

2022

Introduction

Sadagaat Charity Organization is a registered organization at the Humanitarian Action Committee, Active in assisting vulnerable segments for more than 17 years, during which the organization implemented many successful wither seasonal or continuous through philanthropists inside and outside Sudan. Sadagaat's Projects are implemented under 4 sectors: Water, Feeding, Health, Education.

In 2020, a complete review and evaluation of Sadagaat Charity Organization and its strategic plan 2020-2024 was done by the Kearney Foundation, which is a global organization specialized in developing plans and strategies.

The evaluation indicated the need to expand the strategic plan, expand the organization's functional structure, and build the capacity of charity in fundraising and attracting support, which would help Sadagaat create a more sustainable impact.

Vision

Promoting social services in Sudan

Mission

A name associated with giving in the mind of every Sudanese

Values

Commitment

Trust

Transparency

General Objectives:

Sadagaat Charity Organization aims to become the most efficient mediator between the bodies capable of support (individuals and institutions) and the parties receiving support, in order to ensure the advancement of social services in Sudan. Through increasing the efficiency of its executive body in:

- Access to all available resources from different individuals and sectors inside and outside Sudan.
- Right and best direction for all resources obtained and targeted.
- Work with initiatives and organizations that work in the same sectors to achieve common goals.

12,572,093 Civil Service Leadership and Professional Youth Project

1,445,539 Muntajatna Project

The alternative education program designed to integrate children and youth who missed the opportunity to enroll in school in a normal condition was implemented. The program was implemented in 24 centers in the states of the River Nile and Gazira, in cooperation with UNICEF, at a cost of 5,147,986 Sudanese pounds. The (Emaar) program for the rehabilitation and maintenance of schools is being

implemented on 7 Schools at a cost of 12,821,101 Sudanese pounds, and a special education program for people with special needs was implemented at a cost of 789,744 Sudanese pounds. The total cost of the education sector is 32,776,463 Sudanese pounds.

Disasters Prevention

In the Disaster Prevention Program, Sadagaat worked to address the need for **Combating Corona** with great and effective cooperation with the National Platform for Combating Coronavirus and the Sudanese Alliance of Organizations, at a cost of 65,463,316 Sudanese pounds, and included the manufacture and distribution of sterilizers, rehabilitation of medical staff to combat infection, provision of basic needs for medical staff, rehabilitation of infrastructure for health facilities and society awareness.

Floods: Sadagaat community, with great support from Sadagaat USA community, worked to mitigate the effects of floods and torrents on affected families at a cost of 37,997,970 Sudanese pounds, which included providing shelter for those affected by floods, providing emergency toilets, purchasing and distributing 70,000 sacks to deal with floods and 4,920 mosquito nets to protect against insects, in

addition to providing water preservation tanks and water transportation.

In partnership with the State Ministry of Health, Sadagaat sprayed Khartoum State with vector pesticides to reduce the risk of disease after the water stagnation, and Sadagaat also sprayed the northern state with ground and aerial spraying with the support of (SAPA) Sudanese doctors in America.

Detailed Report

The implementation plan for Sadagaat Organization for the year 2020 was developed based on the general strategy of Sadagaat 2020-2024, which works to achieve the vision and mission of the organization.

As the executive plan for this year expanded in relation to the need specifically in the water and health sectors, and in response to financiers, charitable people and partners for the project to combat the Corona pandemic and intervene in the floods disaster this year.

سقيا

Water

The Water projects aim to provide clean water sources closer to the beneficiaries to save effort, money and wasted time to obtain water, and to improve the health and social level in the targeted areas.

The Water Sector consists of three main programs which are:

1. Underground Well Station:

1.1 Full Water Station:

There are areas that do not have sources of clean water, which forces their residents to resort to unclean sources or to go to faraway places (in most cases the distance exceeds 3 kilometers) to get clean water. Sadagaat community works to provide clean water to the residents of these areas by contracting with specialized companies to implement the entire project, which includes (drilling the well / supplying and installing a submersible pump powered by solar energy / manufacturing and installing a water tank according to the need, making pipes and water stripes for human and animal drinking and constructing a fence for protection).

Wells that have been implemented this year:

Cost (SDG)	Number of Beneficiaries Population	Area	State	Station Name	#
178,025	2,500	Al-Soki	Sinnar	Mabroka Water Station	1
2,875,950	15,000	West Omdurman	Khartoum	Dar AlSalam 82 Water Station	2

2,285,800	2,500	Al-Soki	Sinnar	Mabroka Water Station	16
-----------	-------	---------	--------	-----------------------	----

2.1 Complementary Wells:

There are some areas in different states in Sudan where work has started on the implementation of well projects through the community effort, and due to the inability to provide the necessary financial resources, work on these projects has stopped.

Sadagaat community provides the necessary funding to complete the work. In addition to supplying (submersible pumps / energy sources / water tanks) according to the required need for each region separately.

Wells that have been completed this year:

Cost (SDG)	Number of Beneficiaries Population	Area	State	Station Name	#
1,088,030	3,000	East Al-Gazera	Al-Gazera	Atayaab Village Water Station	1
1,662,650	5,500	South Al-Gazera	Al-Gazera	Al-Siten Water Station	2
1,134,200	4,300	Al-Hasahisa	Al-Gazera	Wad Malik Station	3

5,244,434	6,000	Tandalti	White Nile	Al-Khairat Block 5	16

2. Transmission Lines

Transmission lines are one of the water projects that are being implemented in areas close to the main course of the River Nile. Residents of these areas suffer from problems as there is a high amount of pollution in the ground wells.

Transmission lines that have been implemented this year:

Cost (SDG)	Number of Beneficiaries (Population)	Area	State	Transmission Line Name	#
5,047,506	12,000	Shandi	River Nile	Al-Misektab Al-Goz + Transmission Line) (Central Station	1
1,897,700	16,000	Barbar	Northern	Al-Jabriya + Transmission Line) (Central Station	2
13,967,400	7,000	Marwi	Northern	Mora Island	3
12,041,200	3,000	Karma	Northern	Al-Burgaig	4

3. Schools Natural Water Coolers

Sadagaat community seeks to provide a source of cooled water for public schools that suffer from lack of availability, by installing a natural water cooler and providing a continuous source of water in the event that it is not available (motor / tank).

Water Coolers that have been implemented this year:

Number of Students	Area	School Name	#
200	Haj Yousif Block	Bilal Ibn Rabah Basic School for Boys	1

#إطعام

Feeding

The Feeding sector aims to enhance the concept of charity by providing food service to the poor in different periods of the year, as Sadagaat

community implements seasonal projects during the month of Ramadan and Udhiya.

