Names of the trustees for the charity, if any, (for example, any custodian trustees)

Name	Dates acted if not for whole year
None	

Names and addresses of advisers (Optional information)

Type of adviser	Name	Address
None		

Name of chief executive or names of senior staff members (Optional information)

None

Section B Structure, governance and management

Description of the charity's trusts

Type of governing document
(eg. trust deed, constitution)

Constitution

How the charity is constituted
(eg. trust, association, company)

Charitable Incorporated Organisation

Trustee selection methods
(eg. appointed by, elected by)

Elected at the Annual General Meeting, all members are eligible to stand

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

The Charity is a member of the Heritage Railway Association and a member of the Midland Diesel Group. Neither membership is binding on any aspects of operation of the Charity and both serve to further railway preservation activities. The Charity is also a member of the Midland Railway – Butterley (MRB) and a written contract is in place covering storage and operation of the locomotive and the storage of other assets.

A written contract is in place with Pioneer Diesels Ltd in relation to the overhaul of the locomotive. This reduces a number of risks relating to this critical activity.

The Charity has a Health & Safety Policy and Safeguarding policy, both of which were approved at the 2020 AGM and will be reviewed on an annual basis.

The Trustees believe a level of insurance (public/employer liability) is provided through membership of the MRB, but there currently is no clarity on the levels of cover. In addition, there is no Trustee liability cover in place. Both of these issues will continue to be reviewed any necessary changes during 2021.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

The objects of the organisation are to advance public education, and particularly engineering learning and skills development, by the acquisition, restoration, preservation, exhibition and operation of a British Railways Class 45/1 diesel locomotive, rolling stock, equipment and artefacts, relics, road vehicles, documents and records of historic and engineering interest as the trustees may from time to time decide.

This is currently discharged through the ownership and operation of 45133 and associated supporting tools, equipment and spares.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The organisation's prime purpose is to preserve a working example of a Class 45/1 locomotive and one of the key sections of the public to benefit from this are railway enthusiasts who will see the locomotive in operation at its normal operating base or when visiting other preserved railways. In addition, when maintenance and overhaul work is undertaken on the locomotive the public will see the engineering behind the operation of the locomotive and witness the skills needed to undertake the maintenance or overhaul activity.

The public benefit is not limited to railway enthusiasts, but also is applicable to any member of the public who visits any of the locations where the locomotive may be based or operating from.

For the younger section of the general public, they will be able to see the contrast behind the sights and sound of a Class 45/1 locomotive compared to the more modern trains in service today, whilst understanding the role the locomotive paid in the modernisation programme that British Railways undertook to transition from a steam operated railway network.

Public benefit is visible through the production of a quarterly magazine, primarily available for members, but which is also available from the sales stand when this is in operation. In addition, a dedicated Facebook page is visible to both members and non-members who ask to join this page whilst a web page provides unlimited access via the world wide web.

The Trustees have full regard to public benefit when planning activities and do so in accordance with Section 17(5) of the Charities Act and the Charities (Accounts and Reports) Regulations 2008. The guidance issued by the Charity Commission regarding public benefit is reviewed at the Annual General Meeting of the organisation.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

The organisation succeeds almost entirely through the contribution made by volunteers (who are members), be that a physical contribution and/or financial support. This on-going support, which has been consistently delivered throughout the life of the organisation, is critical to the continued operation of the organisation, and as such, communication to members is regular and their opinion is important to the Trustees.

The operation of the locomotive provides an income stream in the form of hire fees and the current overhaul work is being undertaken using a combination of paid and volunteer labour.

Summary of the main achievements of the charity during the year

This report marks the end of the fourth full year of the Society being a Charity and it has been a stable year with the Trustees being aware of their roles with regards to the successful operation of a Charity.

The overhaul of the locomotive is progressing well which, when complete, will ensure the locomotive continues to deliver sterling service over many years to come and ensures the memories of a Class 45/1 locomotive are revived. It will also give those who did not experience them in operation the opportunity to see and hear the locomotive in action. The overhaul is being undertaken using a combination of volunteer and contracted labour. The locomotive has been undercover for the whole year and which has allowed work to continue at a regular pace.

The main challenge during the year has been the impact of the global Coronavirus pandemic. Initially, in March 2020, all work was suspended, related in part due to the complete closure of the MRB, but also in line with Government restrictions. Work was able to recommence in July 2020, working to new risk assessments and methods of work, limiting numbers on site and working in line with the requirements of the MRB Covid management plans.

These Covid restrictions did initially slow down overhaul activity, but the workrate has improved again once access to site was permitted.

The sales stand has not been in operation during the year due to the locomotive being subject to the overhaul and also due to Covid, but items have also been made available for purchase via the web page and from targeted sales (e.g. polo shirts and calendar). These items have been popular and help to maintain interest in 45133 whilst also providing a small profit.

Membership of the organisation has largely remained static over the year, with new members joining whilst unfortunately we also saw a small number of members not renew their membership, but our membership level remains at a broadly consistent level over recent years.

In addition to the established communication material of a website and quarterly magazine, the Trustees continue to utilise the Facebook page as it provides for timely dissemination of updates on overhaul progress.

Notwithstanding the impact of Covid, the overhaul continues to provide opportunities for members to become involved and a significant amount of volunteer labour has been delivered during the year, supporting the activity undertaken by the contracted labour. This joint working has enabled costs to be reduced and provides a major element of the Charity Objects to be delivered.

Section E

Financial review

Brief statement of the charity's policy on reserves

The organisation does not have a policy on reserves.

Details of any funds materially in deficit

The organisation does not prepare accounts on an accruals basis.

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

The organisation raises funds from 3 principal sources:

- Member contributions
- Locomotive hire (operations)
- Sales stand/activities

Expenditure during the year was almost exclusively relating to work appertaining to the overhaul, be that components, equipment or contracted labour. In addition, a small amount of expenditure was for items to subsequently sell in order to raise a modest amount of income.

An expected expenditure for the storage charge of the locomotive and equipment has not yet been incurred. It is expected that the MRB will at some point provide an invoice for these charges.

Section F

Other optional information

Nothing further to report

Section G

Declaration

The trustees declare that they have approved the trustees' report above.

Signed on behalf of the charity's trustees

Section A

Independent Examiner's Report

Report to the trustees/ members of	Charity Name Class 45/1 Preservation Society		
On accounts for the year ended	31 December 2020	Charity no (if any)	1168290
Set out on pages	One and Two <small>(remember to include the page numbers of additional sheets)</small>		

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended 31/12/2020.

Responsibilities and basis of report As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

**Independent
examiner's statement**

I have completed my examination. I confirm that no material matters have come to my attention (~~other than that disclosed below~~*) in connection with the examination which gives me cause to believe that in, any material respect:

- accounting records were not kept in accordance with section 130 of the Act or
- the accounts do not accord with the accounting records

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.

** Please delete the words in the brackets if they do not apply.*
