AVS is overseen by a voluntary Board of Trustees, experienced people with a wide range of skills and backgrounds who agree its strategy and provide technical advice wherever possible within their own skill sets. One of the Trustees was born in Uganda and the others have travelled, some of them several times, to Eastern Uganda to work directly with and get to know the villagers and to see, at first hand, the impact of the Charity's use of the funds they have raised in the UK.

The AVS Uganda Executive Board undertake the local management of AVS projects by the villagers' own representatives. AVS Uganda is registered in Uganda as a Community Based Organisation (CBO).

Their remit is to:

- manage and monitor the on-going effectiveness of established projects; and
- make recommendations for the development of new projects.

The Executive Board of AVS Uganda work, as with the UK Board of Trustees is voluntary.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

AVS fundraising objective for the UK is to raise £30,000 for the year. The AVS mission shall be achieved through the following objectives:

- To alleviate poverty among vulnerable families and communities through capacity building, entrepreneurship, and livelihood projects.
- To promote safe motherhood and good health among the vulnerable communities
- To provide educational support to orphans and vulnerable children
- To establish a functional community centre to facilitate community interventions for development.
- To nurture and promote talent among youths through vocational and training courses.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

Activities undertaken for the benefit of the villagers we support in relation to our objectives include;

Summary of the main achievements of the charity during the year

The villagers we support in Uganda are, for the most part, subsistence farmers living in very poor conditions without running water or electricity and reliant for their survival on their harvest. Their needs are wide and varied but they are clear that their quality of life can be enriched by projects which empower them to achieve personal and economic independence through their:

- acquiring education and skills;
- improving health and wellbeing;
- supporting the neediest in their communities.

Achievements during this period were difficult to record due to the onset of the COVID-19 pandemic at the start of the reporting year.

Overall we were able to:

- Maintain staff numbers at a reduced cost;
- Keep the community centre when permitted by government regulations;
- Support the most vulnerable with food supplies;
- Continue our mama-bag program for the majority of the year;
- Keep student sponsors informed and encouraged to continue the education program.

We were unable to maintain any fundraising campaigns due to COVID-19.

Section E
