Trustee Annual Report

The Bring Hope Humanitarian Foundation, registered as an active charity in Sweden (HQ), provides much needed services and goods, in particular hygiene items, humanitarian aid, to the refugees and displaced people, as well as people in poverty across the world. We have focused our efforts on maintaining a steady supply from Europe and the UAE to regions in crisis, such as Africa, and Iraq.

Due to the COVID pandemic and other challenges, our opening account is delayed, hence still an active in the UK. We hope to do this in 2025.

The trustees fully support this strategic policy, and we look forward to opening an account, and becoming active, in the UK.

Yours Sincerely;
Dr Mariwan Baker, PhD

Founder and Chairman
