

NENTHEAD MINES CONSERVATION SOCIETY

Charitable Incorporated Organisation Number 1166281

14 Kirk Rise, Frosterley, Bishop Auckland, DL13 2SF

TRUSTEES REPORT AND FINANCIAL STATEMENT

APRIL 2020 TO MARCH 2021

Trustees 31st March 2021

Sheila Barker, Christopher Chilton, Graham Derbyshire, Nicholas Green, Andy Hopkirk, Anne Hopkirk, Peter Jackson, Martyn Langley, Allan Richardson, Rosemary Vidler

Other Trustees during the year

None

GOVERNANCE AND MANAGEMENT

The Charity was registered on 30th March 2016 as a Charitable Incorporated Organisation using the Charities Commission model document. The document is published on the Society's website and is available from the principal office.

The members present at the meeting appoint trustees at the Annual General meeting of the Society.

The Trustees may also appoint other Trustees during the year but their appointment is only valid until the next Annual General Meeting. During this year the Trustees appointed Chris Chilton in order that the Society would benefit from his skills and knowledge.

The Annual General Meeting during this year was delayed by the Covid restrictions and eventually took place on 19th September 2020. This was held as a Video Meeting following the advice published by the Charity Commission which allowed for video meetings, provided the members approved that method of meeting.

Because of COVID19 restrictions, the Trustees held fortnightly online video conference meetings during this year.

The Trustees have set up Working Groups in order to handle the detail of regular operations. The objectives are to involve more people in discussions, allowing timely decision-making, and allow the Trustees meetings to be focussed on strategic decision-making. The groups are:

- Site Working Group
- Visitor Working Group
- Member Experience Working Group
- Collections Working Group
- Conservation Working Group
- Infrastructure Working Group.

The Membership Committee reviews and decides membership applications.

Andy Hopkirk, Trustee, is the Meetings Secretary and maintains the records of Trustees meetings.

The Treasurer maintains the accounts of the Charity and, in partnership with the Trustees, accepts and makes payments. Anne Hopkirk is the Treasurer and a Trustee.

Peter Jackson is the Newsletter Editor.

Joyce Jackson attends Trustee's meetings as Convenor of the Visitor Working Group.

The Trustees have complied with their duty to have due regard to the guidance on public benefit published by the Charities Commission.

The Trustees have produced and reviewed policies for Equality and Diversity, Member Code of Practise, Purchasing Procedures, Safeguarding, and Compliance with GDPR regulations.

CHARITABLE OBJECTIVES

The objects of the CIO are to advance the education of the public about mining, quarrying and smelting at Nenthead and in the North Pennines by:

- researching, restoring, maintaining, owning and exploring the historic and natural features relating to mining, quarrying and smelting at Nenthead and adjacent mining areas;
- encouraging and advocating the conservation of the remains of the mining, quarrying and smelting industries; and conservation of the geological features and natural environment, both above and below ground level;
- undertaking archaeology projects,
- recording and archiving information, and
- sharing available information with the public.

ACHIEVING THE CHARITABLE OBJECTIVES OF THE SOCIETY

PROTECTING THE SOCIETY INTERESTS IN THE NENTHEAD MINES SITE

NENTHEAD MINES AND BROWNLEY HILL LEVEL SITES

On 23 October 2020, the Charity became the freehold owners of the Nenthead Mines and Brownley Hill mine sites. These sites were transferred from the ownership of Cumbria County Council using the Community Asset Transfer legislation.

Legal support was provided by Ian Shuttleworth, Solicitor, of Hodgson and Angus Solicitors of Stanhope Durham. In recognition of our status as a local charity, our charges

were greatly discounted. We are grateful for the detailed support and extensive work undertaken by Ian Shuttleworth.

BREWERY SHAFT SITE

The Trustees have previously agreed a peppercorn rent and a tenants repairing lease with Brewery Shaft Ltd.

NENTHEAD MINES HYDROPOWER LTD

In November 2020, agreement was reached with Nenthead Mines Hydropower Ltd about rent payments in accordance with the lease.

PROVIDING EDUCATION AND OPEN DAYS

Because of COVID19 restrictions, there have been no Public Open Days or Private Visits to the Nenthead site.

APPROVED MINE ROUTES

We are members of the scheme that manages and finances an engineer's report for certain routes into Smallcleugh and Rampgill Levels to allow their use by Adventure Groups. Due to Covid restrictions and a review in progress by the Health and Safety Executive, the scheme has not operated during this year and no expenditure has been required.

MAINTAINING THE NENTHEAD MINES SITE

In 2019 Cumbria County Council agreed to finance work to repair the collapsed river wall adjacent to the Stamp Mill site. This work did not start in 2019 and was eventually completed during 2020. A contractor, facilitated by NMCS, was commissioned by Cumbria County Council to undertake this work.

