Strategic Report

Achievements and Performance

Funding for the project is through Leicester City Council, and is sufficient to employ 1 full time and 3 part time members of staff. During the year we have achieved over 20,000 child visits that come through our doors, with over 400 children registered from the local area.

Financial Review (including reserves policy)

With limited resources and difficulties obtaining additional funding, it has continued to be difficult to plan or develop additional services. The charity with sound financial management and the support of the staff team and Management Committee members have continued to operate utilising its unrestricted funds.

The principle funding sources for the charity are currently by way of grant funding through Leicester City Council to enable the charity to provide open access play services. As a result of constraints, the charity will need to look for additional sources of funding to provide increased services in future years.

During the year, the charity made a deficit of £14,567 (2024: Deficit £24,449).

The trustees have examined the charity's requirements for reserves in light of the risks to the organisation. The charity currently holds reserves that will cover 9 months worth of continuity. But with the funding streams, its aim is to build it up to cover a longer period.

The Management Committee has transferred some of its MUGA Pool and Capital Replacement funds to Unrestricted Reserves. This is in light of the recent deficits for the year.

Structure, governance and management

The organisation is a charitable company limited by guarantee, incorporated on 17th January 2000 as amended by a special resolution dated 13 February 2017 and amended by a special resolution registered at Companies House on 6 March 2017. The charity was and registered as a charity on 16th March 2017. The company was established under a Memorandum of Articles which established the objects and powers of the charitable company and is governed under its Articles of Association. In the event of the company being wound up members are required to contribute an amount not exceeding £10.

The trustees have conducted a review of the major risks which the charity is exposed to. Appropriate systems and procedures have been established to mitigate the risks that the charity faces.

Internal control risks are minimised by the implementation of a financial policy and procedure for authorisation of all transactions within the project.

Procedures are in place to ensure compliance with health and safety of staff, volunteers, Trustees, service users, contractors and visitors to the project.

Structure, governance and management (Continued)

We are now routinely monitored by the city councils play development officer for all quality delivery and operational aspects of the charity.

The project currently has 10 trustees who meet bi monthly and are responsible for the strategic direction and policy of the charity. The trustees come from the local community and bring a range of skills to the board.

The manager is also responsible for ensuring that the charity delivers the services specified, that key performance indicators are met and the day to day operational management of the project. The manager has responsibility for the individual supervision of the staff team and also ensuring that the team continue to develop their skills and working practices in line with good practice.

Plans for Future Periods

The charity plans to continue the activities outlined above in the forthcoming years subject to the continuance of satisfactory funding arrangements. The charity will:

- * Seek additional resources, sponsorship and funding to fund the core staff team and reduce reliance on volunteers / capacity issues.
- * Diversify income streams and aim to ensure that no single funder accounts for more than 20% of total incoming resources.
- * Improve training for staff.
- * Conduct board skill audit and create / implement a plan for board recruitment.
- * Create a Theory of Change and a new impact management and reporting system.
- * Identify a list of needs that are currently unmet in the local area, especially for the 13+ age group, and develop / implement an activity and funding plan to meet these needs.
- * Develop a communication plan to raise the profile of the organisation locally and nationally.
- * Negotiate lease improvement or asset transfer to improve the ability of the organisation to secure capital funding.
- * Negotiate to secure additional land around the building.

The nature of the charity's objectives and principal activities detailed on page 2 of these financial statements.

The charity constitutes a public benefit entity as defined by FRS 102. The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) 16 July 2014 (as updated through Update Bulletin 1 published on 2 February 2016, the Financial issued on Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102), the Charities Act 2011, the Companies Act 2006 and UK Generally Accepted Practice as it applies from 1 January 2015.

The charity has applied Updated Bulletin 1 as published on 2 February 2016 and does not include a cash flow statement on the grounds that it is applying FRS 102 Section 1A. The financial statements have been prepared to give a "true and fair" view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a "true and fair" view. This departure has involved following the Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

c Income recognition

All incoming resources are included in the Statement of Financial Activities (SoFA) when the charity is legally entitled to the income after any performance of conditions have been met, the amount can be measured reliably and it is probable that the income will be received.

For donations to be recognised the charity will have been notified of the amounts and the settlement date in writing. If there are conditions attached to the donation and this requires a level of performance before entitlement can be obtained then income is deferred until those conditions are fully met or the fulfilment of those conditions is within the control of the charity and it is probable that they will be fulfilled.

No amount of time is included in the financial statements for volunteer time in line with SORP FRS(102). Further detail is given in the Trustees Annual Report.

