1. Glossary of Abbreviations

CIO – Charitable Incorporated Organisation

The CIO or KWT-UK – Kenya Wildlife Trust UK (formerly The Friends of Kenya Wildlife Trust UK)

Kenya - Republic of Kenya

KWT – Kenya Wildlife Trust, a Kenyan irrevocable public charitable trust

Trustees – Trustees of Kenya Wildlife Trust UK

MPCP – Mara Predator Conservation Programme

Annual Report and Financial Statements, 2025

2. Legal and Administrative Information

2.1 Name and Incorporation

The CIO was incorporated under the Charities Act 2011 on 29th June, 2015 as The Friends of Kenya Wildlife Trust UK. On 20th January, 2021 the name of the CIO was changed to **KENYA WILDLIFE TRUST UK**.

2.2 Registration Number

The CIO was registered with the Charity Commission for England and Wales under registration number **1162781** on 22nd July, 2015.

2.3 Accounting Reference Date

30th April in each calendar year

2.4 Registered Office and Operational Address:

Inglewood
6A Reeves lane
Wing, Oakham
Rutland LE15 8SD

2.5 Trustees

The following served as trustees during the year:

Dr. Sir Christopher Hugh Tuite Bt, Chair of Trustees
Helen Caroline Cullen, Secretary – retired 29th June, 2024; re-appointed 10th September, 2024
Robin Neville Cullen, Treasurer – retired 29th June, 2024; re-appointed 10th September, 2024
Elizabeth Rosa Wark Prins
Lady Deborah Ann Tuite – appointed 26th July, 2024; resigned 11th March, 2025

L-2449
Luxembourg

2.7 Report of the Trustees for the year ended 30th April, 2025

The Trustees present their annual report and accounts for the CIO for the year ended 30th April, 2025. The accounts and financial statements have been prepared in accordance with the accounting policies set out in the notes to the accounts and comply with the Charities Act 2011 and the CIO's amended and restated Constitution dated 8th February, 2021.

2.8 Aims and Objectives

The CIO exists solely for charitable purposes as set out in its objects clause contained in the CIO's amended and restated Constitution dated 8th February, 2021. The CIO seeks to benefit the peoples of Kenya in particular, but not exclusively, for the relief of poverty and sickness, the advancement of education and the conservation and protection of the environment.

2.9 Activities for the Public Benefit

The Trustees confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the CIO's aims and objectives and in planning future funding activities and setting the funding policy for the year.

Annual Report and Financial Statements, 2025

3 Structure, Governance and Management

3.1 Governing Document

The CIO is governed by a Constitution dated 8th February, 2021 which amended and restated that signed upon its incorporation on 29th June, 2015. Further amendments were made to the Constitution on 10th September, 2024 and are referenced in 3.3.

3.2 Organisational Structure

The Trustees listed in 2.5 were appointed under the CIO's Constitution.

The Trustees are responsible for the general control, management and day to day administration of the CIO. The Trustee Treasurer oversees the completion of the Annual Report and Accounts. The Trustees give their time freely and receive no remuneration or other financial benefits.

The Trustees meet regularly and are responsible for all decisions taken in relation to running the CIO.

Name of Trustee	Attended the following meetings during the year
Christopher Hugh Tuite	15th May, 2024; 26th July, 2024, 2023; 10th September, 2024; 29th January, 2025; 28th February, 2025
Helen Caroline Cullen	15th May, 2024; *26th July, 2024; *10th September, 2024; 29th January, 2025; 28th February, 2025
Robin Neville Cullen	15th May, 2024; *26th July, 2024; *10th September, 2024; 29th January, 2025; 28th February, 2025
Elizabeth Rosa Wark Prins	15th May, 2024; 26th July, 2024; 10th September, 2024; 29th January, 2025; 28th February, 2025
Deborah Anne Tuite	**26th July, 2024; 10th September, 2024; 29th January, 2025; 28th February, 2025

By virtue of the fact that all Trustees are Members and there are no other Members, currently, then the Trustees agree that all meetings are also Members meetings.

* In attendance only

** In attendance only, not voting for part of the meeting until appointed as a Trustee

Annual Report and Financial Statements, 2025

3.3 Recruitment and appointment of Trustees

The Constitution dated 29th June, 2015 provided for a minimum of three trustees and a maximum of twelve trustees. This was carried forward to the amended and restated Constitution dated 8th February, 2021.

