Structure, Governance & Management

Structure and governing document

Structure : Charitable Incorporated Organisation
 Governing document : Constitution

Appointment of trustees

Trustees are appointed by a resolution passed at a meeting of the charity trustees. There must be at least three trustees, all of whom must be natural persons aged 16 or more.

Objects and Activities

Object of the charity

The object of the CIO is to advance the education of primary school children who have special educational needs ("SEN") that are not separately or fully addressed by the children's school(s).

Activities of the charity

The charity achieves its object by providing grants to help fund qualified specialist tuition for SEN children whose parent(s) or other responsible adult(s) could not otherwise afford the fees. The charity's policy is to require a contribution from the parent(s) / responsible adult(s). The charity also funds group sessions for SEN children from local schools.

The charity has an arrangement with Emerson House LLP ("EH"), a special needs learning centre, whereby EH has committed, regardless of demand for places from elsewhere, to provide at least two places each term to children funded by the Charity and to give a 20% discount on the fees for such places.

Notwithstanding this, the Charity is open to funding places at other special needs schools where appropriate and/or more cost-effective.

Achievements during the year

The charity continues to fund "Catch up Clubs", where small groups of children from a local school who are behind in either literacy and/or mathematics attend Emerson House one afternoon a week during term time. The Trustees believe these clubs have been very successful and consider them very good value for money.

Public benefit

The trustees confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the charity's objects and policies in respect of the making of grants.

The trustees agreed on a series of actions and policies in order to ensure public benefit in the disbursement of the initial funds available to the charity, including:

- agreeing a process for identifying suitable pupils for support and for applying financial means-testing of the pupil's family or alternative sources of support;
- giving guidance to parents and other applicants for support towards obtaining state support for their child's special needs;
- ensuring that the charity follows best practice in critical areas including safeguarding and privacy;
- deciding to identify and approach a primary school local to EH with the intention of establishing a partnership arrangement with the school to provide funding of groups of pupils in touch typing and/or literacy tuition;
- negotiating with EH of a further significantly discounted rate for its teaching services for the specialist tutoring of individual or groups of pupils;
- agreeing to seek a longer term programme of funding for the charity once it had established a track record in the individual pupil and local school partnership programmes.
