CHAIR'S REPORT

Community Change Programme (CCP) is a registered charity and a community-incorporated organisation. Founded in 2012, registered as a charity in July 2016 and based in Salford, CCP supports people affected by alcohol and substance addiction.

The increasing cost of living has impacted our service users and wider community members. There has been no charity income in 2024 due to no funding coming in. The charity's income has been significantly lower in 2023 which has impacted the level of services that the charity has been able to offer.

We have provided community events such as Easter Funday and a Community Christmas Day dinner.

We reached out to communities in Salford and Manchester and provided much-needed services for people experiencing food poverty, domestic violence, drug and alcohol addiction, homelessness and other social issues.

We have secured further funding of £14,500, which will enable us to develop services and wellbeing programmes. Our focus is to secure further funding and commissions to enable us to further develop services and wellbeing programmes with service users.

CCP continues to work towards becoming a service user-led Community Hub providing wrap-a-round health and wellbeing services and programmes for people whose lives have been negatively impacted by addiction.

I thank our Trustees, partners, volunteers, and service users, who continue to support us through what has been a challenging year.

Paul Lloyd

Chair

Our Mission

The mission of Community Change Programme (CCP) is to inspire vulnerable people to make positive life changes. We work within the local community to relieve the effects of poverty on families and help socially excluded people, e.g. substance abusers to reintegrate into society and improve their employability education, training, and work experience.

Our Vision

CCP continues to aspire to be a Community Hub, providing support, information and health and wellbeing activities and programmes that meet the individual needs of its service users. We seek to work alongside and support men and women experiencing addiction issues or coming from a background of prostitution or crime to re-integrate back into their communities through empowering people to take control of their own positive growth and change.

Our Objectives

To continue to:

- work in collaboration with a range of voluntary and statutory organisations across Salford and Greater Manchester to establish a robust referral process to ensure effective engagement with our target groups
- work in collaboration with a range of voluntary and statutory organisations across Salford and Greater Manchester to further develop a joined-up support pathway for service users
- develop and deliver awareness raising programmes about alcohol and drug addiction and its related issues
- develop clear and robust internal policies, monitoring and evaluation systems and strategic plans for our core areas of work
- develop clear policies in relation to volunteers within the organisation
- be accountable to our funders, commissioners, and target groups
- foster and strengthen our links with commissioners and funders to ensure financial stability
- identify and develop new income generation, i.e. training and consultancy services
- identify and secure a permanent building for our 'CCP Community Hub' that is appropriate and accessible for our service users
- work with key policy makers to ensure that the lived experiences of service users are reflected in future policy and commissioning of services
- effectively and strategically network and build partnerships on a local, regional and national level with other drug and alcohol related agencies

The trustees review the aims, objectives and activities of the charity each year. This report looks at what the charity has achieved and the outcomes of its work in the reporting period. The trustees report the success of each key activity and the benefits the charity has brought to those groups of people that it is set up to help. The review also helps the trustees ensure the charity's aims, objectives and activities remained focused on its stated purposes.

The trustees have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the charity's aims and objectives and in planning its future activities. In particular, the trustees consider how planned activities will contribute to the aims and objectives that have been set.

MAIN ACTIVITIES

CCP provides support to vulnerable people who have come from drug and alcohol rehabilitation to help them to continue to be substance free and enable reintegration and reconnection to their families, communities, and society as a whole.

During this reporting period, despite many obstacles we managed to navigate our way through the challenges that 2024 brought and continued to impact many people from broken and deprived backgrounds.

We:

- with the help of our great team of volunteers fed 100 families over Easter
- supported many families over the Christmas period, delivering 80 meals to families

The benefit of our services

The services we deliver are beneficial to service users:

- enable individuals to maintain an addiction-free lifestyle
- build independence where the individual can take back control of their lives
- facilitate reconnection to and restoration of families and relationships
- support individuals to reintegrate into society
- contribute to identifying and securing permanent residence
- improve employability through education, training, and work experience

Volunteers

Volunteers are and continue to be a vital role in the development of CCP and the delivery of its services. During the reporting period, 50 volunteers (3 of which are trustees) have contributed their time to the organisation. Due to individuals giving up their free time and utilising their knowledge, experience and skills, CCP will actively identify and recruit new volunteers as we continue to establish and embed the organisation in the community.

