Report of the Trustee Directors

The Trustee Directors present their report and the audited Financial Statements for the year ended 31 March 2022.

Principal activities

The principal activity of the Abbeyfield Research Foundation (the “Research Foundation”) continues to be granting financial support to fund high quality applied research for knowledge to enrich later life for everyone. In support of this, we took over the secretariat function of the UK Age Research Forum in May 2018, and we have continued to develop our fundraising activities throughout this financial year.

Review of activities

The on-going COVID-19 pandemic has continued to challenge the current grant recipients and almost all projects have experienced significant delays. However, some projects were able to be completed through the imagination and resourcefulness of the researchers. Because of the uncertainty about the priorities of the Foundation over the next year, it has been agreed by the Board of the Abbeyfield Society to suspend funding, for review at the end of the next financial year.

In 2021/22 three projects funded by the Research Foundation completed.

University of West London

Assessment of drinking vessel design and use by older adults in a care setting: a multiple methods approach

Many older people struggle to drink from typical drinking vessels used in care settings. Previous work by the team has found features such as weight, shape and handle size affect how easily older people find them to use. However, very little is known about the exact features that make some cups easier to handle and drink from. We will interview some older people to find out their views on the features of cups/mugs they prefer and use video cameras to build 3D virtual reconstructions of them drinking. These reconstructions will be used to measure the type, speed, smoothness and complexity of grip formation and how the cup is lifted and drunk from. The results from this study will improve our understanding of hand performance when drinking. It will inform design guidelines for optimizing drinking vessels, and influence the purchasing of those most suitable for supporting the hydration of older people.

This study has established the critical dimensions for the design of cups for people with reduced strength and dexterity. The cup mass, diameter, handle length and the handle orifice area affect the critical moment on the wrist and the ability to support this moment through the fingers. This analysis can be used to inform the minimum and maximum values for these characteristics when designing drinking vessel for older people.

University of Leeds

Let’s talk about the S word: developing an interactive training resource to engage and meet the sexuality and intimacy needs of care home residents

Sexuality and intimacy are important for maintaining health, wellbeing and personal identity, yet for older people, sexuality and intimacy remain taboo. Sexuality and intimacy are often the missing piece of the jigsaw in needs assessment and care provision for older care-home residents. Failing to meet such needs denies legal rights to self-expression and association and can result in deficits in self-esteem, happiness and overall health and wellbeing. Care-home residents who identify as lesbian/gay/bisexual or transgender face additional challenges relating to judgement, discrimination or social exclusion from staff or other residents due to their non-normative sexual identity.

Care-home staff also report a number of barriers to supporting residents with their sexuality and intimacy needs, such as a lack of knowledge of (i) the legal and ethical issues relating to consent and safeguarding, (ii) the diversity of sexuality and intimacy needs, as well as a lack of confidence in knowing how to talk about these issues with residents. This is important given that care-home staff play such a key role in helping older residents meet their multifaceted needs and are routinely confronted with complex moral dilemmas concerning sexual expression and relationships under their duty of care. Whilst paper-based resources exist to inform staff about care-home residents’ sexual wellbeing, these have had little impact on the ability of care-home staff to support residents’ needs.

The next step in our programme of work is to develop a practical, interactive training resource, based on sound teaching and learning principles, to support staff development around residents’ sexuality and intimacy needs. Therefore, this study aims to:

1. Co-create an interactive training resource to develop knowledge, skills and confidence of care-home staff to support residents’ sexuality and intimacy needs that can be accessed on mobile devices.
2. Investigate the acceptability and feasibility of the co-created, interactive resource to care-home staff/managers.

Around 430,000 older people live in care homes in the UK. Care homes provide 24 hour residential care, with or without on-site nursing, or a combination of both types. The typical care home resident is over 85 years old and approximately three quarters are female. There is a high incidence of dementia, poor mobility, falls, depression, malnutrition, incontinence, polypharmacy and multi-morbidity in this population.

Because of the prevalent disability, cognitive impairment and physical dependency, care home residents need to be supported to participate in meaningful activities in their preferred places, including outdoor spaces, if they are to have the best quality of life. Getting out into care home outdoor spaces can involve meaningful activities, such as walking, enjoying sunlight, gardening, doing domestic jobs and spending time with family – and be important for quality of life. The health and wellbeing benefits of spending time in outdoor environments are well-evidenced. However, the majority of care home residents are unable to access enough opportunities to spend time outside. Most of the research and guidance for care home staff and owners, who want to enable residents to get outside, has focused on improving the design and quality of outdoor spaces to enable greater physical access, safer mobility and activity participation, with less focus on behaviours and organisational features that support use of outdoor spaces. The Realistic Rehabilitation for Outdoor Activities and Mobility in care homes (ROAM-II) study aimed to improve the quality of life of care home residents by increasing their access to outdoor mobility and activities.

