Beat Kidney Stones

Trustees Report

The Trustees present their report and accounts for the year ended 1st October 2025

The accounts have been prepared in accordance with the accounting policies set out in notes to the accounts and comply with the Charity's governing document and "Accounting and Reporting by Charities"

Structure, Governance and Management

Beat Kidney Stones is a Charitable Incorporated Organisation and was entered on the Register of Charities by the Charity Commission on the 12th December 2016 and was given the Registered Charity Number 1170678.

The trustees, who are also members of the Charity and who served during the year were:

Ms Jilly Collins
Miss Tracey M Palmer
Miss Clare Sanders
Mrs Penny Sweetland

Method of recruitment and appointment of trustees

New trustees apply and part of their interview process is to be asked if they are eligible to be appointed a trustee. If the potential trustee is eligible, they are recommended and appointed by the existing trustees. New trustees are informed about the Charity Commission's web site which identifies the responsibilities and how to act as a trustee and given a copy of the Foundation Document of Beat Kidney Stones and the latest Annual Report. None of the trustees have any beneficial interest in Beat Kidney Stones. All of the Trustees are also Members of Beat Kidney Stones.

Organisational Structure

The day-to-day management of the Charity's activities were delegated by the trustees to the Volunteer Chief Executive Officer on the 9th January 2017. The Volunteer CEO is assisted by other volunteers who report to the CEO.

Risk Policies

The Volunteer CEO assesses the risk policies regularly and the trustees are satisfied that the policies do mitigate exposure to major risks. The existing and new policies are: Lone Working Policy; Confidentiality Policy; Staff & Volunteer Working Policy; Health & Safety Policy; Rights & Responsibility Policy; Conflict of Interest Policy; Conflict of Interest Register, Managing Volunteers & Staff Policy; Equal Opportunities Monitoring Form; Risk Management policy; Handling Complaints Policy; GDPR; Investment Policy; Equality & Diversity Policy. The trustees state that no serious incidents have arisen during this financial year.

Objectives and activities

Beat Kidney Stones is a Charitable Incorporated Organisation and its objects are:

To promote and protect the physical and mental health of sufferers of kidney stones through the provision of financial assistance, support, education and practical advice; and to advance the education of the general public in all areas relating to kidney stones, in particular but not exclusively, by funding research into kidney stones.

Achievements and performance

On each day of the year a post was published on Facebook for the benefit of kidney stone sufferers, their family and friends and all other interested parties. The posts contained comment, questions, information and quotes from sufferers, members of the public, carers, reputable web sites, institutions and Researchers. Resulting from these posts the Charity has and will continue to identify life and work actions that improve sufferer conditions and treatments. These actions have also been published on the Charity's web site, to the Kidney Stone Research Group on LinkedIn and other pertinent Groups on LinkedIn.

Many kidney stone sufferers have said, having the "Helpful Information" page on the Charity's web site has helped their employer to understand and appreciate exactly what a kidney stone sufferer, experience's. The employer takes from the web site a better understanding of chronic pain and why each kidney stone sufferer has to continually drink water evenly over each 24 hours. All the information on the web site helps to prevent misunderstandings between the employer and kidney stone sufferers.

This year a number of kidney stone sufferers have rang or repeatedly rang the land line number displayed on the Charity's web site to talk over their symptoms and treatments with the CEO of the Charity. This land line number is now called a help line for kidney stone sufferers.

The CEO has continued to introduce Beat Kidney Stones to the research environment.

This Charity is involved with other organisations and offers opinions derived from kidney stone sufferer's comments and experiences and carers comments and experiences.

1 This year a Researcher from the Nuffield Department of Surgical Sciences asked if Beat Kidney Stones would assess her ethical application and protocol for the molecular examination of the internal structures of 10 cancerous kidneys for differences between kidneys with and without kidney stones. After assessing the document, the CEO on behalf of Beat Kidney Stones was happy to write that there were no ethical issues therein and supported this application.

2 In Year 8 Beat Kidney Stones was asked by a Researcher from the Nuffield Department of Surgical Sciences to help in the first instance to take part in a study design workshop and the CEO and a Trustee took part. This contact led to more detail about a proposed stage 1 research proposal to the National Institute for Health Research and Care (NIHR) and called, STOP (STOne Prevention) Trial. The purpose of the STOP Trial is to investigate if a certain type of drug reduces the re-occurrence of kidney stones. So many patients have wished for a drug to stop further kidney stones and because of this the CEO decided to write a support letter to the Stop Trial Lead. The CEO was invited to be a patient representative co-investigator and was added to the NIHR stage 2 application. Unfortunately, this year, this funding request was turned down by NIHR.

Consequently, Beat Kidney Stones encouraged an improved repeat application and included a more comprehensive support letter during the NIHR Stage 2 application level.

3 The Urology Foundation's (TUF) Patient and Public Involvement and Engagement programme brings together researchers and people affected by urology conditions to drive research forward. TUF are currently working on a project with Newcastle University to develop a Percutaneous Nephrolithotomy (PCNL) Outcome Prediction Tool (POPT). The Beat Kidney Stones CEO is participating in this group to:

Help develop an App and Website that predicts the risk to an individual of having PCNL and ensure the app and website is beneficial for patients.

4 The Beat Kidney Stones CEO attended a Patient and Public Involvement and Engagement Forum based at Swansea University Medical School on behalf of REMIT: Rethinking health policy in Multimorbidity – a population-based approach.

Remit is looking to develop a new approach to manage people with multiple, long term health conditions with an aim to reduce treatment burden and ensure improved outcomes for patients and the NHS.

More people are now living with multiple long-term conditions yet decisions regarding the management of each condition are usually considered individually. The three conditions currently being assessed are Heart Disease, Chronic Kidney Disease and Type 2 Diabetes,

5 Beat Kidney Stones was asked for opinions by a Masters Student working on a project to investigate the management of pain caused by the passing of kidney stones.

Interesting and helpful information relative to kidney stones and pain is published on LinkedIn, Facebook, the Kidney Stone Research Group and the Charity's web site.

Beat Kidney Stones has a continuous Stakeholder status in the National Institute for Health and Care Excellence (NICE). Beat Kidney Stones supports at all times the "Renal and ureteric stones: assessment and management guideline published on the 8-1-19 and the Renal and ureteric stones Quality standard (/guidelines/qs195)" which was published on the 29-7-20. Both publications are the current treatment standards for all sufferers of kidney stones. Signposts are on the Beat Kidney Stone web site to access both the NICE Guideline and Quality Standard.

The Charity continues to ask on its web site, through its Facebook posts and from the Kidney Stone Research Group on LinkedIn for comments, suggestions and research preferences from kidney stone sufferers and interested parties. It is thought this is a unique feature of this Charity. Consequently, Beat Kidney Stones is always open for comment from kidney stone sufferers and prepared to amend its policies according to the comments received.

The Charity is maintaining the articles on its web site about the Sufferers Travelling Support Fund, a fall safe alarm and an identification card for existing sufferers who think they might lose consciousness again. The identification card is provided at no cost to sufferers.

The Charity's daily Facebook posts continue to reach more people each year. These posts have generated comment and personal stories from sufferers which have led to further sufferer information being added to the Charity's web site, Facebook page and passed to the Kidney

Stone Research Group. More people are becoming members of the Kidney Stone Research Group and members are largely sufferers followed by Clinicians and researchers.

Employees when passing kidney stones had commented that some employers viewed frequent, very short-term absences over many weeks, to be a problem. Medical professionals had not recognised absenteeism due to kidney stones to be a widespread employment problem.

Beat Kidney Stones however heard many comments from sufferers which together indicated that employers could be treating employees much better.

Consequently, Beat Kidney Stones undertook a programme of providing information for employers and new sufferers.

To help repeat sufferers this Charity supports the home working option if it is at all possible.

From sufferers:

Working from home in a comfortable environment takes our mind off anticipating pain, it is better to have access to facilities when dealing with the intermittent chronic pain and drinking our recommended amount of water. Also, sufferers are happier and more productive when working from home.

The Trustees decided the monies for supporting sufferers and research will still be held in the Epworth Cash Plus Fund (It was called the Affirmative Deposit Fund) which earns a much-improved level of interest this year due to the increase in inflation.

