Trustee Report

Although most of the youths have moved on to tertiary institutions the mission remains the same. Circumstances have changed but the call to make disciples is constant. The ministry is now investing in small group and 1 to 1 ministry in order to sustain connections especially to those who have moved to further their education. We are also looking at maintaining the connections with an ongoing online option both to serve those unable to attend in person and also to retain the new evangelistic opportunities technology allows.

Trustees members during the year were also responsible for safeguarding the charity assets and keeping paper records. Report approved by the trustees on the 23/04/23 and signed on their behalf by Rosemary Amankwah
