Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

To prevent cardiac death of young people (aged 14-35) in the South West of England (Cornwall, Devon, Somerset and Dorset). In particular but not exclusively by presentations in schools, businesses and sports clubs that raise awareness of cardiac risk and cardiac screening, as well as the saving of lives through the provision of emergency lifesaving equipment and lifesaving training.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

Community CPR and AED training.

The charity visits, communities, primary schools, secondary schools, universities and sports clubs and tailors its sessions to meet the needs of a large variety of age groups. The charity's basic CPR/AED session lasts for 60 minutes and can train up to 35 people at one time using individual manikins. The charity explains how a defibrillator works and uses its training defibrillator to role play a life-like situation of someone having a cardiac arrest. The charity also provides information about the charity and cardiac issues affecting young people at the sessions.

Provision of Public Access Defibrillators in places of need.

The charity provides public access defibrillators in places of need together with appropriate signage. This can be local sports clubs, busy locations, and schools for example. The charity tries to ensure that all defibrillators are available to any member of the public 24/7 where possible. It also ensures that all the defibrillators are registered with the South West Ambulance Foundation Trust (now 'The Circuit' administered by the BHF) so that people are directed to them when phoning 999 in an emergency.

Promotion of heart screening in young people.

The charity informs young people about the risks of sudden cardiac death and encourages them to attend heart screening events run by the charity Cardiac Risk in the Young (CRY). The charity's website has a link to CRY's registration page and it actively promotes upcoming screening events being held in the South West. The charity also aims to fund some of these screening sessions.

In setting their objectives the trustees have given careful consideration to the Charity commission's guidance on public benefit.
