5) REVIEW OF THE YEAR: 2023-2024

A) REPORT BY THE MANAGEMENT COMMITTEE:

The year 2022 - 2023 has not been a very busy year for Tshianza Tshia Kasai organization, given that we did not receive any funds and grants as expected, so we still in the process of applying for grants, then we still waiting for more funding to come through that would enable our organization to fulfil its aims and objects as planned.

B) FINANCES:

It has been very difficult for our organization to get funds from different funding bodies and grants making organizations, as many applications for grants and funds were made to various funding sources, but none of them was successful.

C) ORGANISATIONAL DEVELOPMENT:

Given the actual state of the financial situation of our organization, we were not able to provide as much as possible different kinds of projects and activities on the behalf of the community as we have planned to do. We took advantage of taking part in different kinds of trainings ran by the Haringey Council for Voluntary Service organization, in order to enable the members of our committee management to become more effective and capable to run and implement well the work of our organization.

D) Planning for a better future: We had made various contacts with different larges organizations and voluntary groups based in the community, in order to liaise and then work together in a bid to try and create a strong partnership that would enable our organization to grow up, to be well established and then secure a better and strong future.

A) REPORT BY THE MANAGEMENT COMMITTEE:

The year 2019 - 2020 has not been a very busy year for Tshianza Tshia Kasai organization, given that we did not receive any funds and grants as expected, so we still in the process of applying for grants, then we still waiting for more funding to come through that would enable our organization to fulfil its aims and objects as planned.

B) FINANCES:

It has been very difficult for our organization to get funds from different funding bodies and grants making organizations, as many applications for grants and funds were made to various funding sources, but none of them was successful.

However we worked very hardly throughout the year in order to try and get some kind of funding that would have helped our organization to secure and then establish a proper and strong income for a better future of the financial situation of the organization.

C) ORGANISATIONAL DEVELOPMENT:

Given the actual state of the financial situation of our organization, we were not able to provide as much as possible different kinds of projects and activities on the behalf of the community as we have planned to do. We took advantage of taking part in different kinds of trainings ran by the Haringey Council for Voluntary Service organization, in order to enable the members of our committee management to become more effective and capable to run and implement well the work of our organization.

D) Planning for a better future: We had made various contacts with different larges organizations and voluntary groups based in the community, in order to liaise and then work together in a bid to try and create a strong partnership that would enable our organization to grow up, to be well established and then secure a better and strong future.

6) ACHIEVEMENT OF THE YEAR:

During the year 2019-2020, we have been working hardly about different issues that will allow our organization to exist and function for a better future.

WATER PUMP PROJECT: We managed to run and organised the installation of water pump in the Kasai region in the Democratic Republic of Congo, so this project has been set up in a bid to assist the people of this region with providing them with a water pump

facility which will give them the opportunity to have access to a cleaner and drinkable water for the good health of these people. This is a project that has been put in place due to the financial contribution from the members of the TTK organisation.
