

Childcare Ministries International (CCMI)

Trustees' Annual Report

Reporting Year: [Insert Year]

1. Introduction

The Trustees of Childcare Ministries International (CMI) are pleased to present the Annual Report for the year ending [Insert Date]. CMI continues to pursue its vision of supporting vulnerable children through practical assistance, educational support, and holistic empowerment. This year has seen significant growth in our outreach activities, made possible through compassionate partnerships, committed volunteers, and the generosity of our supporters.

2. Objectives and Activities

The primary objectives of Childcare Ministries International are to:

- Promote the welfare and well-being of vulnerable and marginalised children.
- Provide practical relief, including clothing, educational support, and essential items.
- Facilitate programs that develop emotional, social, and spiritual wellbeing.
- Build partnerships with schools, churches, and community organisations to expand impact.

During the reporting year, activities were aligned with the organisation's mission to rescue, nurture, and empower children across various communities.

3. Achievements and Performance

3.1 Clothing Support to Vulnerable Children in Zimbabwe

CMI facilitated the distribution of 1,000 pieces of donated clothing to vulnerable children across Zimbabwe. These donations played a crucial role in supporting children from low-income families, especially in rural and high-density communities, helping to restore dignity and meet basic needs.

3.2 School Uniform Support Through International Partnership

Through a partnership with St John on the Hill School in Chepstow, CMI received and distributed 154 sets of used school uniforms.

These uniforms were allocated to children who had been attending school without proper attire—removing social barriers and ensuring greater inclusion in the classroom environment.

This partnership reflects our expanding international network and shared commitment to child welfare.

3.3 Emotional Intelligence Workshop

A dedicated volunteer delivered an Emotional Intelligence (EI) Workshop to children and caregivers involved in our programs.

The workshop focused on:

- Understanding emotions
- Managing stress
- Building healthy relationships
- Developing self-awareness and empathy

Children reported improved confidence, communication skills, and emotional resilience. Caregivers expressed appreciation for the practical tools and insights shared.

4. Impact Summary

This year's initiatives contributed to:

- Enhanced dignity and comfort for children through clothing support.
- Improved school participation and confidence among beneficiaries who received uniforms.
- Strengthened emotional wellbeing, equipping young people with critical life skills.

CMI's work continues to transform lives by addressing both immediate needs and long-term developmental goals.
