Activities

Objects: THE OBJECT OF THE CIO IS THE PROMOTION OF COMMUNITY PARTICIPATION IN HEALTHY RECREATION BY THE PROVISION OF FACILITIES FOR AMATEUR BOXING IN PARTICULAR BUT NOT EXCLUSIVELY USING BOXING AND ITS TRAINING AND TECHNIQUES AS A MEANS OF IMPROVING HEALTH AND FITNESS AND ENCOURAGING PEOPLE TO MAKE HEALTHY LIFE CHOICES.

Activities: We do not just teach young people about boxing. We teach healthy living and healthy eating. We discuss dangers of carrying knives and the negative aspects of gang activity. The purpose of the club is to give members as sense of pride and the tools to enable them to have positive aspirations. We promote healthy living and reduce crime/antisocial behaviour, through the use of sport.

How the charity is constituted (eg. trust, association, company)	Association
Trustee selection methods (eg. appointed by, elected by)	Appointment

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

Our governing body is England boxing therefore we are governed by their policies and procedures; this includes safeguarding policies. All the coaching staff must attend safeguarding courses as well as up to date first aid courses. All the trustees are familiar with the policies that are set by the governing body, England Boxing.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

THE OBJECT OF THE CIO IS THE PROMOTION OF COMMUNITY PARTICIPATION IN HEALTHY RECREATION BY THE PROVISION OF FACILITIES FOR AMATEUR BOXING IN PARTICULAR BUT NOT EXCLUSIVELY USING BOXING AND ITS TRAINING AND TECHNIQUES AS A MEANS OF IMPROVING HEALTH AND FITNESS AND ENCOURAGING PEOPLE TO MAKE HEALTHY LIFE CHOICES.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The main activities are boxing and fitness, we do not just teach young people about boxing. We teach healthy living and healthy eating. We discuss dangers of carrying knives and the negative aspects of gang activity. The purpose of the club is to give members as sense of pride and the tools to enable them to have positive aspirations. We promote healthy living and reduce crime/antisocial behaviour, using sport. The club was established in 1990; we continue to work with young people from the local area plus the surrounding areas. We strongly believe that sport can contribute to reducing crime and contributes to community safety. The club has a strong believe that sport reduces the risk factors associated with crime. The club provides a diversionary activity that enables young people to stay safe, healthy and enables young people to make choices that are beneficial to their future. The club provides disadvantaged and vulnerable young people an opportunity to take part in positive activities. Our Membership had increased however in April 2024 we had to move out of the building that we used, we then shared a building with another club, this was in another area and was not accessible for most of the users, resulting in numbers dropping. We were in this temporary accommodation until September 2025, we are no based In the Basegreen area of Sheffield, Since Moving to the area we have had 135 people register with the club. We still find that we have members from neighbouring areas such as Rotherham and Chesterfield. Sheffield has had its share of knife related crime over the past year, we collaborate closely with the police, youth justice service and the youth service who have all backed our recent sport not crime initiative. We noted that we had a cohort of young people who wanted to train however they did not want to compete, after running some pilot sessions we now run a bespoke session for this cohort. Aspire Boxing Club is not just a boxing club; in October 2024 we took a group of young people on a residential weekend in Edale and in Marsh 2026 we took a group of young people on a residential weekend to Matlock. Both residentials allowed young people to work together as a team. Our female only group did not take place when we shared a building due to capacity however since moving into our own building, this group has re started. This group is going well, and we get regular feedback from those who take part, We still offer a service to the youth justice service, Schools, and other statutory services The trustees have read the guidance re the main activities, how we will deliver them and the benefit to the local community and members of the club.

Additional details of objectives and activities (Optional information)

We now have more volunteers who help at the club as coaches, we have a grow your own coach's scheme, currently except for one coach, all the current coaches are former boxers of Aspire Boxing Club. One of our boxers will take the England Boxing Level One coaching course in October.

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Section D

Achievements and performance

Summary of the main achievements of the charity during the year

We have had an increase in female boxing; this has led to us launching our "Women Aspire Together" initiative. This has been highly successful; this takes place on a Saturday morning and a Wednesday Evening. A female level 2 England Boxing Coach runs these sessions.