Under these versions of the Constitution, new trustees were appointed by the Trustees for a term of three years. Trustees could then be re-appointed for a further 3-year term and exceptionally for another 3-year term (ie maximum 9 years), after which they needed to stand down for an interval of at least one year before any further appointment could be made by the Trustees.

Further amendments made to the Constitution and approved by the Charity Commission on 10th September, 2024 removed the need for a Trustee to stand down for a year before any further appointment after 9 years and instead now requires the Trustees to give full consideration in re-appointing an individual for any further term as to whether the appointment remains in the best interests of the Charity.

The following Trustees served from 1st May, 2024 to the date of this report:-

- Dr. Sir CH Tuite being due to retire on 12th October, 2024 was re-appointed on 10th September, 2024 for a further 3 years with effect from 12th October, 2024.
- Mrs HC Cullen retired on 26th July, 2024 and was re-appointed on 10th September, 2024 for a further 3 years. In the interim period she continued in the role of Acting Secretary.
- Mr RN Cullen retired on 26th July, 2024 and was re-appointed on 10th September, 2024 for a further 3 years. In the interim period he continued in the role of Acting Treasurer.
- Ms ERW Prins
- Lady DA Tuite appointed on 26th July, 2024 and resigned on the 11th March, 2025.

3.4 Management

The Trustees hold a minimum of three meetings a year at which they develop strategy and agree and review areas of activity for the CIO including marketing and fund-raising, grant-making, policy-making and performance.

The Trustees work closely with the KWT in Nairobi which is the CIO's eyes and ears on the ground in Kenya and upon whose grant making and monitoring and evaluation framework the CIO relies significantly for many of the grants it makes. The information provided by the KWT assists the Trustees in assessing the performance of grants to date and in considering the extension, cessation or suspension of existing grant approvals.

Whilst on one hand placing reliance on the KWT's framework, the CIO will always retain its independence over where its monies might be granted, to the KWT or elsewhere, where it can contribute for the public benefit and meet its objectives.

Annual Report and Financial Statements, 2025

Additionally, some of the Trustees usually visit one or more of the projects which the CIO is supporting and meet with key project directors, annually, as well as having regular contact face to face with the KWT in Nairobi. The Trustees also encourage directors of projects that the CIO

is supporting and the directors and staff of the KWT to make contact when they are in the UK and to meet with the Trustees. Since the COVID restrictions have been lifted in both UK and Kenya, all the Trustees have visited Kenya at least twice both making contact and meeting with KWT and visiting the KWT's flagship programme, MPCP, and have been updated by the current team.

All of the Trustees give of their time freely and are not remunerated. Details of any Trustee expenses and related party transactions are disclosed in the notes to the accounts. Trustees are required to disclose all relevant interests and register them at the start of every meeting and in accordance with the CIO's policy must withdraw from decisions where a conflict of interests arises.

The day to day processing and administration of donations and grants is handled by the Secretary.

3.5 Risk Management

The Trustees have developed a Risk Management Policy which sets out how the Trustees manage risk and the appetite that the Trustees have for taking risk. This Policy was approved at the meeting held on 23rd June, 2020.

The Trustees have identified the key risks to which the CIO is exposed and have assessed the likelihood and impact of certain events. The Trustees maintain a risk register which is periodically reviewed; the Trustees have given consideration to the major risks to which the Charity is exposed and satisfied themselves that systems or procedures are established in order to manage those risks. The Trustees continually review and develop the risk register and, where appropriate, the systems and procedures, to mitigate risk.

The CIO registered with the Information Commissioner's Office (ICO) on 31st May, 2018 as required by GDPR at the time, and continued to be registered as required by UK GDPR until May 2025 when, following a review and re-completion of the data protection fee self assessment it was concluded that KWT-UK met the requirements as a not-for-profit organisation, qualifying for exemption from payment of the data protection fee. Accordingly, the Trustees requested to de-register and this was granted by the ICO on 25th April, 2025. It should be noted that whilst KWT-UK is legally no longer required to pay the data protection fee the Charity must still comply with the relevant data protection legislation.

The CIO maintains trustee indemnity insurance for the Trustees.

3.6. Grant-Making Policy

The CIO believes in making grants to trusted partners who demonstrate a track record of success, and who are then expected to commit to clearly articulated outcomes and targets within a given timeframe as part of a grant agreement. In awarding grants, the Trustees give due consideration to

eligibility of the prospective grantee, geographical area within Kenya, whether organisation or individual, known background and history and views, knowledge and recommendations of the KWT.