To date monies accumulated in Epworth Cash Plus Fund are: allocated to sufferer support £606.68, for research £8562.68 and for Charity overhead £750.90.

In year 4 the Charity received two large donations – JA&MP 1 and MAS 1. The Donor in both cases made specific requests of Beat Kidney Stones that were agreed by the Trustees. Coincidentally the requests were in accordance with the existing rules of the Charity and particularly one (probably unique) rule that this Charity will disperse any donation in the manner requested by that particular donor.

The Donor in both cases requested that the donation be anonymous and be invested in perpetuity and in a specific way. Both Donors had the intention to achieve an income for the Charity and for the income to be used to only pay the actual operating costs of the Charity (Not speculative operating costs).

In year 5 the Trustees decided to hold sufficient reserves to maintain the operating costs for any rolling 12-month period and to allocate any monies accumulated above that level to research. This decision was and will be kept in constant review by the CEO.

Interest rates are still high so JA&MP 1 is still on deposit in the Epworth Cash Plus Fund. When the income from interest has fallen to a similar level to the income from the Epworth Multi Asset Fund the JA&MP 1 donation will be invested in the Epworth Multi Asset Fund or something similar, to obtain a primary objective of an income followed by capital growth.

When Beat Kidney Stones is asked for an opinion about a kidney stone issue by Researchers, sometimes a fee is paid, the CEO decided the fee should be paid to Beat Kidney Stones and added to JA&MP 1 which is currently on deposit. This decision will increase the capital value of JA&MP 1 which will also increase the income gained from JA&MP 1.

Due to the value of the income from the above donations the Trustees decided that all received monies not spent on overhead costs would be allocated towards research. Also, all donations received without a specific destination request by a donor are also to be allocated to research. Furthermore, all interest gained from monies not allocated towards research, will also be allocated towards research.

Donations

Thank you to all named and anonymous donors:

Donations In Memorial

Year 2

Donations totalling £1359.47 were made to the Charity in memory of Margaret Anne Sanders

A donation of £50 was made to the Charity in memory of Joyce Hawkins.

Year 3

A donation of £117.5 was made to the Charity in memory of Joan and Charles Pinegar.

Donations totalling £1280.12 were made to the Charity in memory of Timothy Stone.

Year 4

An anonymous donation of £14,670.05 was made to the Charity in memory of John, Anne and Margaret Pink.

Donations totalling £803.65 were made to the Charity in memory of Edith Evelyn Lynam nee Johnson.

An anonymous donation of £48,000 was made to the Charity in memory of Margaret Anne Sanders. (MAS 1)

Year 5

Donations totalling £722.75 were made to Beat Kidney Stones in memory of Percy and Violetta. A donation of £19.28 was made to Beat Kidney Stones in memory of Patricia Mockett.

Year 6

Donations totalling £357.80 were made to Beat Kidney Stones in memory of Lois and Mark Osborn.

Year 7

Donations totalling £564.48 were made to Beat Kidney Stones in memory of Ivan Osborn.

Year 8

Donations totalling £600.97 were made to Beat kidney Stones in memory of Frank and Beryl Lynam.

Year 9

Possibly three donations were made, and one certainly from Janet Whiting in Memory of Robert Farmer.

Public Benefit

The trustees confirm they have and will continue, to comply with their duty to have due regard to the guidance on public benefit issued by the Charity Commission in exercising their powers. This has been exemplified above, by the continuing use of the web site www.beatkidneystones.co.uk and by the continued use of the Kidney Research Group on LinkedIn. Further examples are the daily dialogue by the Charity on Facebook, plus the comment, questions and experiences given by sufferers when replying to posts on the Charity's Facebook page.

Kidney stone sufferers also ask for help and advice or make comments by telephone and email on a regular basis.

A further example of public benefit was the collating by the Charity of comments made by Kidney Stone Sufferers to the Charity when fulfilling its role as a NICE Stakeholder. The Charity made those comments known to NICE at the Guideline and then at Quality Standard consultative stage and this year on the NICE Draft Guideline: Urinary tract infection in under 16s: diagnosis and management

This means Kidney Stone Sufferers have had an input to one NICE Guideline and Quality Standard and a second Draft Guideline.

There is a requirement by funding bodies for Researchers to have a Patient and Public Involvement and Engagement (PPI&E) role in all research applications. Beat Kidney Stones has assisted 5 different groups of Researchers in this financial year.

Frequently first-time sufferers who are experiencing the extreme/chronic pain associated with the passing of a kidney stone contact this Charity to ask for help and advice. Also, family members on behalf of sufferers also contact this Charity to ask for advice and help in understanding their loved one's situation.

The most frequently asked question is:

Is there a medical treatment that will stop another kidney stone from being formed? The answer currently is no and this answer applies to approximately 5 million people in the UK.

Financial Review

During this ninth year the Charity generated a net income of £2484.16

The Trustees directed the CEO to concentrate all suitable income into the Research Fund and to always be mindful of the operating costs and the existing Reserves Policy (below) at all times. Provisions are to be made for a possible capital expenditure of approximately £1k (for a replacement laptop) to take place over the coming years.

Reserves Policy

Due to receiving J, A, & MP 1 and then MAS 1 the Trustees decided that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to the Charity's running costs for any rolling 12 monthly period. Then when the income from J, A, & MP 1, MAS 1 and other income exceeds any rolling 12 monthly running cost average the excess will be allocated to the Designated Reserved Research Fund or the Designated Reserved Sufferer Support Fund as demand dictates. The Trustees consider that reserves at this level will ensure that the advice and assistance given via the web site, Facebook and Kidney Research Group will allow the Charity to continue operating for any rolling 12 month period and speed the growth primarily of the research fund and then the support fund as necessary.

Signed on behalf of the Trustees

Independent Examiner's Report on the Accounts

Report to the trustees of Beat Kidney Stones
On the Accounts for the period 2nd October 2024 to 1st October 2025
Charity Number. 1170678

We report to the trustees on our examination of the accounts of the above charity for the year ending 1st October 2025.

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

We report in respect of our examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out our examination, we have followed the applicable directions given by the Charity Commission under section 145(5)(b) of the Act.

We have completed our examination. We confirm that no material matters have come to our attention in connection with the examination which gives me cause to believe that in, any material respect:

- accounting records were not kept in accordance with section 130 of the Act or
- the accounts do not accord with the accounting records

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.

Beat Kidney Stones

Trustees Report

The Trustees present their report and accounts for the year ended 1st October 2024

The accounts have been prepared in accordance with the accounting policies set out in notes to the accounts and comply with the Charity's governing document and "Accounting and Reporting by Charities"

Structure, Governance and Management

Beat Kidney Stones is a Charitable Incorporated Organisation and was entered on the Register of Charities by the Charity Commission on the 12th December 2016 and was given the Registered Charity Number 1170678.

The trustees, who are also members of the Charity and who served during the year were:

Ms Jilly Collins
Miss Tracey M Palmer
Miss Clare Sanders
Mrs Penny Sweetland

Method of recruitment and appointment of trustees

New trustees apply and part of their interview process is to be asked if they are eligible to be appointed a trustee. If the potential trustee is eligible, they are recommended and appointed by the existing trustees. New trustees are informed about the Charity Commission's web site which identifies the responsibilities and how to act as a trustee and given a copy of the Foundation Document of Beat Kidney Stones and the latest Annual Report. None of the trustees have any beneficial interest in Beat Kidney Stones. All of the Trustees are also Members of Beat Kidney Stones.

Organisational Structure

The day-to-day management of the Charity's activities were delegated by the trustees to the Volunteer Chief Executive Officer on the 9th January 2017. The Volunteer CEO is assisted by other volunteers who report to the CEO.

Risk Policies

The Volunteer CEO assesses the risk policies regularly and the trustees are satisfied that the policies do mitigate exposure to major risks. The existing and new policies are: Lone Working Policy; Confidentiality Policy; Staff & Volunteer Working Policy; Health & Safety Policy; Rights & Responsibility Policy; Conflict of Interest Policy; Conflict of Interest Register, Managing Volunteers & Staff Policy; Equal Opportunities Monitoring Form; Risk Management policy; Handling Complaints Policy; GDPR; Investment Policy; Equality & Diversity Policy. The trustees state that no serious incidents have arisen during this financial year.

