverty in the future (please see page 16 to learn more).

I also want to say a special thank you to our Tanzanian partner (Ndoto in Action) who we feel incredibly lucky to work with. Their ambition, attention to detail, dedication and knowledge about the projects they're delivering is inspirational and keeps us motivated when fundraising is hard.

2021 really has been a pivotal year for Made With Hope. Since the pandemic we have taken the time to refocus our strategic goals and consider how we structure the organisation.

As a charity we are now entirely focused on our 11 government schools and working hard to ensure we deliver all of our available projects to maximise our impact, before we onboard any further schools

We have now moved all of our key operations to our local team on the ground in Tanzania, which has not only created more jobs but empowers them to make decisions and respond to the needs of our schools faster.

Our focus in the UK will be fixed on setting the strategy, monitoring and evaluating the projects, overseeing our local partner and of course fundraising.

This now means that our UK operation is 100% volunteer led and puts us in the unique position to be one of very few charities where 100% of our donations are spent directly on delivering and implementing our school projects. Our further commitment to this promise is shown by the support of one donor who has committed to us for many years to cover any UK overheads if they arise

I must give also give a special mention to One Kind Act who continue to be our lead donor year after year, and without them we would not be able to make the scale of impact that we have had in our schools.

Thank you everyone for your hard work, support and donations, it truly means the world to us.

Eleanor Riley
Founding Director
(voluntary role)

Alexander Margolin
Chair (voluntary role)

Made With Hope believes every child, especially girls, living in rural Tanzania should have access to a quality education to break the cycle of living in poverty.

We empower these children through constructing or renovating schools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

WHAT WE DO

- **Provide sustainable educational facilities** in rural Tanzania including primary and secondary schools
- Use educational facilities as a base to **offer health and wellbeing projects** to support children in their ability to attend school consistently throughout the academic year
- Empower & partner with small local Tanzanian NGOs and communities that understand their needs and **create solutions together**
- Maintain a high level of **transparency** and uphold our strong values to develop and promote an ethical way of running a charity

100% DONATION PROMISE

We are completely run by volunteers so **all of your money** goes to the projects in Tanzania.

MEET THE TEAM

Safeguarding expert & Trustee

A few of our amazing volunteers

Visit our **Get involved page** to see our volunteering opportunities.

"I love being part of the team at MWH and volunteering is very important to me. My role at MWH also helped provide me with the understanding and skills to start working in the International Development Sector."

Eve Stanislawski

"I have loved supporting MWH in showcasing the fantastic projects in our partner schools. From hand wash stations to teacher training on menstrual hygiene, I am so proud of what the MWH and NIA teams have achieved in 2021 to ensure basic needs are met for children in Tanzania".

Jess Pace

"I can see all of the amazing changes we're making to young people's lives and their communities. We're a passionate and dedicated team who work towards making a big difference. We've grown so much over the years and I'm immensely proud of how far we've come."

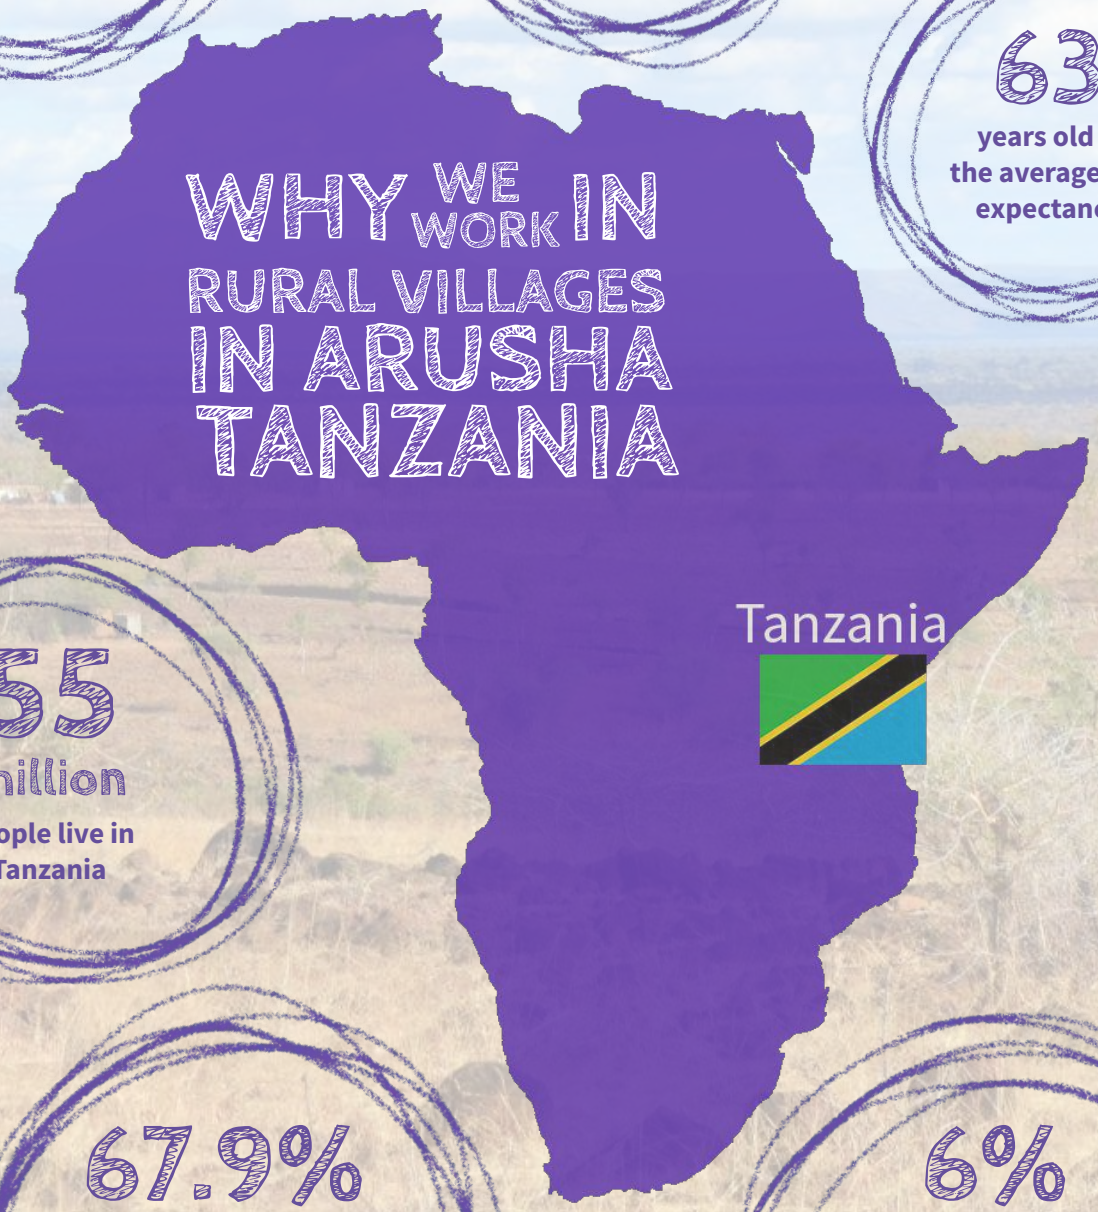

Kimberley Jones

WHY WE WORK IN RURAL VILLAGES IN ARUSHA TANZANIA

42%
of children are malnourished (UNICEF)

34th
poorest country in the world

63
years old is the average life expectancy

55 million
people live in Tanzania

67.9%
of the population live in poverty with the vast majority living in rural regions (World Bank)

6%
increase in the number of women and men completing secondary school in 2016 (World Bank)

