Achievements against objectives set	Para 1.41	**The club has been able to provide a range of sailing opportunities and new and improved equipment to members, individuals, schools and local organisations and has run training programmes this year for juniors and adults.** **Planning is ongoing as to how this offering can be expanded with the hope of reaching the widest possible audience.** **Training opportunities have been plentiful with a wide range of local target audiences and planning already underway as to how these can be continued and improved in 2026.**
Performance of fundraising activities against objectives set	Para 1.41	**In common with most activities the club has seen an increase in operating costs due mainly to increased fuel and utility costs. However, membership subscriptions and training income together with donations have met the operating costs of the club during this year.** **The use of volunteers to conduct most of the maintenance and training at the club has protected the Club from rising labour and contracting costs and the management committee have looked to spend in such a way that maximum benefit is gained from spending decisions.** **For 2025 the club proposed to raise a significant amount of funds to support the On the Water Programme through a Charity Fund Raiser Summer Ball. This event successfully raised a profit of £40k to support the programme.**
Investment performance against objectives	Para 1.41	**Not applicable**
Other		**Not applicable**

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	**The Club has experienced increases in running costs due to the current inflationary pressures and has therefore, decided to raise the membership fees again for 2025.** **The new training programme does generate money for the club, and this has, to date, ensured that the club does operate at a surplus for 2025 although this does require considerable investment to maintain equipment and keep an up-to-date boat fleet.** **The committee look to ensure that where it is essential to spend on services and equipment that this is obtained at a good price and represents value to the membership.** **The club is fortunate to have reserves and the current years charity fund raiser Which enables it to maintain and improve the sailing offerings available.**
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	**It is the Club policy to maintain the ability to run the basic running costs of the club for a minimum of 12 months on reserves which is currently set at £6k.** **An equipment replacement schedule is in place for replacing outdated boats and equipment which was started in 2024 and 2025 and will continue for 2026.** **The current restricted funds of £62k will be used to fund improvements for the On the Water project to improve access to the water for all our members and the local community in the coming years. The committee are exploring which options are available in 2026.**
Amount of reserves held	Para 1.22	**Funds held at 31/12/2025** **HSBC Current Account £11182.67** **HSBC Savings Account £73842.64** **Cash on Hand £1292.45**

Funds raised during the year have been used to finance the purchase of 1 Fusion dinghy. 3 Terra dinghies and a new safety boat and outboard motor. The Terra and Fusion dinghies are suitable for groups of younger sailors to get their first taste of sailing.** **The committee are also committed to investing in the fabric of the club and are looking at how best to improve the shoreside facilities with the On the Water project to improve access to the water at our slipway.**
A description of the principal risks facing the charity	Para 1.46	**Sailing is by its nature a weather dependent activity and there is always some uncertainty as to whether weather conditions will affect any planned event.** **The current cost of living crisis has two risks for the club 1. that members may have to make spending decisions**

		regarding whether they can continue to take part in sailing and 2. that the club is operating in an environment of increased costs of fuel, utilities and labour. **The treasurer has acted to fix costs where possible to guard against uncertainty and enable sound financial planning.** **Some rises in fees in 2026 have been considered necessary at this time but the membership fees and training fees remain at a level that we hope is competitive and represents value for money to members.** **As such the Trustees and Management Committee remain confident that, with sound management and careful control of cost, the Club can remain viable in the short to medium term.**