Objectives and activities

Beat Kidney Stones is a Charitable Incorporated Organisation and its objects are:

To promote and protect the physical and mental health of sufferers of kidney stones through the provision of financial assistance, support, education and practical advice; and to advance the education of the general public in all areas relating to kidney stones, in particular but not exclusively, by funding research into kidney stones.

Achievements and performance

On each day of the year a post has been (and will be) published on Facebook for the benefit of kidney stone sufferers, their family and friends and all other interested parties. The posts contained comment, questions, information and quotes from sufferers, members of the public, carers, reputable web sites and institutions. Resulting from these posts the Charity has and will continue to identify life and work actions that improve sufferer conditions and treatments. These actions have also been published on the Charity's web site and to the Kidney Stone Research Group on LinkedIn.

Many kidney stone sufferers have said, having the "Helpful Information" page on the Charity's web site has helped their employer to understand and appreciate exactly what a kidney stone sufferer, experience's. The employer takes from the web site a better understanding of chronic pain and why each kidney stone sufferer has to continually drink water evenly over each 24 hours. All the information on the web site helps to prevent misunderstandings between the employer and kidney stone sufferers.

This year a number of kidney stone sufferers have rang or repeatedly rang the land line number displayed on the Charity's web site to talk over their symptoms and treatments with the CEO of the Charity. This land line number is now called a help line for kidney stone sufferers.

The CEO has continued to introduce Beat Kidney Stones to the research environment.

This Charity is involved with other organisations and offers opinions derived from kidney stone sufferer's comments and experiences and carers comments and experiences.

This year Beat Kidney Stones attended a Disease Atlas Focus Group set up by the HDR UK Phenomics and Disease Atlas at UCL Institute of Health Informatics. This Charity contributed to this group and is looking forward to reading their paper which will soon to be published.

Beat Kidney Stones was asked by a Researcher from the Nuffield Department of Surgical Sciences to help in the first instance to take part in a study design workshop and the CEO and a Trustee took part. This contact led to more detail about a proposed stage 1 research proposal to the National Institute for Health Research and Care (NIHR) and called, STOP (STOne Prevention) Trial. The purpose of the STOP Trial is to investigate if a certain type of drug reduces the re-occurrence of kidney stones. So many patients have wished for a drug to stop further kidney stones and because of this the CEO decided to write a support letter to the Stop Trial Lead. The CEO was invited to be a patient representative co-investigator and was added to the NIHR stage 2 application.

All interesting and helpful information relative to kidney stones and pain is published on LinkedIn, Facebook, the Kidney Stone Research Group and the Charity's web site.

Due to its Stakeholder status in the National Institute for Health and Care Excellence (NICE) Beat Kidney Stones supports at all times the “Renal and ureteric stones: assessment and management guideline published on the 8-1-19 and the Renal and ureteric stones Quality standard (/guidelines/qs195)” which was published on the 29-7-20. Both publications are the current treatment standards for all sufferers of kidney stones.

Signposts are on the Beat Kidney Stone web site to access both the NICE Guideline and Quality Standard.

The Renal and ureteric stones: assessment and management guideline made five recommendations for research.

Kidney stone sufferers were asked to comment on these 5 pieces of recommended research by NICE. Sufferers asked that Beat Kidney Stones allocate the following priorities when deciding which piece of research to help fund:

- 1 non-steroidal anti-inflammatory drugs – route of administration
- 2 Alpha blockers and ureteroscopy
- 3 Metabolic Assessments
- 4 Preventative treatment following shockwave lithotripsy
- 5 Frequency of follow up imaging

Beat Kidney Stones Facebook posts, web site and the Kidney Stone Research Group all have contained comment and information from and relating to the NICE Guideline called “Renal and ureteric stones: assessment and management” and the Renal and ureteric stones Quality Standard (/guideline/qs195).

The Charity continues to ask on its web site, through its Facebook posts and from the Kidney Stone Research Group on LinkedIn for comments, suggestions and research preferences from kidney stone sufferers and interested parties. It is thought this is a unique feature of this Charity. Consequently, Beat Kidney Stones is always open for comment from kidney stone sufferers and prepared to amend its policies according to the comments received.

Beat Kidney Stones also commented on the NICE Draft Guideline: Urinary Tract Infection (recurrent): antimicrobial prescribing 29/08/2024 to 12/09/2024

The Charity is maintaining the articles on its web site about the Sufferers Travelling Support Fund, a fall safe alarm and an identification card for existing sufferers who think they might lose consciousness again. The identification card is proving to be popular and is provided at no cost to sufferers.

The Charity’s daily Facebook posts continue to reach more people each year. These posts have generated comment and personal stories from sufferers which have led to further sufferer information being added to the Charity’s web site, Facebook page and passed to the Kidney Stone Research Group. More people are becoming members of the Kidney Stone Research Group and members are largely sufferers followed by Clinicians and researchers.

Employees when passing kidney stones had commented that some employers viewed frequent, very short-term absences over many weeks, to be a problem. Medical professionals had not recognised absenteeism due to kidney stones to be a widespread employment problem.

Beat Kidney Stones however heard many comments from sufferers which together indicated that employers could be treating employees much better.

Consequently, Beat Kidney Stones undertook a programme of providing information for employers and new sufferers.

To help repeat sufferers this Charity supports the home working option if it is possible.

From sufferers:

Working from home in a comfortable environment takes our mind off anticipating pain, it is better to have access to facilities when dealing with the intermittent chronic pain and drinking our recommended amount of water. Also, sufferers are happier and more productive when working from home.

The Trustees decided the monies for supporting sufferers and research will still be held in the Epworth Cash Plus Fund (It was called the Affirmative Deposit Fund) which earns a much-improved level of interest this year due to the increase in inflation.

To date monies accumulated in Epworth Cash Plus Fund are: allocated to sufferer support £606.68, for research £5838.15 and for Charity overhead £750.90.

In year 4 the Charity received two large donations – JA&MP 1 and MAS 1. The Donor in both cases made specific requests of Beat Kidney Stones that were agreed by the Trustees. Coincidentally the requests were in accordance with the existing rules of the Charity and particularly one (probably unique) rule that this Charity will disperse any donation in the manner requested by that particular donor.

The Donor in both cases requested that the donation be anonymous and be invested in perpetuity and in a specific way. Both Donors had the intention to achieve an income for the Charity and for the income to be used to only pay the actual operating costs of the Charity (Not speculative operating costs).

In year 5 the Trustees decided to hold sufficient reserves to maintain the operating costs for any rolling 12-month period and to allocate any monies accumulated above that level to research. This decision was and will be kept in constant review by the CEO.

In year 7 Beat Kidney Stones was informed by CAF and abrdn of the withdrawal of the CAF Managed Portfolio Service. The only sensible option open to Beat Kidney Stones was to remove JA&MP 1 and invest it elsewhere. Due to rising interest rates in year 8, it was decided to place JA&MP 1 on deposit in the Epworth Cash Plus Fund. When the income from interest has fallen to a similar level to the income from the Epworth Multi Asset Fund the JA&MP 1 donation will be invested in the Epworth Multi Asset Fund to obtain both an income and capital growth.

Due to the value of the income from the above donations the Trustees decided that all received monies not spent on overhead costs would be allocated towards research. Also, all donations received without a specific destination request by a donor are also to be allocated to research. Furthermore, all interest gained from monies not allocated towards research, will also be allocated towards research.

In year 8 the CEO has been asked to communicate the interests of kidney stone sufferers to two research groups. All monies received due to the knowledge derived from the Charity or by being seconded by the Charity or in similar circumstances will be transferred to the Charity.

Donations

Thank you to all named and anonymous donors:

Year 2

Christine and Stephen Westcott.

Year 3

Rachel Matthee

Year 5

Eve Mockett, Paul Mockett, Andrew Charlton.

Year 6

Year 7

Lee Clark

Year 8

Lee Clark

Donations In Memorial

Year 2

Donations totalling £1359.47 were made to the Charity in memory of Margaret Anne Sanders

A donation of £50 was made to the Charity in memory of Joyce Hawkins.

