FOR ENGLAND AND WALES

Trustees' Annual Report for the period

From 24th March 2023

To 23rd March 2024

Charity name: Stand Up and Build Project

Charity registration number: 1172818

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	For the public benefit, the advancement of education in the subject of construction, in particular by providing and assisting in the provision of funding, equipment and facilities for education at Stand Up and Build Technical School in Muyinga, Burundi.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	<p>The charity has led the following main activities in relation to public benefit:</p> <ul style="list-style-type: none">- Providing grants to enable improved education at Stand Up and Build Technical School of Muyinga- Reviewing progress on the schools development plan- Securing grant funding, e.g. from the Geoff Herrington Foundation to enable grants for increased teacher support (to improve coverage of the syllabus) and a hardship fund (to help the most needy students attend the school by subsidising an element of their school fees, education materials, uniform, travel expenses and maintenance allowance costs)- Providing grants to fund internet access and hence enable both the teachers to research material for their lessons and provide students with access to technical information that helps them to use Computer Aided Design software

		<ul style="list-style-type: none"> - Development of Masterplan for the campus of Stand Up and Build Technical School of Muyinga with 'pro bono' support from Arup Consulting. - Further engagement with the school pupils, teachers, headmaster and technical director to understand progress at the school, seek feedback and ideas on the schools development and help to prioritise future grant decisions
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	The Trustees have taken the Charity Commissions guidance into account when making decisions in regard of the charities' contribution to public benefit. They remain focused on maximising the use of charity funds for the advancement of construction education at Stand Up and Build Technical School of Muyinga.

Policy on grant making	Para 1.38	<p>Grant applications are made by the team in Muyinga through the Secretary of the Anglican Church of Muyinga who is accountable to the Anglican Bishop.</p> <p>These applications have two 'triggers':</p> <ol style="list-style-type: none"> 1) They result from our visits to Muyinga including the focus groups held with key stakeholders. These are analysed and developed into a prioritised list that is then further reviewed by the UK Trustees. 2) Trustees encourage the team in Muyinga to identify any other arising need that emerges between our annual review visits. This might be driven by an external factor such as a weather event or disease. <p>Applications are considered by the UK Trustees who will seek clarification on anything that they do not understand. Once the Trustees are happy with the proposal and that sufficient funds are available, a transfer is made through the appropriate banks to the receiving account in Muyinga.</p>

		<p>Progress checks are conducted through the sending of photographs to prove completion, physical reviews during our visits to Muyinga including reviews of the accounting information.</p>
<p>Policy on social investment including program related investment</p>	<p>Para 1.38</p>	<p>We invest in the capital infrastructure of Stand Up and Build Technical School to help provide the infrastructure that enables students to develop their construction skills. This enables the students to win construction-related jobs and support their families. The construction projects provide housing, commercial properties, healthcare buildings, domestic / irrigation water systems and transportation systems that are essential for the communities and country to progress both economically and socially.</p> <p>We also provide support for operational costs that underpin the above (such as provision of internet access and maintenance of buildings).</p> <p>Our grants are conditional – they support the inclusion of pupils regardless of gender, tribe, religion or physical ability.</p> <p>Through the support of a Geoff Herrington Foundation grant, we have been able to provide grant assistance to the poorest students at the school in the form of a hardship grant. This has helped to subsidise an element of their school fees, education materials, uniform, travel expenses and maintenance allowance costs.</p> <p>Without this assistance there would be an increased risk that students would drop out of their construction education, or even tragically die as a result of a lack of funds to pay for medical treatment (as happened to Leonard Miburo who died on December 27th 2019 following an undiagnosed illness).</p>
<p>Contribution made by volunteers</p>	<p>Para 1.38</p>	<p>Our trustees are all volunteers – donating their time, skills and experience to help the charity.</p> <p>During the year we have also been fortunate to have continued support from Tony Buckley and Lesley Fenemore who have provided advice and helped to develop fundraising ideas since visiting Burundi in early 2019.</p> <p>We are proud that the charity has a low overhead cost which means that only a small part of the donated funds are used to cover overheads such as our insurance and bank account costs.</p> <p>The Trustees are keen to keep an 'open mind' on employment of future fundraisers if a clear</p>

		<p>business case can be established. Such measures may be necessary to help us maximise the impact we can have through further development of the School's campus.</p> <p>One of our trustees (Nicola Buckley) and a volunteer (Lesley Fenemore) have established a Community Interest Company CIC that has committed to donate their profit to Stand Up and Build Project. We are hopeful that this will provide funding in future years once they have established their business and started to make a profit.</p>

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>During this financial year the charity has provided grants to support the school in the following achievements (also see Appendix 1 for details of pupil numbers, hardship fund distribution, teacher support, end of year results and graduate success after graduation).</p> <ul style="list-style-type: none"> - 97 pupils completed the year, a 10% increase on the previous year. - 3 males and 1 female dropped out of the school in the year. - 16 male pupils and 6 females graduated from SBTS, this was the best ever pass rate. - Internet access was provided to enable teachers to prepare their lessons and students to research and access on-line learning - A hardship fund provided students from poor families with much needed funding to enable them to continue studying and avoid 'dropping out' of the education system - Voluntary teachers were provided with funds to pay for their transportation and a nominal wage for their work at the school (providing improved coverage of the syllabus) <p>We are pleased to see that graduates of the school are continue to be successful in gaining employment and increasing their personal development through further studies. This gives us increasing confidence in a strong demand for construction skills. See Appendix 1 for details.</p> <p>Development of Masterplan – for improving the long term educational outcomes at SBTS</p> <p>Development of the school 'Masterplan' based upon information captured during the 2020 visit by Arup (a UK-based architectural business with extensive experience of working in difficult situations such as post-disaster relief). This was shared with the UK trustees, including options for consideration. The aim was to further develop the design once the situation had stabilised following the Covid pandemic which continued to hamper progress and fundraising during the 2021/21 year. Unfortunately this work has been hampered by</p>