Work was started by a contractor to repair the Barracks basement floor following the Storm Ciara flooding in February 2020.

RELATIONSHIPS WITH OTHER COMPLEMENTARY ORGANISATIONS

The Society is a member of the North Pennines Area of Outstanding Natural Beauty Partnership (AONB). We are represented on the Geopark Advisory Group and the Historic Environment Working Group by Peter Jackson.

The AONB Partnership funded the development of a new site interpretation panel during this year and we worked with the contractor to develop this panel. Installation is expected to take place after March 2021.

We have continued our membership of the National Association of Mining History Organisations. We have also continued our membership of the Alston Moor Business Association during this year.

WORKING WITH HISTORIC ENGLAND

The majority of the Nenthead Mines site is designated as a Scheduled Ancient Monument. Legal consents are required for many operations on site. During the year we have maintained a working relationship with the Principal Inspector of Ancient Monuments for the North West region.

WORKING WITH THE ENVIRONMENT AGENCY

As in previous years, we have continued to assist the Environment Agency (EA) and the Coal Authority (CA) with their work on methods of treating the mine water pollution in the River Nent at Nenthead. This work was suspended due to the Covid restrictions but restarted from September 2020.

The siting of water treatment facilities is a contentious issue, especially for people living nearby. We have not made any comment on the suitability of proposed sites, other than any consideration of their heritage status and historic value. The Trustees' view continues to be that the heritage and legal status of the mines should be protected and that access to the mines for leisure purposes should not be obstructed.

The Coal Authority, working on behalf of the EA, has examined possible sites for Caplecleugh Level mine water treatment. We have joined several meetings with managers and engineers and it is possible that the preferred location for the treatment plan may be to the south east of Handsome Mea reservoir. Whichever location is preferred by the EA and CA, the proposal will require public consultation.

WORKING WITH THE HEALTH AND SAFETY EXECUTIVE

The operation of Carrs Mine requires that we comply with the law including the Mines Regulations 2014. We have maintained our working relationship with the principal Mines Inspector. Carrs Mine has not been open to the public during the year.

WORKING WITH NATURAL ENGLAND

The Smallcleugh Mine SSSI was inspected by a contractor on behalf of Natural England during December 2020. We facilitated site guidance and support on the day and provided information after the visit.

DEVELOPING, SHARING AND MAINTAINING ARCHIVES AND COLLECTIONS

The Collections Working Group has continued the work of cataloguing the Society's collections. Current catalogue information is published on the NMCS public website.

During the year we had a small number of enquiries about the collections.

ENCOURAGING AND DEVELOPING MEMBERSHIP

We had 147 paid-up members on 31 March 2021. We have invested in developing and refining the on-line membership application process, and work has continued to facilitate an on-line renewal process.

FINANCE

The cash account report for the year follows at the end of this section.

Given this year has been so strongly negatively impacted by Covid19 shutdowns, the Society has been fortunate that its reserves coming into the year have been sufficient to cover unavoidable expenses and essential works.

Society members and visitors have continued to give generous donations during the year.

RESERVES POLICY

In September 2018 the Trustees adopted a reserves policy.

The policy states, “NMCS aims to maintain sufficient reserves to finance 12 months routine operating expenditure and an appropriate long-term program of maintenance of the Nenthead Mines site. The site includes many industrial structures and natural features, which requires regular maintenance, some of which is programmed and some of which is reactive. The level of such work and the expenditure thereon will vary from year to year. Some maintenance requirements may well require resources, which are larger than NMCS alone can sustain. In such a case NMCS will seek support from other organisations and grant making bodies to allow the Nenthead Mines site to remain a valuable, healthy and accessible location rich in mining history, industrial heritage and natural resources”.

FINANCIAL REPORT 1 April 2020 – 31 March 2021**Income**

2020/21	Totals	Notes
Public and Private Groups	£0	Open Days' Takings, Private Group visits, Events
Assay House	£22.50	Income from Bunkhouse rental
Membership	£1525.69	Fees are paid to Stripe for card payments
Donations	£2229.47	All donations
Gift Aid backdated claim	£2606.65	Backdated to 2016
Event fees	£636.00	Events organised by third parties, using NMCS facilities
Other income	£0	Book sales etc.
Total	£7020.31	

Expenditure

2020/21	Totals	Notes
Maintenance	£5746.97	All maintenance on site, including flood damage to Barracks basement
Club Insurance (BCA)	£110	
Marketing	£274	Flyers, advertising
Office	£244.22	Office supplies, Archive Materials, NMCS laptop