Once a grant has been awarded, the CIO uses a monitoring and evaluation framework to help manage their grant portfolios with the in-country assistance of the KWT. Under this framework, monitoring is continuous and routine data collection and reporting takes place to ensure that the project activities are meeting the set objectives. Once the project or the programme is completed then it is evaluated and assessed to improve ongoing impact and effectiveness.

Annual Report and Financial Statements, 2025

4. Kenya Wildlife Trust UK - history and background of the Charity

The KWT was established in 2007 by leaders in the Kenyan safari industry led by guides from the original Ker and Downey Safaris, with the principle aim of strengthening the connection between conservation and tourism. In 2013, the KWT moved into project implementation with the establishment of the flagship lion and cheetah monitoring projects in the Maasai Mara, now consolidated as the Mara Predator Conservation Programme.

The KWT is dedicated to protecting Kenya's predators through a network of high-impact conservation initiatives in some of Kenya's and East Africa's important wildlife landscapes, including the Greater Mara, Laikipia - Samburu, and Amboseli - Tsavo. KWT recognises that it is widely accepted that top (apex) predators play a critical role in maintaining healthy and sustainable ecosystems by enhancing biodiversity, improving system resilience, providing economic benefits from ecotourism, and acting as indicators of overall ecosystem health. The KWT's key objective is to achieve optimal predator populations in these ecosystems at their potential carrying capacity and ensuring their long-term conservation and protection. KWT recognises that local communities are essential partners for protecting predators and seeks to support communities through projects that enable them to coexist with wildlife while also enhancing their economic, social well-being, and cultural traditions.

In 2012, a conventional charitable trust was formed under UK Law by British supporters and registered with the Charity Commission. However, it soon became apparent that, in order to attract significant donors and donations in the UK, which in turn would enable a greater contribution to some of the projects in Kenya and enhance our alliance with the KWT, it needed higher profile trustees with specific skills, prepared to serve on the board. The Trustees did not believe this to be possible whilst continuing with that structure and therefore set about a restructure with the help of the Charity Commission. It was concluded that a then relatively new charitable structure called a CIO, would be the most suitable successor body and The Friends of Kenya Wildlife Trust UK was formed, as a CIO, on 29th June, 2015 and registered with the Charity Commission on 22nd July, 2015. The Trustees then wound down the original trust and transferred its funds to the CIO. Subsequent to this, the CIO changed its name on 8th February, 2021 to Kenya Wildlife Trust UK.

The CIO and the KWT share similar charitable objectives, vision, mission and values. The CIO aims to, but does not exclusively, make substantial grants of our own by way of funding to projects that the KWT supports.

5. Report of the Trustees

5.1 Administration

The CIO is a registered UK Charity and is also registered with HM Revenue and Customs for tax purposes. This enables the Charity to reclaim tax in relation to donations made by UK resident individuals via the Gift Aid scheme and gives UK tax exemptions in relation to income and capital gains arising in the course of its charitable activities.

5.2 Our Mission

To provide funds to data-driven and community supported predator conservation efforts that enable the long-term viability of predator populations in Kenya.

5.3 Our Vision

Our vision is a Kenya where healthy predator populations are the cornerstone of thriving ecosystems.

5.4 Our Values

- **Results focussed:** we are committed to setting clear, measurable targets for which we deploy funds and monitor progress.
- **Trust:** we believe that trust is a critical component to successful working relationships between our stakeholders, including donors, grantees, staff and Trustees.
- **Transparency and Accountability:** As stewards of donations, we believe in transparency and accountability of funds ensuring that all donations are directed to projects in the field and the use of those funds are monitored appropriately
- **Expertise and Knowledge:** we believe in the value of scientific monitoring and data to inform conservation strategies.

5.5 Our Focus

The CIO continues to share a common focus with the KWT and we maintain close links in support of their work in **Kenya**.

Predators: KWT-UK is a firm supporter of the MPCP. KWT's flagship programme, whose overarching objective is to support stable, healthy predator populations in the Greater Mara Ecosystem by providing scientific evidence for conservation action. The programme embodies the KWT's value proposition of being **driven by science and focussed on people**. MPCP's objectives and activities are realised through two teams – **Research** and **Community** who work to ensure that predators and people co-exist peacefully. Genuine community engagement complements practical conservation management recommendations, solutions and ideas developed through robust research and monitoring practices.

