Annual Report. WSCe 2025

1. **Board composition:** Adam Wilkey (Chair), Alban Poussard (Treasurer), Margareta Nordin, Scott Haldeman, Alberto Zerbi, Christian Etter, Michael Piccirillo. This has been a year of relative stasis within the organization.
2. There are no new projects and the loss of Ghana. Our focus has been planning for the future and how we should move the charity and it's aims forward over the next 5 years
Plans are to re-energise our objectives that will enable a more focused direction within our stated activities
2. **India:**
 1. The MGM/WSC clinic continues to function under a new clinical supervisor. Patient numbers remain steady, however they are no longer using the WSC 'toolkit' or, therefore, recording the data. The new clinic supervisor is currently on maternity leave so there is no representation at clinic supervisor meetings.
 2. Sona, the PhD student presented the chart review findings and these were distributed to the Executive Committee.
 3. In June MGM held an onsite conference with WHO. It was based upon the recent Rehabilitation guidelines and their implementation in different settings. Both Pierre Cote and I were invited to present online.
3. **Ghana:**
 1. There are no developments in Ghana. The potential new clinical partnership did not materialise
4. **Spine Ride:**
 1. 14 participants this year raising a total of over £6000 and a profit of just over £2000. Our route along the Loire Valley was completed without major incident. Next year we look forward to an Alpine adventure
5. **Finances:**
 1. Our expenses (£2645) this year were greater than our income (£2038) resulting in a loss of £607). Fortunately our finances permit a small loss and we remain comfortably solvent.

Annual Report. WSCe. 2023

1. **Board composition:** Adam Wilkey (Chair), Alban Poussard (Treasurer), Margareta Nordin, Scott Haldeman, Alberto Zerbi, Christian Etter, Michael Piccirillo. We held a strategy meeting in Zurich in early March. A framework of strategy was developed for the next few years to include furthering projects in India, The potential of assisting a hospital in Nigeria and watchful waiting in Ghana.
2. **India:**
 1. The MGM/WSC clinic continues to function under a new clinical supervisor. Patient numbers remain steady
 2. Sona, the PhD student has completed the clinical chart review and is compiling the results to present within the next few weeks
 3. Rajani and the clinic supervisor have gathered most of the clinical data from the past 6 years to provide an overview of clinical activities, patient profiles and outcomes. We are looking at the possibility of a comparative review of data between Europe and India (Navi Mumbai)
3. **Ghana:**
 1. Following my visit to Ghana last November Afua has continued to work at Ridge Hospital under the banner of WSC. There was interest from National College in the USA to potentially send preceptors to Ghana for periods of 3 months. Unfortunately due to communication problems and difficulties Afua has in receiving information and decisions from hospital administrators and management the project was abandoned. Further communications with Afua have all resulted in the same conclusion that until the hospital management changes we will not be able to move the project forward.
4. **Nigeria:**

Michael Piccirillo has a long-standing relationship with a surgeon in Nigeria who heads an orthopaedic department. They have been keen to develop their non-surgical services and a number of online meetings have been held to determine the feasibility of providing support ..
5. **BACKTRACK programme:**

Cliona O'Sullivan introduced us to a project that she has been working on with Irish Aid, Science Foundation Ireland and Mbarra University, Ghana. The project works in rural communities in Ghana endeavouring to reduce the burden of back pain using technology enabled care pathways. They have utilised the GSCI protocols in their care pathway development. They are currently seeking funding

to develop and enhance the technology within the training of local HCPs. We are seeking ways in which we may be able to collaborate with the project and aid their fundraising efforts.

6. Spine Ride:

This year saw 13 cyclists ride through Northern Spain following the Camino trail. Riders tackled mountains, 35+ degrees of temperature, several bike breakdowns and a great deal of snoring to cover 500 miles (800km) in 6 days. Next year we travel through the heart of Europe from 15 June -21 June. All are welcome to join us.