Consists of 3 main programs:

1. Ramadan Al-Khair (Ramadan Bags):

Ramadan bag project targets the needy families and vulnerable groups in the country. In previous years, Sadagaat community used to distribute a bag containing basic supplies for these families, but due to the health conditions that the country went through this year and out of our concern for the safety of everyone, the Ramadan bag project was canceled and replaced with financial support direct.

Thanks to God and the contributions of the Sadagaat community, 4,000 Sudanese pounds in cash were distributed to each family as an alternative to the Ramadan bag for 4,500 families in Khartoum State, at a cost of 21,027,808 Sudanese pounds, including the administrative fees that accompanied the distribution process.

2. Collecting Zakat Al-Fitr Contributions:

Sadagaat community received the Zakat Al-Fitr sums, which were determined according to the country in which the person who paid the zakat resided, to be distributed to the eligible families on Sharia dates.

6,404,000 Sudanese pounds, in amounts received from inside and outside Sudan, were distributed to 3,000 eligible families in most states of Sudan.

3. Udhiya:

In this project, the sums owed (according to the prices at the time) are collected from the Sudanese who are outside the country and local laws prevent them from sacrificing in the usual way and from large families who are obligated to sacrifice for a number of their members and wish to give their sacrifices, and then calves that meet the conditions of sacrifice are bought and then slaughtered and distributed To those who are entitled to it from poor families and vulnerable groups inside and outside Khartoum State.

243 calves were purchased, slaughtered and distributed to 12,150 families in 15 states, 155 of them in Khartoum and 88 in the states, in cooperation with the initiatives and resistance committees of the neighborhood.

Summary of what has been implemented on the Feeding Sector:

Number of Beneficiaries	Cost (SDG)	Project	#
4,500	21,027,808	Ramadan Bags	.1
3,000	640,400	Zakat Al-Fitr Sums	.2
12,150	12,821,410	Udhiya	.3

Images:

Health

Sadagaat Charity Organization, through its projects and programs in the health sector, seeks to enhance health services for the poor who are unable to obtain affordable treatment services, by providing medical services, raising health

awareness, rehabilitating health facilities, providing medical devices and equipment, and training health cadres.

The health sector consists of three main programs:

- **Rehabilitating Health Facilities**
- **Providing Medical Services**
- **Awareness Campaigns**

The following projects have been implemented during this year:

1.Rehabilitating and Expanding Health Facilities

1-1 Bashair Educational Hospital:

Bashair Hospital is one of the hospitals that provide medical services to a large segment of the population of the Khartoum South region, (an area with special conditions). The residents of the area have limited income and do not have the financial means for treatment, and there is a high pressure on the hospital. The hospital is affiliated with El-Neelain University, and it works to provide opportunities for application and practical training for students of the university's medical colleges, in addition to achieving the principle of social responsibility and restoring confidence in government hospitals. The organization maintained and rehabilitated 6 wards, allocated a special ward for pediatric surgery, and provided medical devices and equipment at a total cost of 3,140,216 Sudanese pounds.

The C-ARM device was also provided to Bashair Hospital's orthopedics department, which is highly relied upon in orthopedics, with the support of the Sadagaat community in the UK and Sudan at a cost of \$ 30,000.

1-2 Eyes Educational Hospital:

It is the only government hospital in the capital that provides 24-hour eye emergency services and receives the poorest segments of society, and 25-30 operations are performed daily.

The organization rehabilitated and maintained two rooms for retinal and corneal operations at a cost of 2,861,300 Sudanese pounds for civil works and the purchase and installation of medical devices and equipment at a cost of 6,899,200 Sudanese pounds, it is one of the hospitals affected by the sabotage of the sit-in dispersal events.

1-3 Medical Services Hospital (Clinic)

Each month, the hospital serves more than 60 thousand students at the University of Khartoum, workers, their families and some citizens for small fees. The hospital was vandalized after the dispersal of the sit-in, and the organization rehabilitated the inner wards for women / men and the nursing office. Aluminum for all wards, corridors, and air conditioning maintenance, at a cost of 2,190,150 Sudanese pounds.

1- 4 Omdurman Obstetrics Hospital (Dayat)

Omdurman Obstetric Hospital is one of the hospitals that provide birth services to a large segment of women inside and outside the state of Khartoum, and the hospital also receives emergency cases. Childbirth cases reach 150 cases per day. Statistics

confirmed the high mortality rates of mothers and children in the hospital due to the shortage of medical devices and equipment and poor conditions of delivery rooms and waiting wards before and after childbirth, as well as poor sterilization room, poor sterilization and preservation of tools used for childbirth, which causes infections for mothers and children.

The organization, in partnership with Muroj Food Company, has rehabilitated and maintained the building, painted anti-bacterial insulators, supplied and installed medical equipment and furniture. The building consists of pre- and post-natal waiting wards (6 delivery rooms) in addition to locker rooms, midwives and sterilization rooms. The project cost amounted to 8,022,559 Sudanese pounds, and the number of beneficiaries from the project is more than 40,000 women.

1-5 Jafar Ibn Ouf Children Hospital:

Jafar Ibn Ouf Hospital is one of the most important hospitals dealing with children's health in Sudan. The hospital includes 13 specialized units that receive complex cases from all over Sudan at a rate of 40-60 children per day. There is a problem in the lack of sterilization and complete packaging of the devices, which leads to children being infected with frequent infections and severe poisoning, which leads to a longer stay in the hospital.

1.5.1 Maintenance and rehabilitation of the sterilization room:

The project aims to reduce the transmission of infection among children upon hospitalization and to ensure sterilization and proper storage of equipment, at a cost of 292,000 Sudanese pounds.

Paying a monthly incentive for sterilization technicians for a period of 6 months to ensure that the level of pollution is reduced and the possibility of infection for children after admission to the hospital at a cost of 120,000 Sudanese pounds

1-6 Dental Teaching Hospital:

1-6-1 Project of operating oral diseases laboratory - Faculty of Dentistry:

The Oral Diseases Laboratory is the only laboratory in Sudan specialized in diagnosing oral diseases, including oral and jaw cancer. The laboratory stopped two years ago due to the lack of laboratory materials to operate the equipment. The organization has restarted the laboratory and provided laboratory materials to operate the laboratory equipment. Provide an integrated service for dental patients in general and patients with jaw and oral cancer in particular. The cost of the project is 308,270 Sudanese pounds.

