Section B Structure, governance and management

Description of the charity's trusts

Type of governing document (eg. trust deed, constitution)	Trust Deed
How the charity is constituted (eg. trust, association, company)	Trust
Trustee selection methods (eg. appointed by, elected by)	Appointed by existing trustees

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- ☐ policies and procedures adopted for the induction and training of trustees;
- ☐ the charity's organisational structure and any wider network with which the charity works;
- ☐ relationship with any related parties;
- ☐ trustees' consideration of major risks and the system and procedures to manage them.

--

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

For the benefit of the public to relieve the suffering of animals, in particular cats and dogs, in Morocco, in need of care and attention, and, in particular, by the provisions of funds to rescue homes or other facilities for the reception, care and treatment of such animals.

*We shall seek to work with, and support, organisations that promote and support kindness and to prevent or suppress cruelty to animals.

*We will seek to work with and support organisations that ensure there is provision of veterinary care and treatment.

*We will seek to work with and support organisations that seek to help rehome animals, or if not, find space to care for them.

When exercising powers, and duties, all trustees have had regard to the guidance issued by the Charity Commission on Public Benefit. An example of this being a review of the guidance during the trustee meeting when considering funding applications and requests from organisations for general administrative assistance.

As a young charity, with trustees operating on a part-time basis, our main activities have focussed around fundraising, through social media, for a number of campaigns.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

We held our first official meeting in January 2017 where we discussed the way forward and how to address the “public benefit” considerations when faced with requests for assistance. For us this is fairly easy as while our focus is on supporting animal welfare the up side of this is the benefit to the public through:

*protecting local communities from infected, diseased animals by supporting the TNVT (trap, neuter, vaccinate, tag) programs.

*supporting poorer members of the communities through fundraising for veterinary care.

*supporting the education programmes through sharing good practices. *providing opportunities for individual self/career development, both in the UK and Morocco, by supporting volunteering opportunities in areas such as “hands on” experiences in Morocco and administrative duties in the UK

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- ☐ policy on grantmaking;
- ☐ policy programme related investment;
- ☐ contribution made by volunteers.

Since March 2017 we have continued to advertise for volunteers on our social media pages. We have received a few offers of assistance but nothing long term. We have assistance, with regard to adoption processes, from a Belgium national. We have assistance, with regard to Moroccan oversight, from an Italian national and a Moroccan national. We have assisted in placing UK volunteers with some of the main rescue teams we support.

In May 2018, to abide by the new Data Protection legislation, a GDPR paragraph was added to all emails and we are no longer sending group emails only individual ones.

Section D

Achievements and performance

Summary of the main achievements of the charity during the year

This years report, due to the continued restrictions caused by the pandemic, is very similar to last years.

In March 2020 the global coronavirus pandemic hit and we began setting up an action plan for fielding all donations for SFT through us (later also those for CSP) whilst they continued with their own UK Charity application and setting up a UK bank account. We agreed to deal with the accounts on a temporary basis whilst the CORONAVIRUS (Covid-19) Lockdown caused logistical issues across the globe.

The global pandemic hit Morocco really hard with the country being one of the last to “open up”. Whilst tourism has gradually returned, and we have been able to support European travellers wanting to volunteer for short periods during their travels, the impact of both the pandemic and Brexit has seen a reduction in adoptions due to the huge amount of paperwork and complicated processes to get through. During this time we have been supporting three main rescue teams in their joint efforts to bring Morocco up to similar levels as other countries in the fight against rabies and animal cruelty. The representatives from these well respected rescue teams have had a “voice” on the world stage which has really highlighted the plight of Moroccan street animals.

We have seen a huge rise in contact from those wanting financial support but at the same time we have been comforted by the number of contacts from individuals who are seeking medical support for injured animals they have come across. We have had to work closely with the rescue teams in order to provide the best advice and support.

Our main focus has continued to be that of ensuring the rescue teams have enough funds to cope as the country comes out of this pandemic. The rescue shelters have found themselves fit to bursting with dwindling financial assistance and support has had to focus on treating and vaccinating the ever increasing number of street animals.

We have continued to facilitate the use of UK volunteers already based in Morocco and the educational programmes, especially those within the American and British speaking schools, has recommenced.

One of the main rescue teams we have supported, during the pandemic, has now successfully gained charity status in their own right and the support we provide to them in collection of funds has returned to a level we saw pre-pandemic. Another of the main rescue teams has still struggled to retain volunteers and continues in their own quest to obtain charity status. Once this is achieved it will give us the opportunity to progress with campaign projects and our own volunteer programme in support of the increasing number of British students seeking volunteering opportunities to enhance their CV's.

Brief statement of the charity's policy on reserves

The charity currently does not have a reserves policy, however this is something that is being kept under review. At present this is not an issue as we do not provide funding support without the donations already being available.

Details of any funds materially in deficit

Not applicable

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- ☐ the charity's principal sources of funds (including any fundraising);
- ☐ how expenditure has supported the key objectives of the charity;
- ☐ investment policy and objectives including any ethical investment policy adopted.

The charity's principal sources of funds are from donors through social media campaigns. Expenditure has supported the key objectives of the charity by continuing to support veterinary care, vaccination and neutering programmes, support to local communities and tourists as well as supporting the volunteering programmes being run by these organisations giving opportunities to foreign nationals, including from the UK. We have continued to offer volunteering opportunities within the charity and we now have two additional volunteers assisting with administrative duties and looking into fundraising opportunities. We have further interest from a number of individuals both in the UK and in Morocco.

Section F Other optional information**Section G Declaration**

The trustees declare that they have approved the trustees' report above.

Independent Examiner's Report

Report to the trustees/
members of

Animal Rescue Morocco

On accounts for the year
ended

31/03/2022

Charity no
(if any)

1170108

Set out on pages

1

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended **31/03/2022**.

Responsibilities and
basis of report

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent
examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

- accounting records were not kept in accordance with section 130 of the Act or
- the accounts do not accord with the accounting records

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.