ABOUT THE SCHOOL COMMUNITIES WE PARTNER WITH

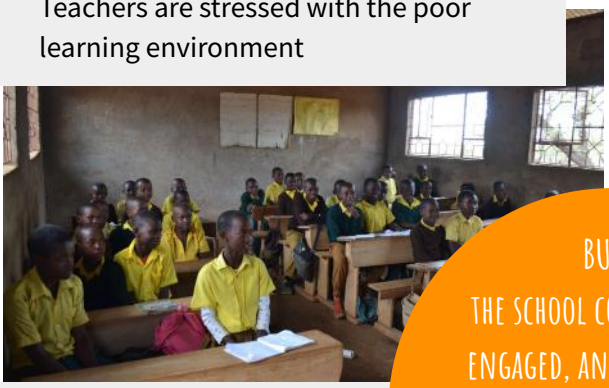

Each school only receives £15 a month for maintenance

Children have to walk long distances to school

Teachers are stressed with the poor learning environment

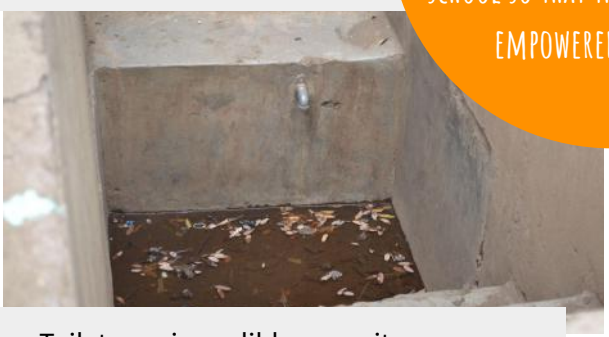

BUT...
THE SCHOOL COMMUNITY IS ENGAGED, AND WE WORK IN COLLABORATION TO IMPROVE THEIR SCHOOL SO THAT THEIR CHILDREN ARE EMPOWERED TO LEARN!

Hygiene facilities and practices are poor

No or limited access to clean water

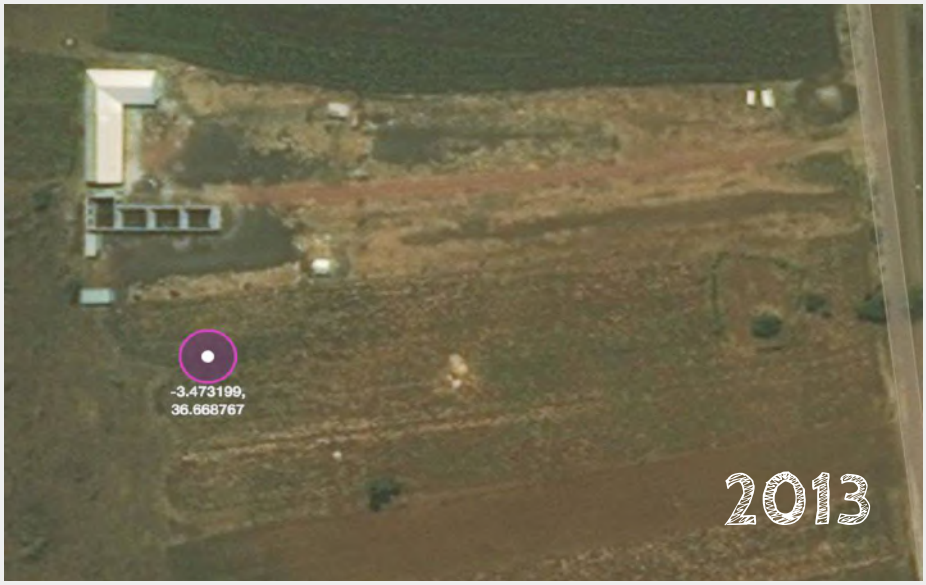

School classrooms are very overcrowded - up to 100 students to 1 teacher

Toilets are incredibly unsanitary, dangerous and not suitable for use

There is limited or no support for girls who are menstruating

Transparency is so important to us

Here is an example of just one of the schools we've transformed with the help of our amazing supporters.

You can google the GPS Coordinates -3.473086,36.669025 to see for yourself.

WHY DO YOU WORK IN TANZANIA?

Established in 2013, Made With Hope is a small volunteer-led charity which exists to provide quality education to enable children to break the cycle of poverty.

With a desire to make the world a little bit fairer, our founder, at age 23 years old, visited Tanzania in 2013 to find a way to empower children living in very remote, isolated villages where life expectancy was low, income was less than $2 a day, there was no public transport and poverty affected the vast majority. Investing in quality education was something that could make an impact to these children.

Our organisation was born in our founder's spare bedroom and run by passionate volunteers which means that every person involved is a part of our mission because they really care about it.

