Voluntary Income is received by way of grants, donations and gifts and is included in full in the statement of financial activities when receivable. Grants where entitlement is not conditional on the delivery of specific performance by the charity are recognized when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included.

Gifts donated for resale are included as incoming resources within the activities for generating funds when they are sold.

Income from investment is included in the year in which it is receivable.

Resources Expended:

Expenditure is recognized on the accrual basis as a liability is incurred. Expenditure included any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates.

Costs of generating funds comprise the costs associated with attracting voluntary income and costs of trading for fundraising purposes including the charity's shop.

Charitable expenditure comprises of those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Support costs are those costs incurred in support of expenditure on the objects of the charity and include project management.