1 -6-2 Oral and Dental Health Administration - Khartoum State

The Department of Oral and Dental Health - Khartoum State was also supported with 20 hand pieces for distribution to its dental centers and clinics at a cost of 190,000 Sudanese pounds.

1 – 7 Ahmed Gasim Hospital

The hospital is considered one of the largest hospitals that provide medical services to different groups of patients who suffer from the lack of some examinations due to the lack of devices. The organization provided medical devices and equipment to

the hospital's laboratory to reduce the costs of external examination for patients at a cost of 1,550,250 Sudanese pounds.

1-8 Rehabilitation of blood banks:

The organization provided UPS batteries to the Central Blood Bank - Omdurman (Awad Hussein Center) due to the fluctuation of the electric current and its effect on devices, preserving blood and its derivatives in a safe manner, and then distributing it to 57 hospitals in Khartoum Bahri / Omdurman at a cost of 2,950,945 Sudanese pounds.

1-9 Telemedicine Project:

In cooperation with MTN, a telemedicine project was implemented at Al-Shaab Teaching Hospital, where devices were supplied and devices installed at a cost of \$ 9,500.

1-10 Medical Oxygen Station Project - Nyala Hospital:

It was agreed to design, supply and install a medical oxygen production and distribution station at Nyala Hospital - South Darfur State, with funding from the Sudanese Doctors Association in America - Saba, at a cost of \$ 215,900.

1-11 Jabra Emergency Hospital

In cooperation with the Alliance of Sudanese Organizations and the Sudanese Platform for Combating Coronavirus, a medical oxygen tank with a capacity of 5,000 liters was provided to fill the lack of oxygen in the isolation center, and

this led to complete stability in oxygen as well as an increase in the capacity in all sections of the isolation center.

- * The organization undertook the maintenance of the oxygen network in Jabra Emergency Hospital at a cost of \$ 3,000.
- * The organization paid the incentives for medical personnel at the isolation center in Jabra Hospital for a period of one month, at a cost of 7,975,018 Sudanese pounds.
- * Medical oxygen was provided to Jabra Hospital (isolation center), by providing a 5,000-liter tank, at a cost of 7,345,700 Sudanese pounds.

1-12 Soba Hospital

Maintenance and rehabilitation of the small operation room at Noura Center:

- * A small operating room air conditioner was installed.
- * Maintenance of 1 air conditioner in the blood dialysis ward.
- * A bed has been purchased for the operating room
- * Maintenance of 3 medical devices.
- * Air curtains were provided, 2 in the blood dialysis room and 1 in the proton dialysis room, to sterilize and ensure the safety of sick children.

All this contributed to the work of the center more effectively and to serve a greater number of sick children.

The total cost of the project is 236,000 Sudanese pounds.

1- 13 Sinnar Kidney Hospital

The organization provided electrical regulators for the devices for the Kidney Hospital in Sinnar State, at a cost of 294,000 Sudanese pounds.

1-14 Stack Factory Project:

The corona virus sampling room was maintained at the STAC laboratory. The project included:

- * Review the conditioning and open a new window.
- * Plumbing review.
- * Supplying aluminum windows.
- * Provide 4 suction fans.
- * General review of electricity.

At a total cost of 214,500 Sudanese pounds.

1-15 Wad Medani Hospital (isolation center):

It was agreed to fill in 6,000 medical oxygen cylinders for the isolation center at Wad Medani Hospital, and the cost of this project was 1,500,000 Sudanese pounds.

1-16 Emergency plan for the orphan childcare center (Miygoma):

At the beginning of February 2020, a partnership contract was signed between the State Ministry of Social Development and the Sadagaat Charity Organization to aid and manage the orphan care home (Miygoma), after the deterioration of conditions in the home in all aspects (health, environmental, care, and even in terms of buildings and the shortage of staff and others.).

The contract period extended for six months, during which the organization worked on the terms stipulated in the contract, and by the end of July 2020, Sadagaat handed over all its duties to the management of the house, withdrew the organization's employees and vacated the follow-up office, while it continued to pay the salaries of the specialist doctors until the end of August.

Sadagaat community has partnered with the Ministry in implementing the emergency plan as follows:

1-16-1 Improvement of the administrative aspects of the house:

- * Reviewing the structure of the staff working in childcare and appointing qualified new cadres (16 nutrition officers, 26 nursing technicians and nurses and 36 supervisors).
- * Paying a monthly incentive for surrogate mothers and all categories of staff working at the home.
- * Providing a network of new phones (17 phones) between rooms to facilitate work.
- * Removing dirt and deporting all scrapes, with the participation of a committee from the Ministry of Social Development.
- * Provide stable and regular transportation for children attending schools and kindergartens.
- * Pay incentives for 400 employees.
- * Temporary contracts with doctors (specialists and representatives).

1-16-2 Caring of the medical and nutritional aspects of children:

- * Contracting 4 pediatricians, 1 dermatologist, and 2 deputy specialists. The pediatric counselor volunteered to monitor the health conditions of the children periodically for a period of 3 months.
- * Attracting consultant doctors in all specialties (dermatological, psychological, internal, etc.) who made a medical survey and examination on all children, and then an integrated medical plan was developed to take care of the children at the home.
- * Activating the physiotherapy unit in the house and providing treatment aids.
- * Provide necessary life-saving treatments and laboratory tests.
- * Providing a supply of 98 cartons of milk for newborn babies (for a period of three months).
- * Control of insects and mice by conducting periodic pesticide spraying campaigns.
- * Reviewing the milk preparation protocol by a specialized committee from the Ministry of Health. Which was clearly reflected in the health of infants and their weight gain.

1-16-3 Maintenance and rehabilitation:

- * Maintenance of the water network.
- * Maintenance of the sewage network (maintenance of 3 sewage wells).
- * Maintenance of the electricity network at the house.
- * Maintenance of air conditioning units in rooms.
- * Maintenance and renovation of bathrooms in the house.
- * Protect the outer wall of the house by barbed wire.

- * Maintenance of the physiotherapy room.
- * Complete maintenance of 17 rooms in the house, in addition to 3 administrative offices.
- * Providing 400 new mattresses and 800 sheets inside the children's rooms.
- * Maintenance of 380 beds.
- * Providing water coolers for 17 room.
- * Running the Laundry room: New washing machines and dryers were provided, and old equipment was maintained.
- * Rehabilitated the children's kitchen, yogurt plant and laundry.