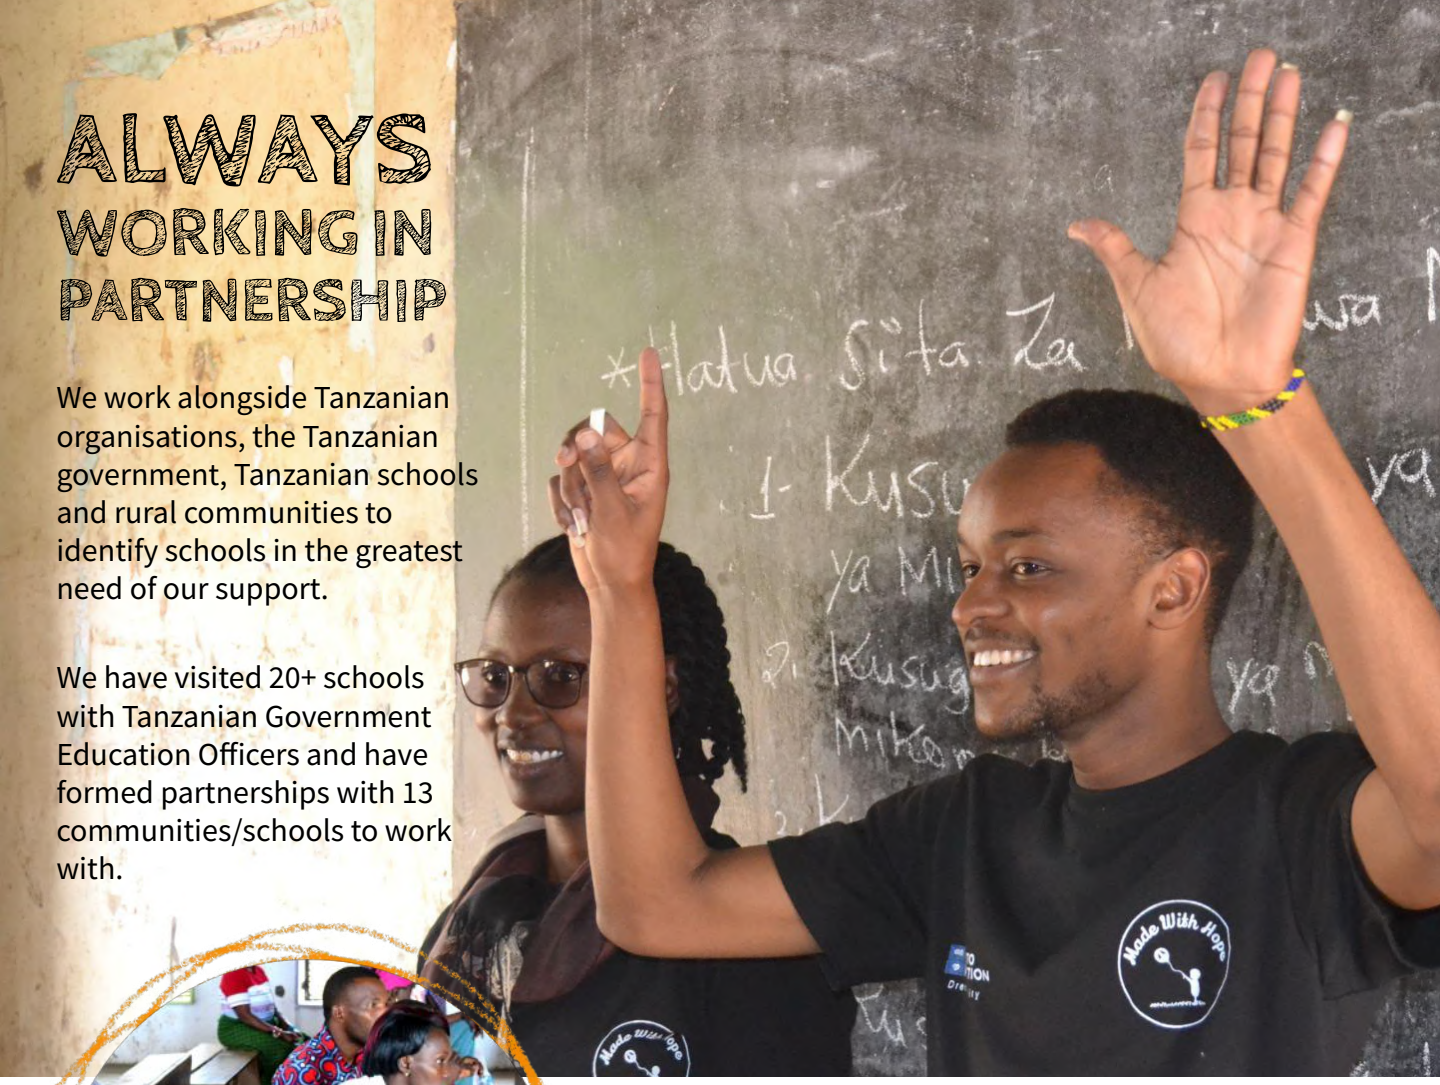

WHY WE SUPPORT CHILDREN'S EDUCATION IN TANZANIA

- Girls are often stigmatised during menstruation and do not attend school
- 5 students have to share 1 textbook
- Disease from lack of sanitation is a huge factor in why children miss school
- If a child doesn't pass their exams at the end of Primary School first time, they will be not be able to attend Secondary School
- Education is proven to enable children to break the cycle of poverty
- Tanzania's Free Education For All policy in 2003 has made schools severely overcrowded. We have visited class sizes of 144 in one standard classroom
- There is not enough funding in central government to build enough classrooms, toilets or desks for the students
- Education quality is often very low because one teacher cannot teach so many students

ALWAYS WORKING IN PARTNERSHIP

We work alongside Tanzanian organisations, the Tanzanian government, Tanzanian schools and rural communities to identify schools in the greatest need of our support.

We have visited 20+ schools with Tanzanian Government Education Officers and have formed partnerships with 13 communities/schools to work with.

Although we focus on empowering children through education, we seek to work alongside communities and empower them too, by engaging them throughout our projects.

With any project, community members are engaged through several community workshops so we can explore the best solutions for their children, together. **We discuss and agree on a partnership** that will have the biggest impact. From our experience, working alongside the community encourages ownership of a project to ensure its sustainability.

We work alongside communities for several years to ensure projects are sustainable before we consider leaving that community.

Our value: Collaboration

OUR WORK WITH THE COMMUNITY IN 2021

Community participatory approach

To make sure the we bring the impactful projects, we worked with the community members to find the problems they are facing through focus group discussions, interviews and community meetings then prioritizing the most critical challenges and find solution together. We are applying a community participatory approach in every project we deliver which means, the community members are involved in designing stage of our projects.

Inception meetings

We conduct inception meetings before we start the implementation of the project. This helps community members to know better their responsibilities to the project and what to expect. These meetings usually involves, school committees which contains local government officials, teachers, parents and students.

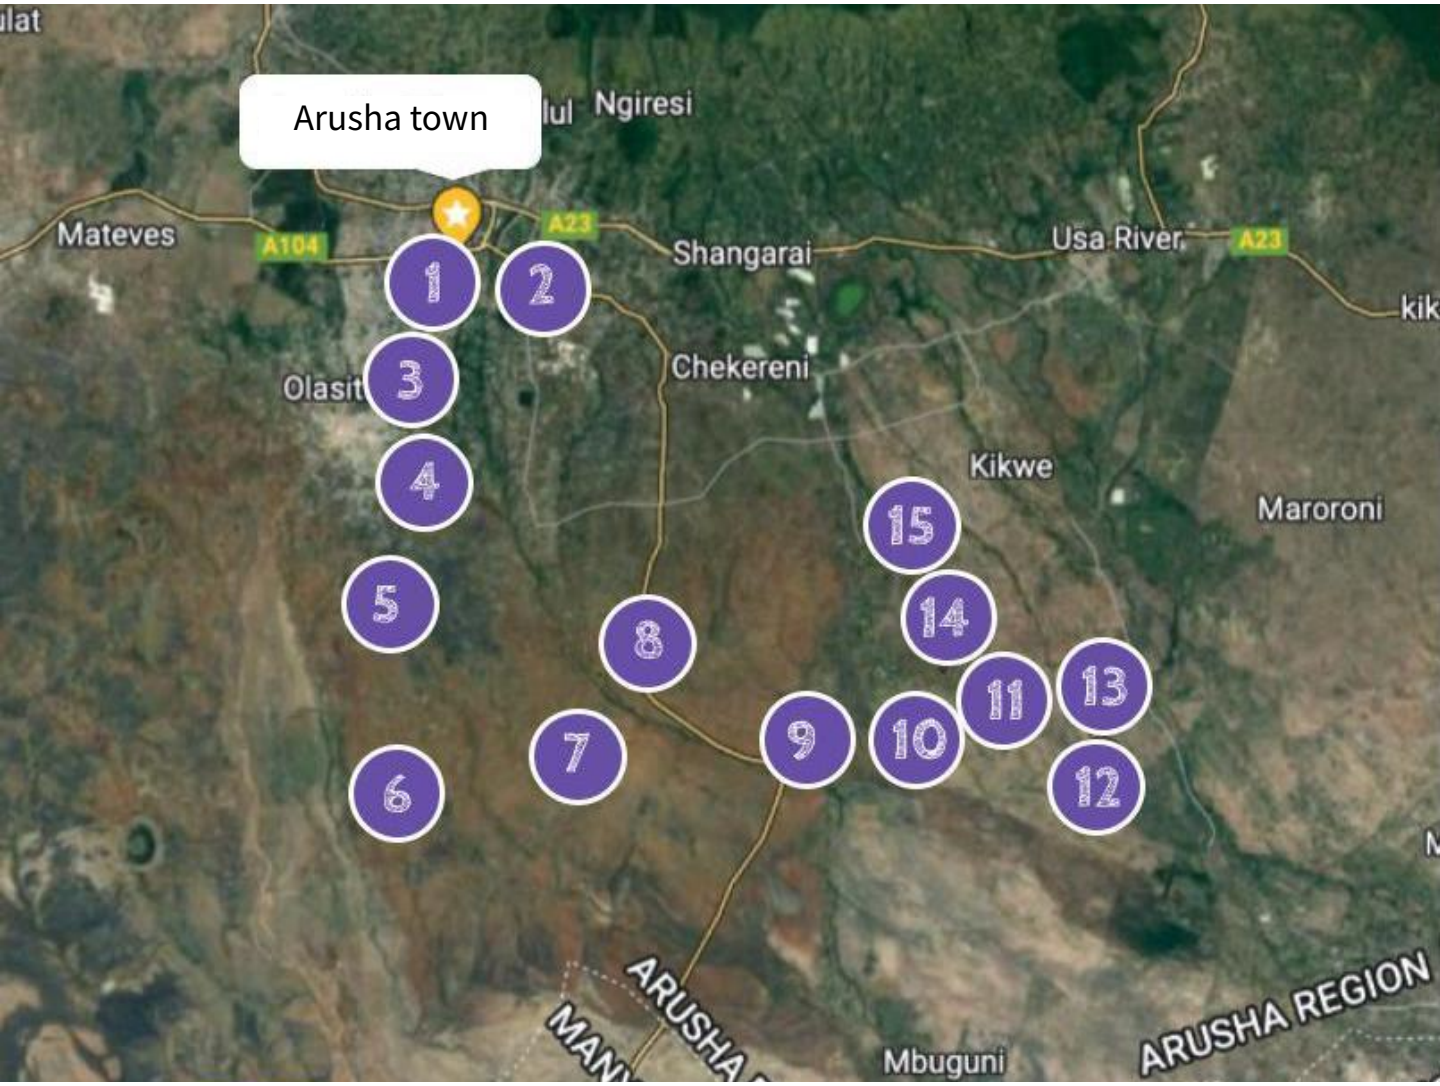

Community contribution

To create a sense of ownership, we asked community members to contribute to 10% of the project in the form of manpower. This helps them to project the project at any cost when we left because they have contributed to it and they are not ready to see it destroyed.