We sought to do this by addressing the following objectives:

1. To co-produce a structured outdoor intervention framework to outdoor mobility with care home staff, residents and relatives in UK care homes.
2. To enable care home staff to use their expertise to overcome barriers to effective use of outdoor spaces by implementing the structured outdoor intervention framework

Applications to the Academic Research Panel

We are currently not accepting application for new grants. This process is subject to regular review.

Grant awards and expenditure

For the year ended 31 March 2022, the Research Foundation awarded new grants totaling £114,000 (FY 2021: £277,338).

The Abbeyfield Research Foundation, on awarding grants, records them as expenditure and liabilities. Cash payments of, £244,877 (FY 2021: £209,356) were made, in relation to those, and other grants awarded in earlier years. A sum of £584,575 (FY2021 £715,452) was held as a Creditor balance at the end of FY 2022.

The Abbeyfield Society (TAS), which has awarded the grants to fund the Abbeyfield Research Foundation (ARF), provides the relevant cash to meet calls on the creditor balance, when necessary.

Financial Review

Income in 2021/22 consisted of the £100,000 (2021: £300,000) grant from TAS, representing TAS's continuing annual commitment to research funding. There was no subscription from UK Age Research Forum received in the year, previous year subscription totaled £1,950.

Expenditure of £114,465 (2021: £277,774) was incurred in the year on charitable activities. This relates to expenditure on research grants and details as set out in the table (on page 6), in the previous section of this report. The Research Foundation spent £465 (2021: £436) on administrative activities, including the cost of running the Academic Research Panel, in support of this grant making.

Debtors at the year-end, represented by amounts owing from TAS, decreased to £511,273 (FY 2021 £711,275). Provision has been made for grant commitments to Grantees to be paid in future years. This amounts to £584,575, forming all of the year-end Creditor balance (FY 2020: £715,452). Consequently, cash balance at the year-end increased to £122,614 (2021: £67,953).

Financial Activities in the year generated a net decrease in General Funds of £14,465 (2020 £24,176 increase). Payments exceeded awards by £130,877 (2021: £72,969). General Funds decreased in the year to leave a closing balance on General Funds of £49,313 (FY 2021 £63,777). As in the previous year, TAS has committed to fund the activities of the Research Foundation in 2022/23 and hence the Trustee Directors do not consider that a particular level of free reserves need to be maintained.

Structure, Governance and Management

The Research Foundation is a company limited by guarantee, incorporated in England and Wales (registered company number 9705217), having no share capital and with solely charitable objectives. The company was incorporated on 27 July 2015 and was registered in June 2016 with the Charity Commission for England and Wales (registered charity number 1167685). The sole member of the Research Foundation is The Abbeyfield Society.

The charitable objects of the Research Foundation, contained within its Articles of Association, are to advance the education of the public in all subjects relating to elderly persons or old age including their health and wellbeing in particular but not exclusively by the promotion of research and the dissemination of the useful results of such research.

The Trustee Directors of the Research Foundation are its Trustee Directors for the purpose of charity law and throughout this report are collectively referred to as the Trustee Directors. The Trustee Directors met on three occasions during the financial year. Potential new Trustee Directors are assessed through formal interview by the Nominations Committee of The Abbeyfield Society. The formal programme for Trustee Director induction comprises, amongst other things, information on the powers and responsibilities of the Trustee Directors including board meetings and the grant-making process.

The names of persons who were Trustee Directors at any time during the year are as follows:

- Professor Brian Williams (Chair)
- Professor Cameron Swift (Chair of the Academic Research Panel) (Resigned 26/07/21)
- Keith Fowler (Resigned 26/07/21)
- Robin Means
- Kenneth Staveley

The names of persons who were members of the Academic Research Panel at any time during the year are as follows:

- Professor Cameron Swift (Chair), King's College London
- Professor Antony Bayer, Cardiff University
- Professor John Gladman, Nottingham University
- Professor Steve Iliffe, University College London
- Professor Robin Means, University of the West of England
- Professor Christopher Phillipson, Manchester University
- Doctor Julie Whitney, King's College London

Trustee Directors' responsibilities

The Trustee Directors are responsible for preparing the Annual report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the Trustee Directors to prepare Financial Statements for each financial year in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Trustee Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Research Foundation and of the incoming resources and application of resources, including the income and expenditure, of the Research Foundation for that period.

In preparing these Financial Statements, the Trustee Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the Financial Statements;
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Research Foundation will continue in business.