1-16-4 Paying attention to the general environment of the house and cleanliness:

- * Carrying out continuous cleaning campaigns inside and outside the home.
- * Transfer of old waste by a committee made up of the Ministry of Social Development.
- * Contracting with a specialized cleaning company to handle the cleaning process inside the house.
- * Made a health day at the home for children and workers.

1-17 Receiving and rehabilitating the children's ward at the Academic Hospital:

It is a ward designated for the sick children referred to the hospital, and the maintenance included the following:

- * Maintained, rehabilitated and provided 15 beds with the provision of 15 new mattresses.

- * Providing modern medical equipment for the ward.
- * Maintenance of the electrical network in the ward
- * Conducting discussion and plumbing work for the ward.
- * Maintenance of two bathrooms.

The total cost of the project is 18,444,050 Sudanese pounds.

1-18 Operation of Omar Al-Nafidi Primary Health Care Center:

Sadagaat Organization operates Omar Al-Nafidi Center in partnership with the Al-Nafidi Charity Group. The organization operates, supervises and periodically follows up the center's work, pays the cost of running the center on an ongoing basis, supports and provides solutions, medicines, and the laboratory's need of laboratory equipment and materials on a monthly basis. An administrative director was appointed and the dental clinic was operated with the appointment of a dentist and the provision of equipment from the dental department. The center's operational cost was 1,159,531 Sudanese pounds.

2. Providing Medical Services

2-1 Eyes Operations Surgery

19 white water operations were undertaken at Makkah Eyes Hospital in Riyadh, according to the agreement concluded with the hospital for needing patients at a reduced cost. The cost was 105,000 Sudanese pounds.

2-2 Providing monthly treatment (Kidney Dialysis children + Implants children):

The organization provided monthly treatments for an average in the event of providing the order to the two centers, the number of children reaches 100 children in the two centers for patients with kidney failure at the Nora Center at Soba University Hospital and the Al-Sabouni Center for Child Accidents in Omdurman during the year 2020 at a cost of 1,556,539 Sudanese pounds.

2-3 Providing transportation for kidney failure children:

The organization undertook the transportation of 37 children a month to and from Al-Sabouni Center for children accidents Omdurman. There was a need to increase the transportation amounts for children due to the conditions that the country is going through in terms of high fuel prices and transportation prices during the year 2020, amounting to 474,960 Sudanese pounds.

2-4 Providing a place to stay during the isolation period (3 months after the transplant procedure):

Providing a place to stay during the isolation period (3 months after the transplant procedure). This year, 11 children lived in apartments to spend the isolation period following the kidney transplant surgery, due to the health conditions the country is going through due to the emergence of the Corona pandemic. Transplant operations have been paused since March 2020.

Sadagaat Organization paid the rent for the apartments, and also worked on providing medical supervision for children, general supervision of the place, providing tools and workers for cleaning, carrying out periodic maintenance, installing surveillance cameras to follow the place, providing guarding, providing food supplies in addition to yogurt and milk periodically at a cost of 1,154,539 Sudanese pound.

2-5 Kordofan Center – Heart Rheumatism:

The Kordofan Center for Cardiac Rheumatism Control aims to achieve the vision of the National Program for Combating Rheumatism of the Heart, Sadagaat Charity Organization is concerned with awareness-raising as an essential element to combat all diseases in Sudan. The center's work is mainly based on awareness, which is training the medical and health staff and educating the community. The center also works to monitor and record cases discovered, and to attract local support to help in the awareness process, and the center also operates a weekly clinic to receive children from the age of one day to the age of eighteen, the clinic receives about 10-20 children per week.

The organization operates the center and 36 nurses have been trained, in addition to cardiac rheumatism awareness programs in North Kordofan localities, in addition to surveying all localities.

The operational cost of the center is 37,320 Sudanese pounds.

2-6 Receipt of medical consumables container:

The organization received and unloaded the contents of a container of medical supplies from the Sudanese organizations group to combat Corona abroad and through SAMA, and a distribution plan is being prepared in Khartoum and the states. At a cost of 33,000 Sudanese pounds (unloading the container + rent for distribution), it was distributed to 11 hospitals in Khartoum State, with isolation centers, laboratory administration, and the states of Gezira and the River Nile.

2-7 Sprinkler campaign to combat hemorrhagic fevers in the northern state

Due to the spread of the hemorrhagic fever epidemic in the northern state and the spread of disease vectors, a fog and air spray campaign was implemented with the sponsorship of the Sudanese Doctors Association in America (Saba) at the cost of the spraying campaign, which amounted to \$ 45,000.

3. Awareness Campaigns

3-1 Ashan Bnhibk Breast Cancer Awareness Campaign 2020

Since 2014, Sadagaat Charity Organization has been holding breast cancer awareness campaigns in October of every year to spread the culture of self-examination and to introduce the importance of early detection in order to correct misconceptions in society about cancer in general and breast cancer in particular.

The activities and events of the Ashan Bnhibk 2020 campaign targeted: women in neighborhoods, working women, students, with a focus on high school students, pioneers of public places and commercial centers in Khartoum State and the rest of the states. The number of campaigns implemented reached 3,112 activities, the number of direct beneficiaries of the campaign reached 376,031 beneficiaries, as well as the number of cases for which a clinical examination was conducted reached 3,644. The activities are implemented in the various states of Sudan in coordination with the associations and organizations in the state to contribute to spreading awareness of breast cancer risks and methods of prevention. The campaign used to target public places to contribute to the delivery of awareness information to the pioneers of these places and to inform women of the importance of early and self-disclosure.

- * 3 training workshops were held and 81 volunteers trained.
- * A training workshop for 19 doctors was held at the Ministry of Health, in preparation for work in clinical examination centers.
- * Partners in Al- Damazin City (Y-Peer education and training and their partners launched the campaign this year).

- * Work in 17 states with 103 partners in 34 cities, bringing the number of beneficiaries to 40,535 beneficiaries outside Khartoum state.
- * The number of beneficiaries reached 2,694 thousand beneficiaries within the state of Khartoum, in addition to decorating Sana Mart Riyadh with awareness posters, and also the Debonairs restaurants chain generously placed stands in its various branches and meals delivery.
- * In cooperation with the State Ministry of Health, work with 21 clinical examination centers, and the number of beneficiaries reached 1,004 women and about 169 for specialized examination. The Khartoum Specialized Oncology Center donated a free interview of cases.
- * Allocating 5 buses and 5 days for free buses within Khartoum state, under the generous sponsorship of the Nafeedi Charity Group and the partnership with the Khartoum Breast Care Center and the Public Transport Company. The number of beneficiaries reached 9,409 women, and the campaign cost 1,751,632 Sudanese pounds.