Where practical, gifts in kind donated for distribution to the beneficiaries of the charity are included in stock and donations in the financial statements upon receipt. If it is impractical to assess the fair value at receipt or if the costs to undertake such a valuation outweigh any benefits then the fair value is recognised as a component of donations when it is distributed and an equivalent amount recognised as charitable expenditure.

Gifts in kind donated for resale are included at fair value, being the expected proceeds from sale less the expected cost of the sale. Where estimating the fair value is practical upon receipt it is recognised in stock and "Income from other trading activities". Upon sale, the value of stock is charged against "Income from trading activities" and the proceeds are recognised as "Income from other trading activities". Where it is impractical to fair value the items due to the volume of low value items they are not recognised in the financial statements until sold. This income is recognised within "Income from other trading activities".

Fixed assets gifts in kind are recognised when receivable and are included at fair value. They are not deferred over the life of the asset.

For legacies, entitlement is the earlier of the charity being notified of an impending distribution or the legacy being received. At this point income is recognised. On occasion, legacies will be notified to the charity however it is not possible to measure the amount expected to be distributed on these occasions, the legacy is treated as a contingent asset and disclosed.

Income from trading activities includes income earned from fundraising events and trading activities to raise funds for the charity. Income is received in exchange for supplying goods and services in order to raise funds and is recognised when entitlement has occurred.

Investment income is earned through holding assets for investment purposes such as interest. Interest income is recognised using the effective interest method. Any dividend and rent income is recognised as the charity's right to receive payment is established.

1 Accounting Policies (Continued)

1. Summary of significant accounting policies (Continued)

d Expenditure recognition

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the amount of the obligation can be measured reliably. It is categorised under the following headings:

- Cost of raising funds
- Expenditure on charitable activities
- Other expenditure represents those items not falling into the above categories.

Irrecoverable VAT is charged as an expense against the activity for which the expenditure arose.

e Support costs allocation

Support costs are those that assist the work of the charity but do not directly represent charitable activities and include office costs, governance costs and administrative costs. They are incurred directly in support of expenditure on the objects of the charity. Fundraising costs are those incurred in seeking voluntary contributions and do not include the costs of disseminating information in support of the charitable activities.

The analysis of these costs is included in note 6.

f Tangible fixed assets

As requested by the funders, no depreciation is provided on tangible fixed assets. Assets are written off at the time of purchase. This is not in accordance with requirements of Financial Reporting Standard Number 105 which requires assets to be written off over their estimated useful lives. The trustees consider that these assets will have a small residual value at the end of each financial year.

g Debtors and creditors receivable / payable within one year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in expenditure.

h Provisions

Provisions are recognised when the charity has an obligation at the balance sheet date as a result of a past event, It is probable that an outflow of economic benefits will be required in settlement and the amount can be reliably estimated.

i Leases

Rentals payable or receivable under operating leases are charged to the SoFA on a straight line basis over the period of the lease.

j Taxation

No provision has been made for taxation as the charity's charitable status renders it exempt from UK direct taxation.

k Going concern

The financial statements have been prepared on a going concern basis as the trustees believe that no material uncertainties exist. The trustees have considered the level of funds held and the expected level of income and expenditure for 12 months from authorising these financial statements. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern.

Strategic Report

Achievements and Performance

Funding for the project is through Leicester City Council, and is sufficient to employ 1 full time and 3 part time members of staff. During the year we have achieved over 20,000 child visits that come through our doors, with over 400 children registered from the local area.

Financial Review (including reserves policy)

With limited resources and difficulties obtaining additional funding, it has continued to be difficult to plan or develop additional services. The charity with sound financial management and the support of the staff team and Management Committee members have continued to operate utilising its unrestricted funds.

The principle funding sources for the charity are currently by way of grant funding through Leicester City Council to enable the charity to provide open access play services. As a result of constraints, the charity will need to look for additional sources of funding to provide increased services in future years.

During the year, the charity made a deficit of £24,449 (2023: Deficit £35,275).

The trustees have examined the charity's requirements for reserves in light of the risks to the organisation. The charity currently holds reserves that will cover 9 months worth of continuity. But with the funding streams, its aim is to build it up to cover a longer period.

The Management Committee has transferred some of its MUGA Pool and Capital Replacement funds to Unrestricted Reserves. This is in light of the recent deficits for the year.

Structure, governance and management

The organisation is a charitable company limited by guarantee, incorporated on 17th January 2000 as amended by a special resolution dated 13 February 2017 and amended by a special resolution registered at Companies House on 6 March 2017. The charity was and registered as a charity on 16th March 2017. The company was established under a Memorandum of Articles which established the objects and powers of the charitable company and is governed under its Articles of Association. In the event of the company being wound up members are required to contribute an amount not exceeding £10.

The trustees have conducted a review of the major risks which the charity is exposed to. Appropriate systems and procedures have been established to mitigate the risks that the charity faces.