We still have females who compete however, whilst we have increased participation from females, we have not increased participation from BME groups, the people that we do have from BME groups are usually the ones that return. Our aim is to increase BME participation.

Although our numbers dropped due to us moving buildings, we have seen the female sessions grow, we currently have a waiting list for people wanting to attend, since they feel comfortable in the environment.

Although we have only been in this building for a brief period we have.

- Improved peoples physical health and mental health and well being
- Promoted enhancement in education and lifelong learning
- Promoted community cohesion
- Worked with other agencies to help combat crime.

We have extended the opening times to include Saturday mornings, and we have a female only fitness session on a Wednesday for the adult community members.

Section E

Financial review

Brief statement of the charity's policy on reserves

--

Details of any funds materially in deficit

--

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Our main source of funding is still from the shows that we promote. As mentioned earlier we have an increase in females in the gym. Competition can be scares therefore we need to look at other competitions in Ireland and Sweden. Clearly this will be an additional cost to the club, therefore we will have to look at alternatives ways to raise funds.

Section F

Other optional information

Aspire Boxing Club is a friendly inclusive club that is run by volunteers. The club has been running for 36 years, and we pride ourselves on the fact that we have managed to steer several young people away from a life of crime. We collaborate with partner agencies to enable us to receive referrals. We inspire young people and we collaborate with parents and schools to ensure that the young people are kept on the right path. Aspire Boxing Club is the third oldest affiliated boxing club in Sheffield.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

THE OBJECT OF THE CIO IS THE PROMOTION OF COMMUNITY PARTICIPATION IN HEALTHY RECREATION BY THE PROVISION OF FACILITIES FOR AMATEUR BOXING IN PARTICULAR BUT NOT EXCLUSIVELY USING BOXING AND ITS TRAINING AND TECHNIQUES AS A MEANS OF IMPROVING HEALTH AND FITNESS AND ENCOURAGING PEOPLE TO MAKE HEALTHY LIFE CHOICES.

Our aim is to ensure that we have a facility that ensures enjoyment and fitness for all, aiming to ensure that each member can achieve their personal best.

The main activities are boxing and fitness, we do not just teach young people about boxing. We teach healthy living and healthy eating. We discuss dangers of carrying knives and the negative aspects of gang activity. The purpose of the club is to give members a sense of pride and the tools to enable them to have positive aspirations. We promote healthy living and reduce crime/antisocial behaviour, using sport. The club was established in 1990, currently based in the Woodseats area of Sheffield. Our members are from the local area plus the surrounding areas. We strongly believe that sport can contribute to reducing crime and contributes to community safety. The club has a strong belief that sport reduces the risk factors associated with crime. The club provides diversionary activities that enables young people to stay safe, healthy and enables young people to make choices that are beneficial to their future. The club provides disadvantaged and vulnerable young people an opportunity to take part in positive activities.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The school where we were based informed us where we were based that they needed our building back, since there has been an increase in school exclusions and they needed the building for a base for excluded children.

We did put a good argument to the school; this included a petition that was signed by over 1,000 people. We had backing from boxing promoter Eddie Hearn, who personally visited the gym to offer his support. Former world boxing champion Johnny Nelson also offered his support as did former Olympian Tessa Sanderson. Despite the level of support and the obvious benefits to the young people, which included a reduction of school exclusions, we lost the fight to save the club.

Fortunately, the trustees, coaches, members, and parents are still committed, and we are collaborating closely with the council to enable us to secure new premises. Once this is sorted, we will be able to resume the work that we have done in the past.

The council have found a gym for us however we cannot move in until repairs have been completed, and the lease has been drawn up and signed.

Because we are sharing a gym, the young people are now paying subscriptions to the other gym. We have seen decrease in membership since we moved, the feedback from the members is that they are unable to attend due to, the cost of getting to the gym and the fact that they must pay to use the gym.

