In 2022/23 our aim was both to deliver the changes planned to children's lives and to put ourselves in a strong position for the start of the new strategy but due to corona/Covid-19 and dengo, we have to abandoned the plan and protect the life of children and people involved to help the children. Thanks to the efforts of the children and communities that we work with, our partner organisations on the ground, and the commitment of our supporters. We are pleased to report good progress being made in resettlement back in Kathmandu and children are back to school and almost back to normal at the time of this report. Trustees' Annual Report 2021/2022

Foreword

Every year Community support Nepal aims to bring no matter how small but measurable, sustainable and meaningful improvement to the lives of the children, young people and communities we work with. We also aim to be accountable, and this annual report is an important part of that accountability.

We are pleased with what we have achieved this year. We are always striving to reach the hidden children, those in great need and overlooked by others. In Nepal, we have gained a well-deserved reputation in protecting children in conflict with main stream society and the law. Although government have policy somehow to eliminate the street children but there are many children are coming from countryside to the city in the hope of better life but when they arrive in city would not be able to find what they are dreaming of and they got no choice but join with other street children who are already there. This group of children is highly vulnerable and often exploited, used, abused and forgotten. We have provided them home with love and care, Education for the better future, healthcare, legal aid, to support the re-integration into the main stream society. It is not easy for those children who have been through traumatic experiences.

In this report, we providing a narrative of the charity's activities, we measure our success against well-defined aims and objectives. We continued and will continue to supporting and monitoring our work with Children in Kathmandu and rebuilding work in Village. Although we still have some final instalment to be finalised but I am pleased to announce that we have completed our commitment to rebuilding work, which was a success. We are supporting our mission with more effective, efficient and accountable work with an emphasis on higher quality relationships with beneficiaries and with people who supported us.

In 2020/21 our aim was both to deliver the changes planned to children's lives and to put ourselves in a strong position for the start of the new strategy but due to corona/Covid-19, we have to abandoned the plan and protect the life of children and people involved to help the children. Thanks to the efforts of the children and communities that we work with, our partner organisations on the ground, and the commitment of our supporters. We are pleased to report good

progress being made in both areas namely rebuilding work and Children's health, wellbeing and education. We look forward with excitement to the first year of the new strategy, to even more positive change for children and to new partnerships with those who share our vision and with local authorities
