Report of the Trustees and
Unaudited Financial Statements For The Year Ended
30th April, 2025

The trustees present their report with the financial statements of the charity for the year ended 30th April, 2025. The trustees have adopted the provisions of the Statement of Recommended Practice (SORP) 'Accounting and Reporting by Charities' issued in July 2014.

STRUCTURE GOVERNANCE AND MANAGEMENT

Description of the charity's trusts

Governing document: Trust deed
The charity is a trust
Trustee selection is by appointment

OBJECTIVES AND ACTIVITIES

The Charity's objects are:

The prevention of poverty

The relief of poverty

We are committed to the relief of sickness and preserve the health of persons living in Nigeria and people from Nigeria living in the U.K. by training and empowering medical professionals through continuous professional and personal development programmes. We also transport medical equipment and books to universities in Nigeria.

We provide access for Nigerian doctors' 2nd opinion opportunities.

ACHIEVEMENTS AND PERFORMANCE FOR THE PUBLIC BENEFIT

Ongoing Twice weekly Exercise and Wellbeing programme for 50 years and over BAME female in South London.

These group of 40 women exercise and stretch for 1.5 hours, facilitated by a qualified fitness instructor. Once a week we have a dietitian and nutritionist talk to us about how to cook our African and traditional meals healthily.

We conducted a 1-day advanced life support training for 50 Medical practitioners in Lagos on the 29th of October 2024 and Two days First Aid training for 100 university undergraduates from 20 states of Nigeria. Delegates were transported from their various locations and accommodated and fed by Naijaid. Each was given first aid kits, training materials, and certificates.

Event Title: Successful one-day Intermediate Life Support Training (ILS) for Healthcare Practitioners and two days First Aid Training for University Undergraduates.

Date:

29th of October 2024 (ILS training for Healthcare practitioners)

30th – 31st of October 2024 (First Aid Training for Undergraduate/Secondary School Students from across Nigeria)

1. Introduction

This report outlines the successful execution of a one-day Intermediate Life Support (ILS) training for healthcare practitioners and a two-day First Aid training for undergraduate students from various universities across Nigeria, held in Lagos State. The event aimed to enhance the life-saving skills of healthcare professionals and students in alignment with national health objectives and response to the growing need for first responders in emergencies.

2. Event Overview

The training sessions were conducted from the 29th of October to the 31st of November 2024, attracting 150 participants. This included 60 trained healthcare practitioners and 90 undergraduate students. The presence of notable dignitaries graced the program:

Commissioner for Youth and Social Development, Lagos State, Mobolaji Ogunlende

Permanent Secretary, Ministry of Health, Lagos State, Dr Olusegun Ogboye

We invited two student representatives through the university authorities to attend. Naijaid paid for their transportation from their various states to Lagos state and back. They were accommodated and fed for four days, arriving a day before the training and leaving the day after. Naijaid felt paying for these costs for the students to attend this vital training was essential.

Healthcare practitioners were invited from across the country. However, because of the high cost of transportation and accommodation, only those living in Lagos state were able to attend. We hope to get sponsorship for this next year.

3. Objectives of the Training

To equip healthcare practitioners with essential intermediate life support skills to enhance emergency patient care.

To train undergraduate students in basic first aid to develop their confidence and capability as first responders.

To promote health awareness and community resilience by spreading knowledge of emergency management

Two days First Aid Training for Undergraduate Student Representatives

Recognising the importance of equipping youth with emergency response skills, this initiative targeted university students from diverse backgrounds across Nigeria, helping them develop essential first-aid skills they can apply in daily life and emergencies. With the increasing incidence of accidents and health-related emergencies among teenagers, this initiative is vital for fostering a culture of preparedness and safety within schools and communities

The training equipped participants with lifesaving skills such as:

To train undergraduate students in basic first aid to develop their confidence and capability as first responders.

To promote health awareness and community resilience by spreading knowledge of emergency management

Understanding how to improve safety and the prevention of injuries.

Helping to save lives by providing comfort to the victim of injuries.

Offering the affected persons immediate support to relieve pain.

Preventing the worsening of a critical situation, for example, application of bystander CPR (cardiopulmonary resuscitation). Before the attendance of a healthcare professional

These skills can then be passed on to others in schools, homes, communities, and the general population.