LOCATIONS OF OUR PARTNER SCHOOLS

These 15 schools are where Made With Hope have identified a great need to support children's education.

We have formed partnerships with all of these communities are and working together to create sustainable projects that better the lives of the children in their impoverished village.

Transparency is so important to us.
We show you **exactly** where your help is supporting.

OUR TANZANIAN PARTNERS ON THE GROUND

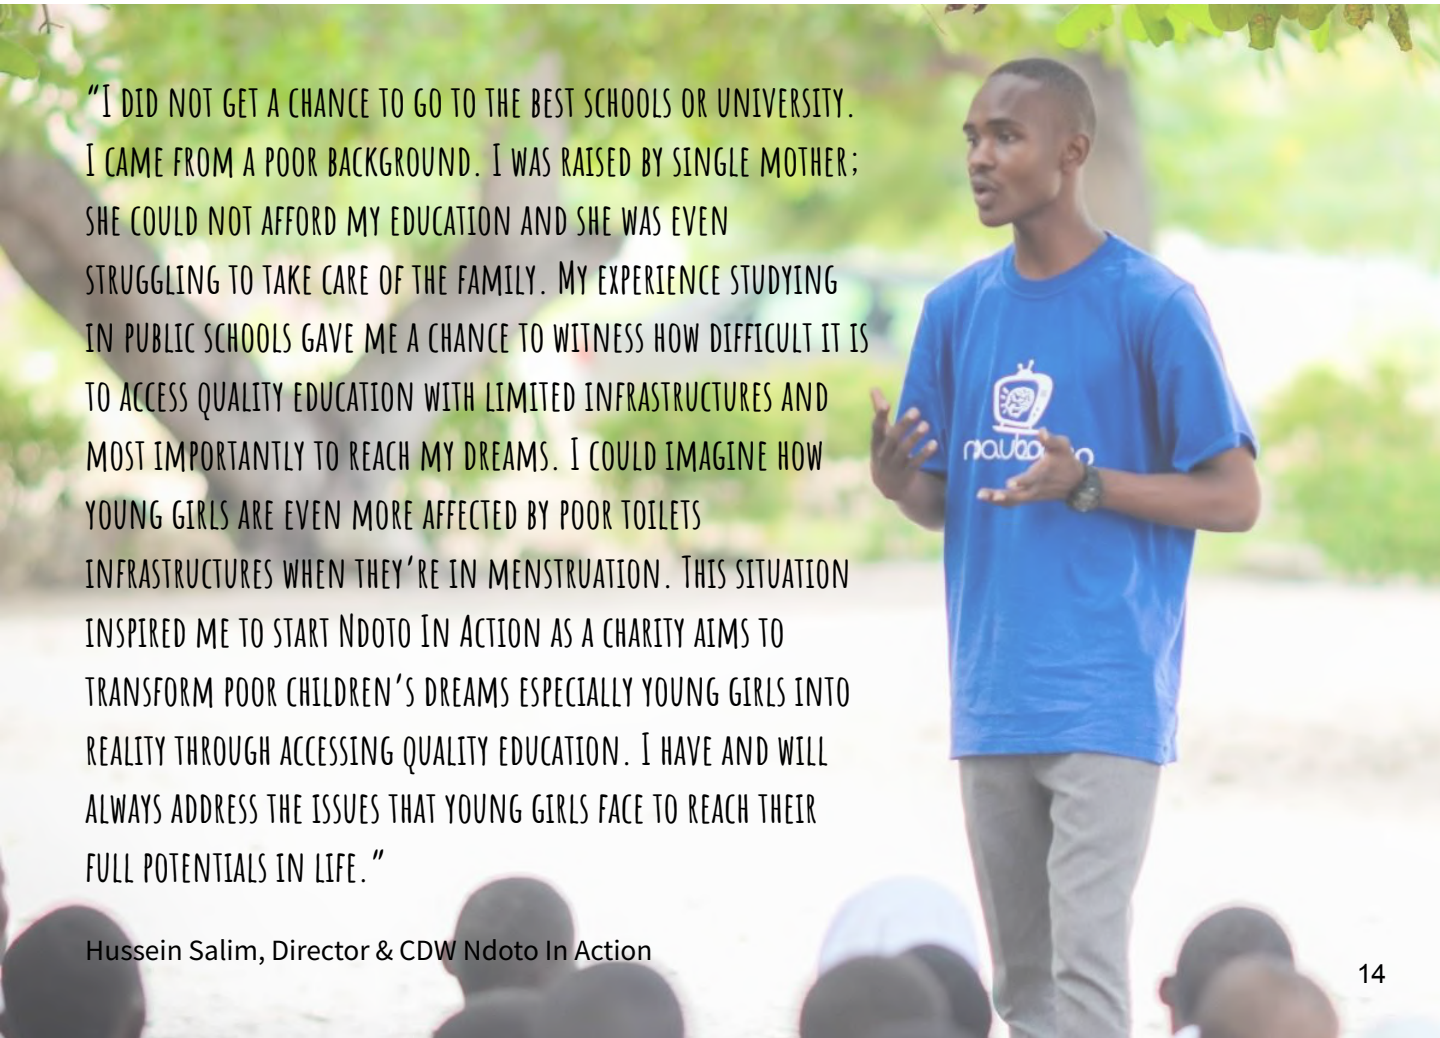

Ndoto in Action

Ndoto in Action have been our main delivery partner since 2020. Their main focus is to dramatically transform poor rural government schools to they can provide a quality education. This partnership works so well as Made With Hope utilises the fundraising opportunities we have access to here in the UK, Ndoto in Action deliver to projects closely with the community and we both collaborate in monitoring and evaluating the impact of them.

" I BELIEVE QUALITY EDUCATION IS THE KEY TO BREAKING THE CYCLE OF POVERTY. BUT QUALITY EDUCATION NEEDS A CONDUCIVE ENVIRONMENT FOR IT TO TAKE PLACE; NDOTO IN ACTION AND MADE WITH HOPE HAVE PARTNERED TO CREATE THIS CONDUCIVE ENVIRONMENT TOGETHER WITH THE HELP OF THE COMMUNITY AND OUR SUPPORTERS ACROSS THE WORLD"

Denish, Trustee at Ndoto In Action

"I DID NOT GET A CHANCE TO GO TO THE BEST SCHOOLS OR UNIVERSITY. I CAME FROM A POOR BACKGROUND. I WAS RAISED BY SINGLE MOTHER; SHE COULD NOT AFFORD MY EDUCATION AND SHE WAS EVEN STRUGGLING TO TAKE CARE OF THE FAMILY. MY EXPERIENCE STUDYING IN PUBLIC SCHOOLS GAVE ME A CHANCE TO WITNESS HOW DIFFICULT IT IS TO ACCESS QUALITY EDUCATION WITH LIMITED INFRASTRUCTURES AND MOST IMPORTANTLY TO REACH MY DREAMS. I COULD IMAGINE HOW YOUNG GIRLS ARE EVEN MORE AFFECTED BY POOR TOILETS INFRASTRUCTURES WHEN THEY'RE IN MENSTRUATION. THIS SITUATION INSPIRED ME TO START NDOTO IN ACTION AS A CHARITY AIMS TO TRANSFORM POOR CHILDREN'S DREAMS ESPECIALLY YOUNG GIRLS INTO REALITY THROUGH ACCESSING QUALITY EDUCATION. I HAVE AND WILL ALWAYS ADDRESS THE ISSUES THAT YOUNG GIRLS FACE TO REACH THEIR FULL POTENTIALS IN LIFE."