Our Women Aspire together programme that is very successful has been put on hold due to the fact that the gym that we are sharing does not open at the weekends and there isn't the capacity for these sessions to run in the week, I would however envisage that members would have the same difficulties i.e. cost of travel and subscriptions. The women who

attended have said that they attend this gym because they cannot afford conventional gyms plus some said that they did not feel comfortable in conventional gyms. We have created a walking group to enable the women to still enjoy some sort of physical fitness.

We have often said that the barrier to engagement is often cost, with the cost of living and fuel poverty it is difficult for people to find extra finance to attend the gym. With this in mind we are looking at ways as to how we can still have a free facility when we move into our new premises.

We are currently sharing a gym until we move into our own gym. The council have found a gym for us however we cannot move in until repairs have been completed, and the lease has been drawn up and signed.

We still collaborate closely with partner agencies i.e. police, youth justice service. We have forged a remarkably close working relationship with the Element Society which is a youth service in Sheffield. In fact we are currently making plans to take twenty-eight young people and some parents on a residential trip to Edale. The youngest members will be 8 years of age. We have seen a reduction in the numbers who want to join the gym, the new building is in the Basegreen area of Sheffield, we envisage that membership will exceed what we have had in the past due to the location.

We have been unable to take referrals from other agencies, again this will resume once we move to our own premises.

The trustees have read the guidance re the main activities, how we will deliver them and the benefit to the local community and members of the club.

Additional details of objectives and activities (Optional information)

Aspire Boxing Club continues to be run by volunteers who give up their time to help others. We are grateful for the many hours volunteers spend, not only at the gym, but they also get involved in other activities such as competitions, this often involves being away from home and families.

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

Prior to being told that we needed to leave our premises, we saw an increase in female participants. The Women Aspie together sessions had increased. Due to demand, we lowered our age group to eight. We still received positive feedback from participants and parents. Who were integral in our talks with councillors and council members.

Female who boxed in competition has decreased however males have increased.

Prior to receiving notice to leave, we had

- Improved people's physical health and mental health and well being
- Promoted enhancement in education and lifelong learning
- Promoted community cohesion
- Worked with other agencies to help combat crime.

We have had to reduce our times of opening as we are currently sharing a gym, and the opening times are not within our control.

Young people have still competed in competitions around the country, however we are limited regarding the other work that we used to undertake, such as knife crime workshops, Female only sessions, due to us not having our own designated space.

Section E

Financial review

Brief statement of the charity's policy on reserves

Our accounts are show we have unrestricted funds. The main financial risk to the charity would be a loss of income, i.e. shows that we promote to rais funds or grant applications.

Details of any funds materially in deficit

Not Applicable

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Our main source of funding is still from the shows that we promote. As mentioned earlier we have an increase in females in the gym. Competition can be scares therefore we need to look at other competitions in Ireland and Sweden. Clearly this will be an additional cost to the club, therefore we will have to look at alternatives ways to raise funds.

Section F

Other optional information

Aspire Boxing Club is a friendly inclusive club that is run by volunteers. The club has been running for 29 years and we pride ourselves on the fact that we have managed to steer several young people away from a life of crime. We collaborate with partner agencies to enable us to receive referrals. We inspire young people, and we collaborate with parents and schools to ensure that the young people are kept on the right path.

Future Plans

Continue to collaborate with the council to enable us to set a date to move into our own building.

We are hoping to be in our own premises in September, looking at the feedback that we have had from the area where our new premises will be, we envisage that membership will increase.

Once we move, we will be able to resume the Women Aspire Together Program

Patents have been integral in our discussions with the council to find new premises, we will continue to collaborate with parents and keep them updated on changes/progress.

We will build on our relationship with the Element Society youth service, we have done some good partnership work with them, and we aim to continue doing this.

Once we move, we ill arrange an open day and invite the local councillors, police, and the community so they can see what we do and what we offer.

We will publicise what we do in local community social media etc.