Internal control risks are minimised by the implementation of a financial policy and procedure for authorisation of all transactions within the project.

Procedures are in place to ensure compliance with health and safety of staff, volunteers, Trustees, service users, contractors and visitors to the project.

Structure, governance and management (Continued)

We are now routinely monitored by the city councils play development officer for all quality delivery and operational aspects of the charity.

The project currently has 8 trustees who meet bi monthly and are responsible for the strategic direction and policy of the charity. The trustees come from the local community and bring a range of skills to the board.

The manager is also responsible for ensuring that the charity delivers the services specified, that key performance indicators are met and the day to day operational management of the project. The manager has responsibility for the individual supervision of the staff team and also ensuring that the team continue to develop their skills and working practices in line with good practice.

Plans for Future Periods

The charity plans to continue the activities outlined above in the forthcoming years subject to the continuance of satisfactory funding arrangements. The charity will:

- * Seek additional resources, sponsorship and funding to fund the core staff team and reduce reliance on volunteers / capacity issues.
- * Diversify income streams and aim to ensure that no single funder accounts for more than 20% of total incoming resources.
- * Improve training for staff.
- * Conduct board skill audit and create / implement a plan for board recruitment.
- * Create a Theory of Change and a new impact management and reporting system.
- * Identify a list of needs that are currently unmet in the local area, especially for the 13+ age group, and develop / implement an activity and funding plan to meet these needs.
- * Develop a communication plan to raise the profile of the organisation locally and nationally.
- * Negotiate lease improvement or asset transfer to improve the ability of the organisation to secure capital funding.
- * Negotiate to secure additional land around the building.

1 Accounting Policies

1. Summary of significant accounting policies

a General information and basis of preparation

Mowmacre Young Peoples Play & Development Association is a registered charity and also a company limited by guarantee. In the event of the charity being wound up, the liability in respect of the guarantee is limited to £10 per member of the Charity. The address of the charity's head office is given on page 1 of these financial statements. The nature of the charity's objectives and principal activities detailed on page 2 of these financial statements.

The charity constitutes a public benefit entity as defined by FRS 102. The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) 16 July 2014 (as updated through Update Bulletin 1 published on 2 February 2016, the Financial issued on Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102), the Charities Act 2011, the Companies Act 2006 and UK Generally Accepted Practice as it applies from 1 January 2015.

The charity has applied Updated Bulletin 1 as published on 2 February 2016 and does not include a cash flow statement on the grounds that it is applying FRS 102 Section 1A

The financial statements have been prepared to give a "true and fair" view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a "true and fair" view. This departure has involved following the Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

The financial statements are prepared on a going concern basis under the historical cost convention, modified to include certain items at fair value where considered necessary. The financial statements are presented in sterling which is the functional currency of the charity and rounded to the nearest pound.

b Funds

Unrestricted funds are available for use at the discretion of the trustees in furtherance of the general objectives of the charity and which have not been designated for other purposes.

Designated funds comprise unrestricted funds that have been set aside by the trustees for particular purposes. The aim and use of each designated fund is set out in the notes to the financial statements.

Restricted funds are funds which are to be used in accordance with specific restrictions imposed by donors or which have been raised by the charity for particular purposes. 1 Accounting Policies (Continued)

1. Summary of significant accounting policies (Continued)

c Income recognition

All incoming resources are included in the Statement of Financial Activities (SoFA) when the charity is legally entitled to the income after any performance of conditions have been met, the amount can be measured reliably and it is probable that the income will be received.

For donations to be recognised the charity will have been notified of the amounts and the settlement date in writing. If there are conditions attached to the donation and this requires a level of performance before entitlement can be obtained then income is deferred until those conditions are fully met or the fulfilment of those conditions is within the control of the charity and it is probable that they will be fulfilled.

No amount of time is included in the financial statements for volunteer time in line with SORP FRS(102). Further detail is given in the Trustees Annual Report.

Where practical, gifts in kind donated for distribution to the beneficiaries of the charity are included in stock and donations in the financial statements upon receipt. If it is impractical to assess the fair value at receipt or if the costs to undertake such a valuation outweigh any benefits then the fair value is recognised as a component of donations when it is distributed and an equivalent amount recognised as charitable expenditure.

Gifts in kind donated for resale are included at fair value, being the expected proceeds from sale less the expected cost of the sale. Where estimating the fair value is practical upon receipt it is recognised in stock and "Income from other trading activities". Upon sale, the value of stock is charged against "Income from trading activities" and the proceeds are recognised as "Income from other trading activities". Where it is impractical to fair value the items due to the volume of low value items they are not recognised in the financial statements until sold. This income is recognised within "Income from other trading activities".