3 -Voluntary Blood Donation Awareness Campaigns

Sadagaat Charity Organization, in coordination with the National Program for Voluntary Blood Donation, works on holding periodic campaigns in companies, institutions and public places to spread the culture of voluntary blood donation and to provide safe and tested blood and its derivatives for all groups in need of blood.

Sadagaat organization has contributed to the need for blood in the Central Blood Bank through its implementation of 18 voluntary blood donation campaigns during the year 2020, as listed below:

Campaigns for national companies and public places in:

- * Wita Inc.
- * Al Titel Group.
- * Samil Company.
- * Al Safwa Automotive Company.
- * University of Khartoum - College of Pharmacy and College of Medicine.
- * Al-Hilal Club - Omdurman.
- * Aramex Company.
- * Nile Street, Khartoum.
- * Freedom Square.
- * Shikan Insurance Company.
- * Ribat University.
- * Coca-Cola Company.

- * Cabo Corporation.
- * Sudan vein campaign for 3 days.

The number of donors in the campaigns, despite the great impact of the period of the curfew and the Corona pandemic, reached 1,088 blood bottles, and the total cost of the campaign reached 391,829 Sudanese pounds.

4. Rehabilitation of Isolation Centers

In cooperation with MTN and 94 Charity Group, 6 government hospitals have been rehabilitated within Khartoum State and Wad Medani isolation hospital, by installing a natural gas network in order to ensure the maximum operation capacity.

- * Installing a medical gas network at the isolation center at Omdurman Teaching Hospital with the support of the coalition of organizations.
- * Installing a medical gas network at the isolation center at Soba University Hospital with the support of Sadagaat Community and 94 Charity Group.
- * Installation of the medical gas network in the isolation center at Wad Medani Hospital (Mycetoma Center) with the support of the Sudanese Organizations Coalition to combat Corona.
- * Installation of the medical gas network in the isolation center at Haj Al-Safi Hospital with the support of MTN company and the Sudanese platform to combat Corona

- * Installing a medical gas network in the isolation center at Al-Shaab Teaching Hospital with the support of the MTN company and the Sudanese platform to combat Corona.
- * Installation of the medical gas network - the isolation center, Bahri Teaching Hospital, with the support of MTN and the Sudanese platform to combat Corona.
- * Installing 10 air curtains at Jerash Hospital, in cooperation with some initiatives inside and outside the country.
- * Providing (24) 32-inch screens for the isolation center in Wad Madani.
- * Providing 50 sheets to the Ministry of Health for isolation centers.
- * Providing (8) 10-liter oxygen concentrator devices –(2) 5-liter oxygen concentrators, with support from Moves Initiative and Sudani Company.
- * Handing over to the Laboratories Department - Khartoum State an 8-foot refrigerator to store samples.
- * Providing 32 UV LIGHTS, which are lamps for sterilization. 4 lamps were distributed to each of (Gedaref / Sinnar / Al Jazeera / North Kordofan / North Darfur / West Darfur / Kassala) from the Sudanese Organizations Alliance to fight Corona.
- * Distribution of 100 FINGER PULS OXIMETER to 7 states and 9 hospitals within Khartoum State, with the support of Saba.
- * Providing medical aids to Al-Dalanj, with the support of the coalition of organizations.
- * With the initiative of the Ministry of Infrastructure and Transportation and in cooperation with Geoanformatics Engineering Company and the

organization DT GLOBAL, Sadagaat developed a web-based information management tool to support decision-making standards to combat COVID-19. The project aimed to support the Supreme National Emergency Committee by providing management, communication and strategic planning skills. Moreover, the project assists in developing an interactive GIS platform aiding in risk assessment to enhance decision-making process. This national platform also identifies medical facilities, demographics, and population (according to ages) in addition to many signs that use mapping of resource distribution and provide training opportunities by experts for more than a hundred trainees from various sectors throughout the states of Sudan.

Summary of what has been implemented in the Health Sector:

Education

The Education Pillar includes three main programs:

- * **Alternative Education**
- * **Emaar Project .**
- * **Education of Children with Special Needs**

The following projects have been implemented within the programs of the Education sector:

1. Alternative Education

About the program:

Sudan has the highest rate of out-of-school children in the Middle East and North Africa, more than 3.6 million children between the ages of 6-13 years old do not receive basic education according to the statistical book of the Federal Ministry of Education, in addition to that about 25% of those who enroll in primary education do not stay in school in order to complete the full elementary cycle.

Among the factors that affect the enrollment of children in education are the economic constraints related to poverty and the low government investment in basic education, as in some areas there are no schools completely or they are at long distances and are not academically prepared (lack of teachers and textbooks) or in terms of infrastructure,

In addition to the absence of a home education culture and the lack of costs and auxiliary tools for that, as well as insecurity in conflict areas, and displacement greatly contribute to children not enrolling in school in those areas, as well as social and cultural barriers (such as negative attitudes towards girls' education and insufficient awareness of the aspect of early marriage for girls).

In light of these circumstances and challenges, UNICEF, in partnership with the Federal Ministry of Education, in 2005 implemented the Alternative Learning Program Strategy (ALP) in Sudan. It is considered one of the best strategies to provide basic education to children and youth outside schools, as it increases their chances of joining the educational system and provides them with basic skills, life and employment, which improves their lives.

It provides alternative education for children and youth who have missed the opportunity to enroll in school naturally. The program includes achieving the goals of the regular curriculum and delivering it to dropouts in a flexible and informal way in concentrated doses. The program is specifically designed to support children who drop out of school in conflict areas in Blue Nile, South Kordofan, Kassala and the Red Sea. And the displaced in Khartoum State, this program summarizes the eight-year primary education stage into four cycles:

The first cycle: From 7-9 years old, they will be distributed to public schools after one academic year.

The second cycle: From 10-14 years old, they are distributed to government schools or craft centers after an academic year

The third cycle: From 15-24 years old, they are distributed to craft centers after an academic year

Duration of study: one full academic year

The applicable curriculum: Arabic - Mathematics - English - Religious Education - Computer - Science.

