

sTandTall Trustee Report 2021-2022

2021 saw many people who have been abuse allowed back out in to the world and looking for help. However, because of the influx of people looking for help support services are struggling. Judicial, police and health services that are the first responders for women are overwhelmed, have shifted priorities, or are otherwise unable to help. Civil society groups are affected by lockdown or reallocation of resources. Some domestic violence shelters are full; others have had to close or have been repurposed as health centres.

We have seen a surge in views of the sTandTall site from all over the UK.

We have expanded the business offer, which consists of webinars and online training which trains employees going through abuse as well as training employees to spot signs of others who may be going through this. This has built another sustainable income stream for the charity.

Overall, we would say we have had a good year, especially considering the pandemic and crisis we find ourselves in. The business update on the training is another income stream which we will continue to push to keep up a sustainable level of funds.