Fixed assets gifts in kind are recognised when receivable and are included at fair value. They are not deferred over the life of the asset.

For legacies, entitlement is the earlier of the charity being notified of an impending distribution or the legacy being received. At this point income is recognised. On occasion, legacies will be notified to the charity however it is not possible to measure the amount expected to be distributed on these occasions, the legacy is treated as a contingent asset and disclosed.

Income from trading activities includes income earned from fundraising events and trading activities to raise funds for the charity. Income is received in exchange for supplying goods and services in order to raise funds and is recognised when entitlement has occurred.

Investment income is earned through holding assets for investment purposes such as interest. Interest income is recognised using the effective interest method. Any dividend and rent income is recognised as the charity's right to receive payment is established.

1 Accounting Policies (Continued)

1. Summary of significant accounting policies (Continued)

d Expenditure recognition

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the amount of the obligation can be measured reliably. It is categorised under the following headings:

- Cost of raising funds
- Expenditure on charitable activities
- Other expenditure represents those items not falling into the above categories.

Irrecoverable VAT is charged as an expense against the activity for which the expenditure arose.

e Support costs allocation

Support costs are those that assist the work of the charity but do not directly represent charitable activities and include office costs, governance costs and administrative costs. They are incurred directly in support of expenditure on the objects of the charity.

Fundraising costs are those incurred in seeking voluntary contributions and do not include the costs of disseminating information in support of the charitable activities.

The analysis of these costs is included in note 6.

f Tangible fixed assets

As requested by the funders, no depreciation is provided on tangible fixed assets. Assets are written off at the time of purchase. This is not in accordance with requirements of Financial Reporting Standard Number 105 which requires assets to be written off over their estimated useful lives. The trustees consider that these assets will have a small residual value at the end of each financial year.

g Debtors and creditors receivable / payable within one year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in expenditure.

h Provisions

Provisions are recognised when the charity has an obligation at the balance sheet date as a result of a past event, It is probable that an outflow of economic benefits will be required in settlement and the amount can be reliably estimated.

i Leases

Rentals payable or receivable under operating leases are charged to the SoFA on a straight line basis over the period of the lease.

j Taxation

No provision has been made for taxation as the charity's charitable status renders it exempt from UK direct taxation.

k Going concern

The financial statements have been prepared on a going concern basis as the trustees believe that no material uncertainties exist. The trustees have considered the level of funds held and the expected level of income and expenditure for 12 months from authorising these financial statements. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern.

Strategic Report

Achievements and Performance

Funding for the project is through Leicester City Council, and is sufficient to employ 1 full time and 3 part time members of staff. During the year we have achieved over 10,000 service users that come through our doors, with 407 children registered from the local area.

Financial Review (including reserves policy)

With limited resources and difficulties obtaining additional funding, it has continued to be difficult to plan or develop additional services. The charity with sound financial management and the support of the staff team and Management Committee members have no deficit to carry over.

The principle funding sources for the charity are currently by way of grant funding through Leicester City Council to enable the charity to provide open access play services. As a result of constraints, the charity will need to look for additional sources of funding to provide increased services in future years.

During the year, the charity made a deficit of £35,275 (2022: surplus £19,565).

The trustees have examined the charity's requirements for reserves in light of the risks to the organisation. The charity currently holds reserves that will cover 9 months worth of continuity. But with the funding streams, it's aim is to build it up to cover a longer period.

It is worth noting that the Management Committee has set up an unrestricted designated fund for a "Multi Use Games Area" MUGA Pool. The amount of £80,000 has been designated.

Structure, governance and management

The organisation is a charitable company limited by guarantee, incorporated on 17th January 2000 as amended by a special resolution dated 13 February 2017 and amended by a special resolution registered at Companies House on 6 March 2017. The charity was and registered as a charity on 16th March 2017. The company was established under a Memorandum of Articles which established the objects and powers of the charitable company and is governed under its Articles of Association. In the event of the company being wound up members are required to contribute an amount not exceeding £10.

The trustees have conducted a review of the major risks which the charity is exposed to. Appropriate systems and procedures have been established to mitigate the risks that the charity faces.

Internal control risks are minimised by the implementation of a financial policy and procedure for authorisation of all transactions within the project.

Procedures are in place to ensure compliance with health and safety of staff, volunteers, Trustees, service users, contractors and visitors to the project.

Structure, governance and management (Continued)

We are now routinely monitored by the city councils play development officer for all quality delivery and operational aspects of the charity.

The project currently has 7 trustees who meet bi monthly and are responsible for the strategic direction and policy of the charity. The trustees come from the local community and bring a range of skills to the board.