--

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

THE OBJECT OF THE CIO IS THE PROMOTION OF COMMUNITY PARTICIPATION IN HEALTHY RECREATION BY THE PROVISION OF FACILITIES FOR AMATEUR BOXING IN PARTICULAR BUT NOT EXCLUSIVELY USING BOXING AND ITS TRAINING AND TECHNIQUES AS A MEANS OF IMPROVING HEALTH AND FITNESS AND ENCOURAGING PEOPLE TO MAKE HEALTHY LIFE CHOICES.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The main activities are boxing and fitness, we do not just teach young people about boxing. We teach healthy living and healthy eating. We discuss dangers of carrying knives and the negative aspects of gang activity. The purpose of the club is to give members as sense of pride and the tools to enable them to have positive aspirations. We promote healthy living and reduce crime/antisocial behaviour, through the use of sport.

The club was established in 1990, are were based in Spring Lane inclusion Centre, we work with young people from the local area plus the surrounding areas. We strongly believe that sport can contribute to reducing crime and contributes to community safety. The club has a strong believe that sport reduces the risk factors associated with crime. The club provides diversionary activities that enables young people to stay safe, healthy and enables young people to make choices that are beneficial to their future. The club provides disadvantaged and vulnerable young people an opportunity to take part in positive activities.

We are based I an exclusion centre, the staff at the school use the facility in the day and we use it in the evenings. Our membership has grown, some of our members are from the local area however we have members from other areas of Sheffield and neighbouring areas such as Rotherham and Chesterfield.

S

We have seen an increase in membership and we have had to create a waiting list. Our Women Aspire Together session are still going well and numbers have increased. The women who attend have said that they attend this gym due to the fact that they can't afford conventional gyms plus some said that they didn't feel comfortable in conventional gyms. The women feel that they have something in common with each other.

The barriers to engagement is often cost, with the cost of living and fuel poverty it is difficult for people to find extra finance to attend the gym. We still ensure that all our sessions are free, which in turn breaks down those barriers and allows people to train without the added pressure of having to find the money to fund the training

Sheffield has had its share of knife related crime over the past year, we work closely with the police, youth justice service and the youth service who have all backed our recent sport not crime initiative. We have seen an increase in young people who want to train however they do not want to compete, as such we have decided that we will pilot an extra evening solely for this cohort. We have worked with the Police and Crime Commissioners office and delivered knife crime events in several secondary schools, we have had amazing feedback.

We still take referrals from the youth justice service and the leaving care service this has gone very well; one young person has stated that he would like to compete next season. Our Membership has increased and we have also had an increase in females.

We held three conferences, the topics were Violence against Women and Girls, Exploitation and Knife crime. The audience was social workers, Leaving Care workers, Youth Justice Workers, South Yorkshire Police, South Yorkshire Fire and Rescue Service and Voluntary and Community groups.

Our Saturday Women Aspire Together sessions are still going well, one member stated "I love coming here and meeting people who are like me, commercial gyms are too expensive, and I feel uncomfortable in those gyms, in these sessions I feel comfortable. The sessions are free so I don't have to worry about the cost".

One of our coaches has been award the South Yorkshire Polices Community Spirit Award, this is a great testament to the work that we do.

The trustees have read the guidance re the main activities, how we will deliver them and the benefit to the local community and members of the club.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

We have had an increase in female boxing, this has led to us launching our “Punch like a girl” and “initiative. This has been very successful; this takes place on a Saturday morning. Two of our female coaches are level one coaches and the run these sessions on a Saturday. The feedback that we have had from the participants meant that we have had to run another session, this is also going well and I have already received very good feedback.

One of our female boxers reached the development semi-finals and she also went on to win gold in the all-female championships.

Whilst we have increased participation from females we have not increased participation from BME groups, the people that we do have from BME groups are usually the ones that return. Our aim is to increase BME participation.

We have increased female participation, due to the fact that they feel comfortable in the environment. Although we have only been in this building for a short period we have.

- Improved people’s physical health and mental health and well being
- Promoted enhancement in education and lifelong learning
- Promoted community cohesion
- Worked with other agencies to help combat crime.

We have extended the opening times to include Saturday mornings and we have a female only fitness session on a Wednesday for the adult community members.

