This support included the provision of food, clothing, and educational supplies for the children, as well as financial assistance towards the construction of new toilet and shower facilities to improve living conditions.

During the year, the charity also initiated a long-term self-sustainability project in collaboration with the leadership team at Love and Blessings Orphanage. This project involved the establishment of a brick-making enterprise aimed at enabling the orphanage to become financially self-sufficient within the next five years.

An initial production of approximately 30,000 bricks will be used to construct dormitory accommodation for the orphanage, removing the need to continue renting external buildings. Subsequent brick production will be sold commercially, generating sustainable income to support the orphanage's ongoing operational costs.