Hussein Salim, Director & CDW Ndoto In Action

OUR TANZANIAN PARTNERS ON THE GROUND

CHETI NGO

CHETI NGO, a registered charity in Tanzania, have been tackling poverty in their local rural communities since 1997. They've done this mainly through educating over 8,000 disadvantaged children.

CHETI are deeply embedded in the local community and highly regarded by the government which is just one of the reasons why our projects are so successful and sustainable. CHETI help to deliver the projects on the ground as they have such a good relationship with the communities. We speak every day and Made With Hope visit the projects twice a year to support monitoring and finding new projects.

Made With Hope has helped create over 10 successful construction projects with CHETI to provide the facilities the community needs to deliver quality education since 2013.

OUR IMPACT IN 2021

We successfully collaborated with all of the communities we worked with in 2021! With full engagement and hundreds of hours volunteered completed at construction projects from the community members.

We also had recognition from the local and regional education department in the Tanzanian government for the work we're doing in Arusha communities.

LET US LEARN: Learning environments

Building and equipping whole schools or new classrooms. Providing resources.

Our impact in 2021

- Improved learning environment and reduce overcrowding by constructing 4 new classrooms at Marurani Primary School to educate 180 students.
- Supported school fees for 18 children at CHETI Primary and Secondary School

WATER IS LIFE: Clean water

Collecting rainwater and transporting water to rural villages.

Our impact in 2021

- Increased clean water for 629 students installing 8 rainwater harvesting tanks at Mzimuni Primary School
- Increased clean for 406 students by installing 8 rainwater harvesting tanks at Marurani Primary School
- Increased clean for 433 students by installing an additional 4 rainwater harvesting tanks at Maweni Primary School

P.T.O for our impact continued…

BEING WELL: Health

Preventative and simple health solutions for students such as toilets, health workshops, hand washing.

Our impact in 2021

- Improved hygiene for 511 students by providing handwashing facilities, clean water for hand washing and hygiene education at Muungano Primary School.
- Improved hygiene for 358 students by providing handwashing facilities, clean water for hand washing and hygiene education at Oldenderet Primary School.
- Improved hygiene for 596 students by providing handwashing facilities, clean water for hand washing and hygiene education at Manyire Primary School
- Improved hygiene for 471 students by providing handwashing facilities, clean water for hand washing and hygiene education at Umoja Primary School

GIRL EMPOWERMENT: Education for girls

Supporting girls education and menstrual hygiene management.

Our impact in 2021

- Increased attendance for up to 188 by constructing a girls toilet block of 10 toilets at Marurani Primary School.

Classrooms before

Classrooms after

LET US LEARN: MARURANI PRIMARY

CASE STUDY

Why was this project needed?

Marurani Primary is located in a very deprived, rural, isolated village in Arusha, Tanzania. Like many other Government schools, Marurani faces several challenges in supporting children in education. The schools do not have enough classrooms and the existing classrooms are dangerous, have no windows so students get wet when it rains. There are no safe and hygienic toilets causing girls to skip school during their period and even defecation in the playground. This poor learning environment has led to under achievement, poor attendance and lack of morale.

"Our community organised itself very well to volunteer hundreds of hours helping to build walls, dig holes and paint the new classrooms"

Marurani Headteacher

Our solution

With the amazing support from One Kind Act and Brinda Jaykant Foundation and thousands of labour hours volunteered by the community we were able to construct 4 brand new classrooms. This instantly led to an increase in attendance, improved moral of students and teachers. We look forward to seeing the impact of this project over the next few years.

Cost of project: £22,214

We also secured £12,428 to construct a brand new girls toilet block with 10 girls toilets. See page 24 'Girl Empowerment' for more details.

HIGHLIGHTS OF OUR 2021 IMPACT

4
CLASSROOMS CONSTRUCTED

406
CHILDREN EMPOWERED

4
TEACHERS FEELING HAPPIER

How will this project be sustainable?

This is a long term partnership with Marurani Primary School. Made With Hope and our delivery partner will be visiting this school at least every 1 months to check on the maintenance of the school as well as implementing other projects. We established project committees which will be organizing budget for the project maintenance. This committee includes the local government officials, teachers, parents, community members and students.

The community worked through the night to get this project complete!

WATER IS LIFE: RAINWATER HARVESTING

CASE STUDY

Clean water for **1,468** students

Why was this project needed?

Mzimuni, Marurani and Maweni Primary School all had a shortage of water. This lack of water means students could not drink whilst at school, could not have a cooked lunch (if food was available), the toilets and classrooms remained dirty and unsanitary and there were no hand washing facilities.

Mzimuni and Marurani had no water supply at all.

Maweni had already benefited from 6 rain water tanks from Made With Hope in 2019 but they required more.

Our solution

We installed 20 x 5,000 litre rainwater harvesting tanks to collect rainwater for the school to use for drinking, cleaning and cooking. This is also a great environmentally friendly project as it's using natural resources.

Cost of one tank is just £375 and can collect up to 5,000 litres of water which can last a school around 30 days.

We owe a huge thank you to One Kind Act and the Brinda Jaykant Foundation for supporting the rain water project at Marurani Primary School.

HIGHLIGHTS OF OUR 2021 IMPACT

3
SCHOOLS

20
RAINWATER TANKS
(100k litres capacity when tanks are full)

1,468+
STUDENTS WITH CLEAN WATER

The community helped install the tanks for their local schools

How will this project be sustainable?

To insure the sustainability of the project, we established Water Project Committee to take care of the project. This committee includes, government officials, teachers, parents and students, this group represent the whole community members in making the project sustainable. The committee take care of maintenance, security and longevity of the project.

Transparency is so important to us. Here are the GPS locations of our projects: Mzimuni Primary School: -3.505053, 36.806167, Marurani Primary School: -3.495833, 36.826944, Maweni Primary School: -3.513083, 36.715500

BEING WELL: HANDWASHING

Facilities for **1,936** students

CASE STUDY

Why was this project needed?

Children at 4 of our partner schools are regularly contracting hygiene related diseases (such as diarrhea and typhoid) which is preventing them from going to school. Health care in their communities is for those who can afford it of which many of our student's families cannot.

After discussions with the teachers, parents and students of Umoja, Oldenderet, Manyire and Muungano Primary Schools we decided to implement strong hand washing programmes to help prevent hygiene related diseases.

Currently at these 4 schools there is no water for hand washing, no taps or sinks and no soap. Students almost always have dirty hands which is a leading cause of their sickness.

Our Solution

We have constructed a hand washing station at each school, reaching 1,936 students. This includes 10 taps and sinks, plus a rain water harvesting system attached to ensure a steady flow of water to use alongside the soap dispensers at each school.

Our partner utilised their dedicated volunteers and delivered educational entertainment using games, songs, role play and other entertainment to deliver the message to students on the importance of washing hands.

The teachers and students continue to practice the songs and games daily to revise their hand washing practices and keep hygiene high on the agenda.

Average cost of building 1 hand washing station and education: Just £3,184

A special thank you the the Educational and General Charitable Trust for their amazing support towards this project.

Transparency is so important to us. Here are the GPS locations of our projects: Umoja Primary School: -3.5157716,36.8545953, Oldenderet Primary School: -3.505583, 36.778389, Muungano Primary School: -3.482241,36.7361972, Mayire Primary School: -3.454611, 36,805778

How will this project be sustainable?

In order to make the project sustainable, we established project committee to take care of the project. This committee includes, government officials, teachers, parents and students, this group represent the whole community members in making the project sustainable. Alongside the establishment of committee, we established SWASH (School, Water, Sanitation & Hygiene) clubs at schools to support the continuation of the hand washing practises. We created SWASH champions who will act as an examples to the fellow students.