The manager is also responsible for ensuring that the charity delivers the services specified, that key performance indicators are met and the day to day operational management of the project. The manager has responsibility for the individual supervision of the staff team and also ensuring that the team continue to develop their skills and working practices in line with good practice.

Plans for Future Periods

The charity plans to continue the activities outlined above in the forthcoming years subject to the continuance of satisfactory funding arrangements. The charity will:

- * Seek additional resources, sponsorship and funding to fund the core staff team and reduce reliance on volunteers / capacity issues.
- * Diversify income streams and aim to ensure that no single funder accounts for more than 20% of total incoming resources.
- * Improve training for staff.
- * Conduct board skill audit and create / implement a plan for board recruitment.
- * Create a Theory of Change and a new impact management and reporting system.
- * Identify a list of needs that are currently unmet in the local area, especially for the 13+ age group, and develop / implement an activity and funding plan to meet these needs.
- * Develop a communication plan to raise the profile of the organisation locally and nationally.
- * Negotiate lease improvement or asset transfer to improve the ability of the organisation to secure capital funding.
- * Negotiate to secure additional land around the building.
- * Secure capital funding to carry out refurbishment and improvements to the building and grounds. Seek capital for additional sports provision.
- * Investigate the potential self build on the play site including visits to exemplar organisations.

The charity constitutes a public benefit entity as defined by FRS 102. The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) 16 July 2014 (as updated through Update Bulletin 1 published on 2 February 2016, the Financial issued on Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102), the Charities Act 2011, the Companies Act 2006 and UK Generally Accepted Practice as it applies from 1 January 2015.

The charity has applied Updated Bulletin 1 as published on 2 February 2016 and does not include a cash flow statement on the grounds that it is applying FRS 102 Section 1A

The financial statements have been prepared to give a "true and fair" view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a "true and fair" view. This departure has involved following the Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

1. Summary of significant accounting policies (Continued)

c Income recognition

All incoming resources are included in the Statement of Financial Activities (SoFA) when the charity is legally entitled to the income after any performance of conditions have been met, the amount can be measured reliably and it is probable that the income will be received.

For donations to be recognised the charity will have been notified of the amounts and the settlement date in writing. If there are conditions attached to the donation and this requires a level of performance before entitlement can be obtained then income is deferred until those conditions are fully met or the fulfilment of those conditions is within the control of the charity and it is probable that they will be fulfilled.

No amount of time is included in the financial statements for volunteer time in line with SORP FRS(102). Further detail is given in the Trustees Annual Report.

Where practical, gifts in kind donated for distribution to the beneficiaries of the charity are included in stock and donations in the financial statements upon receipt. If it is impractical to assess the fair value at receipt or if the costs to undertake such a valuation outweigh any benefits then the fair value is recognised as a component of donations when it is distributed and an equivalent amount recognised as charitable expenditure.

Gifts in kind donated for resale are included at fair value, being the expected proceeds from sale less the expected cost of the sale. Where estimating the fair value is practical upon receipt it is recognised in stock and "Income from other trading activities". Upon sale, the value of stock is charged against "Income from trading activities" and the proceeds are recognised as "Income from other trading activities". Where it is impractical to fair value the items due to the volume of low value items they are not recognised in the financial statements until sold. This income is recognised within "Income from other trading activities".

Fixed assets gifts in kind are recognised when receivable and are included at fair value. They are not deferred over the life of the asset.

For legacies, entitlement is the earlier of the charity being notified of an impending distribution or the legacy being received. At this point income is recognised. On occasion, legacies will be notified to the charity however it is not possible to measure the amount expected to be distributed on these occasions, the legacy is treated as a contingent asset and disclosed.

Income from trading activities includes income earned from fundraising events and trading activities to raise funds for the charity. Income is received in exchange for supplying goods and services in order to raise funds and is recognised when entitlement has occurred.

Investment income is earned through holding assets for investment purposes such as interest. Interest income is recognised using the effective interest method. Any dividend and rent income is recognised as the charity's right to receive payment is established.

1 Accounting Policies (Continued)

1. Summary of significant accounting policies (Continued)

d Expenditure recognition

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the amount of the obligation can be measured reliably. It is categorised under the following headings:

- Cost of raising funds
- Expenditure on charitable activities
- Other expenditure represents those items not falling into the above categories.

Irrecoverable VAT is charged as an expense against the activity for which the expenditure arose.

e Support costs allocation

Support costs are those that assist the work of the charity but do not directly represent charitable activities and include office costs, governance costs and administrative costs. They are incurred directly in support of expenditure on the objects of the charity.

Fundraising costs are those incurred in seeking voluntary contributions and do not include the costs of disseminating information in support of the charitable activities.