The Trustee Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Research Foundation's transactions and disclose with reasonable accuracy at any time the financial position of the Research Foundation and enable them to ensure that the Financial Statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Research Foundation and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Public benefit

The Trustee Directors have given due consideration to Charity Commission guidance on the operation of the public benefit requirement and are satisfied that the work of the Abbeyfield Research Foundation meets that requirement.

Disclosure of information to auditors

The Trustee Directors who held office at the date of approval of this Report of the Trustee Directors confirm that, so far as they are each aware, there is no relevant audit information of which the Research Foundation's auditors' are unaware; and each Trustee Director has taken all the steps that he or she ought to have taken as a Trustee Director to make himself or herself aware of any relevant audit information and to establish that the Research Foundation's auditors are aware of that information.

Trustee Directors' indemnities

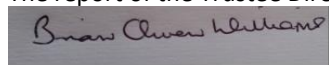

As permitted by the Articles of Association, the Trustee Directors have the benefit of an indemnity which is a qualifying third party indemnity provision as defined by Section 234 of the Companies Act 2006. The indemnity was in force throughout the last financial year and is currently in force. The Research Foundation also purchased and maintained throughout the financial year Trustee Directors' and Officers' liability insurance in respect of itself and its Trustee Directors.

Independent auditors

The auditors, Crowe U.K. LLP, have indicated their willingness to continue in office and a resolution concerning their re-appointment will be proposed at the Annual General Meeting.

This report has been prepared in accordance with the special provisions relating to small companies within Part 15 of the Companies Act 2006.

The report of the Trustee Directors was approved on 31st August 2022 and signed on behalf of the Trustee Directors by:

Professor Brian Williams

Trustee Director

Independent Auditor's Report to the Members of The Abbeyfield Research Foundation

Opinion

We have audited the financial statements of The Abbeyfield Research Foundation ('the charitable company') for the year ended 31 March 2022 which comprise the Statement of Financial Activities, the Statement of Financial Position and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the Financial Statements:

- give a true and fair view of the state of the Research Foundation's affairs as at 31 March 2022 and of its incoming resources and application of resources for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions related to going concern

In auditing the financial statements, we have concluded that the Trustee Director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charitable company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Trustee Directors with respect to going concern are described in the relevant sections of this report

Other information

The Trustee Directors are responsible for the other information contained within the annual report. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are

required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Trustee Directors' Report, prepared for the purposes of Company Law, for the financial year for which the Financial Statements are prepared is consistent with the Financial Statements; and
- the Trustee Directors' Report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In light of the knowledge and understanding of the charitable company and their environment obtained in the course of the audit, we have not identified material misstatements in the directors' report included within the Report of the Trustee Directors.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion;

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Financial Statements are not in agreement with the accounting records and returns; or
- certain disclosures of Trustee Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the trustees were not entitled to prepare the financial statements in accordance with the small companies regime and take advantage of the small companies' exemptions in preparing the Report of the Trustee Directors and from the requirement to prepare a strategic report.

Responsibilities of Trustees

As explained more fully in the trustees' responsibilities statement set out on page 9, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the

economic decisions of users taken on the basis of these financial statements.

Details of the extent to which the audit was considered capable of detecting irregularities, including fraud and non-compliance with laws and regulations are set out below.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We identified and assessed the risks of material misstatement of the financial statements from irregularities, whether due to fraud or error, and discussed these between our audit team members. We then designed and performed audit procedures responsive to those risks, including obtaining audit evidence sufficient and appropriate to provide a basis for our opinion.

We obtained an understanding of the legal and regulatory frameworks within which the charitable company operates, focusing on those laws and regulations that have a direct effect on the determination of material amounts and disclosures in the financial statements. The laws and regulations we considered in this context were the Companies Act 2006 together with the Charities SORP (FRS 102). We assessed the required compliance with these laws and regulations as part of our audit procedures on the related financial statement items.

In addition, we considered provisions of other laws and regulations that do not have a direct effect on the financial statements but compliance with which might be fundamental to the charitable company's ability to operate or to avoid a material penalty. We also considered the opportunities and incentives that may exist within the charitable company for fraud. The laws and regulations we considered in this context for the UK operations were taxation legislation.

Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Trustees and other management and inspection of regulatory and legal correspondence, if any.

We identified the greatest risk of material impact on the financial statements from irregularities, including fraud, to be within the override of controls by management. Our audit procedures to respond to these risks included enquiries of management, internal audit and the Audit and Risk Committee about their own identification and assessment of the risks of irregularities, sample testing on the posting of journals, reviewing accounting estimates for biases, reviewing regulatory correspondence with the Charity Commission, and reading minutes of meetings of those charged with governance.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it. In addition, as with any audit, there remained a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

Use of our report

This report is made solely to the charitable company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the charitable company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's members as a body, for our audit work, for this report, or for the opinions we have formed.