Year 3

A donation of £117.5 was made to the Charity in memory of Joan and Charles Pinegar.

Donations totalling £1280.12 were made to the Charity in memory of Timothy Stone.

Year 4

An anonymous donation of £14,670.05 was made to the Charity in memory of John, Anne and Margaret Pink.

Donations totalling £803.65 were made to the Charity in memory of Edith Evelyn Lynam nee Johnson.

An anonymous donation of £48,000 was made to the Charity in memory of Margaret Anne Sanders. (MAS 1)

Year 5

Donations totalling £722.75 were made to Beat Kidney Stones in memory of Percy and Violetta.

A donation of £19.28 was made to Beat Kidney Stones in memory of Patricia Mockett.

Year 6

Donations totalling £357.80 were made to Beat Kidney Stones in memory of Lois and Mark Osborn.

Year 7

Donations totalling £564.48 were made to Beat Kidney Stones in memory of Ivan Osborn.

Year 8

Donations totalling £600.97 were made to Beat kidney Stones in memory of Frank and Beryl Lynam.

Public Benefit

The trustees confirm they have and will continue, to comply with their duty to have due regard to the guidance on public benefit issued by the Charity Commission in exercising their powers. This has been exemplified above, by the continuing use of the web site www.beatkidneystones.co.uk and by the continued use of the Kidney Research Group on LinkedIn. Further examples are the daily dialogue by the Charity on Facebook, plus the comment, questions and experiences given by sufferers when replying to posts on the Charity's Facebook page.

Kidney stone sufferers also ask for help and advice or make comments by telephone and email on a regular basis.

A further example of public benefit was the collating by the Charity of comments made by Kidney Stone Sufferers to the Charity when fulfilling its role as a NICE Stakeholder. The Charity made those comments known to NICE at the Guideline and then at Quality Standard consultative stage and this year on the NICE Draft Guideline: Urinary tract infection in under 16s: diagnosis and management

This means Kidney Stone Sufferers have had an input to one NICE Guideline and Quality Standard and a second Draft Guideline.

Frequently first-time sufferers who are experiencing the extreme and chronic pain associated with the passing of a kidney stone contact this Charity either directly or as described above to ask for help and advice. Also, family members on behalf of sufferers also contact this Charity to ask for advice.

Increasingly the BT land line connection to this Charity is being used by sufferers and is now referred to as a Help Line.

Financial Review

During this eighth year the Charity generated an unrestricted net income of £2211.71.

To continue to concentrate all suitable income into the Research Fund. The Trustees also directed the CEO to be mindful of the operating costs and the existing Reserves Policy (below) at all times. There is still a possible capital expenditure of approximately £1k (for a replacement laptop) to take place over the coming years.

Reserves Policy

Due to receiving J, A, & MP 1 and then MAS 1 the Trustees decided that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to the Charity's running costs for any rolling 12 monthly period. Then when the income from J, A, & MP 1, MAS 1 and other income exceeds any rolling 12 monthly running cost average the

excess will be allocated to the Designated Reserved Research Fund or the Designated Reserved Sufferer Support Fund as demand dictates. The Trustees consider that reserves at this level will ensure that the advice and assistance given via the web site, Facebook and Kidney Research Group will allow the Charity to continue operating for any rolling 12month period and speed the growth primarily of the research fund and then the support fund as necessary.

Signed on behalf of the Trustees

A handwritten signature in black ink, appearing to read "T. Palmer". The signature is written in a cursive style with a long horizontal stroke at the beginning.

Independent Examiner's Report for Beat Kidney Stones

I report on the accounts of the Charity Beat Kidney Stones a Charitable Incorporated Organisation (CIO) for the year 2nd October 2018 to the 1st October 2019 which is set out on the following pages.

Respective responsibilities of trustees and examiner

The trustees of the Charity are responsible for the preparation of the accounts. The trustees consider that an audit is not required but an independent examination is under the guidance from the Charity Commission published on the 23rd May 2013 and updated on the 25th August 2017

Having satisfied myself that the Charity is not subject to an audit and is eligible for independent examination, it is my responsibility to:

1. Examine the accounts under section 145 of the 2011 Act
2. To follow the procedures laid down in the general directions given by the Charity Commission under section 145 of the 2011 Act
3. To state whether particular matters have come to my attention.

Basis of independent examiners report

My examination was carried out in accordance with the general directions given by the Charity Commission. My examination included a review of the accounting records kept by the Charity and a comparison of the accounts kept with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a "true and fair view" and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, no matter has come to my attention

- (a) which gives me reasonable cause to believe that in any material respect the requirements:
 - (i) to keep accounting records
 - (ii) to prepare accounts which accord with the accounting records, comply with the accounting methods and principles of SORP, Accounting and Reporting by Charities; have not been met; or
- (b) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

Beat Kidney Stones

Trustees Report

The Trustees present their report and accounts for the year ended 1st October 2023

The accounts have been prepared in accordance with the accounting policies set out in notes to the accounts and comply with the Charity's governing document and "Accounting and Reporting by Charities"

Structure, Governance and Management

Beat Kidney Stones is a Charitable Incorporated Organisation and was entered on the Register of Charities by the Charity Commission on the 12th December 2016 and was given the Registered Charity Number 1170678.

The trustees, who are also members of the Charity and who served during the year were:

Miss Clare Sanders
Miss Tracey M Palmer
Ms Jilly Collins
Mrs Penny Sweetland

Method of recruitment and appointment of trustees

New trustees apply and part of their interview process is to be asked if they are eligible to be appointed a trustee. If the potential trustee is eligible, they are recommended and appointed by the existing trustees. New trustees are informed about the Charity Commission's web site which identifies the responsibilities and how to act as a trustee and given a copy of the Foundation Document of Beat Kidney Stones and the latest Annual Report. None of the trustees have any beneficial interest in Beat Kidney Stones. All of the Trustees are also Members of Beat Kidney Stones.

Organisational Structure

The day-to-day management of the Charity's activities were delegated by the trustees to the Volunteer Chief Executive Officer on the 9th January 2017. The Volunteer CEO is assisted by other volunteers who report to the CEO.

Risk Policies

The Volunteer CEO assesses the risk policies regularly and the trustees are satisfied that the policies do mitigate exposure to major risks. The existing and new policies are: Lone Working Policy; Confidentiality Policy; Staff & Volunteer Working Policy; Health & Safety Policy; Rights & Responsibility Policy; Conflict of Interest Policy; Conflict of Interest Register, Managing Volunteers & Staff Policy; Equal Opportunities Monitoring Form; Risk Management policy; Handling Complaints Policy; GDPR; Investment Policy; Equality & Diversity Policy. The trustees state that no serious incidents have arisen during this financial year.

Objectives and activities

Beat Kidney Stones is a Charitable Incorporated Organisation and its objects are:

To promote and protect the physical and mental health of sufferers of kidney stones through the provision of financial assistance, support, education and practical advice; and to advance the education of the general public in all areas relating to kidney stones, in particular but not exclusively, by funding research into kidney stones.

Achievements and performance

On each day of the year a post has been and will be published on Facebook for the benefit of kidney stone sufferers, their family and friends and all other interested parties. The posts contained comment, questions, information and quotes from sufferers, members of the public, reputable web sites and institutions. Resulting from these posts the Charity has and will continue to identify life and work actions that improve sufferer conditions and treatments. These actions have also been published on the Charity's web site and to the Kidney Stone Research Group on LinkedIn.

Many kidney stone sufferers have said, having the "Helpful Information" page on the Charity's web site has helped their employer to understand and appreciate exactly what a kidney stone sufferer experience's. The employer takes from the web site a better understanding of chronic pain and why each kidney stone sufferer has to continually drink water evenly over each 24 hours. All the information on the web site helps to prevent misunderstandings between the employer and kidney stone sufferers.

This year a number of kidney stone sufferers have rang or repeatedly rang the land line number displayed on the Charity's web site to talk over their symptoms and treatments with the CEO of the Charity. This land line number is becoming a help line for kidney stone sufferers.

The CEO has continued to introduce Beat Kidney Stones to the research environment and offered to provide a possible research topic for MSc Students.