The analysis of these costs is included in note 6.

f Tangible fixed assets

As requested by the funders, no depreciation is provided on tangible fixed assets. Assets are written off at the time of purchase. This is not in accordance with requirements of Financial Reporting Standard Number 105 which requires assets to be written off over their estimated useful lives. The trustees consider that these assets will have a small residual value at the end of each financial year.

g Debtors and creditors receivable / payable within one year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in expenditure.

h Provisions

Provisions are recognised when the charity has an obligation at the balance sheet date as a result of a past event, It is probable that an outflow of economic benefits will be required in settlement and the amount can be reliably estimated.

i Leases

Rentals payable or receivable under operating leases are charged to the SoFA on a straight line basis over the period of the lease.

j Taxation

No provision has been made for taxation as the charity's charitable status renders it exempt from UK direct taxation.

k Going concern

The financial statements have been prepared on a going concern basis as the trustees believe that no material uncertainties exist. The trustees have considered the level of funds held and the expected level of income and expenditure for 12 months from authorising these financial statements. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern.

Strategic Report

Achievements and Performance

Funding for the project is through Leicester City Council, and is sufficient to employ 1 full time and 3 part time members of staff. During the year we have achieved over 10,000 service users that come through our doors, with 414 children registered from the local area.

Financial Review (including reserves policy)

With limited resources and difficulties obtaining additional funding, it has continued to be difficult to plan or develop additional services. The charity with sound financial management and the support of the staff team and Management Committee members have no deficit to carry over.

The principle funding sources for the charity are currently by way of grant funding through Leicester City Council to enable the charity to provide open access play services. As a result of constraints, the charity will need to look for additional sources of funding to provide increased services in future years.

During the year, the charity made a surplus of £19,565 (2021: surplus £56,230).

The trustees have examined the charity's requirements for reserves in light of the risks to the organisation. The charity currently holds reserves that will cover 9 months worth of continuity. But with the funding streams, it's aim is to build it up to cover a longer period.

It is worth noting that the Management Committee has set up an unrestricted designated fund for a "Multi Use Games Area" MUGA Pool. The amount of £80,000 has been designated.

Structure, governance and management

The organisation is a charitable company limited by guarantee, incorporated on 17th January 2000 as amended by a special resolution dated 13 February 2017 and amended by a special resolution registered at Companies House on 6 March 2017. The charity was and registered as a charity on 16th March 2017. The company was established under a Memorandum of Articles which established the objects and powers of the charitable company and is governed under its Articles of Association. In the event of the company being wound up members are required to contribute an amount not exceeding £10.

The trustees have conducted a review of the major risks which the charity is exposed to. Appropriate systems and procedures have been established to mitigate the risks that the charity faces.

Internal control risks are minimised by the implementation of a financial policy and procedure for authorisation of all transactions within the project.

Procedures are in place to ensure compliance with health and safety of staff, volunteers, Trustees, service users, contractors and visitors to the project.

The manager has responsibility for the individual supervision of the staff team and also ensuring that the team continue to develop their skills and working practices in line with good practice.

Plans for Future Periods

The charity plans to continue the activities outlined above in the forthcoming years subject to the continuance of satisfactory funding arrangements. The charity will:

1 Accounting Policies (Continued)

1. Summary of significant accounting policies (Continued)

c Income recognition

All incoming resources are included in the Statement of Financial Activities (SoFA) when the charity is legally entitled to the income after any performance of conditions have been met, the amount can be measured reliably and it is probable that the income will be received.

For donations to be recognised the charity will have been notified of the amounts and the settlement date in writing. If there are conditions attached to the donation and this requires a level of performance before entitlement can be obtained then income is deferred until those conditions are fully met or the fulfilment of those conditions is within the control of the charity and it is probable that they will be fulfilled.

No amount of time is included in the financial statements for volunteer time in line with SORP FRS(102). Further detail is given in the Trustees Annual Report.

Where practical, gifts in kind donated for distribution to the beneficiaries of the charity are included in stock and donations in the financial statements upon receipt. If it is impractical to assess the fair value at receipt or if the costs to undertake such a valuation outweigh any benefits then the fair value is recognised as a component of donations when it is distributed and an equivalent amount recognised as charitable expenditure.

Gifts in kind donated for resale are included at fair value, being the expected proceeds from sale less the expected cost of the sale. Where estimating the fair value is practical upon receipt it is recognised in stock and "Income from other trading activities". Upon sale, the value of stock is charged against "Income from trading activities" and the proceeds are recognised as "Income from other trading activities". Where it is impractical to fair value the items due to the volume of low value items they are not recognised in the financial statements until sold. This income is recognised within "Income from other trading activities".

Fixed assets gifts in kind are recognised when receivable and are included at fair value. They are not deferred over the life of the asset.