The notes on pages 16 — 20 form part of the Financial Statements.

The Abbeyfield Research Foundation

Notes to the Financial Statements

for the year ended 31 March 2022

1. Accounting policies

Basis of preparation

The Abbeyfield Research Foundation is a company limited by guarantee incorporated in England & Wales under the Companies Act 2006 (Company No 9705217). The address of the registered office is given on the contents page and the nature of its operations and its principal activities are set out in the Report of the Trustee Directors. The Financial Statements have been prepared in accordance with FRS102, the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland and with the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with FRS102.

Management does not believe that the preparation of these Financial Statements has required the use of any critical accounting estimates.

The qualifying entity exemptions in FRS102 that the Research Foundation has taken advantage of are as follows:

- the requirements of section 3 Financial Statement Presentation paragraph 3.17(d) and
- the requirements of Section 7 Statement of Cash Flows

This information is included in the consolidated Financial Statements of The Abbeyfield Society as at 31 March 2022.

The following principal accounting policies have been applied:

Going concern

The Trustee Directors considers that in preparing the Financial Statements they have taken into account all information that could reasonably be expected to be available in relation to the ability of the group to continue as a going concern. The Trustee Directors have reviewed the business plan and on the basis of this information are satisfied that the Research Foundation is a going concern for at least 12 months from the date of signing the Financial Statements.

The Trustee Directors believe that preparing the Financial Statements on the going concern basis is appropriate due to the continued financial support of the ultimate parent company, The Abbeyfield Society. It is the intention of The Abbeyfield Society to continue this support in the foreseeable future thereafter.

Income

Income comprises external donations and the receipt of grants from the ultimate parent company, The Abbeyfield Society, plus expenses incurred by the Research Foundation but settled or waived by its parent. Grant income is recognised when approved at a meeting of the Board of The Abbeyfield Society, the ultimate parent undertaking.

All income is recognised on a receivable basis.

The Abbeyfield Research Foundation

Notes to the Financial Statements

for the year ended 31 March 2022

Expenditure

Grant commitment accounting

Each grant is recognised in the Statement of Financial Activities in the period the grant is awarded to the grantee. Consequently, for these grants, expected payments based on commitments awarded, but not yet paid, are recognised as an expense and a liability in the Statement of Financial Position. The balance of the potential grant commitments is shown as a Creditor balance.

Taxation

No current or deferred tax has been recognised. The Trustee Directors do not expect any tax consequences of any current or future transactions.

2. Grants and donations

	2022 £	2021 £
Grants received from The Abbeyfield Society	100,000	300,000
Donations	-	1,950
	100,000	301,950

3. Resources expended on charitable activities

The grants awarded by the Research Foundation are set out in more detail in the Trustee Directors' report on pages 4 to 9 along with Notes 7, 8 & 9.

4. Staff costs and Trustee Directors emoluments

No remuneration was paid to any of the Trustee Directors for the period by the Research Foundation. The Research Foundation had no employees throughout the year.

Some administrative duties were carried out by The Abbeyfield Society, the ultimate parent undertaking, for which no charge was levied.

5. Net incoming resources

	2022	2021
	£	£
Net incoming resources are stated after charging Auditor's remuneration (including VAT):

	<u>(584,575)</u>

*All incoming resources relate to amounts committed to individual grants.
These commitments will be met by TAS, the Parent company. The amounts shown have been accrued, as income.

10. Related party disclosures

There were no related party transactions during the year (2021 – none) other than the income received from The Abbeyfield Society (note 2) and the balance due from The Abbeyfield Society (note 6).

11. Parent undertaking and ultimate parent undertaking

The ultimate parent undertaking is The Abbeyfield Society, a company incorporated in England and Wales (company no. 574816) and registered with the Regulator for Social Housing (registration no.H1046) and the Charity Commission (registration no.200719). The Abbeyfield Society is the sole member of The Abbeyfield Research Foundation and is able to exercise control of the subsidiary by removing and appointing Trustee Directors.

The Abbeyfield Society is the parent undertaking of the largest and smallest group for which group accounts are drawn up which include the Research Foundation. The Abbeyfield Society's principle activities are the provision and development of accommodation, care and support services for older people and the promotion and support of the activities of member societies including the provision of technical, operational and administrative advice. The consolidated Financial Statements of The Abbeyfield Society are available from The Abbeyfield Society, St Peter's House, 2 Bricket Road, St Albans, Hertfordshire, AL1 3JW.
