Open Arms Malawi

Report of the Trustees for the Year Ended 30 June 2024

The trustees who are also directors of the charity for the purposes of the Companies Act 2006, present their report with the financial statements of the charity for the year ended 30 June 2024. The trustees have adopted the provisions of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019).

Objectives and Activities of the Charity

Activities

The Charity raises funds, predominantly in the UK, and all the Charity's grants are directed to Open Arms Infant Homes (OAIH), an independent Malawi based charity which is dedicated to saving and improving the lives of orphaned and vulnerable children. They do this by working closely with families and communities to support their basic needs, like food, health, family attachments and education. They then work to empower families to generate a sustainable income through business support so that they can achieve better outcomes.

OAIH is an independent Malawi based trust. A separate team of 7 Trustees based in Malawi manages this trust and OAM remains in active dialogue with both the trust and its management.

A summary of the objects of the Charity as set out in its governing document.

The trustees shall apply the income, and at their discretion apply the whole or any part of the capital, of the trust fund for the relief of children in need in Malawi suffering from hardship and distress by reason of their social and economic circumstances as follows:

1. By the provision of accommodation for orphan and neglected children including the provision of such essential factors as love, care, food and clothing.
2. By providing hospice accommodation for orphan and neglected children suffering from terminal illness covering medical and nursing care and funeral expenses.
3. By the provision of such basic educational, social, moral and spiritual training as will enable them to live and face the challenges of life.

Public benefit that is provided by the Charity

During the year the Charity undertook fundraising activities to facilitate the provision of care to Malawi's vulnerable children, supporting them within families and communities so they can thrive. The trustees have referred to the Charity Commission's guidance on public benefit during board meetings and throughout the activities in which the Charity participates.

Achievements and Performance

The Charity's charitable grants were all directed to OAIH, which employs circa 40 people in Malawi. The OAIH people are engaged in delivering the various charitable activities as described below.

Infant and community-based care

- OAIH works closely with the Malawian Department for Social Welfare and supports its objectives of raising children within their extended families from as early as possible. This objective accords with the United Nations view that advocates the progressive elimination of institutional care and the promotion of family and community-based care.
- Up until 1st June 2024 OAIH operated two infant homes, one in Blantyre and one in Mangochi, taking referrals from the Department of Social Welfare for babies aged 0-2 years
- During the year a trial of community-based care took place in Blantyre, whereby a baby remains with their extended family and receives support at home rather than in the infant home. In the year OAIH successfully reintegrated 22 infants from Blantyre Infant Home into the community and took 17 new referrals directly onto this new programme. Over the year the Blantyre Infant Home gradually transitioned into a hub to provide support for community-based care.
- The community-based care programme is a three-year programme which has been implemented for all new referrals and transferees. The OAIH Blantyre team is focused on supporting a child's basic needs at home through to empowering their extended family to become self-sufficient by supporting income generation activities. Under the Community based care scheme OAIH provides regular monitoring visits, health advice, parenting support as well as basic supplies such as formula and clothing.
- To support these changes OAIH have restructured their team and recruited a reintegration manager and a reintegration assistant.

- OAIH continues to operate an infant home in the Mangochi region. The Mangochi region has different challenges to Blantyre and there continues to be a need for short term residential care in this area. However, as circumstances permit the plan is to roll out the community-based care programme into Mangochi. Mangochi Infant Home supported 23 children within the year.
- The move to community-based care is a significant achievement for OAIH and it has already proven to give better outcomes for children, in terms of both growth and attachments to family members. The programme also creates a sustainable way to support families into self-sufficiency and ensures that residential care is used as a last resort and for as short a time as possible. The transition to community-based care has been encouraged and supported by the Malawian government institutions and has resulted in an improved relationship.

