Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>The charity's operations were severely affected by the Covid-19 pandemic which restricted the ability to monitor and evaluate projects. In addition, local volunteers were not able to continue working on our existing projects and fundraising has been a challenge as trekking activities in Nepal and the United Kingdom were completely curtailed.</p> <p>Consequently in 2019 – 2020 NERF did not achieve its projections or goals. NERF did achieve the following in accordance with its overall goals:</p> <p>1. Online Store Sales (£219):</p> <p>Our online store which supports a number of earthquake affected artisans and artists has begun to show sales and required re-stocking with art, copper and brass jewellery items. The promising start is an effort to both fundraise and provide access to external markets for communities whose reliance on tourism has been blighted by slow or absent reconstruction post-earthquake. We also made sales of Nepali art in venues around London, taking 50% of revenue for the charity and returning 50% back to the artists.</p> <p>2. Volunteer Trek Project - £4,220.</p>

		<p>Funding was raised by volunteers who trekked with NERF in Nepal in November 2019 within the Annapurna region. This, our fourth water source project was a great success and has had far-reaching impacts for the beneficiaries allowing agriculture to thrive and WASH standards to improve significantly in Lekhani village.</p> <p>Further detailed information can be found at www.nerfinternational.org.</p>

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	<p>NERF finished the year with a more than 50% decrease in revenue due to the inability to fundraise through trekking activities.</p> <p>Spending was also reduced significantly due to the Covid-19 pandemic, down 60% from the previous year.</p>
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	<p>The charity has maintained its policy of a minimum cash reserve of £2,000.</p> <p>This is a comfortable margin as the entire running costs of NERF in the year 2018 - 2019 (including the cost of running events not borne by the trustees) was only £449.</p>
Amount of reserves held	Para 1.22	<p>NERF's reserves at the end of the year was £27,285 with £40 restricted leaving reserves of £27,245.</p>

<p>A description of the principal risks facing the charity</p>	<p>Para 1.46</p>	<p>Risks</p> <p>The spread of Covid-19 is NERF’s most palpable risk and the charity will not return to operate in Nepal until the WHO and individual country restrictions deem it safe to do so. It is imperative that there is no increased risk to the communities served by NERF as a consequence of NERF’s staff or volunteers operating in the region.</p> <p>The Trustees are continuing to take advice on the risks involved while working in rural, remote, deprived and vulnerable communities. This includes risks relevant to personal injury, programme integrity and the well-being of beneficiaries. This advice is sourced from industry professionals, peer educators and experienced organisations.</p> <p>NERF funded programmes which are implemented by NERF’s partners do involve students of varying ages.
