Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

To protect and promote the health of people residing permanently or temporarily in the United Kingdom *who* are seriously or terminally ill by the provision of funds to charitable organisations dedicated to the ongoing care and wellbeing of such persons in the interests of social welfare with a view to improving their conditions of life.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

In planning activities, we kept in mind the Charity Commission's guidance on public benefit at our trustee meetings.

The Sunseeker London Charitable Trust (SLCT) carries out its purpose by supporting existing charities that meet the charitable objective. The board of trustees exercise their discretion when assessing formal applications from existing charities, considering which applicants best further the SLCT objectives giving the greatest public benefit and considering the effectiveness of the project.

The focus of our activities this year remains on supporting existing charities that share the same ethos to further the purpose of the SLCT.

SSLCT have ongoing monthly meetings with the Breast Cancer charity to help raise awareness of younger patients conducting regular self-examinations. We are in discussions and looking at funding a programme on how to bring a message to future patients to avoid late detection. 10-15 years ago, breast cancer was more commonly found in the 45 plus age group, however nowadays, patients from the age of 30 are receiving diagnoses and treatment. The need to raise awareness especially for younger women is critical and early detection through self-examinations is the most effective way.

The planned revival of a programme named 'Fabulous & Beautiful' at the Breast Cancer Charity to give patients confidence with focus on hair, beauty & exercise. We have learnt that exercise plays a key role in patient recovery both physically and mentally.

A Grant of £4,108.00 was awarded to the Starlight Children's Foundation. Towards the funding for proactively identifying to hospital in deprived areas and provide them with play resources to support in the region of 600 children in each.

After regular discussions with Teens Unite focusing upon a Respite Centre for Teenagers with Cancer, The planning applications for the Respite Centre has been approved by the Council and the team has moved in to prepare the centre ready for use. The improvement in accommodation for Teens Unite has allowed them to move from Broxbourne to a much more modern facility. Workshops are planned for the centre and it will be an amazing space for young people to attend.

Summary of the main achievements of the charity during the year

Trustees have continued to meet via video conferencing and in person with various existing registered charities to gain a better understanding of new and ongoing projects that will meet the object and charitable purpose of the SLCT.

The current economic climate continues to impact upon Charitable donations, it was therefore felt that the focus of the year should continue to be focused on awarding grants to those applicants that further the cause of the SLCT, along with non-financial help and advice/support.

During this financial year we have issued Grants totalling £4,108.00 to charities which further the purpose of SLCT.

We have received a number of enquiries from UK Charities requesting our support however many were found to not further the SLCT objectives.

The Teens Unite respite centre received council approval and its doors are now open.

Supporting existing charity events including Mid and South Essex Hospital Charity event, Kids Inspire Annual Gala by assisting with auction prizes.

The Breast Cancer Charity that the SLCT has supported is now implementing a new programme to provide information to patients which will assess the likelihood of the Cancer returning.

Projects of interest include;

- Granting wishes of a lifetime to brighten the lives of seriously and terminally ill children.
- Aftercare of cancer patients. Offering support and advice on image and dealing with the physical and mental after effects of cancer treatments.
- Contributing to the future success of the Autism centre based at Keele University to better understand the condition.

Formal applications will be made in the forthcoming year for consideration by the board.