Sadagaat and The Alternative Learning Program:

Due to the great impact of the project and the need of a large group of society for the alternative education project, Sadagaat, in partnership with UNICEF and the Ministry of Education, began implementing the program, beginning in the area of Ombada Dar Al-Salam at the beginning of 2018 to reduce the problem of school dropout by establishing (three) centers for the integration of children Youth are outside the school inside Al-Shaheed Al-Zubair 41 mixed school, Al-Shahid Majzoub Al-Khalifa 45 mixed school, and the Al-Salam school 39 for girls.

The activities of the project continued until the year 2019, when the first batch of 420 boys and girls from the three alternative education centers graduated. The project achieved great success in returning 300 children and girls to classes

corresponding to their ages and academic level in regular basic schools, and an awareness campaign was conducted on the importance of education in Dar Al-Salam, in addition to conducting a study to evaluate the experience of the three alternative education centers and study the possibility of establishing new centers in the locality of Ombada. Sadagaat Organization continued the project with its own resources in the year 2019-2020, so the following activities were implemented that contribute to supporting the project and maintaining the regularity of the educational process and the children going to school:

- * Providing a school grant to the four schools targeted by the project, which is a commitment in exchange for integrating the centers' students into primary schools at a cost of 60,000 Sudanese pounds.
- * Distribution of winter clothes to 717 male and female students in Dar Al-Salam region, 347 of whom are students of alternative education centers, and the rest are students of the first grade in Al-Salam schools, square "39,41,45,70" at a cost of 295,000 Sudanese pounds.
- * Delivery of incentives for 17 teachers, 4 mentors, 3 school principals and a supervisor of the Adult Education Department in the local area of Ombada, at a monthly cost of 143,250 Sudanese pounds.
- * Contributing to the provision of school meals in the four Al Salam schools, "39 girls, 41 mixed, 45 mixed, 70 mixed" in coordination with

Sabah Al- Sudan Organization for 3220 male and female students at a cost of 104,525 Sudanese pounds.

- * Supporting the camp for 40 students in the eighth grade of Square 41 mixed school, through commitment to the cost of notes, which is 1,500 Sudanese pounds per student.

Due to the Corona pandemic, studies were suspended in the centers in March 2020.

The expansion of the alternative education program:

After studying and evaluating the impact and feasibility of the alternative education program in Dar Al-Salaam locality, Sadagaat organization considered that it is necessary to continue implementing the program and expand in other areas due to its clear impact on returning students to classes parallel to their ages. Therefore, the organization responded to the UNICEF proposal to expand and implement the program in the Nile and Gezira states, and entered into a new partnership to establish 24 alternative education centers in the states of Gezira and River Nile.

The project started in November 2020 and will continue until March 2021 with a total budget of 21,762,633 Sudanese pounds.

Activities implemented in 2020 included:

- * Training of 150 male and female teachers in the state of Gezira (49 male and 101 female teachers) in the following subjects:
- * life skills.

- * Education in a state of emergency.
- * SIP School Development Plan.
- * ALP Alternative Education Program.

And the implementation of the program will continue, the cost of which by the end of 2020 was 5,121,983 Sudanese pounds.

2. Emaar Project

Statistics and data on education in Sudan indicate poor educational conditions and services, especially in schools affected by wars, conflicts, torrents and floods, in terms of:

- School book
- School buildings
- Sitting pupils
- Providing drinking water
- Toilets

The idea of Emaar project is to improve school buildings came in particular to increase the number of pupils enrolled in schools and to create a safe study environment and attractive to them and to provide the basic needs of shade, drinking water and bathrooms. In this regard, Sadagaat community has done the following:

- * Rehabilitation of Al Ezba Elementary School for Boys, in cooperation with graduates of the school class of 1990, which included installing a new water network, maintaining toilets, and providing coolers for drinking water. At a cost of 1,049,000 Sudanese pounds.

- * Rehabilitation and maintenance of classrooms and offices at Al-Misiktab School in Shendi locality - River Nile State in cooperation with the American Sadagaat Community at a cost of 3,836,400 Sudanese pounds.
- * Work is underway on reconstructing eight alternative classrooms in addition to the surrounding wall that was affected by rain in Hail Saeed School with the rest in partnership with the Slovak Consulate in Sudan and the family of Mr. Hail Saeed with a budget of 16,000,000 Sudanese pounds.
- * Work is undergoing on the rehabilitation and maintenance of four schools in the River Nile State - Al-Matamma locality, affected by the floods, in partnership with Sadagaat USA, with a budget estimated at 14,679,500 Sudanese pounds.

3. Teaching children with special needs

3-1 Education of the Blind

Sadagaat seeks to provide an appropriate educational environment for blind students in the basic and secondary stages and to enhance their chances of continuing in education. Therefore, Sadagaat worked on completing the printing of the curriculum for the first, second, third and fourth primary grades, and after that for the first time, work began on printing the secondary school curriculum for Al-Noor and the Atbara

Institute, funded by Al Baraka Bank and in partnership with Roya for Blind Education,

currently all books for the second grade and two books for the first grade have been out. Some aids were also provided, such as providing a computer and a desk for Roya Organization for the Rehabilitation of the Blind.

Work is undergoing to assess the need for study aids in the two institute of the blind in the cities of Atbara and Gedaref, and to study the possibility of increasing the capacity of the buildings of the Noor Institute.

3-2 Al Sarorab School for Special Needs:

The school is located in the Omdurman locality, the Al-Sarorab unit, which is an ancient school that was previously a residence for teachers, and in 2014 it was transformed into a special school for children with disabilities. Where the population of the region suffers from the problems of disabilities due to the closure of the area socially by marriage of relatives, which is the reason for the spread of the proportions of children with special needs globally.

The program aims to help school teachers to know practical ways to educate and train children with disabilities, also the training program aims to teach teachers on how to use the various educational tools that will be provided later by Sadagaat Organization, and this represents

part of the organization's guidance in achieving the sustainability of the implemented projects and achieving maximum benefit.

14 teachers (8 teachers from Al Sarorab School for People with Disabilities, 2 volunteers from Sadagaat and 4 employees of the Ministry of Education, Karary locality) were trained on how to apply measures and intelligence tests, detect and identify cases, write the psychological report, appropriate scientific recommendations, knowledge and skills sufficient to deal with children with disabilities.

2-4 Sudan Civil Service Leadership Program:

After a new transitional government took power in September 2019, Sudan was facing the challenge of adapting its public service to the new environment that emerged as a result of fundamental changes in the political system. These changes require new structures and institutions of public administration in addition to major reforms in public administration, including human resource management. To meet these challenges, it is imperative that the civil service and workforce in the public sector in Sudan acquire new skills and qualifications.

