

BENN SMITH FOUNDATION REPORTS FOR 2025/2026

The year in question has been the least active in the foundations history, due partly to some personal family issues that have overtaken our work with the foundation. In this next year we have got plans for fundraising events that include musical showcases with fundraising taking place, donated prizes that can be raffled, blind cards etc. As well as this there will be sponsored events, running, walking etc.

We are really hoping that the next year will see a significant increase in income for the Foundation allowing the Benn Smith Foundation to fulfil its remit in donating anything mainly music related to those that shown a real potential in this field but have been held back by lack of financial security. The Benn Smith Foundation will look at all relevant cases music related or not and if it deems it to be a worthy cause will help as best it can.
