Charity Reg No: 11752340

**Trustees: Dr Ezekiel Alawale
Mr Dennis Ekagha
Mr Olumuyiwa Olubowale**

Governing Document

CMIPD is a charitable incorporated organisation registered with the Charity Commission: Charity No: 1175234. Its governing document is its constitution adopted on 05 July 2017.

Organisational Structure

The CIO trustees are responsible for the general control and management of the Charity. The trustees give their time freely and receive no remuneration or any other financial benefits. The trustees are actively involved in the projects of the Charity. Planning and decisions about projects are delegated to a planning committee.

Objectives and activities

The object of the CIO is:

The relief of sickness and the preservation and protection of good health for the public benefit in developing countries in particular but not limited to the training of medical practitioners working in developing countries.

Achievement and performance

During the year in review CMIPD was unable to carry out its activities owing to the lockdown restrictions in relation to Covid 19. However, the charity maintained contacts with medical establishments in Nigeria, offering support wherever required. Donated medical items, worth over £200,000 were shipped to Nigeria during the year.

Public Benefit

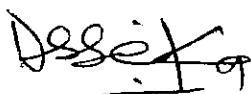

CMIPD's activities have been of benefit to the public in furtherance of the objectives of the organisation. Medical staff and leadership of hospitals are being exposed to current developments in healthcare. This continues to translate to better experiences for patients who enjoy quality healthcare delivery. The engagement of CMIPD is at no cost to the host hospital. The services of CMIPD were rendered completely free.

Funding

A total donation of £2000 was received from members of the organisation. Members of the organisation are self-funding.

Future Developments

The charity will embark on a cervical screening project in Nigeria. Kits for the screening have been donated to the charity. These will be shipped to Nigeria and interested organisations will be invited to set up projects in various parts of the country. CMPID will train and support local medical personnel in the use of the kits.

Dennis Ekagha
Trustee.