This Charity is involved with other organisations and offering opinions derived from kidney stone sufferers on relevant aspects of proposed and actual research. This year a Researcher contacted the Charity for guidance on research topics. The five recommendations made by NICE were suggested to the Researcher. Anonymous kidney stone sufferers via this Charity have also passed their opinions to a Researcher on a research proposal.

Interesting and helpful information relative to pain and kidney stones is also published on LinkedIn, Facebook, the Kidney Stone Research Group and the Charity's web site.

Due to its Stakeholder status in the National Institute for Health and Care Excellence (NICE) Beat Kidney Stones supports at all times the "Renal and ureteric stones: assessment and management guideline published on the 8-1-19 and the Renal and ureteric stones Quality standard (/guidelines/qs195)" which was published on the 29-7-20. Both publications are the current treatment standards for all sufferers of kidney stones.

Signposts are on the Beat Kidney Stone web site to access both the NICE Guideline and Quality Standard.

The Renal and ureteric stones: assessment and management guideline made five recommendations for research.

Kidney stone sufferers were asked to comment on these 5 pieces of recommended research by NICE. Sufferers asked that Beat Kidney Stones allocate the following priorities when deciding which piece of research to help fund:

- 1 non-steroidal anti-inflammatory drugs – route of administration
- 2 Alpha blockers and ureteroscopy
- 3 Metabolic Assessments
- 4 Preventative treatment following shockwave lithotripsy
- 5 Frequency of follow up imaging

Beat Kidney Stones Trustees have now prioritised the collection of monies to help support research.

Beat Kidney Stones Facebook posts, web site and the Kidney Stone Research Group all have contained comment and information from and relating to the NICE Guideline called “Renal and ureteric stones: assessment and management” and the Renal and ureteric stones Quality Standard (/guideline/qs195).

The Charity continues to ask on its web site, through its Facebook posts and from the Kidney Stone Research Group on LinkedIn for comments, suggestions and research preferences from kidney stone sufferers and interested parties. It is thought this is a unique feature of this Charity. Consequently, Beat Kidney Stones is always open for comment from kidney stone sufferers and prepared to amend its policies according to the comments received.

Last year Beat Kidney Stones commented on the NICE Draft Guideline: Urinary tract infection in under 16s: diagnosis and management and is informed by NICE about all new Guideline so that this Charity may contribute if appropriate.

The Charity is maintaining the articles on its web site about the Sufferers Travelling Support Fund, a fall safe alarm and an identification card for existing sufferers who think they might lose consciousness again. The identification card is proving to be popular and is provided at no cost to sufferers.

The Charity’s daily Facebook posts continue to reach more people each year. These posts have generated comment and personal stories from sufferers which have led to further sufferer information being added to the Charity’s web site, Facebook page and passed to the Kidney Stone Research Group. More people are becoming members of the Kidney Stone Research Group and members are largely sufferers followed by Clinicians and researchers.

Employees when passing kidney stones had commented that some employers viewed frequent, very short-term absences over many weeks, to be a problem. Medical professionals had not recognised absenteeism due to kidney stones to be a widespread employment problem. Beat Kidney Stones however heard many comments from sufferers which together indicated that employers could be treating employees much better.

Consequently, Beat Kidney Stones undertook a programme of providing information for employers and new sufferers.

To help repeat sufferers this Charity supports the home working option if it is possible.

From sufferers:

Working from home in a comfortable environment takes their mind off anticipating pain, it is better to have access to facilities when dealing with the intermittent chronic pain and drinking their recommended amount of water. Also, sufferers are happier and more productive when working from home.

The Trustees decided the monies for supporting sufferers and research will still be held in the Epworth Cash Plus Fund (It was called the Affirmative Deposit Fund) which earns an improved level of interest.

To date monies accumulated in Epworth Cash Plus Fund are: allocated to sufferer support £606.68, for research £3685.46 and for Charity overhead £750.90.

In year 4 the Charity received two large donations. The Donor in both cases made specific requests of Beat Kidney Stones that were agreed by the Trustees. Co-incidentally the requests were in accordance with the existing rules of the Charity and particularly one (probably unique) rule that this Charity will disperse any donation in the manner requested by that particular donor.

The Donor in both cases requested that the donation be anonymous and be invested in a specific way and in perpetuity. The Donor in both cases had the intention to achieve an income for the Charity and for the income to be used to only pay the existing operating costs of the Charity (Not speculative operating costs).

In year 5 the Trustees decided to hold sufficient reserves to maintain the operating costs for any rolling 12-month period and to allocate any monies accumulated above that level to research. This decision was and will be kept in constant review by the CEO.

Due to the value of the income from the above donations the Trustees decided that all monies received without a specific destination request by the donor are to be allocated to research.

Donations

Year 2

Donations totalling £1359.47 were made to the Charity in memory of Margaret Anne Sanders

A donation of £50 was made to the Charity in memory of Joyce Hawkins.

Year 3

A donation of £117.5 was made to the Charity in memory of Joan and Charles Pinegar.

Donations totalling £1280.12 were made to the Charity in memory of Timothy Stone.

Year 4

An anonymous donation of £14,670.05 was made to the Charity in memory of John, Anne and Margaret Pink. (J, A & MP 1)

Donations totalling £803.65 were made to the Charity in memory of Edith Evelyn Lynam.

An anonymous donation of £48,000 was made to the Charity in memory of Margaret Anne Sanders. (MAS 1)

Year 5

Donations totalling £722.75 were made to Beat Kidney Stones in memory of Percy and Violetta.

A donation of £19.28 was made to Beat Kidney Stones in memory of Patricia Mockett.

Year 6

Donations totalling £357.80 were made to Beat Kidney Stones in memory of Lois and Mark Osborne.

Year 7

Donations totalling £564.48 were made to Beat Kidney Stones in memory of Ivan Osborne.

Public Benefit

The trustees confirm they have and will continue, to comply with their duty to have due regard to the guidance on public benefit issued by the Charity Commission in exercising their powers.

This has been exemplified above, by the continuing use of the web site

www.beatkidneystones.co.uk and by the continued use of the Kidney Research Group on

Linkedin. Further examples are the daily dialogue by the Charity on Facebook, plus the comment, questions and experiences given by sufferers when replying to posts on the Charity's Facebook page.

Kidney stone sufferers also ask for help, advice or make comments by telephone and email on a regular basis.

A further example of public benefit was the collating by the Charity of comments made by Kidney Stone Sufferers to the Charity when fulfilling its role as a NICE Stakeholder. The Charity made those comments known to NICE at the Guideline and then at Quality Standard consultative stage and this year on the NICE Draft Guideline: Urinary tract infection in under 16s: diagnosis and management

This means Kidney Stone Sufferers have had an input to one NICE Guideline and Quality Standard and a second Draft Guideline.

Frequently first-time sufferers who are experiencing the extreme and chronic pain associated with the passing of a kidney stone contact this Charity either directly or as described above to ask for help and advice. Also, family members on behalf of potential sufferers also contact this Charity to ask for advice.

Increasingly the BT land line connection to this Charity is being used by sufferers as a Help Line.

Financial Review

During this seventh year the Charity generated an unrestricted income of £2751.35

The Trustees decided to continue to concentrate all suitable income into the Research Fund. The Trustees also directed the CEO to be mindful of the operating costs and the existing Reserves Policy (below) at all times. The CEO identified a possible capital expenditure of approximately £1k to take place over the coming years.

Reserves Policy

Due to receiving J, A, & MP 1 and then MAS 1 the Trustees decided that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to the Charity's running costs for any rolling 12 monthly period. Then when the income from J, A, & MP 1, MAS 1 and other income exceeds any rolling 12 monthly running cost average the excess will be allocated to the Designated Reserved Research Fund or the Designated Reserved Sufferer Support Fund as demand dictates. The Trustees consider that reserves at this level will ensure that the advice and assistance given via the web site, Facebook and Kidney Research Group will allow the Charity to continue operating for any rolling 12 month period and speed the growth of the research and support funds.

A handwritten signature in black ink, appearing to read 'Julia Cook', is written over a horizontal line. The signature is fluid and cursive.

Signed on behalf of the Trustees

Independent Examiner's Report for Beat Kidney Stones

I report on the accounts of the Charity Beat Kidney Stones a Charitable Incorporated Organisation (CIO) for the year 2nd October 2018 to the 1st October 2019 which is set out on the following pages.