		<p>changes in the Arup team and their work priorities.</p> <p>Outcomes from Grant Investment</p> <p>Progress at the school has been good, with grant funding enabling continuation of wifi connectivity for Computer Aided Design training in the teacher preparation building.</p> <p>Laptops would be of use to all teachers – allowing them to prepare for lessons and reducing the need for hardcopies of books (which are still not available from the government). Currently the 13 books are on USB sticks and stored on the computer drives.</p> <p>Student Support Through the Hardship Fund</p> <p>Grant funding provided by Geoff Herrington Foundation has continued to make an impact in supporting students from poor families and improving educational outcomes through provision of additional teacher support and internet access.</p> <p>Teacher Support Fund</p> <p>Grant funding from the Geoff Herrington Foundation has continued to provide additional part-time teacher support. This is essential for the school to increase their coverage of the syllabus since the existing full time teaching staff do not have the knowledge to cover it to the required depth.</p>

Achievements against objectives set	Para 1.41	<p>Geoff Herrington Foundation have been very pleased with the results we have achieved with their grant funding for student hardship relief, additional teacher support and internet access over the past 4 years. They agreed to continue this work and donated a further final payment of £6,400</p> <p>Rugby Rotary Club donated £1,500 towards the building of a new toilet following a presentation by Tim Fenemore.</p> <p>There is potential to engage UK schools and communities. We continue to liaise with Moordown St Johns School in Bournemouth.</p>
-------------------------------------	-----------	--

		Regular givers have also donated significant funds in the period and continue to provide a steady income to operate the charity.
Performance of fundraising activities against objectives set	Para 1.41	<p>Our fundraising ability for capital projects continues to be a concern. In the past we relied upon personal donations and sponsored events to generate funds.</p> <p>The next phase of school development will require a significant amount of money to enable us to provide sufficient grant funding for buildings and other infrastructure associated with operational dormitories.</p> <p>The trustees are reviewing the Masterplan strategy and phasing following the extended impact of the Covid pandemic. We need to take the following into account</p> <ul style="list-style-type: none"> - The ability for trustees to visit Burundi and review progress - The economic impact on our UK donor base - How to continue improving educational outcomes for existing students whilst raising funds for the longer term development of the school
Investment performance against objectives	Para 1.41	See summary of achievements above

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	<p>The charity had funds of £19,942 at the end of the period. This represents an increase of £5,581 from the previous period which represents a slight drop in income from £7,201 from the previous period (see achievements above for further details).</p> <p>Expenditure and grant funding awards were decreased (from £3,767 in the previous period to £2,604 in the current period).</p> <p>The Trustees recognise that increased fundraising activity will be required to both maintain and grow the ability to grant funds to achieve our ambitions for improved infrastructure at Stand Up & Build Technical School in Muyinga.</p> <p>Although Geoff Herrington Foundation have funded a few more years of hardship, teaching and internet support for SBTs, this will eventually run out and require the school to be self-sustaining.</p> <p>Turnover and income levels do not justify the necessity for an independent audit of the accounts.</p>
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	The charity currently has no formal reserve policy as it is a grant making charity with very small fixed overheads. Therefore grants are only made when sufficient funds are available to do so. However as the charity intends to grow in size over the coming years, we will consider implementing a formal reserve policy as appropriate.
Amount of reserves held	Para 1.22	See above
Reasons for holding zero reserves	Para 1.22	See above
Details of fund materially in deficit	Para 1.24	N/a
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	The charity relies upon donations and a robust and auditable method for sending grant funding via the banking system for it to continue to function. There is no reason to believe that these factors will change materially over the foreseeable future, however the Trustees continue to review the risks and take actions accordingly.

The charity's principal sources of funds (including any fundraising)	Para 1.47	<p>Donations from Amahoro CIC</p> <p>Personal donations and sponsored events inspired by stories and updates from the school.</p> <p>Donations from Moordown St John's School in Bournemouth</p>
Investment policy and objectives including any social investment policy adopted	Para 1.46	See commentary above
A description of the principal risks facing the charity	Para 1.46	<p>Our principle risks are:</p> <ul style="list-style-type: none"> - Changes in key personnel (e.g. the Bishop of Musinga) reduce continuity and require the rebuilding of governance structures and networks. This takes time and is difficult due to the distance barriers - That the economic situation in the UK hamper our ability to operate effectively - That the security situation in Burundi and relationships with its neighbours increases the risk of travelling within the country - That the effective movement of funds between the UK banks and the destination bank in Musinga suffers from time delays and excessive conversion / banking fees - Potential civil unrest in Burundi due to changes in government - Risk of corruption due to the poverty levels in Burundi - The ability to raise sufficient funds to develop and support the school <p>The Trustees have continued to utilise virtual meeting methods and increased email to manage the above risks and maintain communication with the stakeholders in Musinga – a process that</p>

		<p>was initially prompted by the Covid pandemic</p> <p>We have not been able to visit to Muyinga since January / February 2020 due to the global pandemic, ensuing border controls and instability in the region.</p> <p>Trustees continue to review the situation and assess when it will be appropriate / safe to visit Muyinga in order to understand the current situation in region and review the financial controls being used by the team in Muyinga.</p> <p>During 2023/24 we have relied upon email and photograph reports to monitor progress and see how grant funding has been invested. We do not see this as a problem because our previous visits completely validated the email and photograph reports.</p>
