Summary of the main achievements of the charity during the year

2022 was a better year for the Charity whilst still recovering from the Covid-19 pandemic. Whilst we have continued to support our network of families both in person and via online communication, we were also able to deliver our second fully funded Retreat which brought together 13 families from across the whole of the UK. The day provided an opportunity for the children to socialise and for some of them to build on the friendships they made at our inaugural Retreat. It also gave the parents a chance to speak, share advice and learnings that they had experienced which was invaluable for those families with younger children. We also held more formal workshops in groups throughout the day to encourage conversations.

During 2022 we also made a significant donation to a child's fund who's family have been fundraising to enable them to have pioneering surgery in the US with a long-term view of their child being able to have their tracheostomy removed which would improve the quality of the whole families lives. The family had been fundraising for 5 years and believed they had reached the total needed to be able to fund the surgery but when the Hospital provided them with a final quote, due to the change in foreign exchange rate they found themselves with a shortfall of money. Fortunately, due to our long-term planning we were in a position to donate the full amount needed to ensure the child was able to begin their surgical process.

Summary of the main achievements of the charity during the year

The Covid-19 pandemic has still had an effect on the way in which the Charity has operated during 2021 and 2022. Due to still being restricted on visiting schools and holding workshops our education has still been limited to online social media platforms.

We received requests from a couple local families who have reached out to us after giving birth to children with TCS, which was undiagnosed prior to birth. The Charity have provided advice and emotional support to both families.

Due to the nature of one of the children's condition and the fact they were hospitalised for a significant amount of time the Charity decided to present the parents with a pre-paid credit card with a balance of £500 to help towards the cost of food whilst they were living in hospital accommodation. We also provided them with a travel system that was recommended by another TCS family that will make their lives easier as it provides additional space to be able to transport the additional equipment needed to meet their child's needs.

The Charity built on its relationship with the Children's Craniofacial Association (CCA) in the U.S. by sponsoring a place at their annual Retreat for a TCS family to attend. This is a Retreat that we are regularly invited to and which Jono Lancaster attends on our behalf.

The Charity also helped where needed via email, phone and zoom/teams meetings when receiving requests from families asking for advice throughout the year where it wasn't possible to physically meet people.

Summary of the main achievements of the charity during the year

The Covid-19 pandemic has had a massive effect on the way in which the Charity has operated during 2019 and 2022. Due to not being allowed to visit schools and hold workshops our education has been limited to online social media platforms.

During the pandemic the Charity provided the UK based families with a 'Lockdown Hamper' containing activities, games and books which were individually put together for each family's needs to help them whilst being in lockdown to enjoy spending time with each other.

Love Me, Love My Face Foundation (LMLMF) also held Zoom meetings with families where we could answer any questions but also giving the families a chance to still meet and be able to chat together and ask each other for advice too.

LMLMFF also helped where needed via email, phone and zoom/teams meetings when receiving requests from families asking for advice throughout the year where it was impossible to physically meet people like we normally would.