Annual Report and Financial Statements, 2025

People: We support conservation work which is strongly anchored in collaborating with communities living alongside wildlife. The KWT works with and empowers local communities and educates all stakeholders about conservation and environmental stewardship. Fundamental to this is the KWT's Conservation Leadership Programme which hopes to ensure that the unique knowledge of young people in Kenya's core ecosystems of the Greater Mara, Amboseli/Tsavo and Laikipia/Samburu can be enhanced by a quality higher education degree. The programme offers full funding to study wildlife conservation at undergraduate level at a group of hand-picked universities in Kenya and works with local schools and NGOs to select gifted students with leadership potential who would not otherwise have the opportunity to pursue a quality education.

Partnerships: We believe a target driven and collective approach will lead to much more effective work in these core ecosystems. We develop and strengthen partnerships with like-minded organisations working together to achieve greater impacts in predator conservation. We support grant-making to strengthen grassroots organisations, many of whom know more about the realities of these ecosystems than anyone. We are prepared to make grants to organisations focusing on protection of predators as well as community health and education projects.

5.6 Activities

KWT-UK seeks to support projects and activities in Kenya that broadly assist in the conservation of predator populations in some of Kenya's most iconic and globally important wildlife landscapes. Funding priorities are focused on supporting leading-edge research on the ecology and behaviour of predators and the social and economic needs and challenges of local communities coexisting with predators and wildlife in these ecosystems.

In common with the KWT, KWT-UK is committed to raising funds to support data-driven and community-supported predator conservation efforts. We believe in making grants to trusted partners that have a demonstrated track record of success. We expect to build a relationship based on trust so that grants can be primarily unrestricted allowing grantees to utilise resources as they see fit, so that they can achieve the greatest amount of impact themselves. Grantees are selected because they embody our values.

Whilst our natural link and philosophy are to the KWT, we believe in supporting the diversity of new African civil organisations that are demonstrably well-run and governed and whose missions coincide with ours. Consequently, we have a grant application process that runs independently of the funding needs of the KWT. Whilst we aim primarily to fund efforts within Kenya's three most important ecosystems, we will consider projects in other areas of Kenya which support broader predator monitoring and conservation.

In this year under review KWT-UK provided funding to both the KWT (£8,000) of a general support nature and MPCP (£4,500) which covered both general support, fuel for research vehicles and collars for predators.

Further information is available at <https://www.kenyawildlifetrust.org/>

5.7 Commitment

There has been some focus placed on identifying possible funding sources for KWT-UK this year although the Trustees continue to find it hard to attract new trustees with the right qualifications who can support the CIO.

The Trustees still feel we should be able to find our own niche in the very competitive UK market for fund-raising for conservation in Africa. However, we also feel that before we can do that we need to revitalise the Board of Trustees and encourage the involvement of new blood with more experience and higher profiles than ourselves. With this in mind we are making some tentative steps towards recruiting new board members.

5.8 Funding and fundraising

The CIO's funding is currently received from individuals, film companies and small corporations and institutions. Most often, the first individual donation results from a vacation experience in Kenya where individuals are engaged in conversation with their guides and hosts and become exposed for the first time to the aims and objectives of the CIO in the communities.

Social media sites such as Facebook continue to be important to us providing a steady stream of funds, mostly from individuals.

Currently the CIO will accept cheques drawn on a UK bank account (preferably, with a completed Gift Aid declaration) and direct donations into the CIO's PayPal Giving account. We also maintain payment arrangements with the major fund-raising platforms such as Just Giving and CAF.

Individuals, in the UK, can also gift their tax repayments as a donation to the CIO through their tax return by quoting reference **EW39224** in the appropriate section of their tax return.

Annual Report and Financial Statements, 2025

6. Financial Review

The CIO currently holds its funds in a UK bank account. Sufficient funds are held to enable the CIO to respond to unexpected events. The Trustees expect to make funding available for specific purposes and projects identified and approved by them.

Our income is currently still at a low level and we have worked with KWT to identify where we might be of the most assistance. We have been aiming to support the ongoing equipment needs of the Mara Predator Conservation Programme. With this objective we can provide funding on a small scale quickly, meeting equipment needs which are often overlooked or not eligible from large grants. We feel this is a valuable role, and of course forms a base for very good story-telling from the field.

The CIO aims to be able to make grants based on all donations (unless specifically donated for operational support) and aims to limit its other expenses, where possible, such as advertising and brochures/leaflets, to funds received as a result of Gift Aid claims.

6.1 Income received in the Year

The total income received in the year, which included investment income of £168 (2024 £97), was made up from donations, together with related tax recoverable totalling £2,746 (2024 £10,539). £460 (2024 £7,030) of the income had restrictions placed upon its usage.

6.2 Result for the Year

There was an overall (deficit) surplus incurred in the year of £(10,072) (2024 £10,253).