4. Program Structure

Intermediate Life Support Training

Hosted over one day, this program covered essential ILS techniques, including:

- Advanced airway management
- Cardiopulmonary resuscitation (CPR) techniques
- Recognition and management of life-threatening conditions
- Introduction of Early Warning Scoring System

First Aid Training for Undergraduates

Conducted over two days, this training included:

- Basic CPR and AED (Automated External Defibrillator) use
- Wound care and bandaging techniques
- Management of sprain, strain fractures and dislocations
- Application of shoulder slings
- Managing common medical emergencies, including choking and allergic reactions

5. Key Highlights

Engagement and Participation

The event witnessed remarkable participation, with active involvement from attendees through hands-on sessions and scenario-based training exercises.

All the students were given a first aid kit, CPR mask, and other training materials. About ten students won over N150,000 (one hundred and fifty thousand Naira), which N20,000 was donated by the Commissioner for Youth and Social Development, Lagos State, Mobolaji Ogunlende. Others won ten power banks and five wireless chargers for getting questions right. This was to engage and encourage participation.

Support from Dignitaries:

The Commissioner for Youth Development and the Permanent Secretary of the Ministry of Health addressed participants, emphasising the importance of community health engagement and supporting health education initiatives.

Expert Instruction:

Sessions were led by certified trainers with extensive experience in emergency medicine and health training, ensuring that participants received high-quality training.

6. Outcomes and Feedback

Skills Acquisition:

Participants expressed increased confidence in their ability to respond to emergencies, with positive feedback on the interactive components of the training.

Networking Opportunities:

The event facilitated networking among healthcare professionals and students, fostering collaborations in community health initiatives.

Future Recommendations:

Feedback indicated a desire for advanced training sessions and regular refresher courses to maintain skill competency.

7. Conclusion

The successful execution of the Intermediate Life Support training for healthcare practitioners and First Aid training for university students marks a significant step towards improving emergency response capabilities in Nigeria. The collaboration between healthcare professionals and the youth demonstrates the commitment to building a resilient health community.

We recommend continued support from government entities and stakeholders to sustain and expand these training initiatives, further enhancing the nation's preparedness for health emergencies.

8. Acknowledgements

We want to thank the Commissioner for Youth Development, the Permanent Secretary of the Ministry of Health, our partner organisations, trainers, and all participants for their invaluable contributions to the success of this event.

RISK MANAGEMENT

The Trustees have conducted a review of the major risks which the Charity is exposed. A risk register has been established which identifies the major risks by area of activity, the nature of those risks, the likelihood of the risks happening and the measure taken to manage them. The Trustees review the risk register regularly at their meetings and are satisfied that systems are in place to manage the risks that have been identified. In particular, insurance cover is in place and the finances of the Charity are kept under review.

The trustees declare that they have approved the trustees' report above.

Signed on behalf of the charity's trustees

Approved by order of the board of trustees on the 11th February 2025, and signed on its behalf by

OLANREWAJU NEHAN-BABALOLA

**Independent Examiner's Report
To the Trustees**

I report on the accounts for the year ended 30th April, 2025 set out on pages five to ten.

Respective responsibilities of trustees and examiner

The charity's trustees are responsible for the preparation of the accounts. The charity's trustees consider that an audit is not required for this year (under Section 144(2) of the Charities Act 2011 (the 2011 Act)) and that an independent examination is required. The charity's gross income does not exceed £250,000 and I am qualified to undertake the examination by being a qualified member of ACCA.

It is my responsibility to:

examine the accounts under Section 145 of the 2011 Act to follow the procedures laid down in the General Directions given by the Charity Commission (under Section 145(5)(b) of the 2011 Act); and to state whether particular matters have come to my attention.

Basis of the independent examiner's report

My examination was carried out in accordance with the General Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statements below.

Independent examiner's statement

In connection with my examination, no matter has come to my attention:

1) which gives me reasonable cause to believe that, in any material respect, the requirements which accord with the accounting records and to comply with the accounting requirements of the 2011 Act have not been met; or

2) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

Notes to the Financial Statements for the year ended 30 April 2025

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities

(effective January 2015), the Charities Act 2011 and the requirements of the Statement of Recommended Practice, Accounting and Reporting by Charities (issued July 2014)

Incoming resources

All incoming resources are included on the Statement of Financial Activities when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy.

Resources expended

Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

Grants offered subject to conditions which have not been met at the year end date are noted as a commitment but not accrued as expenditure.

Tangible fixed assets

Taxation

The charity is exempt from tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees for the charity.
