Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

To promote the conservation of the marine environment worldwide for the public benefit by engaging the public in scientific study and to facilitate research of marine plankton and the food chain in order to advance collective knowledge and understanding of the marine ecosystem and to maintain biodiversity for the public good.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The focus of our activity is upon enabling the public in the scientific study of the marine plankton and the food web it supports for the public good. To that end, The Secchi Disk Foundation promotes scientific study by the general public and creates and distributes to the public free online tools and educational materials, and maintains websites and databases accessible freely by the public.

The trustees declare that they have complied with their duty to have due regard to the guidance on public benefit published by the commission in exercising their powers or duties.

Achievements and performance

Section D

Achievements and performance

Summary of the main achievements of the charity during the year

The Secchi Disk Foundation continued to expand the global reach of the Secchi Disk study this year including carrying out important updates to the online interface. Particular focus was on expansion into high latitudes with increasing engagement of the public on tourist Expedition Cruises. New versions of the Secchi mobile application were launched on the Google Play and iOS app stores. As a result of its activities, the Foundation continues to engage the public through citizen science to provide a greater understanding of the marine ecosystem for the public good.

Section E

Financial review

Brief statement of the charity's policy on reserves

The Secchi Disk Foundation's Trustees aim to maintain a financial reserve to mitigate any one of the following:

- i) The risk of an unforeseen need for funds, e.g., an unexpected need to maintain services that the Foundation provides such as mobile apps, databases etc due to circumstances outside the Foundations control. This includes funds to cover unforeseen day-to-day operational costs.
- ii) Funds to enable the Secchi Disk Foundation to carry out work that cannot be met by future income alone, e.g., to promote the work of the Foundation or for a project that requires the Secchi Disk Foundation to provide 'matched funding'.
- iii) To fund short-term deficits in a cash budget, e.g., money may need to be spent before a funding grant is received.
- iv) To provide secure funding for long-term resources provided by third parties that the Secchi Disk Foundation relies upon such as internet services, and other similar longer-term costs as the Trustees' see fit.