Section E

Financial review

Brief statement of the charity's policy on reserves

Details of any funds materially in deficit

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Our main source of funding is still from the shows that we promote. As mentioned earlier we have an increase in females in the gym. Competition can be scares therefore we need to look at other competitions in Ireland and Sweden. Clearly this will be an additional cost to the club, therefore we will have to look at alternatives ways to raise funds.

Section F

Other optional information

Aspire Boxing Club is a friendly inclusive club that is run by volunteers. The club has been running for 29 years and we pride ourselves on the fact that we have managed to steer several young people away from a life of crime. We work with partner agencies to enable us to receive referrals. We inspire young people and we work with parents and schools to ensure that the young people are kept on the right path.

Section G

Declaration

The trustees declare that they have approved the trustees' report above.

Section B Structure, governance and management

Description of the charity's trusts

Type of governing document (eg. trust deed, constitution)	Constitution
How the charity is constituted (eg. trust, association, company)	Association
Trustee selection methods (eg. appointed by, elected by)	Appointment

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

Our governing body is England boxing therefore we are governed by their policies and procedures; this includes safeguarding policies. All the coaching staff have to attend safeguarding courses every three years as well as up to date first aid courses, and DBS checks. All the trustees are familiar with the policies that are set by the governing body, England Boxing.

The charity is a boxing club however we have forged relationships with schools, we have delivered sessions to pupils on knife crime, gangs, criminal exploitation and county lines.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

THE OBJECT OF THE CIO IS THE PROMOTION OF COMMUNITY PARTICIPATION IN HEALTHY RECREATION BY THE PROVISION OF FACILITIES FOR AMATEUR BOXING IN PARTICULAR BUT NOT EXCLUSIVELY USING BOXING AND ITS TRAINING AND TECHNIQUES AS A MEANS OF IMPROVING HEALTH AND FITNESS AND ENCOURAGING PEOPLE TO MAKE HEALTHY LIFE CHOICES.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The main activities are boxing and fitness, We do not just teach young people about boxing. We teach healthy living and healthy eating. We discuss dangers of carrying knives and the negative aspects of gang activity. The purpose of the club is to give members as sense of pride and the tools to enable them to have positive aspirations. We promote healthy living and reduce crime/antisocial behaviour, through the use of sport. The club was established in 1990, are currently based in Spring Lane inclusion Centre, we work with young people from the local area plus the surrounding areas. We strongly believe that sport can contribute to reducing crime and contributes to community safety. The club has a strong believe that sport reduces the risk factors associated with crime. The club provides a diversionary activity that enables young people to stay safe, healthy and enables young people to make choices that are beneficial to their future. The club provides disadvantaged and vulnerable young people an opportunity to take part in positive activities.

We have made links with secondary an infant schools and delivered sessions regarding knife crime, criminal exploitation, gangs and county lines. We also work with care leavers and we have developed a project called second chance, this was named by the care leavers. We have also had music sessions and creative writing/spoken word, this was an excellent programme, the young people all received trophies and certificates at the end of the session.

We have made excellent links with the community, community groups and the local schools as well as South Yorkshire Police and South Yorkshire Fire and Rescue. To award us for our work in the community we were awarded the community club of the month award by England Boxing.

We have listened to what the local community wanted, some of the women from the community stated that they wanted to keep fit however they had the following barriers, they were not able to afford commercial gyms and they felt uncomfortable in commercial gyms. We took their views on board and we set up the Women Aspire Together Programme, women attend the gym every Saturday, we offer a free session. This has worked well and the women attend on a regular basis. This is an all-female session run by a female coach.

We organised a conference for professionals, we covered issues such as domestic abuse, sexual/physical abuse, knife crime ad county lines, we explained how sport and clubs like ours can steer people away from negative peers, clubs such as ours are also viewed as a safe place for young people to attend.

Trustees have read the guidance re the main activities, how we will deliver them and the benefit to the local communities. Our aim is to get some of the trustees onto committees of local community groups. One of our Trustees has become a governor

at the local pupil referral unit.