GIRL EMPOWERMENT: TOILET FACILITIES

Why was this project needed?

Poor sanitation for girls at Marurani Primary School is a huge barrier to attending school. The toilets at Marurani school

In the previous year (2020) we implemented a successful menstrual hygiene management project which involved giving the girls at the school menstruation products (e.g. reusable sanitary pads and cups), holding in depth workshops for girls, boys, parents and teachers about menstruation to break down taboos and forming a club hosted by a trained teacher to continue supporting the girls.

Did you know? Primary school in Tanzania runs from 7-14 years old which means girls often get their period during primary education.

Although this project was successful, attendance was still low during a girl's menstruation (4 to 5 days) because they had no where to hygienically manage their period. This meant that girls' were missing around 45 days of school a year which was negatively impacting their education and chance to gain good qualifications and free themselves of poverty in the future.

Transparency is so important to us. Here are the GPS locations of this project:
Marurani Primary School: -3.495833, 36.826944

Our Solution

With the help of the community contributing a lot of free labour hours, we were able to construct 10 girls toilets that have facilities for the girls to manage their period privately and with dignity. Not only are the toilets a more hygienic design (pour flush as opposed to pit latrine) they also include 10 hand washing facilities inside and a place to hygienically dispose of sanitary wear.

We owe a huge thank you to One Kind Act and the Brinda Jaykant Foundation for supporting this project. Without yours and the communities support this project would not have been possible.

Cost to build a girls toilet block: Just £12,428

OUR VALUES

Purpose

We have an awareness and social conscience that millions of people live in extreme poverty through no fault of their own and we desire to take action as global citizens.

Collaborative

We do this through collaborating with local Tanzanian NGOs to address the specific educational needs of children in their community.

100% Donation Promise

We are a team of passionate volunteers which means we have almost no running costs. This allows us to donate 100% of your funds to the projects in Tanzania.

Transparency

We see it as a fundamental right that every supporter knows exactly where every penny of their money is spent.

WHY WE'RE DIFFERENT

- **Transparency**

  We believe in transparency so much that we publish our mistakes online

- **Quality over quantity**

  We focus on quality of education as opposed to quantity

- **Finding solutions together**

  We listen to the community & find solutions together

- **Partnership**

  We partner with a Tanzanian NGO to deliver the projects & we remain behind the scenes

- **Volunteer led**

  We are led by volunteers with a variety of diverse skills

How we approach transparency

One of Made With Hope's first ever aims was to create an organisation where people felt like they knew where their money was going.

When we first started, we struggled to understand why charities seemed so shiny and perfect. No one was talking about their mistakes or lessons learned. We knew this didn't add up because the public were struggling to trust charities and news stories would appear about charity's mistakes.

Here is how we're tackling this issue.

- We clearly publish our mistakes and lessons learned on our website. Visit our page on transparency
- We frequently share our receipts online
- We invite supporters to challenge our transparency
- We show how we spend donors money in detail that is reader friendly (aka you don't have to be an accountant to understand it)

"Public trust in charities is going down. The main reason for this is lack of transparency."
(Charity Commission report, 2018)

BEHIND THE SCENES

It's not always easy to see what a charity is doing to improve their organisation so that can continue to work towards achieving their mission and be a strong, sustainable organisation. As part of our **transparency** aims we're sharing things we've been doing this year that are helping to improve our charity.

A new partnership

We had a very successful partnership with CHETI NGO, a private school that supported very poor children. To make the most impact we decided to also work with government schools from 2020 onwards.

We continue to support a percentage of CHETI school running costs but have made a partnership with Ndoto in Action in order to fulfill our future goals with government schools to reach even more children living in poverty.

100% DONATION PROMISE

We are completely run by dedicated volunteers which means any any donations given to us for projects all go to implementing the project on the ground.

We have around £1,800 of running costs in the UK such as paying accounting fees, website hosting and bank fees but these are all funding by Trustees and a major donor.

We understand some charities need paid staff but because we are small and have lots of dedicated volunteers we can give 100%.

How we operate

We have chose to invest in local people in Tanzania by providing them with jobs directly associated with the projects. They know what is needed as they are on the ground every day.

Our team in Tanzania research, implement and collect impact data for the project so the salary and expenses of the people involved is all covered within the project costs..

Our team of volunteers in the UK are in charge of fundraising, donor management, monitoring and evaluation, marketing and communications. Our founder volunteers 1-2 days a week on the running of the charity and our amazing volunteers and Trustees work weekly during their spare time doing a variety of tasks.

Scaling back on fundraising

We had lots of plans to diversify our income in 2021 but COVID was still greatly impacting hosting events and organising community fundraising activities.

Instead of pouring our efforts into fundraising activities with a low chance of success we focused our efforts on strengthening existing donor relationships which has proven to be quite successful.

INCOME & EXPENDITURE

A glance at us since we began

We were very pleased with the income and expenditure of 2021 here at MWH. We found our fundraising and project implementation very manageable as a team of volunteers and we made a huge impact to thousands of children.

Income

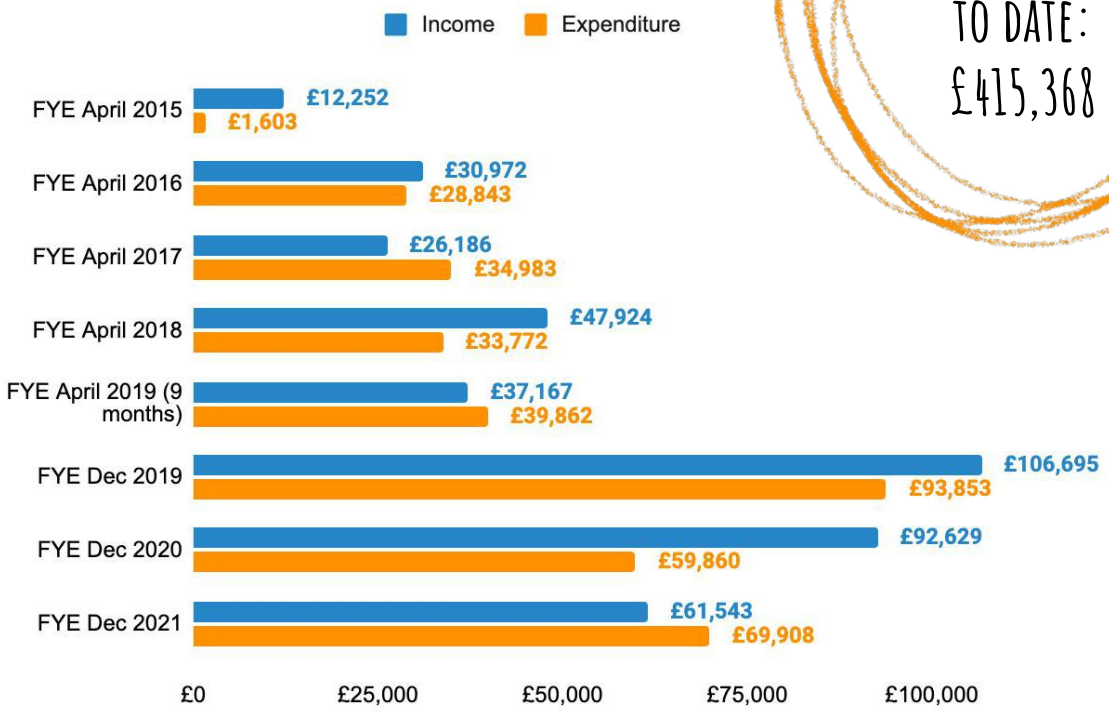

With the global pandemic still very present our income was down on 2020 (in 2020 we had a very successful first quarter before the pandemic). We scaled back on events and community fundraising because we knew it would almost be a waste of time. Instead we focused on major donors and Trusts and Foundations which we were quite successful with.

We are extremely thankful to our new and existing donors during this time as we know the climate was so uncertain that it was a scary time to part with disposable income.

