Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>The Rinchen Zangpo Society for Spiti Development, our partner in India, is an Indian registered charity that has 1010 young students receiving their education under its care. Aid for Himalayan Education (AfHE) in 2025 contributed to their educational programme as follows:</p> <p>Students' Educational Expenses: AfHE continued to make contributions towards the educational expenses of more than thirty children and young people belonging to financially disadvantaged families from Spiti or neighbouring areas receiving their education in Spiti (or elsewhere in India) who are under the care of the Rinchen Zangpo Society for Spiti Development. This regular long-term support of the Rinchen Zangpo Society's educational programme has lent stability to their efforts and enabled outstanding success in delivering their goals.</p> <p>In the short term these children can, despite low family incomes, thereby realize their educational potential to a much greater extent than would be possible by other means in the Spiti Valley. When adult they may well contribute to the welfare of their society in significant ways. For instance, before the Rinchen Zangpo Society began its educational programme, no child educated in Spiti had ever become a doctor and such government posts in Spiti remained vacant for long periods for lack of anyone from outside willing to fill them. Now there are eight doctors occupying government posts in Spiti, and three nurses also, who were all educated at Rinchen Zangpo Society schools. As of 2025, there were fourteen of our RZ Society higher secondary school completers pursuing undergraduate medical degrees and three are in post graduate medical training. Three students are currently studying engineering at Indian Institutes of Technology, the most prestigious colleges in India for engineering.</p>

		<p>Spiti faces significant challenges associated with global warming, retreating glaciers and changing weather patterns. It is also facing many challenges from rapid social change, the move away from its long-established agriculture-based economy: namely increased involvement with the modern world, tourism, ubiquitous social media, the very obvious, dramatic and increasing disparities of wealth amongst local families and individuals. In such uncertain times the education of the next generation is paramount.</p> <p>More than any other schools in Spiti, the Rinchen Zangpo Society schools make a special provision for learning about, appreciating and enjoying the valley's minority culture. The secular side of it is expressed in songs and traditional dances which the children become familiar with in school, for instance. Aid for Himalayan Education is therefore pleased to be partnered with an educational society that gives students confidence and a grounding in their own minority culture as well as one that strives for academic excellence.</p> <p>Communications: Aid for Himalayan Education continues to maintain the Rinchen Zangpo Society for Spiti Development's website and to compose and edit its newsletter [English language.]</p>