Nursery education

- Over time OAIH has built 9 Community nursery schools which are handed over to the local communities to manage but OAIH continues to pay a salary for the teachers and provide food for the children.
- These community schools provide a much-needed daily meal and basic nursery education for children between the ages of 4-6. These schools provide local access to education and increase the chances of children completing primary school.
- OAIH will continue to work in partnership with the local community leaders in operating the nurseries and support them based on need.
- There are approximately 600 children enrolled across the 9 nursery schools.

Community outreach

- This is a legacy programme which looks after those children who have been reintegrated from the infant homes back into their families. This multi-faceted programme is designed to help children from OAIH reintegrate into their villages and settle with their families. It provides physical, emotional and financial help based on need.
- Approximately 300 children had their wellbeing monitored and received support with food, clothing, parenting, educational and medical advice in the year.
- Some of these reintegrated children were identified as needing additional support and were given a monthly sponsorship.
- This programme will gradually reduce in size as children and their families reach self-sufficiency and will ultimately be integrated into the community-based care programme described above.

Care for older children and young adults

- OAIH had 5 Family Houses which were occupied by 25 older children and young adults who had been in their care since infancy.
- It has been the long-term aim of OAIH to support these individuals into a fulfilling and independent future with their extended families. Over the last three years a programme of securing family solutions and reintegrating these individuals has been implemented.
- OAIH has supported tertiary education, vocational training, and business start-ups so that individuals can start to earn an income and become self-sufficient. OAIH provides ongoing support including financial support, basic supplies, counselling and advice which is tailored to individual needs.
- In the year all remaining individuals living within Family Houses were successfully reintegrated with their extended families and long-term plans and support packages put in place to see them into independence.
- The Family House programme has now closed, and the properties are in the process of being sold and the proceeds are being used to support the reintegration of the older children and the move to community-based care.

Future plans

- In the year OAIH has evolved significantly so that all residential based services in Blantyre are now provided within the community. This is a progressive initiative for Malawi and the change has been fully supported by the Department of Social Welfare who in turn report to the Ministry of Gender. OAIH is seen as a progressive childcare organisation and OAIH is pleased that they are now interacting with the Ministry of Gender directly.
- OAIH continues to monitor the impact of OAIH services and adapt them to fit with Malawi's needs and objectives.
- The learnings from the transition to community-based care in Blantyre have provided the wider team with new insights and next year the Mangochi team is looking to trial community-based care in Mangochi for specific cases.

- OAIH will continue to improve and build the community-based care services within the Blantyre region. OAIH's capacity to support children in need is only limited by funding.
- OAIH has identified a need to improve the financial support to families who are raising a child under their programmes. To this end they have designed a more extensive and robust Agricultural Programme. In 2024/25, OAIH will trial this sustainable agriculture programme to help families improve nutrition whilst also generate a sustainable and meaningful income for life. This pilot will see OAIH support families with growing and cultivating crops but also creating a farming business that will allow them to move permanently beyond poverty. Families will receive training, equipment and close monitoring and mentoring to establish their businesses.

OAIH leadership

The day-to-day management of OAIH is being overseen by OAIH's chair of trustees. In support of the new strategic direction, OAIH has restructured their leadership team and recruited a reintegration manager and a general manager who will take on the running of the organisation. Work will continue to build the resources needed, as well as the systems and processes to allow OAIH to run the programmes needed to achieve its charitable objectives.

Financial Review

Net income, (after raising funds expenditure of £9,446; 2022/23: £9,971), was up on the previous year at £299,340 (2022/23: £261,551). The increase reflects the hard work of the fundraising team albeit the aftermath of the pandemic and ongoing current cost of living challenges continue to adversely affect fundraising activity.

Total expenditure, (which includes grants made to OAIH), was £326,781, (2022/23: £322,089), principally reflecting a slight increase in general costs due to inflation.

The total grants to OAIH during the year were £230,412, which was approximately the same as the £230,830 paid in 2022/23.

Support costs within the UK fundraising organisation increased to £86,923 in 2023/24 from £81,228 2022/23 reflecting there is an ongoing drive by the Charity to keep costs as low as possible to maximise the money available for funding grants to OAIH.

