

Hazie Days Annual Report and Accounts

10/7/2022 until 09/7/2023

Our Objectives remain true to our constitution of 2014, which are:

- Providing activities that are inclusive to all taking into account the individual needs of children
- Provide supportive environments for parents and extended families to seek advice from Hazie Days staff, other parents and signposting to other organisations
- Creating awareness for various conditions
- Use arts, crafts, games and fun to bring story books to life.
- Support children through hospital visits and treatment
- Reduce isolation for children and young people with special educational needs and long term health issues, their siblings and families.

During the year 2022-2023 we continued to work to re-establish the charity following the Covid 19 closure. We worked to expand our client bases as some of the children and young people have now aged out of the service. We are very proud to have been chosen by a local company as their charity of the year. They have supported our charitable objectives which we are very grateful for. We continue to have reserves which allow us to be self-sufficient.

Financial Breakdown

Income	
Donations	1605.73
event donations	69.41
