Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	Our work has unfortunately been affected by the pandemic, but we have continued the fundraising in order to get the programme established fully in 2023/4 again. We have supported fellows with grants in the past and the travel fellowships which had been awarded will now be utilised in line with the aims and objectives of the charity and continue to be awarded for 2024. After our BICRAA app (www.bicraa.org) had been successfully tested in India (n=1049), showing that around 30% chew betel nut (we would like to thank Prof. Kelkar and Dr. Pethe from the Deenanath Mangeshkar Hospital, Pune, for their invaluable support), the app has continued to help raise the awareness of the risks of betel nut chewing. We have continued working on a global study to extend these efforts in India and other countries. With regard to our work in Indonesia, we have continued to closely work with our partners at the Dr. Sardjito Hospital/Gadjah Mada University in Yogyakarta, Indonesia, and one of the trustees, Mr. Matt Lechner, travelled there in September 2022 to support the local Nasopharyngeal Cancer (NPC) awareness and early detection programme and to support research and publications of results. The Storz company has continued to support our programme and in 2024 we were will be able to award fellowship grants to young surgeons, sponsored by a donation by Storz, allowing them travel to low and middle income countries and to help with the local charitable work.

Set out on pages

1-2

(remember to include the page numbers of additional sheets)

Responsibilities and basis of report

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended 31/07/2024.

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention (other than that disclosed below *) in connection with the examination which gives me cause to believe that in, any material respect:

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	Our work has unfortunately been affected by the pandemic, but we had continued the fundraising and were able to have our programme fully up and running again in 2023 again. We have supported fellows with grants in the past and the travel fellowships which had been awarded will now be utilised in line with the aims and objectives of the charity in 2023. Moreover, we have awarded two more fellowships for 2023 with fellows travelling to Uganda and Tanzania. After our BICRAA app (www.bicraa.org) had been successfully tested in India (n=1049), showing that around 30% chew betel nut (we would like to thank Prof. Kelkar and Dr. Pethe from the Deenanath Mangeshkar Hospital, Pune, for their invaluable support), the app has continued to help raise the awareness of the risks of betel nut chewing and we have recently completed a study in Taiwan (n=>1000). With regard to our work in Indonesia, we have continued to closely work with our partners at the Dr. Sardjito Hospital/Gadjah Mada University in Yogyakarta, Indonesia, and one of the trustees, Mr. Matt Lechner, travelled there in September 2022 to support the local Nasopharyngeal Cancer (NPC) awareness and early detection programme and to support research and publications of results. The company KARL STORZ has continued to support our programme.

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	Our work has unfortunately been affected by the pandemic, but we have aimed to continue the fundraising in order to get the programme established fully in 2022/2023 again After our BICRAA app (www.bicraa.org) had been successfully tested in India (n=1049), showing that around 30% chew betel nut (we would like to thank Prof. Kelkar and Dr. Pethe from the Deenanath Mangeshkar Hospital, Pune, for their invaluable support), the app has continued to help raise the awareness of the risks of betel nut chewing. We have continued working on a global study to extend these efforts in India and other countries. With regard to our work in Indonesia, we have continued to closely work with our partners at the Dr. Sardjito Hospital/Gadjah Mada University in Yogyakarta, Indonesia, and affiliated district general hospitals in collaboration with Prof. Bing Tan to support the local Nasopharyngeal Cancer (NPC) awareness and early detection programme and to support research and publications of results. The Storz company has continued to support our programme and in 2019 we were able to award four fellowship grants to young surgeons, sponsored by a donation by Storz, allowing them travel to low and middle income countries and to help with the local charitable work. In 2020 we awarded two more fellowships and these have unfortunately been delayed by the pandemic, but will be completed in 2022/2023.