Respective responsibilities of trustees and examiner

The trustees of the Charity are responsible for the preparation of the accounts. The trustees consider that an audit is not required but an independent examination is under the guidance from the Charity Commission published on the 23rd May 2013 and updated on the 25th August 2017

Having satisfied myself that the Charity is not subject to an audit and is eligible for independent examination, it is my responsibility to:

1. Examine the accounts under section 145 of the 2011 Act
2. To follow the procedures laid down in the general directions given by the Charity Commission under section 145 of the 2011 Act
3. To state whether particular matters have come to my attention.

Basis of independent examiners report

My examination was carried out in accordance with the general directions given by the Charity Commission. My examination included a review of the accounting records kept by the Charity and a comparison of the accounts kept with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a "true and fair view" and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, no matter has come to my attention

- (a) which gives me reasonable cause to believe that in any material respect the requirements:
 - (i) to keep accounting records
 - (ii) to prepare accounts which accord with the accounting records, comply with the accounting methods and principles of SORP, Accounting and Reporting by Charities; have not been met; or
- (b) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

Beat Kidney Stones

Trustees Report

The Trustees present their report and accounts for the year ended 1st October 2022

The accounts have been prepared in accordance with the accounting policies set out in notes to the accounts and comply with the Charity's governing document and "Accounting and Reporting by Charities"

Structure, Governance and Management

Beat Kidney Stones is a Charitable Incorporated Organisation and was entered on the Register of Charities by the Charity Commission on the 12th December 2016 and was given the Registered Charity Number 1170678.

The trustees, who are also members of the Charity and who served during the year were:

Miss Clare Sanders
Miss Tracey M Palmer
Ms Jilly Collins
Mrs Penny Sweetland

Method of recruitment and appointment of trustees

New trustees apply and part of their interview process is to be asked if they are eligible to be appointed a trustee. If the potential trustee is eligible, they are recommended and appointed by the existing trustees. New trustees are informed about the Charity Commission's web site which identifies the responsibilities and how to act as a trustee and given a copy of the Foundation Document of Beat Kidney Stones and the latest Annual Report. None of the trustees have any beneficial interest in Beat Kidney Stones. All of the Trustees are also Members of Beat Kidney Stones.

Organisational Structure

The day to day management of the Charity's activities were delegated by the trustees to the Volunteer Chief Executive Officer on the 9th January 2017. The Volunteer CEO is assisted by other volunteers who report to the CEO.

Risk Policies

The Volunteer CEO assesses the risk policies regularly and the trustees are satisfied that the policies do mitigate exposure to major risks. The existing and new policies are: Lone Working Policy; Confidentiality Policy; Staff & Volunteer Working Policy; Health & Safety Policy; Rights & Responsibility Policy; Conflict of Interest Policy; Conflict of Interest Register, Managing Volunteers & Staff Policy; Equal Opportunities Monitoring Form; Risk Management policy; Handling Complaints Policy; GDPR; Investment Policy; Equality & Diversity Policy. The trustees state that no serious incidents have arisen during this financial year.

Objectives and activities

Beat Kidney Stones is a Charitable Incorporated Organisation and its objects are:

To promote and protect the physical and mental health of sufferers of kidney stones through the provision of financial assistance, support, education and practical advice; and to advance the education of the general public in all areas relating to kidney stones, in particular but not exclusively, by funding research into kidney stones.

Achievements and performance

On each day of the year a post has been and will be published on Facebook for the benefit of kidney stone sufferers, their family and friends and all other interested parties. The posts contained comment, questions, information and quotes from sufferers, members of the public, reputable web sites and institutions. Resulting from these posts the Charity has and will continue to identify life and work actions that improve sufferer conditions and treatments. These actions have also been published on the Charity's web site and to the Kidney Stone Research Group on LinkedIn.

Many kidney stone sufferers have said, having the "Helpful Information" page on the Charity's web site has helped their employer to understand and appreciate exactly what a kidney stone sufferer experiences. The employer takes from the web site a better understanding of chronic pain and why each kidney stone sufferer has to continually drink water. All the information on the web site helps to prevent misunderstandings.

The CEO has continued to introduce Beat Kidney Stones to the research environment and offered to provide a possible research topic for MSc Students.

This Charity is involved with other organisations and offering opinions derived from kidney stone sufferers on relevant aspects of proposed and actual research. This year a Researcher contacted the Charity for guidance on research topics. The five recommendations made by NICE were suggested to the Researcher.

Interesting and helpful information relative to pain and kidney stones is also published on LinkedIn, Facebook, the Kidney Stone Research Group and the Charity's web site.

Due to its Stakeholder status in the National Institute for Health and Care Excellence (NICE) Beat Kidney Stones supports at all times the "Renal and ureteric stones: assessment and management guideline published on the 8-1-19 and the Renal and ureteric stones Quality standard (/guidelines/qs195)" which was published on the 29-7-20. Both publications are the current treatment standards for all sufferers of kidney stones.

Signposts are on the Beat Kidney Stone web site to access both the NICE Guideline and Quality Standard.

The Renal and ureteric stones: assessment and management guideline made five recommendations for research.

Kidney stone sufferers were asked to comment on these 5 pieces of recommended research by NICE. Sufferers asked that Beat Kidney Stones allocate the following priorities when deciding which piece of research to help fund:

- 1 Non-steroidal anti-inflammatory drugs – route of administration
- 2 Alpha blockers and ureteroscopy
- 3 Metabolic Assessments

4 Preventative treatment following shockwave lithotripsy

5 Frequency of follow up imaging

Beat Kidney Stones now prioritises the collection of monies to help support research.

Beat Kidney Stones Facebook posts, web site and the Kidney Stone Research Group all have contained comment and information from and relating to the NICE Guideline called "Renal and ureteric stones: assessment and management" and the Renal and ureteric stones Quality Standard (/guideline/qs195).

The Charity continues to ask on its web site, through its Facebook posts and from the Kidney Stone Research Group on LinkedIn for comments, suggestions and research preferences from kidney stone sufferers and interested parties. It is thought this is a unique feature of this Charity. Consequently Beat Kidney Stones is always open for comment from kidney stone sufferers and prepared to amend its policies according to the comments received.

During May of this year Beat Kidney Stones also commented on the NICE Draft Guideline: Urinary tract infection in under 16s: diagnosis and management

The Charity is maintaining the articles on its web site about the Sufferers Travelling Support Fund, a fall safe alarm and an identification card for existing sufferers who think they might lose consciousness again. The identification card is proving to be popular and is provided at no cost to sufferers.

The Charity's daily Facebook posts continue to reach more people each year. These posts have generated comment and personal stories from sufferers which have led to further sufferer information being added to the Charity's web site, Facebook page and passed to the Kidney Stone Research Group. More people are becoming members of the Kidney Stone Research Group and members are largely sufferers followed by Clinicians and potential researchers.

More employees have decided to work from home to enable them to actually work rather than take time off due to passing a stone. Very few employees had identified this to be a solution until identified by Beat Kidney Stones through sufferer comment. Whenever possible this Charity supports the home working option for kidney stone sufferers.

From sufferers; working from home saves money, it is better to have access to facilities when dealing with the intermittent chronic pain and they are more productive workers.

The Trustees decided the monies for supporting sufferers and research **will** still be held in the Epworth Affirmative Deposit Fund which earns a modest interest.

To date monies accumulated in Epworth Affirmative Deposit Fund are: allocated to sufferer support is £606.68, for research is £2059.79 and for Charity overhead is £155.09.

In year 4 the Charity received two large donations. The Donor in both cases made specific requests of Beat Kidney Stones that were agreed by the Trustees. Co-incidentally the requests were in accordance with the existing rules of the Charity and particularly one (probably unique) rule that this Charity will disperse any donation in the manner requested by that particular donor.

The Donor in both cases requested that the donation be anonymous and be invested in a specific way and in perpetuity. The Donor in both cases had the intention to achieve an income for the Charity and for the income to be used to only pay the existing operating costs of the Charity (Not speculative operating costs).

