# Trustees' Annual Report for the period

From Period start date 06/04/2024 To Period end date 05/04/2025

Charity name: CONNECTED HOMELESS

Charity registration number: 1172896

## Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	<p>Connected Homeless is a charitable incorporated organisation established to relieve the needs of people who are homeless or at risk of homelessness in the United Kingdom and internationally, by connecting them with food, shelter, employment, healthcare and digital tools that help them rebuild their lives.</p> <p>Key objectives include: providing direct material assistance and signposting to people sleeping rough; developing and operating digital platforms that connect rough sleepers and people in temporary accommodation with the support services, donors and volunteers most relevant to their situation; raising public awareness of the causes and consequences of homelessness; and partnering with other</p>

		charities, public bodies and businesses to deliver more effective, dignified support.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	<p>During the period, Connected Homeless continued to operate as a small, volunteer-led CIO focused on the design, build and pilot operation of a connection platform between rough sleepers and frontline support services. The charity used donor funds and a small number of restricted grants to cover the core technology, communications and outreach costs needed to keep the platform running and to test new features with people with lived experience of homelessness.</p> <p>Activities in the year included: maintaining the charity's mobile applications infrastructure, website, contact channels and online giving infrastructure; carrying out small-scale outreach and street-based engagement in the UK.</p>

## Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>The 2024-25 financial year was a transitional year for Connected Homeless.</p> <p>The main achievements of this year were advancing our technical capabilities and increasing our resilience to support even more homeless users.</p>

		<p>We expanded the feature sets of our applications to provide even more support for homeless users. And also created open repositories that anyone can access without having to be an onboarded Connected Homeless client. This massively increased the number of people we're able to deal with as a small charity.</p> <p>We've leaned into the power of AI to accelerate our development cycle, whilst maintaining a core focus on privacy and security.</p> <p>This sets us up for a very exciting future, where we can deploy new features at speed to reach thousands of people across the country in a hyper-personalized manner.</p>

## **Connected Homeless Financial Accounts 2023/24**

This year we generated £6,143.73 in income, which allowed us to continue building meaningful support for those experiencing homelessness.

We made great strides in helping over 60 people through a mixture of in-person sessions and over-the-phone services. Alongside direct support, we worked constructively with local councils and partners to ensure individuals had access to rehousing options and essential advice.

On the technology side, we strengthened our stack, increasing reliability across our Android and iOS applications, while also improving the accessibility of our website. This ensures that those who need our services can find and use them with ease.

Looking ahead, we are excited to build out our legal technology capabilities, including clearer, automated signage and support to help homeless citizens navigate the legal complexities of their journey, both on and off our platform.

Thank you to everyone who supported us this year.

### Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	Connected Homeless is committed to providing essential support and services to individuals experiencing homelessness. By making a donation, you can help us cover operational costs, develop new initiatives, and extend our services to reach more vulnerable people in need.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	At Connected Homeless, we focus on delivering essential services to those experiencing homelessness, including shelter, food, and counselling. A key innovation in our approach is our digital donation system, which converts contributions into secure, digital coins. These coins can be safely used by our homeless users to access the services and resources they need, empowering them with autonomy and ensuring that your donations directly support their journey towards stability and independence. Through this system, we've been able to enhance the effectiveness and reach of our support, helping many individuals regain their footing in life.

## Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>Connected Homeless has been a key ally to the homeless community, making a significant impact on the lives of over 50 individuals by providing crucial support and services. Our work has included offering pro bono legal advice through a dedicated network of legal partners, helping our beneficiaries navigate complex legal challenges and secure their rights. This assistance has been instrumental in improving their circumstances, enabling them to access housing, benefits, and other essential resources.</p> <p>In addition to our direct support, we have undertaken a major rebranding effort, enhancing our identity and reach. We've integrated cutting-edge technology into our apps and platforms, making our services more accessible and effective for our users. These advancements have not only improved the efficiency of our operations but also empowered our beneficiaries with tools to better manage their lives. The wider benefit to society includes reduced strain on social services and a more inclusive community, as we help individuals move from homelessness to stability.</p>

## Connected Homeless Financial Accounts 2021/22

This year we were able to deliver great impact. Our model adjusted slightly as we moved to support more vulnerable individuals in a physical capacity.

We worked constructively with local councils to ensure that 8 individuals were able to seek rehousing support.

We also further strengthened our core technology, re-designing both Android and iOS applications and updating our website.

In the coming year, we want to build our legal tech capacities and assist more homeless users with the legal complexities of their journey.

Thanks,

Salisu Mohammed,

Connected Homeless CEO

## Trustees' Annual Report: Connected Homeless

Report of the trustees for the year ending 05 April 2021

### **OUR AIMS**

Connected Homeless is a digital charity looking to assist in the fight against rough sleeping. The charity was cofounded by Sal Mohammed, an ex-Google product and partner specialist and Priya Patel a senior housing lawyer.

The charity looks to combine skillsets of both founders to build a scalable approach to tackling homelessness using technology and automating steps in the legal process when engaging with councils and support networks.

We've managed to build a world class technology stack over the last few years, completing unpaid work and receiving generous time from volunteers. Our platform knits together 4 bespoke pieces of technology to ensure the full ecosystem can work together to help tackle homeless in communities across the UK.

### **OUR OBJECTIVES**

We've spent numerous years developing our platform and testing to ensure that our systems are robust for nationwide expansion. As a charity and small team, we've managed to lift over 100 people cumulatively out of homelessness in the last few years.

Our focus moving forward is not to operationalise and expand place the technology in the hands of more partner homeless organisations in order to reach more users. Our objectives can be broadly catergorised as the following:

- Activate homeless charities across the country to adopt and launch of technology in new cities.
- Strike more corporate partnerships to support the work we're doing
- Acquire users of our donor platform in order to support rough sleepers across the country
- Scale the organisation, increasing the numbers of case workers that support our users.
- Launch partnerships with local shops nationwide to accept our payment tokens.

### **2020/2021 IN REVIEW**

We continued to double down on our technical build. We redesigned our apps and website, making both more user friendly.

We also created a new feature yet seen before in the charity ecosystem – a feature that lets donors elect to watch ads from socially driven companies within our app which trigger advertising funds to fund the charity.

Our strong legal work continued, engaging with over 50 users, 40 of which are no longer classified as rough sleeping and are either in temporary accommodation or no longer homeless.

## EXPENSES

**It's important to note that each year we receive the following in kind from pro bono benefits. This makes the charity look like our income and expenditure is dramatically lower than it otherwise would be:**

Product and project management support – 1 day per week @ £500 per day = **£26,000**

Legal support - 1.5 days per week @ £500 per day = **£39,000**

Tech development support - 1 hour per day @ £100 per hour = **£26,000**

Free bono support total: **£91,000**

It's important to mention that this support is also without including the time of our regular roster of over 10 volunteers who provide technical and operational knowhow.