Additional details of objectives and activities (Optional information)

We have become a hate crime reporting centre, we have worked with South Yorkshire Police, the coaches attended a presentation and subsequently became a hate crime reporting centre. This isn't for the general public, it is however for the young people and parents who attend our gym.

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

We have managed to increase female participation, we also have a grow your own coach scheme, this enables boxers or volunteers to undertake the England Boxing Level One coaching course. The aim of the scheme is to ensure sustainability, more often than not organisations close if the main person leaves. Currently we have Seven registered coaches, one is still an active boxer. Three of the coaches previously boxed for the club. In total we have two male coaches and Five female coaches.

We have increased participation our aim was to increase female participation, which were successful in.

We still strive to:

- Improved people's physical health and mental health and well being
- Promoted enhancement in education and lifelong learning
- Promoted community cohesion
- Worked with other agencies to help combat crime.
We have extended the opening times to include Saturday to include our women aspire together programme.

Although we have a building, our aim this year will be to secure a longer tenancy, we are currently working with Sheffield City Council who are our landlords to enable us to secure a longer lease.

Section E

Financial review

Brief statement of the charity's policy on reserves

We do not have a reserves policy

Details of any funds materially in deficit

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Our main source of funds this year has been from funding applications.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

<p style="text-align: center;">THE OBJECT OF THE CIO IS THE PROMOTION OF COMMUNITY PARTICIPATION IN HEALTHY RECREATION BY THE PROVISION OF FACILITIES FOR AMATEUR BOXING IN PARTICULAR BUT NOT EXCLUSIVELY USING BOXING AND ITS TRAINING AND TECHNIQUES AS A MEANS OF IMPROVING HEALTH AND FITNESS AND ENCOURAGING PEOPLE TO MAKE HEALTHY LIFE CHOICES.</p>

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The main activities are boxing and fitness, We do not just teach young people about boxing. We teach healthy living and healthy eating. We discuss dangers of carrying knives and the negative aspects of gang activity. The purpose of the club is to give members as sense of pride and the tools to enable them to have positive aspirations. We promote healthy living and reduce crime/antisocial behaviour, through the use of sport.

The club was established in 1990, are currently based in Spring Lane inclusion Centre, we work with young people from the local area plus the surrounding areas. We strongly believe that sport can contribute to reducing crime and contributes to community safety. The club has a strong believe that sport reduces the risk factors associated with crime. The club provides a diversionary activities that enables young people to stay safe, healthy and enables young people to make choices that are beneficial to their future. The club provides disadvantaged and vulnerable young people an opportunity to take part in positive activities.

We are based I an exclusion centre, the staff at the school use the facility in the day and we use it in the evenings. Our membership has grown, some of our members are from the local area however we have members from other areas of Sheffield and neighbouring areas such as Rotherham and Chesterfield.

Sheffield has had its share of knife related crime over the past year, we work closely with the police, youth justice service and the youth service who have all backed our recent sport not crime initiative. We have seen an increase in young people who want to train however they do not want to compete, as such we have decided that we will pilot an extra evening solely for this cohort.

We have recently taken referrals from the youth justice service and this has gone very well, one young person has stated that he would like to compete next season. Our Membership has increased and we have also had an increase in females.