In year 5 Trustees decided to hold sufficient reserves to maintain the operating costs for any rolling 12 month period and to allocate any monies accumulated above that level to research. This decision was and will be kept in constant review by the CEO.

Due to the above donations the Trustees decided that all monies received without a specific destination request by the donor are to be allocated to research.

Donations

Year 2

1. Donations totalling £1359.47 were made to the Charity in memory of Margaret Anne Sanders
2. A donation of £50 was made to the Charity in memory of Joyce Hawkins.

Year 3

3. A donation of £117.5 was made to the Charity in memory of Joan and Charles Pinegar.
4. Donations totalling £1280.12 were made to the Charity in memory of Timothy Stone.

Year 4

5. An anonymous donation of £14,670.05 was made to the Charity in memory of John, Anne and Margaret Pink. (J, A & MP 1)
6. Donations totalling £803.65 were made to the Charity in memory of Edith Evelyn Lynam.
7. An anonymous donation of £48,000 was made to the Charity in memory of Margaret Anne Sanders. (MAS 1)

Year 5

8. Donations totalling £722.75 were made to Beat Kidney Stones in memory of Percy and Violetta.
9. A donation of £19.28 was made to the Charity in memory of Patricia Mockett.

Year 6

Donations totalling £357.80 were made to the Charity in memory of Lois Osborne.

Public Benefit

The trustees confirm they have and will continue, to comply with their duty to have due regard to the guidance on public benefit issued by the Charity Commission in exercising their powers. This has been exemplified above, by the continuing use of the web site

www.beatkidneystones.co.uk and by the continued use of the Kidney Research Group on LinkedIn. Further examples are the daily dialogue by the Charity on Facebook, plus the comment, questions and experiences given by sufferers when replying to posts on the Charity's Facebook page.

Kidney stone sufferers also ask for help, advice or make comments by telephone and email on a daily basis.

A further example of public benefit was the collating by the Charity of comments made by Kidney Stone Sufferers to the Charity when fulfilling its role as a NICE Stakeholder. The Charity made those comments known to NICE at the Guideline and then at Quality Standard

consultative stage and this year on the NICE Draft Guideline: Urinary tract infection in under 16s: diagnosis and management

This means Kidney Stone Sufferers have had an input to one NICE Guideline and Quality Standard and a second Draft Guideline.

Frequently first time sufferers who are experiencing the extreme and chronic pain associated with the passing of a kidney stone contact this Charity either directly or as described above to ask for help and advice. Also family members on behalf of potential sufferers also contact this Charity to ask for advice.

Financial Review

During this sixth year the Charity generated an unrestricted income of £1929.53

The Trustees decided to continue to concentrate all suitable income into the Research Fund> The Trustees also directed the CEO to be mindful of the operating costs and the existing Reserves Policy (below) at all times.

Reserves Policy

Due to receiving J, A, & MP 1 and then MAS 1 the Trustees decided that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to the Charity's running costs for any rolling 12 monthly period. Then when the income from J, A, & MP 1, MAS 1 and other income exceeds any rolling 12 monthly running cost average the excess will be allocated to the Designated Reserved Research Fund or the Designated Reserved Sufferer Support Fund as demand dictates. The Trustees consider that reserves at this level will ensure that the advice and assistance given via the web site, Facebook and Kidney Research Group will allow the Charity to continue operating for any rolling 12 month period and speed the growth of the research and support funds.

Signed on behalf of the Trustees

A handwritten signature in black ink, appearing to read 'T. Palmer', is written over a horizontal line.

Independent Examiner's Report for Beat Kidney Stones

I report on the accounts of the Charity Beat Kidney Stones a Charitable Incorporated Organisation (CIO) for the year 2nd October 2018 to the 1st October 2019 which is set out on the following pages.

Respective responsibilities of trustees and examiner

The trustees of the Charity are responsible for the preparation of the accounts. The trustees consider that an audit is not required but an independent examination is under the guidance from the Charity Commission published on the 23rd May 2013 and updated on the 25th August 2017

Having satisfied myself that the Charity is not subject to an audit and is eligible for independent examination, it is my responsibility to:

1. Examine the accounts under section 145 of the 2011 Act
2. To follow the procedures laid down in the general directions given by the Charity Commission under section 145 of the 2011 Act
3. To state whether particular matters have come to my attention.

Basis of independent examiners report

My examination was carried out in accordance with the general directions given by the Charity Commission. My examination included a review of the accounting records kept by the Charity and a comparison of the accounts kept with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a "true and fair view" and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, no matter has come to my attention

- (a) which gives me reasonable cause to believe that in any material respect the requirements:
 - (i) to keep accounting records
 - (ii) to prepare accounts which accord with the accounting records, comply with the accounting methods and principles of SORP, Accounting and Reporting by Charities; have not been met; or
- (b) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

Beat Kidney Stones

Trustees Report

The Trustees present their report and accounts for the year ended 1st October 2021

The accounts have been prepared in accordance with the accounting policies set out in notes to the accounts and comply with the Charity's governing document and "Accounting and Reporting by Charities"

Structure, Governance and Management

Beat Kidney Stones is a Charitable Incorporated Organisation and was entered on the Register of Charities by the Charity Commission on the 12th December 2016 and was given the Registered Charity Number 1170678.

The trustees, who are also members of the Charity and who served during the year were:

Miss Clare Sanders

Miss Tracey M Palmer

Ms Jilly Collins

Mrs Penny Sweetland from 19-6-21

Method of recruitment and appointment of trustees

New trustees apply and part of their interview process is to be asked if they are eligible to be appointed a trustee. If the potential trustee is eligible, they are recommended and appointed by the existing trustees. New trustees are informed about the Charity Commission's web site which identifies the responsibilities and how to act as a trustee and given a copy of the Foundation Document of Beat Kidney Stones and the latest Annual Report. None of the trustees have any beneficial interest in Beat Kidney Stones. All of the Trustees are also Members of Beat Kidney Stones.

Organisational Structure

The day to day management of the Charity's activities were delegated by the trustees to the Volunteer Chief Executive Officer on the 9th January 2017. The Volunteer CEO is assisted by other volunteers who report to the CEO.

Risk Policies

The Volunteer CEO assesses the risk policies regularly and the trustees are satisfied that the policies do mitigate exposure to major risks. The existing and new policies are: Lone Working Policy; Confidentiality Policy; Staff & Volunteer Working Policy; Health & Safety Policy; Rights & Responsibility Policy; Conflict of Interest Policy; Conflict of Interest Register, Managing Volunteers & Staff Policy; Equal Opportunities Monitoring Form; Risk Management policy; Handling Complaints Policy; GDPR; Investment Policy; Equality & Diversity Policy. The trustees state that no serious incidents have arisen during this financial year.

Objectives and activities

Beat Kidney Stones is a Charitable Incorporated Organisation and its objects are:

To promote and protect the physical and mental health of sufferers of kidney stones through the provision of financial assistance, support, education and practical advice; and to advance the education of the general public in all areas relating to kidney stones, in particular but not exclusively, by funding research into kidney stones.

Achievements and performance

On each day of the year a post has been and will be published on Facebook for the benefit of kidney stone sufferers, their family and friends and all other interested parties. The posts contained comment, questions, information and quotes from sufferers, members of the public, reputable web sites and institutions. Resulting from these posts the Charity has and will continue to identify life and work actions that improve sufferer conditions and treatments. These actions have also been published on the Charity's web site and to the Kidney Stone Research Group on LinkedIn.

For example a detailed description of what a kidney stone sufferer experiences when passing a stone is now on the Charity's web site for all to read. The web site also contains photographs of kidney stones so that members of the public may imagine the levels of chronic pain caused when passing a kidney stone. Repeating stone sufferers have recorded that work colleagues do not appreciate their requirement to continually drink water and the associated consequences of drinking that water. It has been established that work colleagues also cause problems for sufferers in the widest sense.

The CEO has been directed to begin introducing Beat Kidney Stones to the research environment by the Trustees.

This is being achieved by becoming involved with other organisations and offering opinions derived from kidney stone sufferers on relevant aspects of proposed and actual research. This also helps researchers obtain the Patient and Public Involvement requirement made by funders. Furthermore the CEO obtained permissions from various researchers to publish introductory comment about their research on LinkedIn, Facebook, the Kidney Stone Research Group and the Charity's web site.

