The governing document is the Global Action for Fungal Infections UK constitution adopted on the 10th November 2016 and revised on 16th November 2021, which became recognised by the Charity Commission when the Charitable Incorporated Organisation was registered on the 20th December 2016.

(Appointed 28 June 2025)

The trustees are not paid for their services and are reimbursed for any expenses they claim which are incurred as a direct result of carrying out their trustee obligations.

#### Method of recruitment and appointment of trustees

In selecting individuals for appointment as a charity trustee, the charity trustees must have regard to the skills, knowledge and experience needed for the effective administration of the charity. Regular reviews of the Board structure take place particularly if there are any material changes in the operation of the charity. The Board delegates the selection of Trustees to the HR sub committee.

#### Objectives and activities

The charity's vision is a world without deaths from fungal infection:

- **to enhance outcomes** by prioritising timely diagnosis and ensuring access to treatment for fungal disease in vulnerable populations residing in low to middle income countries (LMICs);
- **presents a proven framework** which enables healthcare professionals in LMICs to save lives and reduce suffering from fungal disease;
- **actively cultivates and enables regional and local hubs and networks**, enabling them to enhance access to cost-effective and efficient diagnostics and treatments.

## Trustees' report (continued)

### For the year ended 31 December 2025

---

#### Achievements and performance

The charity was constituted on 20 December 2016 and works closely with GAFFI, a Swiss based Foundation. During the year, GAFFI granted unrestricted funds of £47,791 to GAFFI UK which is included in grants and donations.

The charity aims to increase awareness of the impact of fungal disease nationally and internationally, primarily among policy makers and health professionals, together with improving access to diagnostics for fungal disease and antifungal therapeutics, and educating healthcare professionals about fungal disease.

During the year under review the charity continued to advocate fungal disease in African countries and successfully completed a pilot programme to develop AI Fungal Disease algorithms. More detailed information may be found on the web site [www.gaffi.org](http://www.gaffi.org).

#### Financial review

The charity has kept sufficient funds for the next financial year, to meet the needs of the charity and its statutory obligations.

#### Reserves policy

It is the policy of the charity that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to between three and six month's expenditure. The trustees consider that reserves at this level will ensure that, in the event of a significant drop in funding, they will be able to continue the charity's current activities while consideration is given to ways in which additional funds may be raised. As at 31 December 2025, the charity's level of unrestricted reserves was £48,219 (2024: 34,250), which was in line with the charity's reserve policy.

#### Plans for future periods

The charity will continue to work closely with the Swiss Foundation, GAFFI, concentrating on improving awareness and general advocacy about fungal diseases. The Trustees are satisfied that GAFFI UK is currently financially self-sustainable.

The trustees' report was approved by the Board of Trustees.

---

The trustees are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources of the charity for that year.

In preparing these financial statements, the trustees are required to:

- observe the methods and principles in the Charities SORP;

They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## TRUSTEES' REPORT

### FOR THE YEAR ENDED 31 DECEMBER 2022

---

The trustees present their annual report and financial statements for the year ended 31 December 2022.

The financial statements have been prepared in accordance with the charity's governing document, the Charities Act 2011 and "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)" (effective 1 January 2019).

#### **Structure, governance and management**

The governing document is the Global Action Fund for Fungal Infections UK constitution adopted on the 10th November 2016 and revised on 16th November 2021, which became recognised by the Charity Commission when the Charitable Incorporated Organisation was registered on the 20th December 2016.

The trustees who served during the year and up to the date of signature of the financial statements were:

O Aasheim

Y Mori

Prof. P B Francioli

Prof. J L Rodriguez-Tudela

D Allmond

(Appointed 1 March 2023)

Prof. D S Perlin

(Appointed 1 March 2023)

S Ngozwana

(Appointed 10 March 2023)

The trustees are not paid for their services and are reimbursed for any expenses they claim which are incurred as a direct result of carrying out their trustee obligations.

#### **Method of recruitment and appointment of trustees**

In selecting individuals for appointment as a charity trustee, the charity trustees must have regard to the skills, knowledge and experience needed for the effective administration of the charity. Regular reviews of the Board structure take place particularly if there are any material changes in the operation of the charity. The Board delegates the selection of Trustees to the HR sub committee.

#### **Objectives and activities**

The charity's objects are to advance health of patients with serious fungal infections in particular but not exclusively by:

- Increasing awareness supported by high quality diagnostics.
- Improving the use of antifungal drugs.
- Increasing awareness of the impact of fungal disease nationally and internationally, primarily among policy makers and health professionals.
- Improving access to diagnostics for fungal disease as access to good diagnostics is the cornerstone of good medicine and clinical care.
- Improving access to appropriate and affordable antifungal therapeutics with a focus on generic agents.
- Educating healthcare professionals about fungal disease, especially diagnostic laboratories and clinicians.

The trustees have paid due regard to guidance issued by the Charity Commission in deciding what activities the charity should undertake.

#### **Public benefit**

The charity does not distinguish between the people it serves and charges no costs for its services.

# GLOBAL ACTION FOR FUNGAL INFECTIONS UK

## TRUSTEES' REPORT (CONTINUED)

**FOR THE YEAR ENDED 31 DECEMBER 2022**

---

### **Achievements and performance**

The charity was constituted on 20 December 2016 and works closely with GAFFI, a Swiss based Foundation.

The charity aims to increase awareness of the impact of fungal disease nationally and internationally, primarily among policy makers and health professionals, together with improving access to diagnostics for fungal disease and antifungal therapeutics, and educating healthcare professionals about fungal disease.

During the year under review the charity completed a detailed survey relating to the diagnostic capacity relating to fungal disease in African countries. The survey was published in December 2022 In Kigali Rwanda. The survey provides important information as part of the overall purpose of the objectives of GAFFI UK. More detailed information may be found on the web site [www.gaffi.org](http://www.gaffi.org).

### **Financial review**

The charity has kept sufficient funds for the next financial year, to meet the needs of the charity and its statutory obligations.

### Reserves policy

It is the policy of the charity that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to between three and six month's expenditure. The trustees consider that reserves at this level will ensure that, in the event of a significant drop in funding, they will be able to continue the charity's current activities while consideration is given to ways in which additional funds may be raised. As at 31 December 2022, the charity's level of unrestricted reserves was £28,325, which was in line with the charity's reserve policy.

### **Plans for future periods**

The charity will continue to work closely with the Swiss Foundation, GAFFI, concentrating on improving awareness and general advocacy in the UK about fungal diseases. It is the intention of the Trustees that GAFFI UK should aim to be financially self sustainable in the medium term.

The trustees' report was approved by the Board of Trustees.