For legacies, entitlement is the earlier of the charity being notified of an impending distribution or the legacy being received. At this point income is recognised. On occasion, legacies will be notified to the charity however it is not possible to measure the amount expected to be distributed on these occasions, the legacy is treated as a contingent asset and disclosed.

Income from trading activities includes income earned from fundraising events and trading activities to raise funds for the charity. Income is received in exchange for supplying goods and services in order to raise funds and is recognised when entitlement has occurred.

Investment income is earned through holding assets for investment purposes such as interest. Interest income is recognised using the effective interest method. Any dividend and rent income is recognised as the charity's right to receive payment is established.

1 Accounting Policies (Continued)

1. Summary of significant accounting policies (Continued)

d Expenditure recognition

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the amount of the obligation can be measured reliably. It is categorised under the following headings:

- Cost of raising funds
- Expenditure on charitable activities
- Other expenditure represents those items not falling into the above categories.

Irrecoverable VAT is charged as an expense against the activity for which the expenditure arose.

e Support costs allocation

Support costs are those that assist the work of the charity but do not directly represent charitable activities and include office costs, governance costs and administrative costs. They are incurred directly in support of expenditure on the objects of the charity.

Fundraising costs are those incurred in seeking voluntary contributions and do not include the costs of disseminating information in support of the charitable activities.

The analysis of these costs is included in note 6.

f Tangible fixed assets

As requested by the funders, no depreciation is provided on tangible fixed assets. Assets are written off at the time of purchase. This is not in accordance with requirements of Financial Reporting Standard Number 105 which requires assets to be written off over their estimated useful lives. The trustees consider that these assets will have a small residual value at the end of each financial year.

g Debtors and creditors receivable / payable within one year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in expenditure.

j Taxation

No provision has been made for taxation as the charity's charitable status renders it exempt from UK direct taxation.

k Going concern

The financial statements have been prepared on a going concern basis as the trustees believe that no material uncertainties exist. The trustees have considered the level of funds held and the expected level of income and expenditure for 12 months from authorising these financial statements. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern.

- 2 Advancing education
- 3 Relieving of unemployment
- 4 Providing recreational and leisure time activity in the interests of social welfare for them with a view to improving their conditions of life

Strategic Report

Achievements and Performance

Funding for the project is through Leicester City Council, and is sufficient to employ 1 full time and 3 part time members of staff. During the year we have achieved over 10,000 service users that come through our doors, with 414 children registered from the local area.

Financial Review (including reserves policy)

With limited resources and difficulties obtaining additional funding, it has continued to be difficult to plan or develop additional services. The charity with sound financial management and the support of the staff team and Management Committee members have no deficit to carry over.

The principle funding sources for the charity are currently by way of grant funding through Leicester City Council to enable the charity to provide open access play services. As a result of constraints, the charity will need to look for additional sources of funding to provide increased services in future years.

During the year, the charity made a surplus of £56,230 (2020: surplus £467)

The trustees have examined the charity's requirements for reserves in light of the risks to the organisation. The charity currently holds reserves that will cover 9 months worth of continuity. But with the funding streams, it's aim is to build it up to cover a longer period.

It is noting that the Management Committee has set up an unrestricted designated fund for a "Multi Use Games Area" MUGA Pool. The amount of £80,000 has been designated.

Structure, governance and management

The organisation is a charitable company limited by guarantee, incorporated on 17th January 2000 as amended by a special resolution dated 13 February 2017 and amended by a special resolution registered at Companies House on 6 March 2017. The charity was and registered as a charity on 16th March 2017. The company was established under a Memorandum of Articles which established the objects and powers of the charitable company and is governed under its Articles of Association. In the event of the company being wound up members are required to contribute an amount not exceeding £10.

The trustees have conducted a review of the major risks which the charity is exposed to. Appropriate systems and procedures have been established to mitigate the risks that the charity faces.

Internal control risks are minimised by the implementation of a financial policy and procedure for authorisation of all transactions within the project.

Procedures are in place to ensure compliance with health and safety of staff, volunteers, Trustees, service users, contractors and visitors to the project.

Structure, governance and management (Continued)

We are now routinely monitored by the city councils play development officer for all quality delivery and operational aspects of the charity.

The project currently has 7 trustees who meet bi monthly and are responsible for the strategic direction and policy of the charity. The trustees come from the local community and bring a range of skills to the board.

The manager is also responsible for ensuring that the charity delivers the services specified, that key performance indicators are met and the day to day operational management of the project. The manager has responsibility for the individual supervision of the staff team and also ensuring that the team continue to develop their skills and working practices in line with good practice.

