

# **BETHEL GRACE PRAYER MINISTRY - TRUSTEES ANNUAL REPORT-2022**

## **OUR ACTIVITIES**

So far it has been great for few volunteers working assiduously towards our goal.

This particular year was very interesting, regarding wormwood scrub prisons, we were able to send only 12 parcels. This was due to official charges to the prison management by the ministry of justice.

We tried to work with all souls church in evangelism but could not materialise, therefore we went solo, touching lives, preaching to parents especially, since a lot of youthful problems begin from there. Even though

we confronted some difficulties, which is normal in evangelism. We will still continue to reach out irrespective of the problems we encounter.

This year 2022, we were able to distribute few items for new babies, and intend to build on that in the near future

## **YOUTH TRAINING**

This is still suspended until further notice, however we were able to organise three open youth camps successfully in July and September.

## **FINANCES**

There is still room for improvement. It has been advised that, there should be fund raising for any bereaved member or other believers funeral, instead of using money from the treasury account, which was embraced

by all, which will go a long way in doing more for the community and evangelism and the improvement of the church's finances as a whole.

## **BEREAVEMENT**

The mother of Margaret Twumasi passed away in Ghana and was supported to go and bury her as she was in financial difficulties. Three other believers funeral was also attended

## **NO ONE BEYOND HOPE**

The church is trying to keep this project going as a separate entity regarding evangelism. There is the need for training our volunteers to effectively carry out this programme.

## **MERGER**

There is a stumbling block, which still needs to be addressed, however there had been no headway regarding this issue for now.

### **WEBSITE**

It is still under review to find a sustainable website, due to our financial constraints. However it has been noted that, future fund raising on the site will be important as our activities are gradually growing.