GOING FORWARD: CCP'S PLANS FOR THE FUTURE

External Development Strategy

CCP will continue to:

- develop and work in partnership with other organisations, services, and agencies locally, regionally and nationally to form effective relationships for the benefit of our service users
- act in a consultative role and participate in the development of improving strategies and policies around drug and alcohol service provision
- ensure we have a stakeholder presence within key drug and alcohol services, groups and committees in Salford and Greater Manchester

Internal Development Strategy

CCP will continue to:

- review and develop internal policies
- identify training needs in the organisation for the Board of trustees, staff, and volunteers
- ensure regular review and development programmes for the organisation
- develop a robust Business Plan setting out clear service objectives and targets

Service Development Strategy

CCP will continue to:

- develop services which are service user led or have been identified through our contacts with our target groups
- identify and secure funding to further develop a range of services, projects and initiatives that are service user led
- develop effective partnerships and undertake joint working with other drug and alcohol related community and voluntary organisations and services
- develop clear and effective systems for needs analysis and ongoing monitoring and review of all our services

The Board of Trustees will continue to:

- ensure that transparent and open financial procedures, policies and systems continue to be in line with the Charity Commission and Company Law
- develop the roles of Project Manager, Volunteer Coordinator and Finance and Office Administrator
- seek additional revenue funding to further develop new and existing services in response to the needs of our service users
- identify and secure funding to enable CCP to move into new premises

Governance Review

The trustees review the aims, objectives and activities of the charity each year. This report looks at what the charity has achieved and the outcomes of its work in the reporting period. CHAIR'S REPORT

Community Change Programme (CCP) is a registered charity and a community incorporated organisation. Founded in 2012, registered as a charity in July 2016 and based in Salford, CCP supports people affected by alcohol and substance addiction.

The impact of Covid 19 continued into 2021 and during this year, our focus was to continue to provide support to service users and wider community members.

With limited funding, we reached out into communities in Salford and Manchester and provided much needed services for people experiencing food poverty, domestic violence, drug and alcohol addiction, homelessness and other social issues that were exacerbated due to the pandemic.

As a new charity, we also felt and are still feeling the affect of the pandemic. As we go forward, our focus is to secure further funding and commissions to enable us to further develop services and wellbeing programmes with service users at the core of all that we do.

CCP continues to work towards becoming a service user led Community Hub providing wrap-a-round health and wellbeing services and programmes for people whose lives has been negatively impacted by addiction.

I thank our Trustees, partners, volunteers, service users, who continue to support through what has been a very challenging year.

CHAIR'S REPORT

Community Change Programme (CCP) is a registered charity and a community incorporated organisation. Founded in 2012, registered as a charity in July 2016 and based in Salford, CCP supports people affected by alcohol and substance addiction.

During this reporting period, COVID-19 continued to bring challenges. With restrictions in place, service users and wider community members affected by addiction faced increased vulnerabilities all of which impacted negatively on their mental and physical wellbeing.

In partnership with Victory Outreach Manchester, CCP developed its Community Hub and provided a range of practical support and wellbeing services for community members affected by drug and alcohol addiction. All services were CV19 risk assessed and delivered within government restrictions.

CV19 further highlighted the increasing challenges that our target group face and as we move forward into what is being described as the 'new normal', our priority is to continue to secure funding, commissions and sponsorships, grow our capacity, develop our services, create partnerships and widen our reach – to meet the ever-changing needs of community members whose lives have been impacted negatively by addiction.

CCP continues to work towards becoming a service user led organisation – placing service users and community members at the heart of what we do.

Although we are in challenging times, we continue to create opportunities as we move forward with our vision.

I take this opportunity to thank our Trustees, volunteers, service users and supporters for their dedication and hard work.

Our Mission

The mission of Community Change Programme (CCP) is to inspire vulnerable people to make positive life changes. We work within the local community to relieve the effects of poverty on families and help socially excluded people, e.g. substance abusers to reintegrate into society and improve their employability education, training, and work experience.

Our Vision

CCP continues to aspire to be a Community Hub, providing support, information and health and wellbeing activities and programmes that meet the individual needs of its service users. We seek to work alongside and support men and women experiencing addiction issues or coming from a background of prostitution or crime to re-integrate back into their communities through empowering people to take control of their own positive growth and change.

Our Objectives

To continue to:

- ☐ work in collaboration with a range of voluntary and statutory organisations across Salford and Greater Manchester to establish a robust referral process to ensure effective engagement with our target groups
- ☐ work in collaboration with a range of voluntary and statutory organisations across Salford and Greater Manchester to further develop a joined up support pathway for service users
- ☐ develop and deliver awareness raising programmes about alcohol and drug addiction and its related issues
- ☐ develop clear and robust internal policies, monitoring and evaluation systems and strategic plans for our core areas of work
- ☐ develop clear policies in relation to volunteers within the organisation
- ☐ be accountable to our funders, commissioners and target groups
- ☐ foster and strengthen our links with commissioners and funders to ensure financial stability
- ☐ identify and develop new income generation, i.e. training and consultancy services
- ☐ identify and secure a permanent building for our 'CCP Community Hub' that is appropriate and accessible for our service users
- ☐ work with key policy makers to ensure that the lived experiences of service users are reflected in future policy and commissioning of services
- ☐ effectively and strategically network and build partnerships on a local, regional and national level with other drug and alcohol related agencies

The review also helps the trustees ensure the charity's aims, objectives and activities remained focused on its stated purposes.

In particular, the trustees consider how planned activities will contribute to the aims and objectives that have been set.