Expenditure

Our expenditure was greater than our income this year as we had some left over funds from 2020. We couldn't implement many projects in 2020 as the schools were closed due to COVID so in 2021 we had to play catch up.

TOTAL RAISED TO DATE: £415,368

INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF MADE WITH HOPEFOR THE YEAR ENDED 31ST DECEMBER 2021

I report on the accounts of the company for the year ended 31st December 2021, which are set out on pages 9 to 16.

Respective responsibilities of trustees and examiner. The trustees (who are also the directors of the company for the purposes of company law) are responsible for the preparation of the accounts. The trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed.

Having satisfied myself that the charity is not subject to audit under company law and is eligible for independent examination, it is my responsibility to:

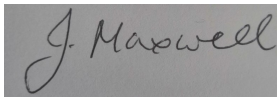

- examine the accounts under section 145 of the 2011 Act.
- to follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act: and
- to state whether matters have come to my attention.

Basis of independent examiner's report. My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration ofany unusual items or disclosures in the accounts and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe: -

I. Accounting records were not kept in respect of the company as required by Section 386 of the 2006 Act: or
2. the accounts do not accord with those records: or
3. the accounts do not comply with the accounting requirement of Section 396 of the 2006 Act other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination: or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and republic of Ireland (FRS102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in the report in order to enable a proper understanding of the accounts to be reached.

NOTES TO THE FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

The principal accounting policies adopted, judgements and key sources of estimation uncertainty in the preparation of thefinancial statements are as follows: -

Basis of preparation
The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing accounts in accordance with Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) (effective 1 January 2019) - (Charities SORP (FRS I02)), theFinancial Reporting Standard applicable in the UK and Republic of Ireland (FRSI02) and the Companies Act 2006.

Financial reporting standard 102 - reduced disclosure exemptions
The charity has taken exemption from preparing a cash flow statement under the charities SORP (FRS102 Update Bulletin I issued on 2 February 2016, as the charity constitutes a small charity.

Income and Endowments
Donations and similar incoming resources are included in the period in which they are receivable, which is when the charity becomes entitled to the resource.

Investment income
Investment income is accounted for in the period in which the charity is entitled to receipt.

Expenditure
Expenditure is recognised on an accruals basis as a liability is incurred.
Costs of raising funds comprise those costs directly attributable to raising funds for the charity.
Expenditure on charitable activities comprises those costs incurred by the charity in the delivery of its activities and services to enable the charity to meet its charitable aims and objectives. It includes both costs that can be allocated directly to such activities and those of an indirect nature necessary to support them.

Support costs have been calculated based on the payments made from the operational bank account which is separate from the public donations bank account.

Fund accounting
Unrestricted funds are donations and other incoming resources receivable or generated for the objects of the charity without further specified purpose and are available as general funds.
Designated funds are unrestricted funds earmarked by the trustees for particular purposes. Restricted funds are to be used for specific purposes as laid down by the donor.

Fixed assets
All fixed assets are initially recorded at cost. Assets with a value of less than £200 are not capitalised.

Taxation
The company is a registered charity and as such is exempt from Income Tax and Corporation Tax under the provision of the Income and Corporation Taxes Act 1988.

TRUSTEES ANNUAL REPORT

The trustees who are also directors of the charity for the purposes of the Companies Act 2006 , present their report and the financial statements of the charity for the year ended 31st December 2019. The Trustees have adopted the provisions of Accounting and reporting by Charities: Statement of Recommended practice applicableto charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS l02) (effective l January 2019).

GOVERNING DOCUMENT

Made With Hope Limited is a charitable company limited by guarantee incorporated on 15th April 2014 and registered as a charity on 25th February 2015. The company was established under a Memorandum of Association which established the objects and powers of the charitable company and is governed under its Articles of Association.

AIMS AND OBJECTIVES

Made With Hope believes every child, especially girls, living in rural Tanzania should have access to quality education to break the cycle of living in poverty. We empower these children through constructing or renovatingschools, teacher training and resources, constructing toilets and providing access to clean water, hygiene and sanitation.

We aim to

- Partner with communities and their schools to address the issues the ir children face when trying to get a quality education
- Provide sustainable educational facilities in rural Tanzania including primary and secondary schools.
- Use educational facilities as a base to offer health and wellbeing projects to support children in their ability to attend school consistently throughout the academic year
- Empower small local Tanzanian NGOs that understand their communities needs and enable them to create solutions to the problems they see.
- Maintain a high level of transparency and uphold our strong values to develop and promote an ethical way of running a charity.

About the school communities we partner with

- No or limited access to clean water
- Children have to walk long distances to school
- School classrooms are very overcrowded - up to 100 students to I teacher
- Hygiene facilities and practices are poor
- There is no or limited support for girls who are menstruating
- Toilets are incredibly unsanitary, dangerous and not suitable for use
- Teachers are stressed with the poor learning environment
- Each school only receives £15 a month for maintenance

BUT...the school community is engaged and we work in collaboration to improve their school so their children are empowered to learn!

AIMS AND OBJECTIVES (CONT)

Always working in partnership

We are working alongside Tanzanian organisations, the Tanzania n government, Tanzanian schools and rural communities to identify schools in the greatest need of our support. We have visited several schools with Tanzanian Government Education Officers and have f01med partnerships with five communities/schools to work with.

Although we focus on empowering children through education, we seek to work alongside communities and empower them too, by engaging them throughout our projects. With any project, community members are engaged through several community workshops so we can explore the best solutions for their children, together. We discuss and agree on a partnership that will have the biggest impact. From our experience, working alongside the community encourages ownership of a project to ensure its sustainability.

We work alongside communities for several years to ensure projects are sustainable before we consider leaving that community.

Our Delivery Partner

We work in partnership with local people who truly understand their community's needs. Since 2013 we have successfully collaborated with CHETI, a small Tanzanian NGO (Non-Government Organisation), who have been providing quality education to 8,000+ children in rural communities since 1997. CHETI are deeply embedded in the local community and highly regarded by the government which is just one of the reasons why our projects are so successful and sustainable. CHETI help to deliver the projects on the ground as they have such a good relationship with the communities. We speak every day and Made With Hope visit the projects twice a year to support monitoring and finding new projects.

" I started CHETI NGO in order to reach and help more poor people in Tanzania in eradicating poverty through education. I work with Made With Hope for CHETI NGO and Made With Hope do have many similar objectives. Our cooperation makes the NGOs stronger for we support each other in finding happiness to poor families. CHETI NGOs has grown so much for it is not working alone, there are NGOs **like Made With Hope which work kindly with it." Zuma, Director of CHETI NGO**

Our Values

- Collaborative: We do this through collaborating with local Tanzanian NGOs to address the specific educational needs of children in their community.
- Transparency: We see it as a fundamental right that every supporter knows exactly where every pennyof their money is spent. *
- Empower: We know that education is a fundamental way to empower a child to break the cycle of living in extreme poverty.
- Purpose: We have an awareness and social conscience that millions of people live in extreme poverty through no fault of their own and we desire to take action as global citizens.

Dedicated to Transparency.

Public trust in charities is going down. The main reason for this is lack of transparency. (Charity Commission report, 2018)

One of Made With Hope's first ever aims was to create an organisation where people felt like they knew where their money was going. When we first started, we struggled to understand why charities seemed so shiny and perfect. No one was talking about their mistakes or lessons teamed. We knew this didn't add up because the public were struggling to trust charities and news stories would appear about charities mistakes.

Here is how we're tackling this issue.

- We clearly publish our mistakes and lessons learned on our website. See our Transparency web page.
- We frequently share our receipts online
- We invite supporters to challenge our transparency
- We show how we spend donors' money in detail that is reader friendly

TRUSTEES
Any person can be admitted as a trustee of the charity providing all other trustees give their approval.