6.3 Funds held

The CIO keeps minimal funds carried forward in order to meet its own immediate future costs as well as being able to continue to fund those projects it supports.

Annual Report and Financial Statements, 2025

7. Declaration of the Trustees

In my capacity as Chairman of Trustees I declare that the Trustees have approved this report and have authorised me to sign it on their behalf.

The Trustees confirm that they comply with the Charities Act 2011 and the amendments made by the Charities Act 2022 and the CIO's Constitution and the accounts have been prepared in accordance with the CIO's accounting policies.

The Trustees confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the CIO's aims and objectives and in planning future funding activities and setting the funding policy for the year.

Signature..... 

Name: Dr. Sir Christopher Tuite
Position: Chairman of Trustees

Dated: 9/9/25

Annual Report and Financial Statements, 2025

8. Statement of Trustees' responsibilities in relation to the financial statements

The Trustees are responsible for preparing a trustees' annual report and financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales requires charity trustees to prepare financial statements for each year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources, of the charity for that period.

In preparing the Financial Statements, for the year ended 30th April, 2025, set out on pages 16-20 of this Annual Report and Financial Statements, the Trustees have: -

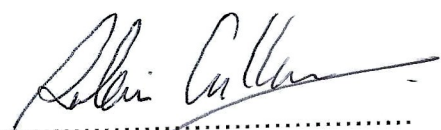

- * Selected suitable accounting policies and then applied them consistently
- * Observe the methods and principals in the applicable Charities SORP
- * Made judgements and estimates that are reasonable and prudent
- * Ensured that applicable accounting standards have been followed
- * Prepared the financial statements on the going concern basis

The Trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Charity and for ensuring that the financial statements comply with the Charities Act 2011 as amended by the Charities Act 2022, the applicable Charities (Accounts and Reports) Regulations, and the provisions of the Constitution. They are also responsible for safeguarding the assets and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the Trustees at their meeting on 9th September, 2025 and signed on their behalf by:

.....
Dr Sir Christopher Tuite, Chairman of Trustees

Dated: 9/9/25

.....
Robin Cullen, Treasurer and Trustee

Annual Report and Financial Statements, 2025

Statement of Financial Activities

Notes to the Financial Statements
For the year ended 30th April, 2025

1. Basis of preparation

These accounts have been prepared on the basis of historic cost in accordance with:

- Accounting and Reporting by Charities SORP FRS 102;
- and with Accounting Standards;
- and with the Charities Act 2011 as amended by the Charities Act 2022.

2. Accounting policies

Incoming Resources

Recognition of incoming resources

These are included in the Statement of Financial Activities (SoFA) when:

- the Charity becomes entitled to the resources
- the Trustees are virtually certain they will receive the resources;
- the monetary value can be measured with sufficient reliability.

Grants and donations Grants and donations are only included in the SoFA when the Charity has unconditional entitlement to the resources.

Tax reclaims on donations Incoming resources from taxation reclaims are included in the SoFA at the same time as the gift to which they relate.

Volunteer help The value of any voluntary help received is not included in the accounts but is described in the Trustees' annual report.

Investment income This is included in the accounts when receivable.

Expenditure and Liability

Liability recognition Liabilities are recognised as soon as there is a legal or constructive obligation committing the Charity to pay out resources.

Governance costs Include costs of the preparation and examination of statutory accounts, the costs of trustee meetings and cost of any legal advice to Trustees on governance or constitutional matters.

Grants payable Grants payable without performance conditions are only recognised in the accounts when a commitment has been made and there are no conditions to be met relating to the grant which remain in the control of the Charity.

Annual Report and Financial Statements, 2025

Statement of Financial Activities

Notes to the Financial Statements For the year ended 30th April, 2025

2. Accounting policies (continued)

Assets

Tangible fixed assets for use by charity These are capitalised if they can be used for more than one year, and cost at least £500. They are valued at cost or, if gifted, at the value to the Charity upon receipt.

Details of certain items of expenditure

Trustee expenses None of the Trustees or the Treasurer were paid or reimbursed any expenses.

Professional fees in examination of the financial statements –
As the Charity's turnover is less than £25,000 no audit of these financial statements is required by law and none was carried out, consequently no fees in relation thereto have been paid.

Employees The Charity did not employ any employees.

Restricted funds Monies received during this period, in relation to specified projects, were expended in the same period on these projects or, alternatively, are being held on account pending funding approval.

Transactions with related parties None

3. Resources expended on Projects