Since the economic situation calls for accelerating reform efforts in the public administration, it is important for Sudan to invest in an effective and efficient civil service system, which will enable employees to improve the provision of their services and support economic and social

development, as well as build the capacities of the next generation of civil service cadres.

In this context, and in partnership with the Ministry of Labor and Social Development and UNICEF, the program was established, which aims to employ about 100 junior and intermediate professionals in the Ministry of Labor and Social Development for a period of one year to help the civil service and workforce in the public sector in Sudan acquire new skills and qualifications. The program is a unique opportunity for personal development of the participants that provides them with the skills, knowledge and experience to prepare them for a career in civil service in Sudan and to enable them to become inspiring future leaders in Sudan.

The budget set for the project is 12,572,093 Sudanese pounds, for salaries, incentives, training workshops, courses and work aids.

2-5 Muntajatna Project :

This program arose out of winning of young Sudanese women in the challenge in the United Nations program (Impact of Unlimited Generation 2018-2019).

It is a dynamic partnership that draws on the expertise of young people, government representatives, multilateral organizations, the private sector and civil society to inspire urgent investment in education, skills training and empowerment for the world's rapidly growing population of adolescents and youth. Youth (10-24) - which will reach 2 billion by

2030. The Unlimited Generation - which forms part of the United Nations Youth Strategy 2030.

The Challenge was held in 2019 in 16 countries around the world and called for requests from young people to create solutions that would support the three pillars of the Infinite Generation: Secondary education; Learning, employability and decent work skills; Empowerment, with an emphasis on girls.

Muntajatna team from Sudan was the winning team from the MENA region. Their project covered decent work and empowerment, with a focus on girls. the team offers a solution to women in Nivasha camp for internally displaced people who live in harsh environments with only one source of income - brick-making - by providing them with a platform to sell their handcrafted products to a larger audience.

The project is expected to lead to women obtaining a more dignified and adequate source of income instead of brick making, which has had negative physical, social and psychological impacts on them. In other words, Muntajatna team aims to empower girls and women in Nivasha by providing them with an additional source of livelihood to their main source of income - brick making - which is harmful to health and economically inadequate.

With the support of Sadagaat Organization and UNICEF, the challenge passed through an experimental phase in which the girls proposed to use the income generated by selling their products to establish an alternative education center in Nivasha camp, which is one of the education

programs implemented by Sadagaat in partnership with UNICEF in different regions.

The goal of the Nivasha Center is to empower women in Nivasha camp by equipping them with the necessary skills to meet market demand in the twenty-first century in order to make them economically independent and lead to their positive contribution to their society.

The training workshop was held with the participation of 50 women and young women aged between 19 years and more than 30 years old, and there was a distinguished participation of three persons with special needs. They were trained with different handicrafts and additional skills as follows:

- Communication and Connection skills
- How to price and market the product
- Product photography skills

The total cost of the project is 1,445,539 Sudanese pounds.

Summary of What has been implemented on the Education Sector:

Cost (SDG)	Project	#
5,147,986	Alternative Education	1.
12,821,101	Emaar Project	2.
789,744	Children with Special Needs Educa	3.

Disasters Avoidance

1. Lessening the spread of the Corona Pandemic

In light of the Corona pandemic, official and community efforts in Sudan have united between civil society organizations and initiatives, and public and private sector institutions through the National Anti-Corona Platform and the Sudanese Organizations Alliance to work with the Federal Ministry of Health to reduce the threat of Corona virus, and spread awareness and knowledge of ways to prevent the spread of the epidemic.

Providing hand sanitizer and surface cleaners with priority distribution to health institutions and service entities by providing sterilizer in different packages starting from a bottle of 60 ml to 4 gallons.

1-1 Sterilizers Production:

- * Some companies have provided a large part of the sterilizer production inputs as a contribution to the production process of the sterilizer:
 - o 130 thousand liters of ethanol (alcohol) for free from Kenana Sugar Company.
 - o 11 barrels of glycerin, from Al-Tetal company.

- * The Medical Devices Suppliers Association has provided all quantities of HYDROGEN BYROXIDE + provided the initial quantities of Glycerin + working aids to the working group in the sterilizers manufactory.
- * The distilleries (Modern Distillation Factory, Al Afrigiya Distillery Factory and National Distillation Factory) carried out the installation process under the supervision of the Central Pharmacists Committee.
- * Providing some filling aids from the employers' union.
- * Abga Muntaj (Be productive) initiative has supervised the installation process and facilitated the processes of providing the needs of the sterilizer manufacturing (empty containers + installation materials).

1-2 Distributing Sterilizers

- * For a period of four months, the organization distributed 1,856 sterilized 18-liter bottles to 52 hospitals and 376 packages to health centers within the state of Khartoum in: Omdurman, East Nile, Khartoum, Bahri, Jabal Awlia, Karary, Ombada.
- * Each hospital delivered 20 empty 1 liter cans to be filled and distributed to offices and wards in two batches under the supervision of the Federal and State Ministry of Health.
- * Transportation and distribution of 3,954 18-liter bottle sterilizer, in addition to 256 18-liter sterilizer bottles for hospitals in 17 states,

including: (the White Nile / North / Nile River / Red Sea / Gedaref / Kassala / Gezira / Sennar / Blue Nile / North and South and West Kordofan / North, South, East, West and Central Darfur) and each state was handed 200 empty 1 liter packages to be distributed to state hospitals under the supervision of the Federal Ministry of Health.

- * Delivered Sudan Police 1,000 packages of hand sanitizer to be distributed to the units, and the initiative to support the focal points with sterilization aids in addition to enough masks for a week was also extended.
- * 1,300 bottles of 18 liters were distributed in cooperation with Zain Telecom for initiatives in all states of Sudan for distribution to the community in the states.
- * Delivering 914 bottles of 18 liters to a number of government agencies and initiatives.

1-3 Providing the basic needs of the medical staff and hospitals:

Sadagaat Organization has delivered work aids to the Medical Supplies Authority to medical personnel in Khartoum and the states with funding from the National Organizations Coalition, including the following:

- * 350,000 gloves.
- * 240,000 masks.
- * 1,000 regular surgeon wears.
- * 2,500 Orthopedic garments.