Plans for Future Periods

The charity plans to continue the activities outlined above in the forthcoming years subject to the continuance of satisfactory funding arrangements. The charity will:

- * Seek additional resources, sponsorship and funding to fund the core staff team and reduce reliance on volunteers / capacity issues.
- * Diversify income streams and aim to ensure that no single funder accounts for more than 20% of total incoming resources.
- * Improve training for staff.
- * Conduct board skill audit and create / implement a plan for board recruitment.
- * Create a Theory of Change and a new impact management and reporting system.
- * Identify a list of needs that are currently unmet in the local area, especially for the 13+ age group, and develop / implement an activity and funding plan to meet these needs.
- * Develop a communication plan to raise the profile of the organisation locally and nationally.
- * Negotiate lease improvement or asset transfer to improve the ability of the organisation to secure capital funding.

This departure has involved following the Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

1 Accounting Policies (Continued)

1. Summary of significant accounting policies (Continued)

c Income recognition

All incoming resources are included in the Statement of Financial Activities (SoFA) when the charity is legally entitled to the income after any performance of conditions have been met, the amount can be measured reliably and it is probable that the income will be received.

For donations to be recognised the charity will have been notified of the amounts and the settlement date in writing. If there are conditions attached to the donation and this requires a level of performance before entitlement can be obtained then income is deferred until those conditions are fully met or the fulfilment of those conditions is within the control of the charity and it is probable that they will be fulfilled.

No amount of time is included in the financial statements for volunteer time in line with SORP FRS(102). Further detail is given in the Trustees Annual Report.

Where practicable, gifts in kind donated for distribution to the beneficiaries of the charity are included in stock and donations in the financial statements upon receipt. If it is impracticable to assess the fair value at receipt or if the costs to undertake such a valuation outweigh any benefits then the fair value is recognised as a component of donations when it is distributed and an equivalent amount recognised as charitable expenditure.

Gifts in kind donated for resale are included at fair value, being the expected proceeds from sale less the expected cost of the sale. Where estimating the fair value is practicable upon receipt it is recognised in stock and "Income from other trading activities". Upon sale, the value of stock is charged against "Income from trading activities" and the proceeds are recognised as "Income from other trading activities". Where it is impracticable to fair value the items due to the volume of low value items they are not recognised in the financial statements until sold. This income is recognised within "Income from other trading activities".

Fixed assets gifts in kind are recognised when receivable and are included at fair value. They are not deferred over the life of the asset.

For legacies, entitlement is the earlier of the charity being notified of an impending distribution or the legacy being received. At this point income is recognised. On occasion, legacies will be notified to the charity however it is not possible to measure the amount expected to be distributed on these occasions, the legacy is treated as a contingent asset and disclosed.

Income from trading activities includes income earned from fundraising events and trading activities to raise funds for the charity. Income is received in exchange for supplying goods and services in order to raise funds and is recognised when entitlement has occurred.

Investment income is earned through holding assets for investment purposes such as interest. Interest income is recognised using the effective interest method. Any dividend and rent income is recognised as the charity's right to receive payment is established.

1. Summary of significant accounting policies (Continued)

d Expenditure recognition

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the amount of the obligation can be measured reliably. It is categorised under the following headings:

- Cost of raising funds
- Expenditure on charitable activities
- Other expenditure represents those items not falling into the above categories.

Irrecoverable VAT is charged as an expense against the activity for which the expenditure arose.

e Support costs allocation

Support costs are those that assist the work of the charity but do not directly represent charitable activities and include office costs, governance costs and administrative costs. They are incurred directly in support of expenditure on the objects of the charity.

Fundraising costs are those incurred in seeking voluntary contributions and do not include the costs of disseminating information in support of the charitable activities.

The analysis of these costs is included in note 6.

f Tangible fixed assets

As requested by the funders, no depreciation is provided on tangible fixed assets. Assets are written off at the time of purchase. This is not in accordance with requirements of Financial Reporting Standard Number 105 which requires assets to be written off over their estimated useful lives. The trustees consider that these assets will have a small residual value at the end of each financial year.

g Debtors and creditors receivable / payable within one year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in expenditure.

h Provisions

Provisions are recognised when the charity has an obligation at the balance sheet date as a result of a past event, It is probable that an outflow of economic benefits will be required in settlement and the amount can be reliably estimated.

i Leases

Rentals payable or receivable under operating leases are charged to the SoFA on a straight line basis over the period of the lease.

j Taxation

No provision has been made for taxation as the charity's charitable status renders it exempt from UK direct taxation.

k Going concern

The financial statements have been prepared on a going concern basis as the trustees believe that no material uncertainties exist. The trustees have considered the level of funds held and the expected level of income and expenditure for 12 months from authorising these financial statements. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern.
