 Standard Operating Procedure for New Appointments (January 2022)  
 TALK Research Committee Terms of reference (March 2020)  
 TALK Foundation Constitution (2016)  
 Volunteer management policy (March 2020)

Organisational chart (Organigrama)

### Summary of the objects of the charity set out in its governing document

For the public benefit to advance the education of clinical teams in patient safety in such ways as the charity trustees think fit.

Our Vision, Mission and Values focus on maximising the opportunity for healthcare improvement, patient safety and staff wellbeing through the use of TALK, empowering a culture of patient safety through the education of clinical teams ethically, inclusively and positively.

Meetings of the Board of Trustees have been held at least quarterly and minutes are available on request.

### Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The TALK Foundation has continued the activities undertaken as part of the TALK Research and Innovation Staff Exchange grant provided by the European Commission through the Horizon 2020 programme, Marie Skłodowska-Curie Actions, which funded a 3 year project on the use of the TALK framework for clinical debriefing under grant agreement ID: 734753. The grant project has been completed and the TALK Foundation has continued the work. The activities have included:

- Development of freely downloadable training materials (<https://www.talkdebrief.org/startingtotalk> )
- International diffusion of TALK concept (Implemented in the UK, Spain, Norway, Denmark, Netherlands, Germany, France, Portugal, Australia, Chile, Singapore, USA, Mexico and Argentina)
- Networking at a national and international level. As a consequence, a strategy advisory board has been developed.
- Formalising collaboration and data-sharing

The TALK Foundation webpage is kept up to date <https://www.talkdebrief.org/talk-foundation> and the TALK Foundation bank account is managed through CAF Bank.

Trustees are aware of the Section 17(5) of the Charities Act and the Charities (Accounts and Reports) Regulations 2008 and this has been considered when planning the charity's activities. Whilst it is recognised that the TALK tool is a commercially viable product, the aim of the Foundation is to ensure that any surplus is used for public rather than personal benefit.

**Additional details of objectives and activities (Optional information)**

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

The emphasis has been on building a solid framework for the CIO, both with regard to organisational / legal guidance and volunteer workforce development.

The TALK Foundation is the legacy to the TALK Research and Innovation Staff Exchange grant provided by the European Commission through the Horizon 2020 programme. This Marie Skłodowska-Curie Actions grant is funding a 3 year project on the use of the TALK framework for clinical debriefing under grant agreement ID: 734753. All materials and international network generated as outcomes of this work were passed on to the TALK Foundation at the end of the grant project, which was completed at the end of February 2022. The Foundation become fully independent of the grant in February 2022.

There has been significant and ongoing work in this report year to develop teaching courses in English and Spanish and to widen the International use of the TALK tool in clinical practice.

**Summary of the main achievements of the charity during the year**

The Charity has focused on further defining the key services and activities offered by the Foundation and continued development of the resources to support these services and activities.

The TALK RISE project was completed in February 2022. Since then, during this financial year, there has been an emphasis on international promotion of the Foundation, coinciding with the RISE phase of international dissemination.

The outcome of this dissemination has revealed the need to accelerate our infrastructural development, which has resulted in the further development of committees and divisions as well as the introduction of non voting members categories. (See details in organisation chart, section B).

Previous achievements included development and review of Foundation documentation, as well as policies and procedures, as listed in Section B.

During this financial year, we continued the work as detailed in the business plan (April 2021– March 2024) and made significant advances to the development of courses, to ensure the financial viability of the charity. The Fundraising Policy has been implemented.

There has been further development of the TALK website and memberships. Branding of the materials has been developed and implemented to ensure consistency in appearance of the materials.

There has been significant course development and initiation of a course management system - this includes educational materials / local training sessions for TALK, as well as an instructor guide. Many of the publications have been translated into Spanish.

There have been a number of international collaborations explored by the affiliations and research committees.

## Section E

## Financial review

### Brief statement of the charity's policy on reserves

The TALK Foundation does not currently have a policy on reserves. The charity is starting to raise initial funds for its activity. Development of a reserve policy will be a point for future action.

All reserves would be used to strengthen the financial basis of the charity in line with its stated objectives.

### Details of any funds materially in deficit

None

### Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Current / potential sources of income:

- Donations
- Memberships
- Income from educational courses pertaining to the TALK clinical debriefing tool, from interested healthcare institutions.
- Grants applied for, from NGOs and specific philanthropic organisations with an interest in funding healthcare and patient safety (none received yet).