- * 150,000 medical leg covers.
- * 150,000 medical caps.
- * 1,000 protective clothing.
- * Delivered to the Ministry of Health, Khartoum State 2 mobile ventilators to be used in the ambulance, in addition to 25 box of masks, 75 boxes of gloves in addition to 20 thermometers for distribution to hospitals in Khartoum State.
- * The bills for the spare parts required for the maintenance and rehabilitation of ventilators (VENTILATORS) in government hospitals and quarantine centers have also been paid, in cooperation with the Medical Engineers Initiative to confront Corona virus.
- * The Ministry of Health, Khartoum State, has received 50,000 gloves in addition to 1,000 protective gear and 4,000 N95 masks, with support from MTN.
- * 8,000 N95 masks and 1,000 protective gear were delivered to the Federal Ministry of Health, which were distributed to four states (Nile River Nile, Northern State, White Nile, and Al Gazira) with the support of MTN.
- * 10,000 N95 masks were provided by the Sudanese Canadian Alliance and 12,000 N95 masks were provided by Sudan First Organization, delivered to the Supreme Committee.
- * Wigaya initiative was handed 150 cans-18 liters of hand sanitizer, 2,000 masks, 4,000 joints, and distributed to hospitals in Gezira State

according to the need. 6 cartons of soap support from Adiyat company.

- * Al-Hawadith Street initiative has been delivered in the state of the Nile River, 150 bottles -18 liters of hand sanitizer, 4,500 regular masks + 5,000 gloves, 800 masks N95, 6 cartons of soap support from Adiyat company + 20 packs of sterilizer support from the Muawiya Al Barrier group.
- * Delivered to Kassala State 400 N95 masks to the Ministry and 500 regular masks and 432 soaps, with the support of Adiyat Company for local initiatives.
- * Delivered to Al-Gedaref State 400 N95 masks to the ministry and a number of 500 regular masks and 432 soaps for local initiatives.
- * Delivered to Sinnar State 400 N95 masks to the Ministry and a number of 500 regular masks and 432 soaps for local initiatives.
- * Delivered to Blue Nile State 800 N95 masks to the ministry and a number of 500 regular masks and 432 soaps for local initiatives.
- * Kulana Giyam initiative was supported with 2,000 N95 masks, 400 regular masks, 20 -18 liter bottles of hand sanitizers, and 1,000 gloves.
- * El Fasher initiative was supported with 20 hand sanitizer bottles.
- * Delivery of sterilization tools, spraying and cleaning materials - Dalang city with the support of the coalition of organizations.
- * Provided 4000 KN95 masks that can be sterilized and used again by UV LIGHTS for each of (Gedaref / Sinnar / Al Jazeera / North

Kordofan / North Darfur / West Darfur / Kassala) with the support of the coalition of organizations.

- * Provision of hygiene materials for the isolation center - Universal Hospital.

1-4 Training of medical personnel on infection control:

- * 64 health care providers have been trained in the basics of dealing with Corona, in cooperation with the Medical Specialties Council.
- * Training of 32 Anesthesiology Doctors on safe handling of the airways of Corona patients.
- * Sadagaat community committed to providing the necessary aids to implement the training workshops.

1-5 Awareness Campaigns all over Sudan

- * Printing 95,000 educational and instructional posters on how to prevent Coronavirus, with the support of Sadagaat Community, Sudani Company and Zain Telecom.
- * Sending and distributing 3,1750 awareness posters in 39 cities and surrounding villages from the various states of Sudan, distributing 8,500 posters to public places (mosques, markets, bakeries, public transport stops ...) in Khartoum State by Sadagaat volunteers in cooperation with other initiatives and resistance committees in neighborhoods.

- * Conducting awareness campaigns in 21 peripheral areas in Khartoum through posters and rovers in the Shaqla area, in the middle, west and east - Abu Saad Squares (7,9,34,18,52,58) - The Egare Bank – Al-Sharafiya - Almorabaat - the churches of Pant, Sheqla and Al-Oshra - Serio – Hay Al-nile - Al-Zargan - Jaden - Abu daina - Al-Issawiya - Al-Jili – Wad rmali - Dar Al-Salam West and Al-Salam Aljaded - Al-Fath-Aliskan102- Al-Thawra 14 - Al-Thawra 59 - Al-Thawra 20 - Al-Safwa and Al-Saffaira, with a campaign to sterilize mosques and churches in cooperation with the Sudanese Red Crescent The state of Khartoum began on April 8th until April 17th, 2020 and lasted for 10 days with good coordination, the Health and Environmental Affairs Department in Omdurman locality, the Health Promotion Department and the Sudanese Family Planning Association with the support of the Sadagaat community.

- * In cooperation with Q-Net, 50 tents, 150 mosquito nets and 150 blankets. Sadagaat USA community sponsored 50 additional tents. The third batch of people affected by the floods was sent to the city of Shandi and the surrounding villages.
- * In partnership with the Ministry of Health, Khartoum State implemented a vector control spraying campaign, as the Sadagaat community provided 25 pickup trucks to assist in the spraying campaign that covers the entire state of Khartoum.

The total cost of the Fall 2020 project was 37,994,648 Sudanese pounds.

Volunteers:

Volunteer work is a feature of the prosperity of nations and an inherent value for the Sudanese people. Volunteers are the backbone of Sadagaat Charity Organization that depends on them in the implementation of most of its projects. Sadagaat works to spread the culture of volunteering and provide volunteers with skills that meet their needs and the needs of the organization alike.

The year 2020 was exceptional in terms of the volunteers' activity in the Sadagaat organization in relation to the Corona pandemic, so most of the voluntary activities and programs that included gatherings were stopped in order to avoid the spread of infection.

The Volunteer Training and Development Department implemented the following:

- * 240 new volunteers were added to the Sadagaat's volunteer's database.
- * 81 volunteers were trained on breast cancer awareness.
- * 110 volunteers participated in breast cancer awareness through Ashan Bnhibk campaign.

- * 30 volunteers participated in Coronavirus awareness by distributing awareness posters in public places.
 - * 10 volunteers participated in the coordination and awareness of the voluntary blood donation campaigns.
 - * 80 volunteers participated in feeding projects (alternative of Ramadan bag, Al-Udhiya, Zakat Al-Fitr)
-

Images:

Media and Public Relations:

The Media and Public Relations Department is considered one of the main departments in Sadagaat, as it works to document all projects and programs in a professional manner, and publish all activities and programs on social media sites and the organization's website on a regular and updated basis with the aim of transparency and spreading the spirit of volunteering.

The Media Department has documented all projects through photography and videos to be a memory of the organization and Sadagaat community and reference to benefit from it.