Reserves Policy

A contribution from unrestricted reserves of £11,957, (2022/23: £56,605) was needed to fund annual activity.

Free reserves at 30 June 2024 were £140,415, (2022/23: £152,372), which will be used to fund future charitable activities.

The trustees had planned for this small reduction in reserves during the year as the expenditure incurred by OAIH was reduced to match the funding available from OAM. Going forward the position is forecast to stabilise and the grants to OAIH will be matched to annual fundraising.

At all times the trustees will maintain sufficient reserves to meet the liabilities of the Charity.

Grant Making Policy

All the Charity's grants were made to OAIH. The bulk of funds distributed to OAIH are in response to their annual plan and fund the ongoing normal operating costs. Additionally, requests may be made through the year for funds that are more capital in nature. The UK board considers each additional grant request outside of the annual plan.

Investment Policy

The Charity does not hold investments but had cash on deposit at the end of the financial year of £140,987, (2022/23: £159,244)

Nature of the Governing Document and constitution of the charity

The charity is a registered charity, number 1171686, and constituted under a CIO Foundation registered on 20 February 2017.

The methods adopted for the recruitment and appointment of new trustees

All trustees, of which there must be at least three at any time, must be appointed by special resolution at a special meeting. In selecting persons to be appointed as trustees, the trustees consider the skills required by the Charity and the skills, experience and qualifications of the candidates.

Organisational structure and decision making

The Charity is managed by an active team of trustees who bring a breadth of UK and International corporate, educational, public sector and support services experience to the group. The trustee group met formally 5 times during the year. A 4 strong part-time fundraising team, (equal to 2 full time equivalents) as well as several volunteers managed day-to-day activity from offices in Harrogate.

Risk management

Several areas of risk to the ability of the Charity to undertake its activities consistently have previously been identified.

The Charity continues to be impacted by the following:

- A reduction in fundraising income because of the aftermath of the Covid-19 pandemic and the ongoing cost of living challenges.
- Informal pegging of the Malawian Kwacha to the US\$ combined with significant continued inflation in Malawi has resulted in increased demand for funds to simply maintain operations.

The trustees continue to keep these matters under review at each board meeting and as described above, have taken action to ensure that over the next one to two years the Charity's expenditure matches its income such that an appropriate level of reserves is maintained.

Going Concern

Fundraising activity and income generation have significantly reduced since 2020 and, in their planning, the trustees have assumed that there will be no recovery in the medium term.

The grants to OAIH have been significantly reduced and the Charity's costs are being carefully monitored and managed.

There has been a small reduction in reserves in 2023/24 but, as a consequence of the actions to date and planned future actions, we are forecasting that the reserves will stabilise, and we will reach an equilibrium where net fundraising income will match the grants paid to OAIH.

The trustees will continue to ensure that the Charity's reserves are maintained at the minimum level to meet its liabilities

For these reasons, the accounts have been prepared on a going concern basis. Further details can be found in accounting policies.

Future plans

We will continue to actively engage with OAIH to deliver forward plans that OAM will be able to fund for the long term. A joint OAM/OAIH meets regularly to assess progress and discuss concerns.

We are continuing to carefully manage cash flow and balance this against the demand for funding.

Independent Examiner's Report to the Trustees of Open Arms Malawi

Independent examiner's report to the trustees of Open Arms Malawi ('the charity')

I report to the charity trustees on my examination of the accounts of the charity for the year ended 30 June 2024 which are set out on pages 7 to 15.

Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the charity's accounts carried out under section 145 of the Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

Since the charity's gross income exceeded £250,000 your examiner must be a member of a body listed in section 145 of the Act. I confirm that I am qualified to undertake the examination because I am a member of the ICAEW, which is one of the listed bodies.

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1. accounting records were not kept in respect of the charity as required by section 130 of the Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair view' which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

The notes form part of these financial statements

**Notes to the Financial Statements
for the Year Ended 30 June 2024**

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements have been prepared under the historical cost convention with items recognised at cost or transaction value unless otherwise stated in the relevant notes to these accounts. The financial statements have been prepared in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 (as updated through Update Bulletin 1) and Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and Charities Act 2011.

