UK Film Education Trust
Charitable incorporated organisation, Charity number 1162509
Trustees Annual Report for the year ended 30 June 2025

The main charitable objective of the UK Film Education Trust is to raise and distribute funding to support professional training for the film and screen industries. Several initiatives were advanced during 2024 and 2025 to support this effort. This saw the development of strategic partnerships with industry and related organisations. Developing tax efficient giving from individual and company donors and fundraising event planning activities.

A strategic partnership was formed between the UK Film Education Trust and Screen Skills, the industry-endorsed professional training body for the UK screen sector. In December 2024 a Memorandum of Understanding was created by the Trust in collaboration with Screen Skills. A total of 50% of net proceeds raised by the Trust would be donated to Screen Skills for training in priority areas and for supporting under- represented groups.

In addition to the pledge of financial support for Screen Skills, the Trust continues to specific training providers to the industry. These include Film Design International, Animated Women UK, and Iver Makeup Academy based at Pinewood Studios.

A new fundraising initiative was launched 'It Just Takes One'. This tax efficient scheme for individuals and companies to donate 1% of their salary or company pre-tax profits to the Trust. The donations to the Trust will enable donors to offset their tax liability. These donations will help to provide training opportunities and mentoring for new entrants into the industry. This appeal is targeting well established professionals and companies in the industry to give back and help support the next generation.

In addition to the pledge of financial support for Screen Skills, the Trust continues to specific training providers to the industry. These include Film Design International, Animated Women UK, and Iver Makeup Academy based at Pinewood Studios.

The industry has faced ongoing challenges this year due to economic uncertainty. This has affected investment in film production both in the USA and UK. This has also had an impact on fundraising events planning for the Trust.

Going forward the Trust is continuing to develop campaign materials and assets to strengthen our various fundraising initiatives. To build on our existing partnerships with industry and related organisations with shared goals. The basic assumption remains that growth in the industry will depend on a combination of investment and a skilled workforce to deliver on the opportunities ahead in the UK. The UK Film Education Trust still has an important role to play in that future growth.

UK Film Education Trust
Charitable incorporated organisation, Charity number 1162509
Trustees Annual Report for the year ended 30 June 2024

The UK Film Education Trust continued to advance professional training and education within the film and screen industries. This was a challenging year for production with the UK emerging out of the pandemic with many productions being delayed or put on hold. This was despite the record levels of investment in studio infrastructure and expansion.

Most of the Trust activity was focused on working with studios and film production companies to provide work experience opportunities in Buckinghamshire in 2023. Open days were planned with Sky Studios and Universal to enable Sixth Form students studying media studies to gain access to a working film location with presentations from various departments. In addition, there were work experience opportunities created within the location department on site for local students to gain an insight into the industry.

The Trust continued to operate from Pinewood Studios but at a much-reduced level but was able to cover its administrative costs and plan for the following year.

UK FILM EDUCATION TRUST

Trustees Annual Report July 2021-June 2022

The UK Film Education Trust has been generously supported by The Pinewood Studios Group over the year 2022-23 in providing facilities for the Trust to continue to operate from. The Trust is now part of the studio expansion plan with a key role to play in film education. This is part of the strategic plan for Pinewood Studios to become a major training hub and centre of excellence in the creative industry sector. With substantial investment into the UK film industry both in terms of facilities and production content over the next ten years there is going to be an increase in demand for skilled technicians to help meet that demand.

The UK Film Education Trust will continue to work with industry partners to not only financially support individuals in that training through bursaries but also create work experience opportunities for young adults on productions. The Trust will also seek to provide direct training in support of those wishing to gain access to the industry from a variety of diverse backgrounds.

Looking forward we expect the Trust to expand through partnership working and creating opportunities particularly for young people to develop careers in the film industry.

WORK CLOSELY WITH INDUSTRY EXPERTS TO SUPPORT EMERGING TALENT

Trustees Annual Report July 2020-June 2021

The UK Film Education Trust continues to develop partnerships with other professional industry training providers to enable opportunities for students to gain access and eventually employment in the creative industries.

The last year has been the toughest yet with the global pandemic and COVID restrictions bringing everything to halt, which has caused major delays to our expectations for this year, however our aim for the coming year is to continue organising strategic partnerships with industry bodies and continue our support with Animated Women UK for their mentoring program with Disney.

Prospect research continues to be carried out by the Trust to identify potential donors and to develop longer term supporters. This includes potential donors who come from the film industry itself as well as those with an interest in supporting opportunities within the creative industries. We are now officially supported by Pinewood Studios so we will also be looking at corporate sponsorship from other companies based at Pinewood Studios and connected with film production, distribution and marketing.
