Voluntary Contributions	3232		
Total Income	3324	Total Expenditure	3180

Funds for future use = 144

In 2024, the church placed a strong emphasis on discipleship, nurturing spiritual growth and encouraging active service among its members. As part of this focus, several church leaders made intentional visits to youth members who had relocated to various university campuses for further education. These visits were an opportunity to encourage them to use their God-given gifts and talents—not only in service to the church, but also in making meaningful, positive contributions within their communities and the wider world.

To stay connected despite physical distances, the church effectively utilized virtual meetings. This not only fostered a continued sense of community and spiritual support, but also significantly reduced operational costs.

The Trustees of Grace & Truth Ministries remained steadfast in their commitment to stewardship, ensuring the safeguarding of all charitable assets throughout the year. This report was reviewed and approved by the Trustees on April 21, 2025, and has been officially signed by Rosemary Amankwah.
