Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	We collect vital aid to support asylum seekers and refugees wherever there is need. We undertake fundraising activities to support these vulnerable people and to provide donations to grass roots organisations working on the ground with asylum seekers, primarily in France, Ukraine and neighbouring countries, Lebanon or wherever there is need
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	<p>Collection of items donated for asylum seekers and refugees (clothing, shoes, hygiene products, sleeping bags, tents and other items as required).</p> <p>Shipment of donated items to grass roots organisations..</p> <p>Information sharing with local schools to support their fundraising and learning with regard to the refugees. Educational activities relating to the wider refugee situation globally.</p> <p>Festival salvage program: During the summer months, we work with large music festivals to recover some of the enormous amount of camping equipment that is abandoned after the events have ended. From May to August we collected from festivals across England and in September, we delivered around 5,000 tents and sleeping bags to partner organisations in northern France. The program is a major logistical challenge and requires us to work with festival organisers, partner organisations in France and the UK and local charities and support groups. We continue to build these relationships and we are now the</p>

		<p>largest organisation collecting from some of the festival sites. We rely heavily on volunteers to help collect the equipment with some events requiring over 140 people to do the work. We work hard to engage the local communities at each event which we see as a great opportunity to help not just refugees but also local groups and charities who benefit from collecting for their own needs while helping us. The impact on the environment is also significant as the thousands of items we collect would otherwise go to landfill or be incinerated. We estimate the number of refugees who benefit from the equipment we provide to be between 10,000 & 15,000. This is based on feedback from our partners who distribute the items. In winter, this aid can be life-saving.</p> <p>Volunteer trips: We make several trips to Calais throughout the year with volunteers to help them gain an understanding of the reality of the situation for displaced people in northern France. We work with partner organisations such as Refugee Community Kitchen, who provide hot food to people and the Calais Woodyard, who process, pack and supply firewood for warmth and cooking. We feel it's important for people to get a 'hands-on' experience as it provides the best way to understand the situation and be better able to help. The trips are very popular and we have many people returning multiple times.</p>
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	Trustees have been reminded of and read the Charity Commission guidance on public benefit.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>Despite challenging conditions due to the cost of living crisis, with reduced donations and volunteer numbers, we continued to provide our core services.</p> <ul style="list-style-type: none"> • Expanded our festival salvage operation further, collecting more camping equipment that would otherwise have been disposed of. • Developed our relationship with Circular Camping to swap chairs and air beds collected at festivals for sleeping bags. This removes more 'waste' from festival sites and is mutually beneficial to both of our organisations. • The delivery of accumulated aid to our partner organisations in France required a 40 foot articulated truck & three 7.5 tonne trucks, one more than in previous years. It again formed the bulk of winter stock, without which, vulnerable people would be left without shelter or warmth in winter.

		<ul style="list-style-type: none"> • St Albans Cathedral again invited us to their Community Showcase event to bring our work to the attention of the local community. • We organised several volunteer trips to France where people could work with Refugee Community Kitchen and other support organisations to better understand the reality of life for refugees in northern France. <p>It was another difficult year with an increasingly negative narrative around refugees in the media and from politicians. We continue to build on our efforts locally in schools to counter the negativity with facts and positive engagement. We believe this will be even more important going forward.</p>

A description of the principal risks facing the charity	Para 1.46	Difficulties created by the departure from the European Union with regard to the shipment of aid to Europe continue to be problematic and expensive to overcome. The increasing cost of living crisis has impacted greatly on donations and volunteer availability. This also affects our partner organisations who we deliver to and depend on to distribute the aid we supply. Finding enough volunteer time to run social media sites, run campaigns, manage volunteers. The deliberate negative narrative surrounding refugees and asylum seekers is a growing threat that must be challenged. It impacts on every level, affecting donations and ability to deliver services.