Due to its Stakeholder status in the National Institute for Health and Care Excellence (NICE) Beat Kidney Stones supports at all times the "Renal and ureteric stones: assessment and management guideline published on the 8-1-19 and the Renal and ureteric stones Quality standard (/guidelines/qs195)" which was published on the 29-7-20. Both publications are the current treatment standards for all sufferers of kidney stones.

Signposts are on the Beat Kidney Stone web site to access both the NICE Guideline and Quality Standard.

The Renal and ureteric stones: assessment and management guideline made five recommendations for research.

Kidney stone sufferers were asked to comment on these 5 pieces of recommended research by NICE. Sufferers asked that Beat Kidney Stones allocate the following priorities when deciding which piece of research to help fund:

- 1 Non-steroidal anti-inflammatory drugs – route of administration
- 2 Alpha blockers and ureteroscopy
- 3 Metabolic Assessments
- 4 Preventative treatment following shockwave lithotripsy
- 5 Frequency of follow up imaging

Beat Kidney Stones now prioritises the collection of monies to help support research in these five subjects.

Beat Kidney Stones Facebook posts, web site and the Kidney Stone Research Group all have contained comment and information from and relating to the NICE Guideline called “Renal and ureteric stones: assessment and management” and the Renal and ureteric stones Quality Standard (/guideline/qs195).

The Charity continues to ask on its web site, through its Facebook posts and from the Kidney Stone Research Group on LinkedIn for comments, suggestions and research preferences from kidney stone sufferers and interested parties. It is thought this is a unique feature of this Charity. Consequently Beat Kidney Stones is always open for comment from kidney stone sufferers and prepared to amend its policies according to the comments received.

The Charity is maintaining the articles on its web site about the Sufferers Travelling Support Fund, a fall safe alarm and an identification card for existing sufferers who think they might lose consciousness again. The identification card is proving to be popular and is provided at no cost to sufferers.

The Charity’s daily Facebook posts have reached three times more people this year. These posts have generated comment and personal stories from sufferers which have led to further sufferer information being added to the Charity’s web site, Facebook page and passed to the Kidney Stone Research Group. More people are becoming members of the Kidney Stone Research Group and members are largely sufferers followed by Clinicians and potential researchers.

From sufferer comments it was established that some work environments had not been very supportive to employees when they were passing a kidney stone. This led to the creation of the “Helpful Information (for Employer and HR Executives)” page on the web site. Results have indicated a better understanding by work colleagues which has led to better behaviour towards sufferers.

A further consequence was employees deciding to work from home to enable them to actually work rather than take time off due to passing a stone. Very few employees had identified this to be a solution until identified by Beat Kidney Stones through sufferer comment. Now of course with COVID-19, home working is not so hard to achieve for kidney stone sufferers. Whenever possible this Charity supports the home working option for kidney stone sufferers. From sufferers, working from home saves money, it is better to have access to facilities when dealing with the intermittent chronic pain and they are more productive workers.

The Trustees decided the monies for supporting sufferers and research will still be held in the Epworth Affirmative Deposit Fund which earns a modest interest.

To date monies accumulated in Epworth Affirmative Deposit Fund are: allocated to sufferer support is £606.68, for research is £1064.03 and for Charity overhead is £155.09.

In year 4 the Charity received two large donations. The Donor in both cases made specific requests of Beat Kidney Stones that were agreed by the Trustees. Co-incidentally the requests were in accordance with the existing rules of the Charity and particularly one (probably unique) rule that this Charity will disperse any donation in the manner requested by any donor. The Donor in both cases requested that the donation be anonymous and be invested in a specific way and in perpetuity. The Donor in both cases had the intention to achieve an income for the Charity and for the income to be used to only pay the existing operating costs of the Charity (Not speculative operating costs).

In year 5 Trustees decided to hold sufficient reserves to maintain the operating costs for any rolling 12 month period and to allocate any monies accumulated above that level to research. This decision was and will be kept in constant review by the CEO.

Due to the above donations the Trustees decided that all monies received without a specific destination request by the donor are to be allocated to research.

Donations

Year 2

1. Donations totalling £1359.47 were made to the Charity in memory of Margaret Anne Sanders
2. A donation of £50 was made to the Charity in memory of Joyce Hawkins.

Year 3

3. A donation of £117.5 was made to the Charity in memory of Joan and Charles Pinegar.
4. Donations totalling £1280.12 were made to the Charity in memory of Timothy Stone.

Year 4

5. An anonymous donation of £14,670.05 was made to the Charity in memory of John, Anne and Margaret Pink. (J, A & MP 1)
6. Donations totalling £803.65 were made to the Charity in memory of Edith Evelyn Lynam.
7. An anonymous donation of £48,000 was made to the Charity in memory of Margaret Anne Sanders. (MAS 1)

Year 5

8. Donations totalling £722.75 were made to Beat Kidney Stones in memory of Percy and Violetta.
9. A donation of £19.28 was made to the Charity in memory of Patricia Mockett.

Public Benefit

The trustees confirm they have and will continue, to comply with their duty to have due regard to the guidance on public benefit issued by the Charity Commission in exercising their powers. This has been exemplified above, by the continuing use of the web site www.beatkidneystones.co.uk and by the continued use of the Kidney Research Group on LinkedIn. Further examples are the daily dialogue by the Charity on Facebook, plus the

comment, questions and experiences given by sufferers when replying to posts on the Charity's Facebook page.

Kidney stone sufferers also ask for help, advice or make comments by telephone and email on a daily basis.

A further example of public benefit was the collating by the Charity of comments made by Kidney Stone Sufferers to the Charity when fulfilling its role as a NICE Stakeholder. The Charity made those comments known to NICE at the Guideline and then at Quality Standard consultative stage. This means Kidney Stone Sufferers had an input to a NICE Guideline and Quality Standard.

Frequently first time sufferers who are experiencing the extreme and chronic pain associated with the passing of a kidney stone contact this Charity either directly or as described above to ask for help and advice.

Financial Review

During this fifth year the Charity generated an unrestricted income of £1972.52

Early in the Charity's 5th financial year the Trustees decided to concentrate all suitable income into the Research Fund and directed the CEO to be mindful of the operating costs and the existing Reserves Policy (below) at all times.

Reserves Policy

Due to receiving J, A, & MP 1 and then MAS 1 the Trustees decided that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to the Charity's running costs for any rolling 12 monthly period. Then when the income from J, A, & MP 1, MAS 1 and other income exceeds any rolling 12 monthly running cost average the excess will be allocated to the Designated Reserved Research Fund or the Designated Reserved Sufferer Support Fund as demand dictates. The Trustees consider that reserves at this level will ensure that the advice and assistance given via the web site, Facebook and Kidney Research Group will allow the Charity to continue operating for any rolling 12 month period and speed the growth of the research and support funds.

Signed on behalf of the Trustees 9/10/2021

Independent Examiner's Report for Beat Kidney Stones

I report on the accounts of the Charity Beat Kidney Stones a Charitable Incorporated Organisation (CIO) for the year 2nd October 2018 to the 1st October 2019 which is set out on the following pages.

Respective responsibilities of trustees and examiner

The trustees of the Charity are responsible for the preparation of the accounts. The trustees consider that an audit is not required but an independent examination is under the guidance from the Charity Commission published on the 23rd May 2013 and updated on the 25th August 2017

Having satisfied myself that the Charity is not subject to an audit and is eligible for independent examination, it is my responsibility to:

1. Examine the accounts under section 145 of the 2011 Act
2. To follow the procedures laid down in the general directions given by the Charity Commission under section 145 of the 2011 Act
3. To state whether particular matters have come to my attention.

Basis of Independent examiners report

My examination was carried out in accordance with the general directions given by the Charity Commission. My examination included a review of the accounting records kept by the Charity and a comparison of the accounts kept with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a "true and fair view" and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, no matter has come to my attention

- (a) which gives me reasonable cause to believe that in any material respect the requirements:
 - (i) to keep accounting records
 - (ii) to prepare accounts which accord with the accounting records, comply with the accounting methods and principles of SORP, Accounting and Reporting by Charities; have not been met; or
- (b) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.
