

The Effective Islamic Reach

Trustee Report for the period ending 31/01/2022

Trustees reviewed the charity's work based on post Covid 19 effect such as lack of fundraising and limited progress that was made.

They revisited previous decisions and decided to think of a way to revolutionise the poor state of fundraising in order to achieve this charity's needs. It was suggested negotiating with some mosques or supplying them TEIR's electronic material devices in exchange for allowing fundraising opportunity.

They applauded the progress that was made on the content of the electronic resources but postponed its production as its cost is too high and handing literature directly to the public post covid needs to be reviewed.

The chair was asked to look at if there are other technological possible ways such as distributing it electronically via the website.

The Effective Islamic Reach

Income Expenditure for the Financial Year Ending 31/01/2022

Income for the period	£0.00
Expenditure	<u>£350.37</u>
Surplus for the Period	-£350.37
