

Annual report between Nov 2019 and Oct 2020

We continue as we have done in previous years.

We continue to raise funds from on line fundraising and direct public donations.

This year we have taken on some dogs that have needed extensive veterinary treatment, costing us a lot and we have had to increase our fundraising efforts.

Homing has slowed down due to covid but we continue to home as and when we can .

But home checking potential homes has thrown us extra problems, as we cannot enter some peoples homes.

But we continue to do what we can and hope to keep our doors open for welfare cases.