REVIEW OF DEVELOPMENTS, ACTIVITIES AND ACHIEVEMENTS
Our impact in 2020

- Renovated 2 classrooms at Mshikamano primary school to provide conducive learning environment that facilitates quality education for 110 children
- Constructed 5 hand washing stations in five government schools (Mshikamano, Mzimuni, Maweni, Marurani and Majimoto in Arusha region to aid in preventing the spread of COVID and other diseases.
- Water for over 1,600 children by installing 21 rainwater harvesting tanks in 3 schools (Mshikamano, Maweni and CHETI primary school in rural Arusha.
- Formed a partnership with Femme International and worked together to empower 353 girls in 5 schools by implementing the Menstrual Hygiene Management as part of MWH's girl's empowerment project.
- Constructed 9 girls' friendly toilets and 1 changing room at Mshikamano primary school in rural Arusha.
- Strengthened the relationship with Tanzania Government (Education department)
- Created a strong relationship with 5 rural communities who volunteered to provide at least 10% of the labour for the construction projects at their local school.

Our goals for 2021

- Construct 4 new classrooms, installation of 8 water tanks and connect rainwater harvesting system and construction of girl's friendly toilet with 10 cubicles and 1 changing room at Marurani primary school to provide quality education to 416 children.
- Install 8 water tanks at Mzimuni primary school to increase access to clean and safe water for over 626 children.
- Add 4 more water tanks at Maweni primary school to increase the amount of water preserved by school.
- Add 4 more government schools on the list of our partner schools to implement our school water, sanitation and hygiene project (SWASH) for more than 1000 children.
- By 2021, we will strengthen our partnership with the Tanzanian government to make sure all projects we deliver have permits from the government and reserve enough support from them.
- Partner with more local organizations in Tanzania to smoothen the delivery of our programs.
- Increase our Menstrual Hygiene Management programme in our partner schools to help hundreds more girls stay in school when they're on their period.

Fundraising and Operational Highlights

We started 2020 off well and had raised substantial amounts of funding through Trusts and Foundations and donations. In late March, COVID was becoming a pandemic in the UK and our fundraising almost ceased overnight; individuals were nervous to spend their money in case they lost their job, and a lot of Trusts and Foundations diverted their attention to UK causes. Our planned events had to be cancelled and we were unsure if we were going to survive as an organisation, like many other charities.

It was a tough year for us operationally. We had to furlough our only paid staff member to then not renew her contract due to lack of funding and our Director went on maternity leave in October. Some of our Trustees resigned due to other commitments in these uncertain times but still remain advisors to the charity. Our Chair took on a lot more responsibility and helped to run the charity, bring in donations and manage our existing volunteers.

We have had to scale back on quite a few projects and plans but we have taken this time to reflect on our goals and achievements and are thankful that the charity is in a very healthy state. We are confident that in 2021 we will be able to gain some normality back for MWH and continue our success in rural Tanzania.

FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2020

PUBLIC BENEFIT INFORMATION
The company continues to support the poor communities in Tanzania.

FINANCIAL REVIEW
The full results for the period and the charity's financial position are shown in the attached financial statements and the adequacy of the reserves is set out below.

RISK
As a relatively new charity we are seeking professional pro bono help regarding organisation development, corporate and trust and foundations fundraising to ensure we comply with the Charity Commission and our projects are sustainable. The Trustees have a duty to identify and review the risks to which the charity is exposed. The trustees also maintain a risk register which is updated regularly.

RESERVES POLICY
The charity endeavors to maintain it' s unrestricted reserves at a level sufficient to cover its out goings for six months and to close the charity down or wind it up if needed.

TRUSTEES' RESPONSIBILITIES
The Trustees (who are also the directors of Made With Hope Limited) for the purposes of company law) are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company at the end of the year and of the incoming resources and application of resources for the year then ended.

In preparing those financial statements, the trustees are required to: -

- select suitable accounting policies and then apply them consistently.
- make judgements and estimates that are reasonable and prudent.
- Observe the methods and principals in the Charities SORP.
- state whether applicable accounting standards and statements of recommended practice have been followed, subject to any material departures disclosed in the financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue its activities.

The trustees are responsible for keeping proper accounting records which disclose, with reasonable accuracy at any time, the financial position of the charity, and enable them to ensure that the financial statements comply with the Companies Act 2006. The trustees are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud or other irregularities.

Signed on behalf of the charity's trustees:

Alexandra Margolin

Chairman

INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF MADE WITH HOPE FOR THE YEAR ENDED 31ST DECEMBER 2020

I report on the accounts of the company for the year ended 31st December 2020, which are set out on pages 9 to 16.

Respective responsibilities of trustees and examiner. The trustees (who are also the directors of the company for the purposes of company law) are responsible for the preparation of the accounts. The trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed.

Having satisfied myself that the charity is not subject to audit under company law and is eligible for independent examination, it is my responsibility to:

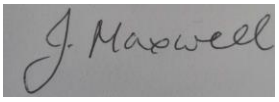

- examine the accounts under section 145 of the 2011 Act.
- to follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act: and
- to state whether matters have come to my attention.

Basis of independent examiner's report. My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe: -

1. Accounting records were not kept in respect of the company as required by Section 386 of the 2006 Act: or
2. the accounts do not accord with those records: or
3. the accounts do not comply with the accounting requirement of Section 396 of the 2006 Act other than any requirement that the accounts give a true and fair view which is not a matter considered as part ofan independent examination: or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and republic of Ireland (FRS102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in the report in order to enable a proper understanding of the accounts to be reached.

For the year ended 31st December 2020 the charitable company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The trustees acknowledge their responsibilities for

- ensuring that the charitable company keeps accounting records that comply with Section 387 of the Companies Act 2006 and
- preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and its surplus or deficit for each financial year in accordance with the requirement of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

These accounts have been prepared and delivered in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to charitable small companies.

These financial statements were approved by the members of the board of trustees on 30/09/2021.and are signed on their behalf by Alexandra Margolin (Chair) Signed ……..

The notes on pages 10 to 15 form part of these accounts

NOTES TO THE FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

The principal accounting policies adopted, judgements and key sources of estimation uncertainty in the preparation of the financial statements are as follows: -

Basis of preparation
The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing accounts in accordance with Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) (effective 1 January 2019) - (Charities SORP (FRS I02)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRSI02) and the Companies Act 2006.

Financial reporting standard 102 - reduced disclosure exemptions
The charity has taken exemption from preparing a cash flow statement under the charities SORP (FRS102 Update Bulletin I issued on 2 February 2016, as the charity constitutes a small charity.

Income and Endowments
Donations and similar incoming resources are included in the period in which they are receivable, which is when the charity becomes entitled to the resource.

Investment income
Investment income is accounted for in the period in which the charity is entitled to receipt.

Expenditure
Expenditure is recognised on an accruals basis as a liability is incurred.
Costs of raising funds comprise those costs directly attributable to raising funds for the charity.
Expenditure on charitable activities comprises those costs incurred by the charity in the delivery of its activities and services to enable the charity to meet its charitable aims and objectives. It includes both costs that can be allocated directly to such activities and those of an indirect nature necessary to support them.

Support costs have been calculated based on the payments made from the operational bank account which is separate from the public donations bank account.

Fund accounting
Unrestricted funds are donations and other incoming resources receivable or generated for the objects of the charity without further specified purpose and are available as general funds.
Designated funds are unrestricted funds earmarked by the trustees for particular purposes. Restricted funds are to be used for specific purposes as laid down by the donor.

Fixed assets
All fixed assets are initially recorded at cost. Assets with a value of less than £200 are not capitalised.

Taxation
The company is a registered charity and as such is exempt from Income Tax and Corporation Tax under the provision of the Income and Corporation Taxes Act 1988.

4. SUPPORT COSTS

The charity also has a number of costs that are incurred by the organisation in order to support the projects that it runs. For example HR for our policies and procedures, Trustee meetings. Wages and salaries have been apportioned based on the time spent by our staff member on these different activities (approximately 75% on charitable activities, 25% on fundraising). The cost of our Wages and salaries is covered by a corporate donor that has invested in our capacity as a small but growing charity.