The financial statements have been prepared to give a 'true and fair' view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a 'true and fair view'. This departure has involved following the Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

Open Arms Malawi constitutes a public benefit entity as defined by FRS 102.

The financial statements have been prepared in £ sterling which is the functional currency of the charity and rounded to the nearest pound.

Critical accounting judgements and key sources of estimation uncertainty

Estimates and judgement are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstance.

Critical accounting estimates and assumptions:

The charity makes estimates and assumptions concerning the future. The resulting accounting estimates and assumptions will, by definition, seldom equal the related actual results. There are no estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Income

All income is recognised in the Statement of Financial Activities once the charity has entitlement to the funds, it is probable that the income will be received and the amount can be measured reliably.

Expenditure

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the amount of the obligation can be measured reliably.

It is categorised under the following headings:

Costs of raising funds; and
Expenditure on charitable activities

Irrecoverable VAT is charged as an expense against the activity for which expenditure arose.

Grants payable to third parties are within the charitable objectives. Where unconditional grants are offered, this is accrued as soon as the recipient is notified of the grant, as this gives rise to a reasonable expectation that the recipient will receive the grants. Where grants are conditional relating to performance then the grant is only accrued when any unfulfilled conditions are outside of the control of the charity.

**Notes to the Financial Statements - continued
for the Year Ended 30 June 2024**

1. ACCOUNTING POLICIES - continued

Taxation

The charity is considered to pass the tests set out in Sch. 6, para. 1 of the Finance Act 2010 and therefore it meets the definition of a charity for UK income tax purposes. Accordingly, the charity is potentially exempt from taxation in respect of income or capital gains received within categories covered by Income Tax Act 2007, Part 10 s521 - s537 or s. 256 of the Taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes. Value Added Tax is not recoverable by the charity, and is therefore included in the relevant costs in the Statement of Financial Activities.

Fund accounting

The charity maintains a general unrestricted fund which represents funds which are expendable at the discretion of the trustees in furtherance of the objects of the charity. Such funds may be held in order to finance both working capital and capital investment.

Restricted funds are funds which are to be used in accordance with specific restrictions imposed by donors or which have been raised by the charity for particular purposes. The costs of raising and administering such funds are charged against the specific fund. The aim and use of each restricted fund is set out in the notes to the financial statements.

Pension costs and other post-retirement benefits

The charity operates a defined contribution pension scheme. Contributions payable to the charity's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Debtors

Trade and other debtors are recognised at the settlement amount after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Cash at bank and in hand

Cash at bank and in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

Liabilities and provisions

Liabilities are recognised when there is an obligation at the balance sheet date as a result of a past event, it is probable that a transfer of economic benefit will be required in settlement, and the amount of the settlement can be estimated reliably. Liabilities are recognised at the amount that the charity anticipates it will pay to settle the debt or the amount it has received as advanced payments for the goods or services it must provide. Provisions are measured at the best estimate of the amounts required to settle the obligation.

Financial instruments

The charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.

Employee Benefits

When employees have rendered services to the charity, short-term employee benefits to which the employees are entitled are recognised at the undiscounted amount expected to be paid in exchange for that service.

**Notes to the Financial Statements - continued
for the Year Ended 30 June 2024**

1. ACCOUNTING POLICIES - continued

Going Concern

The Board have prepared forecasts of income and expenditure and cash flow for the period to 28 February 2026 and subjected these forecasts to sensitivity analysis which shows that they have sufficient reserves to be able to continue for the foreseeable future if grant making activity is reduced. They will continue to monitor the impact on income and reduce grant making as necessary to maintain a sufficient level of cash reserves.

The Trustees have concluded that the charity remains a going concern whilst such viable options are available to it and therefore continue to adopt the going concern basis of preparation for these financial statements.

2. DONATIONS AND LEGACIES