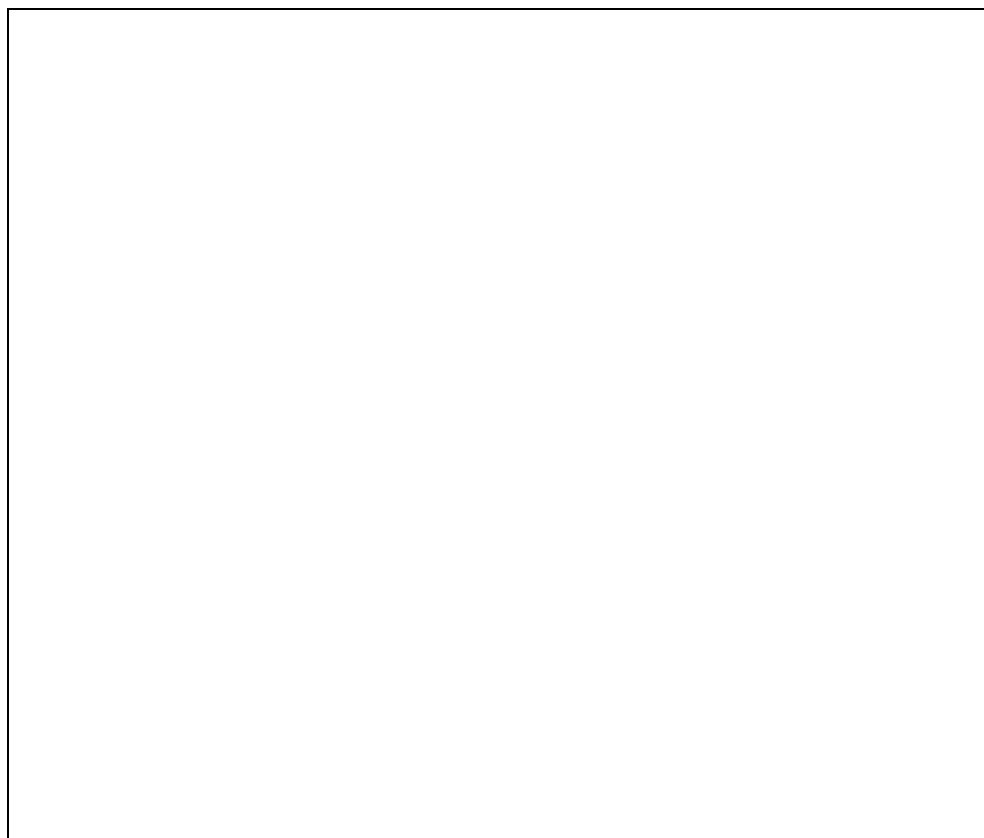

We are working closely with Sheffield Youth Justice Service and Sheffield's Leaving Care Service. We have run several successful programmes which have included, punch like a girl, this was a really successful programme for women, and we look at fitness, weight loss, healthy living and resilience. This was delivered in our gym and also in community hubs. Ronny Tucker works for the youth justice service and he has lead for knife/gun crime and violent youth violence. This has enabled us to forge valuable links with this service. The programmes that we have ran have received support from the local police inspector who supports the work that we do. Unfortunately the area where we are based has seen another spike in violent crime in particularly gun crime, unfortunately a 12 year old boy was shot, although he recovered from his injuries it highlighted a need to have a closer link with the community. We offered sessions to the community to allow the young people to train in a safe environment. It has been another successful season for females, one of our females travelled to Ireland and won the box cup competition we have also increased our female coaching staff by two. The starting age for us is 9 however we have had several people who have asked for the age group to be lowered, this is something that we may consider however it would have to be in the form of a Saturday morning club, which could be another strain on volunteer's time.

The trustees have read the guidance re the main activities, how we will deliver them and the benefit to the local community and members of the club.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Section D Achievements and performance

Summary of the main achievements of the charity during the year

We have had some success in the championships and in the female box cup, we had planned to travel to Germany for a competition however due to the pandemic we were unable to do so. During Lockdown the gym has been closed on a few occasions, we have had to deliver sessions, online in open spaces and in community halls. Due to the fact that the boxers have not been able to compete we unfortunately haven't got any success stories. We are hopeful that when the pandemic is over we can resume our activities.

Section E

Financial review

Brief statement of the charity's policy on reserves

Details of any funds materially in deficit

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Our main source of funding is still from the shows that we promote. As mentioned earlier we have an increase in females in the gym. Im happy to report that completion for women has increased, our female boxers have had a busy season this season.

Section F

Other optional information

Aspire Boxing Club is a friendly inclusive club that is run by volunteers. The club has been running for 29 years and we pride ourselves on the fact that we have managed to steer several young people away from a life of crime. We work with partner agencies to enable us to receive referrals. We inspire young people and we work with parents and schools to ensure that the young people are kept on the right path.

Section G
