

## Trustees Annual Report 2023-2024

The Trustees are pleased to report that their work is continuing on several fronts. These include the regular opening of our walk-in aid facility and other activities involving meeting members of the public. Also, offering financial support for the funerals of ex-service people of the area, including assistance with funerals.

The main concern of the trustees has been our headquarters and main asset of the CIO, our building at 14, Arwenack Street, Falmouth. The lease with our tenants, The Arwenack Club has ended and we have negotiated a renewal agreement.

We have plans to renovate the basement area of the building, which is a heritage building, known as Little Ships but we will have to produce a feasibility study and obtain grant funding in order to do this. We then hope to work with our tenant to offer this space for the ex-service people of the area in some charitable capacity.

Our legal team have yet to resolve the ongoing dispute with our immediate neighbour over the ownership of the small piece of land.

The trustees anticipate a continuing of their work in the community.
