

FOOD BANK REPORT 2024

I am happy to say that we continue this Project in Serving the Community with the same band of loyal Volunteers who give up many hours each week, they are committed and valuable people who are valued highly because without them the project could not continue. At our AGM there were some changes to Trustee Roles and Greg Mathews became our current Chair of Trustees.

Those who come to us for help continue to face difficult choices in their finances and for them the cost-of-living crisis is devastating.

Our Social Inclusion Project continues to give help and advice to those requiring specialist help in applying for benefits, other budgeting advice alongside signposting to other organisations.

We are ever taken by surprise and give thanks for the immense generosity of heart from local people, Schools, Churches, and other organisations, who support us by bringing food goods and monetary donations which keep us well stocked with a healthy bank balance.

At Christmas, the local Barber (Chop Shop) provided gifts for every child and the left-over gifts were taken to Kings Mill Hospital Childrens Ward.

Our Allotment which is always a work in progress is doing well and we received a good harvest this year.

We were able to serve 1858 Service Users during 2023.

Elaine Moulton
